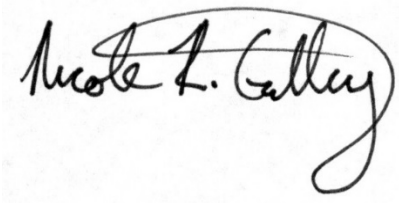
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 31 political subdivisions required to file a financial report by January 31, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in January 2022, after their filing deadline. The filing status for these 43 entities is presented in summary on page 3 and by individual entity in Appendix B-D.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 31 political subdivisions, other than cities, towns, and villages, with a fiscal year end of July 31, 2021. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 31 political subdivisions, 26 filed an annual financial report timely.

This report also includes the filing status for 43 political subdivisions, other than cities, towns, and villages, that filed their financial report in January 2022, after their filing deadline.

A Status of Cities, Towns, and Villages Required to File Annual Financial Reports - Reports Due October 31, 2021 Filed in January 2022 4

B Status of Cities, Towns, and Villages Required to File Annual Financial Reports - Reports Due December 31, 2021 Filed in January 2022 5

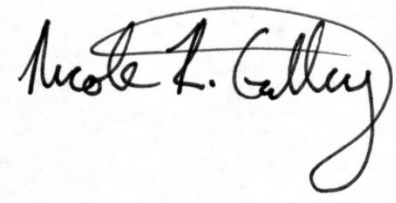
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by January 31, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180. No cities, towns, or villages had a fiscal year end of July 31, 2021; therefore, no financial reports, addendums, or certifications were due by January 31, 2022.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in January 2022, after their filing deadline. The filing status for these 33 cities, 2 towns, and 4 villages is presented in summary on pages 3-4 and by individual entity in Appendixes A to B.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

No cities, towns, or villages had a fiscal year end of July 31, 2021; therefore no financial reports, addendums, or certifications were due by January 31, 2022.

This report includes the filing status for 33 cities, 2 towns, and 4 villages that filed at least one of the items (financial report, addendum, or certification) in January 2022, after their filing deadline. Of these municipalities, 25 filed an annual financial report, 18 filed an addendum, and 7 filed a certification.

CITIZENS SUMMARY

Compilation of 2021 Criminal Activity Forfeiture Act Seizures

Background	State law requires prosecuting attorneys and the Attorney General to report seizures made under the Criminal Activity Forfeiture Act (CAFA) to the State Auditor and the Director of the Department of Public Safety.
CAFA Seizure Reports Submitted	The State Auditor's Office received 116 CAFA seizure reports from prosecuting attorneys and the Attorney General for property seized during the 2021 calendar year. State law states intentional or knowing failure to comply with reporting requirements shall constitute a class A misdemeanor.
Disposition of the Seizures Reported	The overall dollar value for property seized in 2021 was $5,353,274. Of that total, $259,985 was returned, $1,815,915 was transferred to a federal agency, and $101,322 was transferred to the state. The disposition for $2,539,831 was pending at the time of reporting, $631,050 was other types of dispositions, and no disposition was reported for $5,171. The dispositions reported by each prosecuting attorney and the Attorney General are included in a report appendix.
Reporting of Seizures Information	State law states prosecuting attorneys and the Attorney General are to report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions.

Because of the nature of this compilation, no rating is provided.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

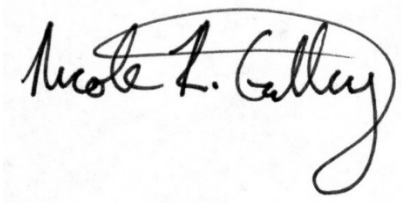
As required by Section 513.607, RSMo, we have compiled the 2021 Criminal Activity Forfeiture Act (CAFA) seizure reports submitted to the State Auditor by prosecuting attorneys and the Attorney General. The compilation is limited to information submitted to the State Auditor's Office. We have not audited the reports submitted and, accordingly, do not express an opinion or any other form of assurance on them. The primary objectives of this compilation were to:

1. Compile the 2021 CAFA seizure information reported.

2. Identify officials who submitted 2021 CAFA seizure reports to the State Auditor.

Section 513.607, RSMo, requires prosecuting attorneys and the Attorney General to report CAFA seizures for the previous calendar year by January 31, to both the Director of the Department of Public Safety and the State Auditor. Of the 116 potential reporting officials, we received reports from each official.

Compliance with Section 513.653, RSMo, which requires law enforcement agencies involved in using the federal forfeiture system to submit reports regarding federal seizures and the proceeds therefrom to the State Auditor's Office, will be separately reported.



Nicole R. Galloway, CPA
State Auditor

Compilation of 2021 Criminal Activity Forfeiture Act Seizures Executive Summary

CAFA Seizure Reports Submitted

The State Auditor received 116 of the total possible 116 Criminal Activity Forfeiture Act (CAFA) seizure reports from prosecuting attorneys and the Attorney General for property seized during calendar year 2021.

Section 513.607.10, RSMo, states intentional or knowing failure to comply with any reporting requirement shall be a class A misdemeanor punishable by a fine of up to $1,000.

Disposition of the Seizures Reported

We compiled the disposition of seizures as reported by prosecuting attorneys and the Attorney General for property seized during calendar year 2021. The following table lists the overall dollar value of the dispositions by category as reported to the State Auditor for 2021, 2020, and 2019.

Reported Disposition	2021		2020		2019	
Pending	$ 2,539,831	47.4 %	$ 1,976,806	47.2 %	$ 2,360,882	39.9 %
Returned	259,985	4.9	449,926	10.7	755,664	12.8
Transferred to Federal Agency	1,815,915	33.9	1,626,927	38.8	2,661,582	45.0
Transferred to State	101,322	1.9	28,437	0.7	73,851	1.2
Other	631,050	11.8	60,586	1.5	59,480	1.0
Disposition Not Reported	5,171	0.1	48,003	1.1	3,508	0.1
Total	$ 5,353,274	100.0 %	$ 4,190,685	100.0 %	$ 5,914,967	100.0 %

See Appendix I for the 2021 CAFA seizures disposition as reported by each prosecuting attorney and the Attorney General.

Reporting of Seizures Information

Section 513.607.8, RSMo, states prosecuting attorneys and the Attorney General are to report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions. See Appendix II for the number of 2021 CAFA seizures reported with this information.

City of St. Louis
Community and Economic Development Offices

Report No. 2022-010

February 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Community and Economic Development Offices

St. Louis Development Corporation	Procedures for receipting, recording, transmitting, and depositing receipts by various Saint Louis Development Corporation (SLDC) departments need improvement. Finance Department personnel have not periodically conducted a competitive selection process for the management of Land Clearance for Redevelopment Authority (LCRA) owned parking facilities. SLDC policies for Land Reutilization Authority land sale pricing are outdated. The SLDC does not have pricing policies for the sale of LCRA owned property and Real Estate Department personnel do not always obtain appraisals or other support for the value of property to be sold.
Community Development Administration	Community Development Administration (CDA) personnel did not always log payments and transmit receipts timely and intact and did not reconcile receipt logs to transmittals. The CDA's monitoring of Community Development Block Grant subrecipients needs improvement.
Electronic Communication Policy	The City of St. Louis Community and Economic Development Offices have not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Good**.*

All reports are available on our website: auditor.mo.gov

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Affordable Housing Commission
and
Executive Director of Community Development Administration
and
Director of Planning and Urban Design Agency
and
Economic Development Tax Board
and
Land Clearance for Redevelopment Authority
and
Land Reutilization Authority
and
Port Authority Commission
and
St. Louis Development Corporation
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Community and Economic Development Offices in fulfilment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The City of St. Louis engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the City's financial statements for the year ended June 30, 2019. To minimize duplication of effort, we reviewed the CPA firm's report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the offices' internal controls over significant management and financial functions.

2. Evaluate the offices' compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the offices, as well as certain external parties; and testing selected transactions using haphazard and judgmental selection, as appropriate, but the results of our tests cannot be projected to the population of all transactions of each community and economic development office. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to

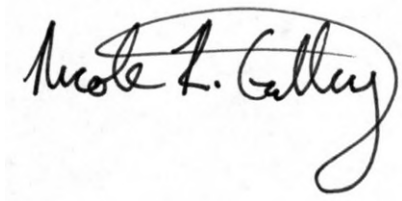
address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Community and Economic Development Offices' management and was not subjected to the procedures applied in our audit of the offices.

For the areas audited, we identified (1) deficiencies in internal controls, (2) non-compliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Community and Economic Development Offices.

We previously issued the following reports over selected economic development functions of the city: *City of St. Louis - Local Taxing Districts*, issued November 2019, report number 2019-114 and *City of St. Louis - Tax Increment Financing*, issued September 2020, report number 2020-076. Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.



Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Community and Economic Development Offices
Management Advisory Report - State Auditor's Findings

1. Saint Louis Development Corporation

The Saint Louis Development Corporation's (SLDC) controls and procedures for managing Land Reutilization Authority (LRA) and Land Clearance for Redevelopment Authority (LCRA) receipts, procurement, and property sales need improvement.

The SLDC's Real Estate Department facilitates real estate development throughout the city. Properties are acquired in the name of the LRA, LCRA, and the Planned Industrial Expansion Authority. The Real Estate Department manages, maintains, markets, and sells these agency-owned buildings and property. As of February 2020, the department was responsible for approximately 11,000 parcels of land.

The SLDC's Development Incentive Department facilitates the expansion and retention of businesses of all sizes in the City of St. Louis through review of development proposals that include requests for public assistance in the form of tax abatements or tax-exempt revenue bonds on behalf of the LCRA.

The SLDC's Finance Department handles all financial functions for the SLDC and the economic development authorities it represents.

1.1 Receipting, recording, and transmitting/depositing procedures

Procedures for receipting, recording, transmitting, and depositing receipts by various departments within the SLDC need improvement.

Real Estate Department receipting

Real Estate Department personnel do not issue prenumbered receipt slips for all money received, account for the numerical sequence of receipt slips issued, ensure checks and money orders are restrictively endorsed upon receipt, or always transmit receipts timely and intact.

- Our review of the LRA revenue report logs for July 2018, noted department personnel did not issue prenumbered receipt slips for 11 cash and/or check payments totaling $108,795. Department personnel indicated prenumbered receipt slips are required to be issued for all cash and checks received.

- Receipt slips are not issued in numerical sequence. We reviewed the receipt slip sequence for all receipt slips issued in fiscal year 2019 and noted 244 of the 1,700 receipt slip numbers were not accounted for. Neither Real Estate nor Finance Department personnel could account for any of the missing receipt slips. Real Estate Department personnel indicated some of the missing receipt slips may have been voided but not retained.

- Our review of revenue report logs identified 9 receipts totaling $8,420 received between July 1, 2018, and July 6, 2018, that were not recorded on the log and transmitted to the Finance Department until July 20, 2018. In addition, we noted 5 receipts totaling $2,343 received between July 12, 2018, and July 31, 2018, that were not recorded on the log and transmitted to the Finance Department until August 17, 2018. Department personnel indicated that a supervisory review of the revenue report logs is conducted prior to each transmittal to ensure all money received has been recorded properly and transmitted timely. However, this review did not detect the errors noted.

Real Estate Department recording

Department personnel have not established adequate procedures to ensure all money collected is credited to the proper economic development authority. We reviewed 4 of the 11 LCRA land sales that occurred during the fiscal year ended June 30, 2019, and identified the following issues:

- Receipt slips issued for application fees received for 3 of the 4 properties indicated the fees were for the LRA rather than LCRA properties.

- The application fees collected for all 4 properties were improperly recorded on the LRA revenue report log and transmitted for deposit into a LRA bank account.

- Sales revenue received for 3 of the 4 properties, totaling $18,600, was also recorded on the LRA revenue report log and transmitted for deposit into a LRA bank account instead of a LCRA bank account.

Department personnel could not provide an explanation for why these revenues were recorded incorrectly.

Development Incentive Department

Development Incentive Department personnel do not issue receipt slips or log tax abatement application fees collected and do not restrictively endorse checks and money orders upon receipt. Department personnel indicated they did not think receipt slips were necessary since these application fees are transmitted to the Finance Department at the time of receipt. Without immediately receipting or logging these fees and reconciling these records to the amount transmitted, there is no assurance all application fees collected are subsequently transmitted to the Finance Department for further processing.

Finance Department

Finance Department personnel do not record money received upon receipt and deposits are not always timely. Department personnel receive payments for LCRA parking revenues and sale proceeds and application fees transmitted from other departments and typically prepare deposits for amounts transmitted and/or collected within 14 days of receipt. At the time the deposits are prepared, department personnel separate money collected by the revenue type and bank account it is to be deposited in, record the amounts

on the Finance Department's receipt log, and prepare a deposit slip for each bank deposit. Department personnel indicated they did not believe it was necessary to record money received upon receipt since an email was sent by the department each time a transmittal was made, these fees are kept in a locked drawer in the Finance Department prior to being deposited, and deposits are prepared as staff have time due to the limited size of the department.

Conclusion

Failure to implement adequate receipting, recording, and transmitting/depositing procedures increases the risk that loss, theft, or misuse of money and errors will go undetected. By not logging payments received immediately upon receipt or issuing prenumbered receipt slips and not properly accounting for all receipts, there is no way to ensure that all payments received are ultimately transmitted/deposited. In addition, failure to restrictively endorse checks and money orders immediately upon receipt increases the risk of misuse of money.

1.2 Procurement procedures

Finance Department personnel have not periodically conducted a competitive selection process for the management of LCRA owned parking facilities. Following the end of the 5 year contract first entered into in 1983, LCRA officials decided not to solicit proposals for management of these parking facilities and instead chose to continue using the current management company on a month-to-month basis until either party decided to cancel the agreement. Neither the SLDC, nor the LCRA, have solicited proposals for the management of these parking facilities since the establishment of the initial contract in 1983.

Formal procurement procedures would provide a framework for economical management of resources of the LCRA and would help ensure the office receives fair value in its contracts, as well as, helping give all participants an equal opportunity to participate in the business of the LCRA.

1.3 LRA land sale policies

SLDC policies for LRA land sale pricing are outdated. In 2011, the SLDC Real Estate Department established standard sales prices based on square footage and neighborhood location for LRA owned properties.[1] The LRA established the standard sales prices based on an analysis of land sales prior to 2011 and has not updated these prices since 2011. Department personnel could not provide an explanation for why this price list had not been updated since 2011. Periodically updating the standard price list is necessary to ensure the price the LRA receives for land is reasonable or represents the fair value of the property.

[1] Occupied residential buildings, buildings suitable for occupancy, and large buildings that may be priced based on an appraisal are exempt from the pricing policies.

1.4 LCRA land sale policies and procedures

The SLDC does not have pricing policies for the sale of LCRA owned property and Real Estate Department personnel do not always obtain appraisals or other support for the value of property to be sold. None of the four property sales reviewed had appraisals associated with them. SLDC personnel indicated they use the assessed value as a guideline when pricing properties. However, they are not required to set the assessed value as the minimum sales price. For one of the four LCRA property sales reviewed, the SLDC received less than the assessed value and did not retain adequate documentation to support why the lower sales price was accepted.

Pricing policies and sufficient documentation to support the prices received are necessary to prevent lost revenue. Good business practice requires real estate purchases be formally and independently appraised to ensure a reasonable price is received.

Similar condition previously reported

A similar condition to section 1.3 was noted in our prior audit report. In the *Follow-up Report on Audit Findings City of St. Louis - Community and Economic Development Offices*, Report No. 2018-108, released in October 2018, LRA officials indicated MAR 1.3 had been implemented; however we found that corrective action taken was not always effective and problems continue to exist.

Recommendations

The SLDC work with the LRA and LCRA to:

1.1 Develop procedures to ensure receipt slips are issued for all money received or receipts are logged immediately upon receipt, the numerical sequence of receipt slips issued or voided are properly accounted for, checks and money orders are restrictively endorsed immediately upon receipt, receipts are transmitted/deposited intact and timely, and receipts are credited to and deposited on behalf of the proper economic development authority.

1.2 Periodically solicit competitive proposals for contracts.

1.3 Periodically update LRA's standard price list to ensure prices reflect the fair value of the property.

1.4 Develop a pricing policy for the sale of LCRA property and retain documentation to support sale prices.

Auditee's Response

1.1 The Real Estate Department has established a point person for charting and recording fees received for all LRA real estate transactions. Prenumbered receipts are used for each transaction. All receipts are accounted for. LCRA property sale transactions are now accounted for separately from LRA transactions; they are also receipted and transmitted to the Finance Department and are clearly

identified as belonging to LCRA. We have purchased new "for deposit only" stamps for LRA, LCRA and SLDC. The stamps are used to restrictively endorse all incoming checks. These stamps now reside in the Real Estate, Development Incentive, and Finance Departments. The Finance Department will continue to lock up undeposited checks and will make physical bank deposits on a bi-weekly basis or sooner.

1.2 SLDC staff will meet in the first quarter of 2022 to discuss the issuance of an RFP for parking operators.

1.3 SLDC staff are presently working with the City Assessor's Office to incorporate more recent data into its standard pricing policy. The updated pricing policy, when adopted by the LRA Commission, will be put into effect to more accurately reflect the present market environment.

1.4 SLDC staff do not generally obtain professional appraisals when selling LCRA properties. We use the assessed value as a basis, subject to consideration for age, end use, offerors' plans and budget and condition of property. Regarding the LCRA property sold for less than the assessed value, following the LCRA's purchase of this property, it was subdivided and partially used for public improvements. The remaining property was irregular and not suitable for development and was sold to a neighborhood garden group for a community garden.

2. Community Development Administration

The Community Development Administration's (CDA) procedures for receipting money and monitoring Community Development Block Grants (CDBG) need improvement. The CDA is primarily responsible for the administration of federal funds for housing projects and community and economic development programs. The amount of funds allocated to various CDA programs is approved by city ordinance on a calendar year basis.

2.1 Receipting and transmittals

CDA personnel did not always log payments and transmit receipts timely and intact and did not reconcile receipt logs to transmittals.

The Housing Program secretary is responsible for receiving and logging all closing fees, loan payments, and recording fees received on the Housing Program's check log upon receipt. For closing fees and loan payments received, the secretary prepares a memorandum documenting project information associated with the payments and transmits the memorandum and payments to the Fiscal Section for processing. For recording fees, the secretary transmits the payments directly to the Real Estate Section of the Comptroller's office for further processing. The secretary logs the date the payments are transmitted on the check log.

Our comparison of the check log to the cash receipt log maintained by the Fiscal Section for the 2 week period ending March 23, 2019, noted personnel recorded two receipts totaling $9,950 ($3,200 and $6,750), for loan payments for the Healthy Home Repair Program on the cash receipt log, but not on the check log. In addition, we noted Housing Program personnel did not record the $28 recording fees received for 2 loans. We verified the recording fees were received and transmitted to the Real Estate Section of the Comptroller's office for processing. CDA personnel indicated the omissions were a clerical error and subsequently updated the log.

In addition, for the fiscal year ended June 30, 2019, we traced all money received by Housing Program personnel for closing fees and loan payments recorded on the check log to entries recorded in the city's general ledger. We identified one check for $2,045 recorded and marked as transmitted in the Housing Program's check log on April 24, 2019, that was not posted to the city's general ledger until November 13, 2019. CDA Fiscal Section personnel indicated this check was caught in a paper clip with other documentation and they did not realize it was not transmitted timely. Also, at the time this occurred, neither personnel in the Real Estate Section or Fiscal Section reconciled their respective records to ensure all money collected was transmitted and recorded in the city accounting system. CDA personnel indicated the individual responsible for performing these reconciliations retired in May 2019 and the position was not filled until March 2020.

Recording all receipts on a log and reconciling receipt records will help ensure all receipts are accounted for and properly transmitted. In addition, transmitting all receipts timely and intact will help reduce the risk of loss, theft, or misuse of money received.

2.2 Monitoring procedures

The CDA's monitoring of CDBG subrecipients needs improvement. According to the CDA's programmatic monitoring guidebook, CDA subrecipients classified as higher risk based on the CDA's annual risk assessment, are required to receive a technical assistance visit in addition to their annual monitoring visit. Our review of 10 of the 69 subrecipients that received CDBG funds in calendar year 2019 included 6 subrecipients classified as higher risk. CDA personnel did not conduct the required technical assistance monitoring visit for one of these six subrecipients. Per CDA personnel, the monitor who was responsible for this left and the CDA did not have the staffing required to perform the visit.

Site reviews are a crucial part of program monitoring. Timely reviews facilitate good management and ensure that subrecipients receive the technical assistance needed to operate programs in compliance with all requirements, thereby maintaining program integrity.

Similar conditions previously reported

Similar conditions were noted in our prior audit report. In the *Follow-up Report on Audit Findings City of St. Louis - Community and Economic Development Offices*, Report No. 2018-108, released in October 2018, the CDA officials indicated the recommendation for section 2.1 was in progress and the recommendation for section 2.2 had been implemented; however we found that corrective action taken was not always effective and problems continue to exist.

Recommendations

The Community Development Administration:

2.1 Ensure all receipts are recorded and transmitted timely and intact and receipt records are reconciled.

2.2 Ensure technical assistance monitoring visits are performed for all higher risk agencies as required.

Auditee's Response

2.1 We will ensure all receipts are recorded and transmitted timely and intact to the proper entity and receipt records are reconciled timely to ensure that these types of errors do not occur moving forward.

2.2 We will ensure technical assistance monitoring visits are performed and documented for all higher risk agencies as required.

3. Electronic Communication Policy

The City of St. Louis Community and Economic Development Offices have not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms. Officials in some offices did not recognize the need for the policy, while those in other offices considered this issue to be the city's responsibility.

While the offices' emails sent or received through the city's hosted email system are archived, the offices have not adopted a policy to address the other issues set forth in the guidance, including the retention of messages sent from text messages and other third party platforms, such as personal email accounts and personal devices, when they represent official business of the city.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of

records. The guidelines for managing electronic communications records can be found on the Secretary of State's website. [2]

Written policies to address the retention of electronic communications are necessary to ensure all documentation of official business of the city is retained as required by state law.

Recommendation

The City of St. Louis Community and Economic Development offices develop written records management and retention policies that address electronic communications management and retention to comply with the Missouri Secretary of State Records Services Division Electronic Communications Guidelines.

Auditee's Response

The SLDC provided the following response:

As the city provides Information Technology support and guidance for most SLDC functions of this nature, and SLDC generally follows city policies on these matters, SLDC will await the development of the city's policy regarding retention of electronic communications to the extent noted here. SLDC policy will likely be structured after the city policy.

[2] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government,* May 14, 2019, <https://www.sos.mo.gov/CMSImages/RecordsManagement/CommunicationsGuidelines.pdf>, accessed November 1, 2021.

City of St. Louis - Community and Economic Development Offices
Organization and Statistical Information

The city has established the following offices to provide community and economic development services.

Affordable Housing Commission

The Affordable Housing Commission (AHC) was established under City Ordinance 65132. The AHC promotes city living and neighborhood stabilization through the preservation and production of affordable, accessible housing and support services that enhance the quality of life for those in need. The AHC provides partial funding to both social service organizations and housing developers to provide housing construction/rehabilitation, education/training, and homelessness prevention services to the city. The Executive Director is April Ford Griffin.

Community Development Administration

The Community Development Administration (CDA) was established under City Ordinance 64688. The CDA is responsible for the administration of federal funds allocated to the city for housing production and home repair, community development, public service, and economic development programs. Its activities are mainly funded with federal Housing and Urban Development funds, including both HOME Investment Partnership (HOME) funds and Community Development Block Grant funds. Currently, the Executive Director is Justin Jackson. At June 30, 2019, Matt Moak served as the Executive Director.

Planning and Urban Design Agency

The Planning and Urban Design Agency (PDA) was established under the City Ordinance 64687. The PDA performs neighborhood planning for the city, historical preservation activities, provides research information to individuals, and creates city maps. The PDA has several regulatory functions including serving as staff for the Planning Commission and Preservation Board. The Executive Director is Don Roe.

Economic Development Tax Board

The Economic Development Tax Board was established by Ordinance 70435 to oversee economic development sales tax funding. In April 2017, voters approved a one half of one percent sales tax for economic development purposes. This tax is allocated (1) 60 percent for the Metrolink, (2) 10 percent for neighborhood revitalization, (3) 10 percent for workforce development, (4) 10 percent for public safety, and (5) 10 percent for infrastructure. This 9 member board is composed of two members appointed by the school district, five members appointed by the Mayor, and two members appointed by the Board of Aldermen.

Land Clearance for Redevelopment Authority

The Land Clearance for Redevelopment Authority (LCRA) was established under Section 99.330, RSMo. The goal of the LCRA is to reduce blight in the city. To achieve this goal, the LCRA recommends development incentives such as tax abatements, tax-exempt revenue bonds, and eminent domain for commercial, industrial, and residential projects in redevelopment areas which are reviewed and approved by the PDA and the St. Louis Board of Aldermen. The SLDC provides administrative services for the LCRA.

Land Reutilization Authority

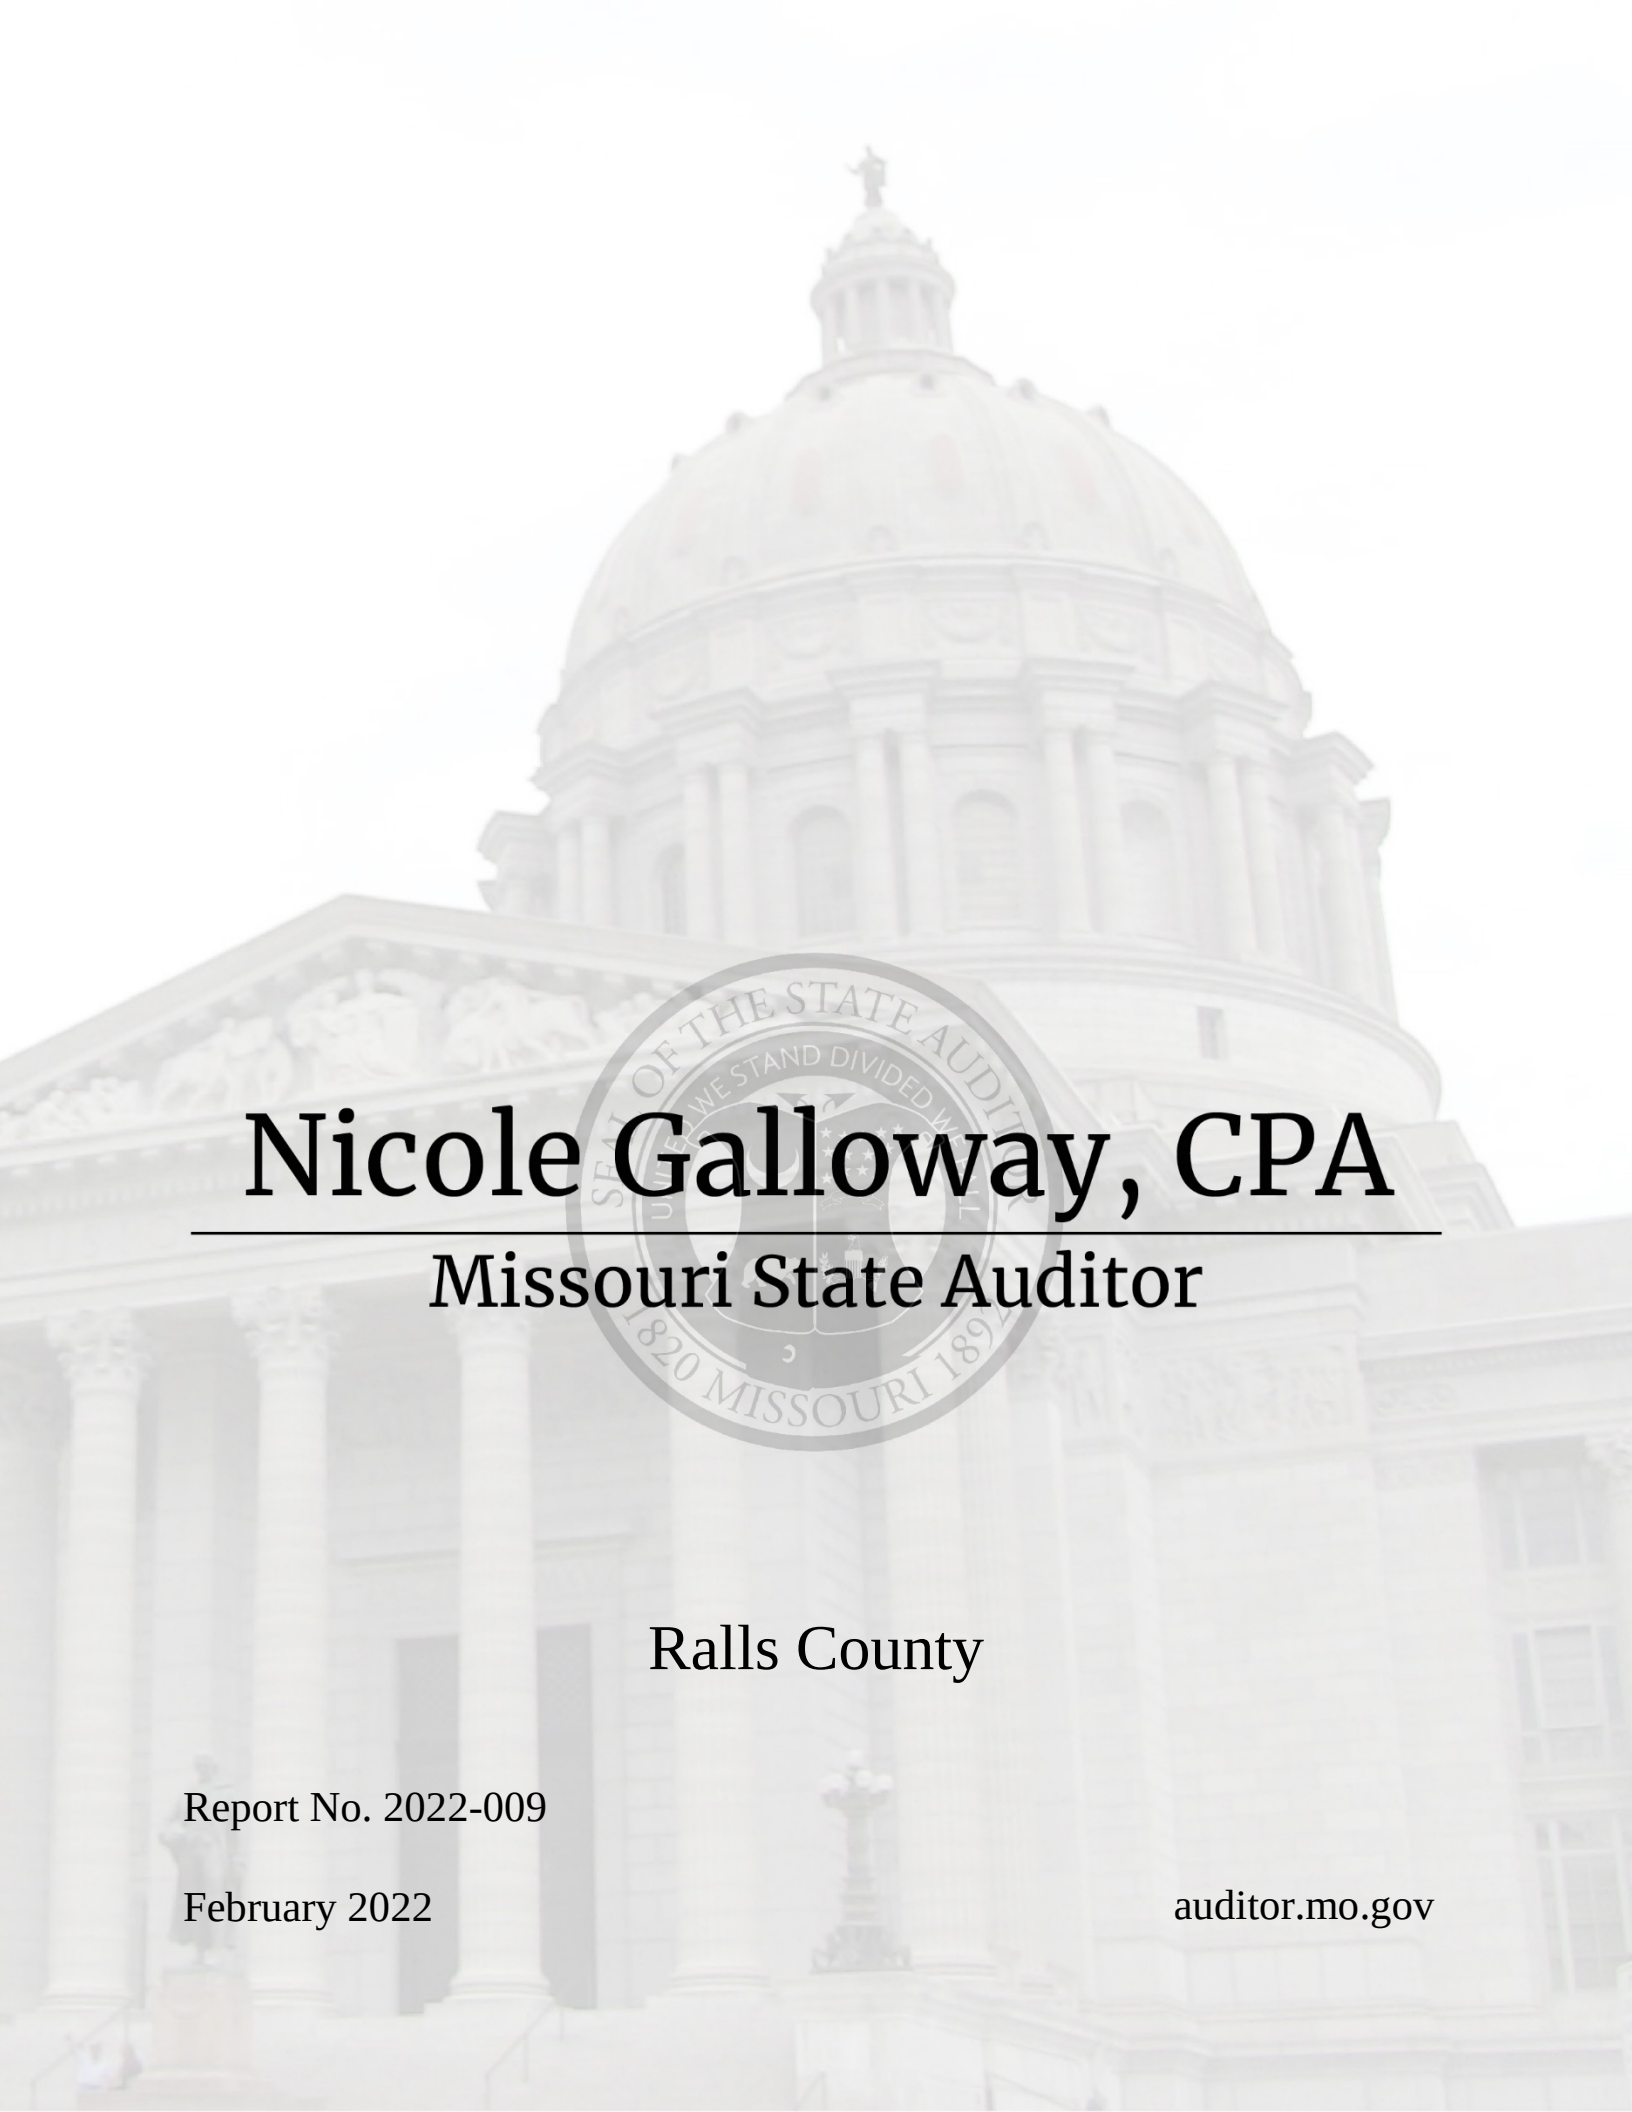
The Land Reutilization Authority (LRA) was established under the authority of Sections 92.700 to 92.920, RSMo. The LRA receives title to donated property and all tax delinquent properties not sold at Sheriff's sales. The St. Louis Development Corporation (SLDC) Real Estate Department maintains, markets, and sells these properties and performs land assemblage for future development.

Port Authority Commission of the City of St. Louis

The Port Authority Commission was established under Section 68.010, RSMo. It is responsible for working with individuals or corporations regarding the preparation and negotiation of land and mooring leases on property owned by the City of St. Louis in the Port District. In addition to managing leases for city-owned property in this area, the commission works with shipping stakeholders across the bi-state area to promote regional commerce. The SLDC provides administrative services for the commission.

St. Louis Development Corporation

The St. Louis Development Corporation (SLDC) is an umbrella not-for-profit corporation organized under Chapter 355 of the Missouri Revised Statues with the mission of fostering economic development and growth in the city. The SLDC is directed by its own Board of Directors and its employees serve as staff support for the city's economic development authorities, including the Land Reutilization Authority, the Land Clearance for Redevelopment Authority, and the Port Authority Commission of the City of St. Louis.



Nicole Galloway, CPA

Missouri State Auditor

Ralls County

Report No. 2022-009

February 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Ralls County

Property Tax System	The county has not adequately restricted property tax system access. The County Clerk and County Commission do not adequately monitor property tax additions and abatements entered into the property tax system. Neither the County Commission nor the County Clerk adequately reviews the financial activities of the County Collector. The County Clerk does not prepare or verify the accuracy of the current or delinquent tax books.
Sheriff's Controls and Procedures	Former Sheriff's office personnel did not always record the method of payment (cash, check, or money order) on the one-write receipt ledger, or reconcile the composition of receipts to the composition of deposits during most of the year ended December 31, 2020, and bond receipts were not always deposited timely or intact. Sheriff's office personnel do not prepare a monthly list of liabilities, and consequently, liabilities are not agreed to the reconciled bank balance. The Sheriff has not entered into written agreements with the surrounding counties for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations. The Sheriff's office does not always timely disburse fees and other receipts to the County Treasurer.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney's office does not issue prenumbered receipt slips for money received.
Property Tax Reductions	The county did not properly report property tax levy reductions to the State Auditor's Office in 2017 and 2018, and did not reduce the tax levy for sales tax collections for 2019 and 2020 as required.
Electronic Communication Policies	The county has not developed electronics records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Ralls County

We have audited certain operations of Ralls County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2020. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

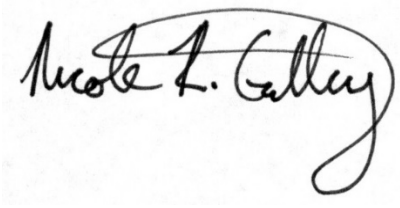
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Ralls County.



Nicole R. Galloway, CPA
State Auditor

1. Property Tax System

Controls and procedures over the property tax system need improvement. The County Collector processed property tax collections totaling approximately $16 million during the year ended February 28, 2021.

1.1 Computer access

The county has not adequately restricted property tax system access. The County Collector and her office personnel have access rights in the property tax system allowing them to make changes to individual tax records. There is no independent review of changes made to individual tax records in the system. The County Collector indicated she does not make changes to individual tax records and is unsure why she has this access. Because the County Collector is responsible for collecting tax money, the ability to alter tax records represents a significant weakness in internal controls. Good internal controls require the County Collector and other office personnel not have access rights allowing alteration or deletion of tax rates, assessed valuations, and property tax billing information.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making changes to the tax books upon order of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved changes to actual changes made to the property tax system would help ensure changes are proper.

1.2 Additions and abatements

The County Commission and the County Clerk do not adequately monitor property tax additions and abatements entered into the property tax system. During the year ended February 28, 2021, additions totaled approximately $181,000 and abatements totaled approximately $290,000.

The County Assessor prepares court orders for additions and abatements, and enters these changes to the property tax system. The County Commission does not review the individual court orders or a detailed listing of changes made to the property tax system. The County Commission only reviews and approves a summary total of monthly additions and abatements, as they believe a more extensive review is not needed. In addition, as explained in section 1.1, a control weakness exists because the County Collector is responsible for collecting property taxes and also has system access to change tax records (including entering addition and abatement information). This control weakness is more significant because neither the County Commission nor the County Clerk performs reconciliations of the approved additions and abatements to the actual changes made in the property tax system. As a result, additions and abatements, which constitute changes to the amount of taxes the County Collector is charged with collecting, are not properly monitored, and errors or irregularities could go undetected.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books with the approval of the County

Commission. If it is not feasible for the County Clerk to make corrections to the tax books, periodic reviews and timely approvals of additions and abatements, along with an independent reconciliation of approved additions and abatements to corrections made to the property tax system, would help ensure changes are proper.

1.3 Account book and annual settlements

Neither the County Commission nor the County Clerk adequately reviews the financial activities of the County Collector. The County Clerk's account book includes only monthly totals of additions and abatements made to the tax system. The account book does not include taxes charged, collected, or protested, and therefore, does not provide all information needed to perform adequate reviews of the County Collector's annual settlements. The County Clerk indicated she was unaware of the need for an account book to verify the annual settlements and she trusts the work of the County Collector. In addition, the County Commission does not perform an independent review of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, or misuse of property tax money going undetected, and less assurance the annual settlements are complete and accurate.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with money payable into the county treasury. An account book or other record that summarizes all taxes charged to the County Collector, monthly collections, delinquent credits, addition and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and County Commission to verify the County Collector's annual settlements. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector. Such procedures are intended to establish checks and balances related to the collection of property taxes.

1.4 Tax books

The County Clerk does not prepare or verify the accuracy of the current or delinquent tax books. The county's property tax system programmer prepares the real estate and personal property tax books using assessed valuations provided by the County Assessor and tax levies provided by the County Clerk. The County Collector indicated she reviews the tax books for accuracy. However, because the County Collector is responsible for collecting property tax money, good internal controls and state law require someone independent of the collection process be responsible for generating and testing the accuracy of the tax books. In addition, the County Collector prepares the delinquent tax books by combining the uncollected taxes from the current tax year and uncollected taxes from all prior years. The County Clerk indicated she was unaware of the need for her to prepare or verify the tax books and she trusts the work of the County Collector. A review of the current and delinquent tax books should include verification of individual entries in the

current tax books and recalculating tax book totals and charges. Failure to properly prepare and/or review the tax books and test individual tax statement computations may result in errors or irregularities going undetected.

Sections 137.290 and 140.050, RSMo, require the County Clerk to extend the current and delinquent tax books and charge the County Collector with the amount of taxes to be collected. If it is not feasible for the County Clerk to prepare the tax books, at a minimum, the accuracy of the tax books should be verified and approval of the tax book amounts to be charged to the County Collector should be documented.

Similar conditions previously reported

A similar condition to section 1.1 was noted in our prior 2 audit reports, and similar conditions to sections 1.2 and 1.3 were noted in our prior 3 audit reports.

Recommendations

1.1 The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and monitored. In addition, the County Commission should work with the County Collector to ensure property tax system access rights are limited to only what is needed for the users to perform their job duties and responsibilities.

1.2 The County Commission and the County Clerk ensure all property tax additions and abatements are properly approved and monitored.

1.3 The County Clerk maintain a complete account book with the County Collector. In addition, the County Commission and the County Clerk should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

1.4 The County Clerk prepare the current and delinquent tax books, or at a minimum, verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected. Procedures performed should be documented.

Auditee's Response

The County Commission and County Clerk provided the following responses:

1.1 The county has had the property tax program for several years. This program is what the county can afford. To upgrade this system, it would cost several thousand dollars. The County Commission, the County Clerk, and the County Collector have revised the internal control policies and procedures to address the recommendation.

1.2 In June 2021, the County Commission began reviewing the detailed additions and abatements in a timely manner and signing them. Once they are reviewed and signed, the County Clerk reviews them and

records them in a spreadsheet with totals of all additions and abatements. After this is done, it is reviewed by the County Clerk and the County Collector to make sure the totals agree. Again, the county will investigate purchasing an upgraded system that will allow the County Clerk to make these changes to the books. Until that time, the County Clerk and the County Collector will both be present when additions and abatements are entered in the system and will sign a statement indicating who was present at the time it was done. This new practice will be documented in the management practices and procedures for the County Clerk and the County Collector.

1.3 The County Clerk will maintain a complete account book to verify the annual settlements. Copies will be provided to the County Commission and the County Collector. This new policy will help reduce the risk of loss, theft, or misuse of property tax money going undetected, and provide additional assurance the annual settlements are complete and accurate.

The County Clerk provided the following response:

1.4 We review the accuracy of the current tax book by reviewing additions and abatements. We also work with the County Assessor to make sure the Board of Equalization changes have been made. We will review this recommendation with the County Collector since we do not currently have system access capabilities to prepare the tax books. The County Commission will look at purchasing an updated system. We will work with the County Collector to make sure we both agree on the accuracy of the totals in the tax book and sign a report to that effect. We will revise the internal control policies to improve these management practices and procedures.

2. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected approximately $49,000 in civil and criminal process fees, concealed carry weapon permits, bonds, and other miscellaneous receipts during the year ended December 31, 2020.

2.1 Receipts and deposits

Procedures for receipts and deposits need improvement.

Former Sheriff's office personnel did not always record the method of payment (cash, check, or money order) on the one-write receipt ledger, or reconcile the composition of receipts to the composition of deposits during most of the year ended December 31, 2020. In addition, bond receipts were not always deposited timely or intact as 2 bonds, totaling $2,000, received on June 11, 2020, were not included in the deposits made on June 12, 19, and 26, but were instead deposited on June 30, nearly 3 weeks after received. These procedures improved after personnel changes occurred in September 2020.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected. All receipts should be deposited intact and timely, and the composition of receipts should be reconciled to the composition of deposits.

2.2 Liabilities

Sheriff's office personnel do not prepare a monthly list of liabilities, and consequently, liabilities are not agreed to the reconciled bank balance. The reconciled bank balance as of December 31, 2020, was $3,442. Liabilities consisting of December fees totaled $1,435, resulting in $2,007 of unidentified money. The Sheriff indicated a list of liabilities had not been maintained by the former administration when he took office in January 2021, and he was unaware of the need for a monthly list.

Monthly lists of liabilities should be prepared and reconciled to cash balances to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed. Various statutory provisions provide for the disposition of unidentified money.

2.3 Prisoner boarding

The Sheriff has not entered into written agreements with the surrounding counties for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations. The majority of boarding costs paid were to 2 nearby counties. The Sheriff indicated the arrangements with the counties were based on previous verbal agreements, but the details of these verbal agreements have not been documented. During the year ended December 31, 2020, the county paid $96,864 to other counties for boarding prisoners.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

2.4 Disbursements

The Sheriff's office does not always timely disburse fees and other receipts to the County Treasurer. Office personnel turned over September 2020 fees ($2,492) and October 2020 fees ($2,165) on December 21, 2020. The Sheriff indicated he is unsure why these turnovers were delayed as this occurred before he took office, but believes employee turnover in the office during 2020 was a factor.

Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay this money monthly to the County Treasurer. Section 50.380, RSMo, provides that any county officer

that fails to pay fees or other remuneration to the treasurer timely may be subject to penalties for such failure.

Similar conditions previously reported

Similar conditions to sections 2.1, 2.2, and 2.3 were noted in our prior 2 audit reports.

Recommendations

The Sheriff:

2.1 Indicate the method of payment on all receipt slips, reconcile the composition of receipt slips to the composition of deposits, and deposit receipts intact and timely.

2.2 Prepare a monthly list of liabilities and reconcile the list to the available cash balance. Any differences should be promptly investigated and resolved, and any unidentified money disposed of in accordance with state law.

2.3 Work with the County Commission to obtain written agreements with the counties for the boarding of prisoners.

2.4 Disburse fees and other receipts to the County Treasurer monthly in accordance with state law.

Auditee's Response

As a response to the audit, we have put the following procedures in place to improve upon the issues that were found during the audit:

2.1 The current administration has implemented this recommendation.

2.2 The current administration prepares a spreadsheet of all transactions (taken from receipts) and reconciles receipts to disbursements to the County Treasurer and other entities and the bank statement. We will prepare a monthly list of liabilities and reconcile it to the cash balance and investigate and resolve any differences and properly dispose of the unidentified money.

2.3 The current administration is working to get memorandums of agreement for all the jails that we use.

2.4 The current administration disburses fees and other receipts to the County Treasurer monthly.

It is our utmost goal to be transparent and responsible with the duties and funds entrusted with our Sheriff's Office. We greatly appreciate the time and effort that was put into our audit and will do all we can to continue with these best practices.

3. Prosecuting Attorney's Controls and Procedures

The Prosecuting Attorney's office does not issue prenumbered receipt slips for money received. Office personnel record receipts on a computer spreadsheet tracking amounts due and paid by case. The Prosecuting Attorney indicated he believed prenumbered receipt slips were not needed since receipts were tracked on the spreadsheet. The office collected approximately $12,000 for bad check and court-ordered restitution and fees during the year ended December 31, 2020.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of money received will go undetected. Procedures should be established to issue prenumbered receipt slips for all money received, including accounting for the numerical sequence of receipt slips, and reconciling the amounts on the receipt slips to the amounts deposited and/or transmitted to victims or the County Treasurer.

Recommendation

The Prosecuting Attorney issue prenumbered receipt slips for money received immediately upon receipt, account for the numerical sequence of the receipt slips, and reconcile the amounts on the receipt slips to the amounts deposited and/or transmitted to victims or the County Treasurer.

Auditee's Response

We will implement the recommendation. However, in response, we noted that the prior state audits did not advance such a recommendation. Also, we employ expansive controls and procedures to mitigate risk of loss, theft, or misuse of money received for bad check and court-ordered restitution and fees. We prepare and e-file restitution memorandums for every payment received for court-ordered restitution so that the sentencing judge and probation officer for each case can track compliance with probation and related court orders. Further, direct communication is initiated by the Prosecuting Attorney with all crime victims due restitution by telephone call, email, facsimile transmission, text message, written correspondence and/or in person office contact to assure accurate and complete payment for all money duly owed.

4. Property Tax Reductions

The county did not properly report property tax levy reductions to the State Auditor's Office (SAO) in 2017 and 2018, and did not reduce the tax levy for sales tax collections for 2019 and 2020 as required.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Ralls County voters enacted a one-half cent sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement and provide for an adjustment for actual sales tax collections of the preceding year that are more or less than the estimate for the preceding year.

The county is required to certify to the SAO the annual property tax levy including the amount the levy is reduced for sales tax collections, as well as any voluntary reductions. For 2017 and 2018, the county incorrectly reported the sales tax reduction as a voluntary reduction instead of as a sales tax reduction. Section 137.073.5(4), RSMo, provides that a voluntary reduction taken in a non-reassessment year (even year) results in a reduced tax rate ceiling during the subsequent reassessment year (odd year). As a result, the tax rate ceiling for the county's General Revenue Fund continued to be reduced by this amount for 2019 and 2020. For 2019 and 2020 the county set the tax rate with no reduction for sales taxes, although sales tax reductions were required each year. Additionally, while the County Clerk maintained worksheets calculating the sales tax reduction for 2019 and 2020, the worksheets were not used in setting the levies and the tax rates calculated on the worksheets were inaccurate due to a mathematical error in 2020 and the use of the wrong tax rate ceiling in 2019. The County Clerk indicated clerical errors were made when inputting the sales tax reduction rates, and the errors were not detected. For 2021, the county's certified levy included a reduction for sales tax, but the reduction did not adjust for sales tax reductions not taken in 2017 through 2020.

Section 137.073.6(3), RSMo, allows the county to submit amended tax rate forms to the SAO if clerical errors occurred; however, the county did not identify the error in reporting the voluntary reduction in 2017 and 2018 or contact the SAO. Additionally, Section 137.073.5(4), RSMo, allows the county to reinstate its tax rate ceiling in the next non-assessment year; however, no steps were taken by the county to reinstate the tax rate ceiling.

To ensure property tax levies are properly set and property tax rate ceilings are maintained, the County Commission and County Clerk should ensure property tax levy reductions are accurately calculated, reported, and certified.

Recommendation

The County Commission and County Clerk properly calculate and report property tax rate reductions (sales tax or voluntary) and develop a plan to correct improper property tax reductions from prior years. During the tax rate setting process, the County Commission and County Clerk should ensure tax rate information reported back to the county in the State Auditor's Office certification letter is consistent with expectations and, if not, promptly follow up on any discrepancies.

Auditee's Response

In 2017 and 2018 a clerical error was made when entering the tax levies. The clerical error occurred when the reduction was entered on the wrong line as a voluntary reduction instead of as a sales tax reduction.

Despite the errors, the General Revenue Fund tax rates charged to Ralls County citizens for 2017, 2018, 2019, and 2020 have not varied significantly

from the rate in 2016, prior to the 2017 error. Rates levied from 2016 through 2020 were as follows:

Year	*Tax Rate*
2016	*.2762*
2017	*.2864*
2018	*.2819*
2019	*.2758*
2020	*.2769*

The County Clerk purchased larger monitors in 2018 so this error would not happen again. With larger monitors it is much easier to see the correct line. The County Clerk will have 2 people review the tax levy before the enter button is hit when entering the tax levies each year and have documentation that they will sign that it was done correctly.

This issue will be addressed in the revised office policies of the County Clerk. Furthermore, there has never been training to clerks or other entities in the county for tax levies. Several clerks and other entities have complained about this and would like to receive some training. The County Clerk has received 2 emails from an entity asking questions about the tax levy process.

Also, the County Commission and County Clerk will consider developing a plan to correct for the improper deductions from prior years, and will ensure the rate information certified by the State Auditor's Office agrees with expectations.

5. Electronic Communication Policies

The county has not developed electronic records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms. County officials were unaware a written policy was needed.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

[1] Missouri Secretary of State Records Services Division, Electronic Communications Records Guidelines for Missouri Government, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed November 29, 2021.

Developing written policies to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law.

Recommendation

The County Commission work with other county officials to develop written records management and retention policies to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division Electronic Communications Records Guidelines.

Auditee's Response

We will implement electronic communication policies.

Ralls County
Organization and Statistical Information

Ralls County is a county-organized, third-class county. The county seat is New London.

Ralls County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 37 full-time employees and 14 part-time employees on December 31, 2020.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2021	2020
Wiley Hibbard, Presiding Commissioner	$	32,542
R.C. Harlow, Associate Commissioner		29,514
John Lake, Associate Commissioner		29,514
Gina Jameson, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Sandy Lanier, County Clerk (2)		46,059
Rodney J. Rodenbaugh, Prosecuting Attorney		143,487
Gerry Dinwiddie, Sheriff		49,914
Jena L. Epperson, County Treasurer		46,059
Robert Van Winkle, County Coroner		15,594
Paula Evans, Public Administrator		44,717
Tara Thompson Comer, County Collector, year ended February 28,	46,325	
Josh Ketsenburg, County Assessor, year ended August 31,		44,317
Marty Wasson, County Surveyor (3)		

(1) Compensation is paid by the state.
(2) Sandy Lanier resigned effective January 14, 2022, and Kristal Hiner was appointed Interim County Clerk by the County Commission.
(3) Compensation on a fee basis.

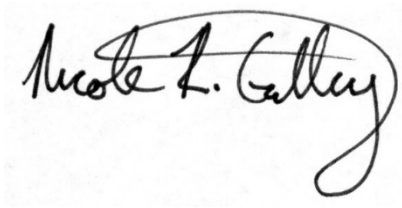
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 388 political subdivisions required to file a financial report by December 31, 2021, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in December 2021, after their filing deadline. The filing status for these 8 entities is presented in summary on page 3 and by individual entity in Appendix B-E.



Nicole R. Galloway, CPA
State Auditor

Monthly Report on Political Subdivision Filings
December 2021
Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 388 political subdivisions, other than cities, towns, and villages, with a fiscal year end of June 30, 2021. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 388 political subdivisions, 300 filed an annual financial report timely.

This report also includes the filing status for 8 political subdivisions, other than cities, towns, and villages, that filed their financial report in December 2021, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

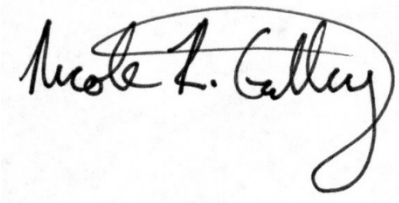
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by December 31, 2021, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 260 cities, 5 towns and 63 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in December 2021, after their filing deadline. The filing status for these 13 cities and 2 villages is presented in summary on pages 3-4 and by individual entity in Appendixes B to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 260 cities, 5 towns and 63 villages with a fiscal year end of June 30, 2021, whose financial report was due by December 31, 2021. Of the 328 municipalities, 233 filed the financial report timely. Of the 224 municipalities required to file an addendum, 116 filed timely. Of the 102 municipalities required to file a certification, 65 filed timely.

This report includes the filing status for 13 cities and 2 villages that filed at least one of the items (financial report, addendum, or certification) in

December 2021, after their filing deadline. Of these municipalities, 6 filed an annual financial report, 10 filed an addendum, and 4 filed a certification.

INDEPENDENT AUDITORS' REPORT

County Commission
Texas County
Houston, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the Texas County, Missouri (the County), which comprise cash and investments for each fund as of December 31, 2020 and 2019, and the related statements of receipts, disbursements, and changes in cash and investment balances – budget and actual for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note 1 of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

A member of Nexia International

CLA is an independent member of Nexia International, a leading, global network of independent accounting and consulting firms. See nexia.com/member-firm-disclaimer for details.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2020 and 2019, or changes in financial position for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investments of each fund of the County as of December 31, 2020 and 2019, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County's financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* is presented for purposes of additional analysis and is not a required part of the financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated January 14, 2022, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Texas County, Missouri (County), is governed by a three-member board of commissioners and was established in 1836 by an Act of the Missouri Territory. There are nine elected Constitutional Officers: County Clerk, Collector/Treasurer, Recorder of Deeds, Sheriff, Assessor, Coroner, Circuit Clerk, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include property tax assessments and collections, state/county courts administration, recording of instruments, public safety, emergency planning, road and bridge construction and maintenance, health and welfare services, and election services.

The financial statements referred to above include only the primary government of Texas, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a statement of receipts, disbursements and changes in cash and investment balances – all governmental funds, a comparative statement of receipts, disbursements and changes in cash and investment balances – budget and actual – all governmental funds, and a statement of assets and liabilities arising from cash transactions – agency funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other agency operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 of the Missouri Revised Statues (RSMo), the County adopts a budget for each governmental fund.

2. On or before January 15, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their offices or departments for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting. State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2020 and 2019, for purposes of taxation was:

	2020	2019
Real Estate	$ 180,849,380	$ 176,860,150
Personal Property	66,470,069	64,035,209
Railroad and Utilities	10,469,767	10,494,552
Total	$ 257,789,216	$ 251,389,911

During 2020 and 2019, the County Commission approved a $.1385 and $.1384 tax levy, respectively, per $100 of assessed valuation of tangible taxable property, for purpose of County taxation, as follows:

	2020	2019
General Revenue	$ 0.0425	$ 0.0425
Senate Bill 40 Board	0.0960	0.0959
Total	$ 0.1385	$ 0.1384

F. Cash Deposits and Investments

Deposits and investments are stated at cost. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less, if applicable. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the state of Missouri or other government bonds, or time certificates of deposit provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in the notes to the financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Interfund Transactions

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

NOTE 2 DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. County investments are nonnegotiable certificates of deposit. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. The total bank balance as of December 31, 2020 and 2019 was insured through the Federal Deposit Insurance Corporation and pledged collateral.

Summary of Carrying Values

The carrying values of cash and investments in governmental and agency funds are included in the financial statements at December 31, 2020 and 2019, as follows:

	2020	2019
Cash and Investments for Governmental Funds:		
Cash	$ 3,760,832	$ 2,940,984
Investments	-	-
Total Governmental Cash and Investments	$ 3,760,832	$ 2,940,984
Cash and Investments for Agency Funds:		
Cash	$ 6,728,834	$ 6,985,362
Investments	-	-
Total Agency Cash and Investments	$ 6,728,834	$ 6,985,362

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTE 3 LONG-TERM INDEBTEDNESS

In September of 2006, the County issued $14,995,000 of Missouri Certificates of Participation (Series 2006). In September 2016, the County refinanced the remaining principal balance on the Series 2006 Certificates of Participation (Series 2016). The amount refinanced was $8,225,000 at a varying interest rate of 3.00% and 4.00%. Payments are due annually on December 1 and matures December 1, 2025. The following is a schedule in changes of long-term direct borrowings for the years ended December 31, 2020 and 2019.

	Balance 2019	Additions	Retirement	Balance 2020	Interest Paid
Series 2016	$ 5,755,000	$ -	$ (885,000)	$ 4,870,000	$ 163,156
Total	$ 5,755,000	$ -	$ (885,000)	$ 4,870,000	$ 163,156

	Balance 2018	Additions	Retirement	Balance 2019	Interest Paid
Series 2016	$ 6,605,000	$ -	$ (850,000)	$ 5,755,000	$ 180,687
Total	$ 6,605,000	$ -	$ (850,000)	$ 5,755,000	$ 180,687

The following is a schedule of future maturities for the years ending December 31, 2020 and 2019:

Year Ending December 31,	Principal Maturities	Interest Maturities	Total
2021	$ 910,000	$ 144,563	$ 1,054,563
2022	935,000	125,212	1,060,212
2023	975,000	104,063	1,079,063
2024	1,000,000	81,788	1,081,788
2025	1,050,000	58,500	1,108,500
Total	$ 4,870,000	$ 514,126	$ 5,384,126

Year Ending December 31,	Principal Maturities	Interest Maturities	Total
2020	$ 885,000	$ 163,156	$ 1,048,156
2021	910,000	144,563	1,054,563
2022	935,000	125,212	1,060,212
2023	975,000	104,063	1,079,063
2024	1,000,000	81,788	1,081,788
2025	1,050,000	58,500	1,108,500
Total	$ 5,755,000	$ 677,282	$ 6,432,282

NOTE 4 INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2020 and 2019 are as follows:

	2020		2019	
	Transfer In	Transfer Out	Transfer In	Transfer Out
General Revenue Fund	$ 1,284,708	$ -	$ 1,140,623	$ 409,260
Collector Tax Maintenance Fund	-	-	-	25,000
Defense Deductible Deposit Fund	-	-	409,260	-
Road and Bridge Fund	-	-	-	-
Justice Center - Jail Maintenance Fund	-	1,234,015	-	1,063,414
Total	$ 1,284,708	$ 1,234,015	$ 1,549,883	$ 1,497,674

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 5 LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. The County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Section 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after five years of credited service. Employees who retire on or after age 60 (55 for police and fire) with five or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of five years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

NOTE 5 LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (CONTINUED)

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 6.9% (General) and 6.1% (Police) of annual covered payroll.

For the years ended December 31, 2020 and 2019, the County paid $107,629 and $77,331 to LAGERS, respectively.

NOTE 6 COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in sections 50.1000-50.1300 of RSMo. The board of directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The board of directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multi-employer retirement system for each county in the state of Missouri, except counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the LAGERS; and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after eight years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of eight years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

NOTE 6 COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (CONTINUED)

Plan Description (Continued)

CERF issues audited financial statements. Copies of these statements may be obtained from the board of directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2020 and 2019, the County collected and remitted to CERF, employee contributions of approximately $63,478 and $61,653, respectively, for the years then ended.

In addition, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of real estate and personal property tax declarations.
- Twenty dollars on each merchants and manufacturers license issued.
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded.
- Five-ninths of the fee on delinquent property taxes.
- Interest earned on investment of the above collections prior to remittance to CERF.

The County remitted to CERF $170,283 and $131,505, respectively, for the years ended December 31, 2020 and 2019.

NOTE 7 PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the state of Missouri is responsible for administration of this plan. The County has contributed $11,628 and $11,628, respectively, for the years ended December 31, 2020 and 2019.

NOTE 8 CLAIMS, COMMITMENTS, AND CONTINGENCIES

Litigation

The County is subject to various claims and legal proceedings covering a wide range of matters in the ordinary course of its activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on financial condition of the County.

Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continued services. After the employees' first year of employment they receive one week of vacation pay; after the second year of employment, they receive two weeks of paid vacation; and after eight years of employment an employee receives three weeks' vacation pay. Regular full time employees accrue sick leave at six days per year and part time employees accrue sick leave time on a pro-rated basis, based on the number of hours worked. Upon termination from county employment, an employee is not reimbursed of unused vacation and compensatory leave, if applicable.

Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial.

NOTE 9 RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a nonprofit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

NOTE 10 UNCERTAINTIES

The World Health Organization has declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the County, COVID-19 may impact various parts of its 2021 operations and financial results. Management believes the County is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated.

TEXAS COUNTY
HOUSTON, MISSOURI
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
DECEMBER 31, 2020 AND 2019

NOTE 1 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Texas County (the County) under programs of the federal government for the years ended December 31, 2020 and 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position or changes in net position of the County.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles in the Uniform Guidance, with the exception of CFDA 21.019, which follows criteria determined by the Department of Treasury for allowability of costs. Under these principals, certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 INDIRECT COST RATE

The County has elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

County Commission
Texas County
Houston, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Texas County, Missouri (the County) as of and for the years ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the County's financial statements, and have issued our report thereon dated January 14, 2022. We expressed an adverse opinion on the financial statements because the financial statements are prepared on the basis of financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America. However, the financial statements were found to be fairly stated on the regulatory basis of accounting, in accordance with regulatory reporting requirements established by the State of Missouri.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal controls, described in the accompanying schedule of findings and questioned costs as Finding 2020-001 that we consider to be a material weakness.

CLA is an independent member of Nexia International, a leading, global network of independent accounting and consulting firms. See nexia.com/member-firm-disclaimer for details.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

County Commission
Texas County
Houston, Missouri

Report on Compliance for Each Major Federal Program

We have audited Texas County, Missouri's (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2020 and 2019. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2020 and 2019.

A member of Nexia International

CLA is an independent member of Nexia International, a leading, global network of independent accounting and consulting firms. See nexia.com/member-firm-disclaimer for details.

Report on Internal Control Over Compliance

Management of Texas County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Texas County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Texas County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as Finding 2020-001 that we consider to be a material weakness.

Texas County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Texas County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION I - SUMMARY OF THE AUDITORS' RESULTS

Financial Statements

Type of auditors' report issued:	**Unmodified - Regulatory Basis**			
Internal control over financial reporting:				
Material weakness(es) identified?	X	yes		no
Significant deficiency(ies) identified that are not considered to be a material weakness(es)?		yes	X	none reported
Noncompliance material to financial statements noted?		yes	X	no

Federal Awards

Internal control over major programs:				
Material weakness(es) identified?	X	yes		no
Significant deficiency(ies) identified that are not considered to be a material weakness(es)?		yes	X	none reported
Type of auditors' report issued on compliance for major programs:	**Unmodified**			
Any audit findings disclosed that are required to be reported in accordance with the Uniform Guidance?	X	yes		no

Identification of major programs:

CFDA Number(s)	Name of Federal Program or Cluster
21.019	Coronavirus Relief Fund

Dollar threshold used to distinguish between type A and type B programs: $ 750,000

Auditee qualified as low-risk auditee?		yes	X	no

TEXAS COUNTY
HOUSTON, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2020 AND 2019

SECTION II – FINANCIAL STATEMENT FINDINGS

2020-001 **Federal Grantor**: All

Pass-Through Grantor: All

Federal CFDA Number: All

Program Title: All

Award Years: 2020 and 2019

Type of Finding: Material Weakness in Internal Control over Compliance

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of the pass-through entity.

Condition: The SEFA was not prepared by the auditee.

Effect: Management did not prepare a complete and accurate SEFA.

Questioned Costs: None.

Cause: The County's internal controls over compliance were not designed to track federal expenditures by each program.

Repeat Finding: This is not a repeat finding.

Recommendation: We recommend management annually prepares a SEFA that reconciles to the general ledger and develop a process to track federal awards and expenditures.

Views of Responsible Officials: There is no disagreement with the audit finding.

SECTION III – FEDERAL AWARD FINDINGS

Please see finding 2020-001 described in Section II.

TEXAS COUNTY, GALLANTIN MISSOURI
CORRECTIVE ACTION PLAN
YEARS ENDED DECEMBER 31, 2019, AND 2020

The Texas County respectfully submits the following corrective action plan for the year ended December 31, 2020.

Audit period: 1/1/2019 – 12/31/2020

The findings from the schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

FINDINGS—FINANCIAL STATEMENT AUDIT

No financial statement findings reported under Government Auditing Standards.

FINDINGS—FEDERAL AWARD PROGRAMS AUDITS

2020-001

Recommendation: We recommend management annually prepares a SEFA that reconciles to the general ledger and develop a process to track federal awards and expenditures.

Explanation of disagreement with audit finding: There is no disagreement with the audit finding.

Action taken in response to finding: Management will reconcile the SEFA with the general ledger at year end to ensure that all costs are captured. Actual expenditures should also be reported rather than budgeted amounts or cash received.

Name(s) of the contact person(s) responsible for corrective action:

Planned completion date for corrective action plan: December 31, 2021.

If there are any questions regarding this plan, please call Peggy Seyler at (417)967-2112

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Department of Streets

Towing Division	The Towing division's accounting controls and procedures for recording and reconciling payments collected were poor. Division personnel have not performed a formal review of towing rates since the current rates went into effect on January 1, 2008.
Scrap Metal Sales	Refuse division procedures did not ensure the accuracy of scrap metal payments received.
Accounts Receivable	Department personnel do not follow established procedures to ensure contractors are denied permits, as required, when they have outstanding balances due. Department personnel did not refer individuals with amounts due for damages to lights or light poles or general damages to the City Counselor's office in the timeframe required.
Capital Assets	Traffic and Lighting division personnel did not perform an annual physical inventory of capital assets as required.

In the areas audited, the overall performance of this entity was **Fair**.*

All reports are available on our website: auditor.mo.gov

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 10

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Director of Department of Streets
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Department of Streets in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city has engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2019. To minimize duplication of effort, we reviewed the CPA firm's report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.

2. Evaluate the department's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

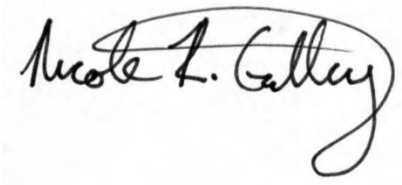
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and testing selected transactions using systematic and haphazard selection, as appropriate, but the results of our test cannot be projected to the population of all transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Department of Streets.

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.



Nicole R. Galloway, CPA
State Auditor

1. Towing Division

The Towing division's accounting controls and procedures needed significant improvement. Towing receipts were at greater risk because a large portion were received in cash. As a result of significant control weaknesses, there is less assurance these receipts have been handled and accounted for properly. In addition, towing rates charged have not been reviewed.

The Towing division is responsible for the towing, storage, and if necessary, auction of abandoned, wrecked, and illegally parked vehicles within the city. The division assesses and collects fees for the towing and storage of vehicles. In addition, the division receives proceeds from the auction of vehicles that are not claimed by their owners within 30 days. The division uses the Regional Justice Information System (REJIS) to obtain information concerning a towed vehicle and also to record information such as the towing and storage fees charged and collected. During the year ended June 30, 2019, the division collected approximately $1.5 million in towing fees and $1.8 million in auction proceeds.

1.1 Accounting controls and procedures

The Towing division's accounting controls and procedures for recording and reconciling payments collected were poor. During the audit period, division procedures included recording receipts in a notebook division personnel used as a manual ledger and in the REJIS; issuing a receipt slip to the customer; and transmitting the receipts to the Treasurer's office. However, division personnel did not consistently follow these procedures.

Our initial review of receipt records for 2 months noted significant differences between the amounts and composition of receipts recorded in the manual ledger and in the REJIS, as well as, differences between recorded amounts and the amounts transmitted to the Treasurer's office. As a result, we determined additional audit work was necessary. We obtained transmittal and deposit support, for a haphazardly selected month, from the Treasurer's office and bank, respectively, and contacted auction participants. This work allowed us to verify the method of payment for each transaction along with the nature of the transaction. During our review of 894 August 2018 transactions, which included 522 transactions for towed vehicles and 372 auction transactions, we identified the following concerns:

Recording

Towing division personnel did not properly record receipts in the manual ledger and/or in the REJIS.

- For the 4 auctions held in August, division personnel incorrectly recorded receipts for 96 auctioned vehicles, totaling $24,400, as cash receipts in the REJIS. However, bank records show these payments occurred by check.

- Division personnel incorrectly recorded 32 towing receipts, totaling $13,290, as cash receipts in the manual ledger. Bank records indicate the

payments occurred by check. In addition, division personnel recorded 6 towing receipts, totaling $1,770, as check payments in the REJIS. However, bank records indicate the payments were made by cash.

- Receipts for 4 towed vehicles were recorded in the manual ledger, but not in the REJIS. Conversely, receipts for 4 other towed vehicles were recorded in the REJIS, but not in the manual ledger.

- The receipt amounts recorded in the manual ledger for 5 towed vehicles differed from the amounts recorded in the REJIS. These receipts included 2 payments by check, 2 using cash, and 1 by credit card.

Reconciling

Division personnel did not reconcile receipt information, including the composition of the receipts, recorded in the REJIS to the manual ledger to ensure all collections were recorded and transmitted and towing records updated. Division procedures required personnel to record towing receipts in the REJIS and in the manual ledger. The ledger also served as supporting documentation for the receipt coding form that was submitted to the Treasurer's office with the transmitted receipts and the Comptroller's office for recording the receipts in the city accounting system.

Conclusion

Division personnel were unaware of the various discrepancies until we discussed the issues with them. They also indicated they have changed procedures for handling towing and auction receipts. Failure to implement adequate recording and reconciling procedures increased the risk that loss, theft, or misuse of money would go undetected and accounting records would contain errors.

1.2 Towing rates

Division personnel have not performed a formal review of towing rates since the current rates went into effect on January 1, 2008. As a result, there is less assurance the rates are set at an appropriate level to cover the costs of the department. It is unclear why a formal review has not occurred.

Section 67.042, RSMo, provides that fees may be increased if supported by a statement of costs that shows the increase is necessary to cover costs of providing the service. By periodically preparing cost analyses of the tow rates that consider expenses such as the cost of using the tow trucks, driver salaries, administration costs, and facility and utility expenses, division personnel can evaluate if rates are sufficient to cover costs. The preparation of a comprehensive statement of costs would not only allow the division to determine the rates necessary to recover costs of services and support current and future operations, but also provide documentation to customers of the rationale behind the tow rates.

Recommendations

The Department of Streets:

1.1 Continue to improve procedures to ensure receipts are recorded properly, the composition of receipts is reconciled to the composition of amounts recorded and transmitted, and the manual ledger and REJIS records are reconciled to each other and transmittals to ensure records are accurate and complete.

1.2 Periodically perform a formal review of tow rates to ensure the amounts reflect current costs and revenues are sufficient to cover the cost of providing services.

Auditee's Response

1.1 The manual ledger has been removed from use. Reconciliations are being completed at the end of each day by the Administrative Assistant. The Administrative Assistant, or his/her designee, reconciles all monies for the day versus the REJIS totals for the day, any discrepancies are noted on the reconciliation sheet and saved as a PDF on a network computer drive. The Towing division has worked with REJIS to make sure that card or check payments require a card or check number, names, etc. for a complete record of transactions.

The following Standard Operating Procedures as of April 2020, have been developed and are currently in practice.

1. *Daily Cash, Check and Credit Card Reconciliation Tow and Storage Fees*
2. *Monthly First Data/Credit Card Reconciliation Tow and Storage Fees*
3. *Receiving Cash, Check and/or Credit Card Tow and Storage Fees*

1.2 The Towing division's current rates are adequate to cover their current costs. Comparatively The Towing division's rates are significantly lower than most local private companies based on an informal review. The Towing division will keep this recommendation in mind and evaluate on an annual basis.

2. Scrap Metal Sales

Refuse division procedures to ensure the accuracy of scrap metal payments received need improvement.

Refuse division personnel weigh sold scrap metal at a transfer station and record the net tonnage before it is given to the buyer. The buyer then weighs the scrap metal using the buyer's scales and makes a payment based on that weight. Division personnel do not reconcile the net tonnage of scrap metal

weighed at the division transfer station to the net tonnage the buyer uses to calculate payment to determine if there has been any significant loss and the payment received is appropriate. For example, for one invoice reviewed, we noted the weight recorded from the buyer's scales was 2,000 pounds less than the weight recorded at the transfer station.

It is unclear why the Refuse division did not have procedures in place however, reconciliation and review of net tonnage used to calculate payment is necessary to help detect net tonnage loss and ensure all scrap metal payments are appropriate. Significant differences need to be investigated by division personnel.

Recommendation

The Department of Streets reconcile the net tonnage weighed at the transfer station to the net tonnage weighed by the buyer to ensure the payment is appropriate and investigate any significant differences.

Auditee's Response

Current practices will be reviewed. Procedures will be established to reconcile and track the net tonnage used for payment calculations.

3. Accounts Receivable

Department of Streets' personnel do not always follow established accounts receivable procedures.

3.1 Issuance of permits

The department does not follow established procedures to ensure contractors are denied permits, as required, when they have outstanding balances due. For example, one contractor with an outstanding balance from July 2018 was allowed to purchase work permits in December 2018 and May 2019. The vendor paid the outstanding balance in July 2019.

It is unclear why department personnel did not follow established policies and procedures related to obtaining a permit. Department accounts receivable procedures for contractors indicate if a contractor goes more than 30 days without paying for city permits, department personnel should deny any permit applications until the contractor's accounts are made current or the contractor agrees to a payment plan. Adequate review of available accounts receivable reports prior to issuing a permit, as well as, permit denial, when applicable, are necessary to ensure timely payment and prevent lost revenue.

3.2 City Counselor referral

Department personnel did not refer individuals with amounts due for damages to lights or light poles or general damages to the City Counselor's office in the timeframe required. We reviewed accounts receivable listings for damages, and noted multiple accounts with amounts due for over 90 days that were not immediately referred to the City Counselor's office. As of June 30, 2019, 60 accounts with amounts due for damages to light and light poles, totaling $122,971 and 24 accounts with amounts due for general damages, totaling $94,155, were more than 90 days overdue before they were referred

to the City Counselor's office. Twenty-six of these accounts were turned over more than 200 days after the invoice date.

It is unclear why the department did not follow established policies and procedures related to outstanding accounts receivables balances. Department accounts receivable procedures for damages state, after 90 days, invoices for damages should be forwarded to the City Counselor's office for collection. Adequate procedures to timely follow up on amounts due, including identifying and referring accounts more than 90 days overdue to the City Counselor's office, are needed to ensure amounts are collected timely and prevent lost revenue for the city.

Recommendations

The Department of Streets:

3.1 Review all outstanding accounts receivable balances due from contractors prior to issuing a permit and deny applicable permit applications in accordance with department procedures.

3.2 Refer accounts with balances due for damages to the City Counselor's office after 90 days as required.

Auditee's Response

3.1 A procedure will be established to evaluate a contractor's outstanding balances owed to the Streets Department and whether subsequent permits can be issued to that contractor.

3.2 The above noted procedure will include the condition that if a balance owed to the Streets Department exceeds 90 days, invoices will be referred to the City Counselor's office for collections.

4. Capital Assets

Traffic and Lighting division personnel did not perform an annual physical inventory of capital assets as required.

The city's Fixed Asset Management System (FAMS) policy and procedure manual requires each department to conduct an annual physical inventory of all departmental property, reconcile the inventory to the capital asset listing provided by the Comptroller's office, and notify the Comptroller's office of capital asset additions, dispositions, transfers, and adjustments or corrections necessary to ensure city records are accurate and complete. The Traffic and Lighting Superintendent indicated inventories were not completed because the division's warehouse manager position, which has the responsibility of maintaining the division's inventory listing, was vacant for more than a year.

The policies and procedures required by the city's FAMS policies and procedures manual are necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Recommendation

The Traffic and Lighting division perform an annual inventory of capital assets as required.

Auditee's Response

The Traffic and Lighting Division will perform an inventory and update the Fixed Asset Management System in accordance with the city's policy and procedure manual.

City of St. Louis - Department of Streets
Organization and Statistical Information

The Department of Streets is charged with the maintenance of the streets and roadways of the city to ensure their continued use by the public. The department consists of the Director's office and four divisions, which include streets, refuse, traffic and lighting, and towing. The Mayor appoints a director to oversee the operations of the department including the supervision and coordination of all activities for the four divisions. Currently, the Director of Streets is Betherny Williams who was appointed in October 2021. During our audit period the Director was Jamie Wilson who was appointed in September 2017. As of June 30, 2019, the department had 529 employees.

The Director's office is responsible for the administration of the department, and ensuring all other divisions are working towards keeping the roadways of the city functioning. These responsibilities include various accounting duties of the department, as well as oversight on purchasing, accounts payable, and receivables. The office also oversees the issuance of permits and collection of permit fees for various items such as street blockages, parades, parking, and sidewalk and driveway construction. In addition, the office administers the sewer lateral repair, 50/50 sidewalk, and school crossing guard programs.

The Division of Streets is responsible for the maintenance of streets and alleys within the city. These duties include resurfacing and repairing streets, removing snow from the streets, and street sweeping along with street lighting, street signs, and traffic signals.

The Division of Refuse is responsible for the collection and disposal of all refuse from city residences. The division also coordinates efforts to reduce the amount of waste going to landfills, such as recycling, composting, and waste reduction. The division also collects fees for the sale of scrap metal.

The Division of Traffic and Lighting is responsible for the management of the traffic and lighting needs of the city. The division ensures traffic signals are properly maintained and repaired when needed. In addition, the division fabricates, installs, and maintains traffic signage and traffic painting and striping throughout the city. The division also repairs any damage to the traffic signals and signs caused by accidents.

The Division of Towing is responsible for the towing of abandoned, wrecked, and illegally parked vehicles within the city as requested by the St. Louis Police Department and other city departments. The division also stores the towed vehicles on its lot and auctions any not claimed. The division collects fees for towing, storage, and auctioning of vehicles.

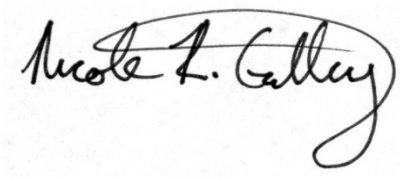
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Wayne Wallingford, Director
Department of Revenue
and
Mike Leara, Chairman
Missouri Gaming Commission
and
Dr. Margie Vandeven, Commissioner
Department of Elementary and Secondary Education
Jefferson City, Missouri

To address our responsibilities of Section 313.822(3), RSMo, we have audited the revenues of and the transfers from the Gaming Proceeds for Education Fund to the Classroom Trust Fund and the expenditures from that fund, as part of our audit of the state's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2021, and have issued our report (Report No. 2022-002), dated January 21, 2022. No expenditures occur from the Gaming Proceeds for Education Fund. More than 99 percent of the revenue received by that fund is transferred to the Classroom Trust Fund (less than 1 percent is transferred to the School District Bond Fund). The state's ACFR is comprised of the financial statements of the governmental activities (including the Gaming Proceeds for Education Fund and the Classroom Trust Fund), the business-type activities, the aggregate discretely presented component units, each major fund (including the Public Education Fund which includes Gaming Proceeds for Education Fund and the Classroom Trust Fund), and the aggregate remaining fund information of the state of Missouri, and the related notes to the financial statements.

Our report expressed qualified opinions on the governmental activities (including the Gaming Proceeds for Education Fund and the Classroom Trust Fund) and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

Our audit determined the appropriation and expenditures from the Classroom Trust Fund increased from fiscal year 2020 to fiscal year 2021, and the appropriation was used for educational purposes. No findings resulted from our audit procedures related to the Gaming Proceeds for Education Fund and the Classroom Trust Fund.



Nicole R. Galloway, CPA
State Auditor

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Anne L. Precythe, Director
Department of Corrections
Jefferson City, Missouri

To address our responsibilities of Section 217.595.6, RSMo, we have audited the revenues and the expenditures of the Working Capital Revolving Fund, as part of our audit of the state's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2021, and have issued our report (Report No. 2022-002), dated January 21, 2022. The state's ACFR is comprised of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information (including the Working Capital Revolving Fund) of the state of Missouri, and the related notes to the financial statements.

Our report expressed qualified audit opinions on the governmental activities and the General Fund opinion units and unmodified opinions on the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information (including the Working Capital Revolving Fund) opinion units of the state of Missouri, as of June 30, 2021.

No findings resulted from our audit procedures related to the Working Capital Revolving Fund.

January 21, 2022

The Honorable Michael L. Parson
The Honorable Members of the Legislature
Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Annual Comprehensive Financial Report (ACFR) of the State of Missouri for the fiscal year ended June 30, 2021. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and their opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform guidance).

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Article IV, Section 27 of the Missouri Constitution, amended in 2014, requires the Governor to notify the General Assembly if the Governor reduces allotments when it appears revenues will be less than estimated. This Section then gives the General Assembly the authority to overturn any of the Governor's restrictions with a two-thirds vote, similar to the procedure to overturn a veto. Unexpended appropriations lapse at the end of each fiscal year, unless reappropriated to the following budget fiscal year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

State Economy

Revenue collection information as of June 30, 2021 indicates that net general revenues collections for fiscal year 2021 increased by 25.8% compared to June 2020, from $8.93 billion in fiscal year 2020 to $11.24 billion in fiscal year 2021. Missouri's fiscal year 2021 tax collections were boosted by the delay in the income tax due dates moving from fiscal year 2020 into fiscal year 2021. It is estimated that approximately $783.8 million in income tax payments were delayed until after the start of the fiscal year. In addition, Missouri saw strong growth in withholding and sales taxes as the economic recovery accelerated after the COVID-19 recession.

The State has received several federal awards of significant size to assist with COVID-19 response efforts. This includes $2.083 billion of Coronavirus Relief Fund money received in April 2020, which was allocated to the following:

- Missouri Counties to assist with local response
- The Unemployment Compensation Fund
- Higher Education Institutions and Workforce Development
- Personal protective equipment, testing initiatives, and alternative care and quarantine sites
- State agency response costs
- Public Safety payroll expenses
- COVID-19 testing for nursing homes and long-term care facilities
- Elementary and Secondary Education Facilities
- Economic support
- Broadband development
- Meat processing facilities
- Small Businesses
- Various other purposes

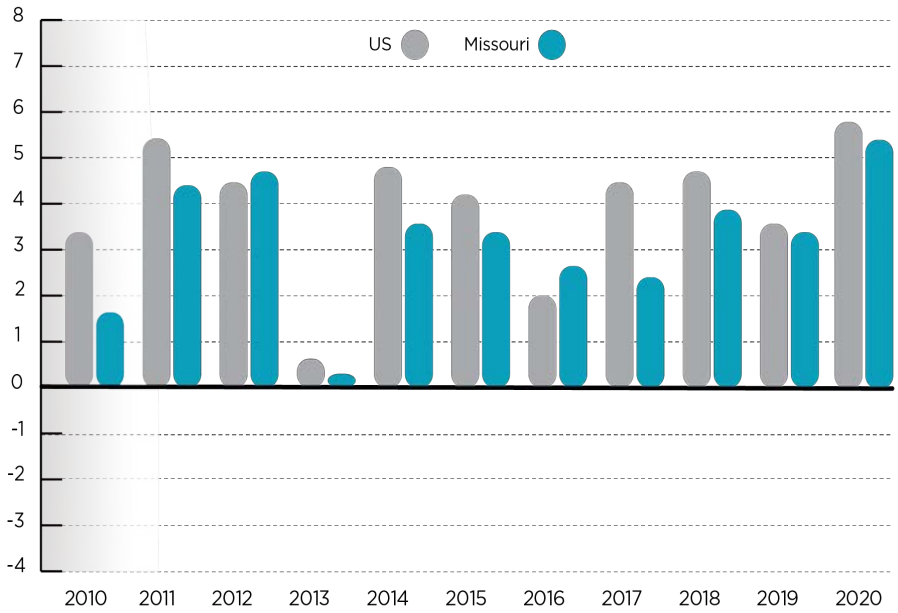
The State received $324 million in housing assistance stimulus to support the federal Emergency Rental Assistance Program to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic.

The State has been awarded grant monies totaling approximately $771 million for the Department of Health and Senior Services relating to vaccines, testing, contract tracing, surveillance, containment and mitigation, food service programs; a national initiative to address COVID-19 health disparities amongst certain populations, workforce development training; and other COVID-19 efforts. Several other COVID related grants were received by State agencies and are being expended. Further information about federal grants are available in the State of Missouri's Single Audit which is available on the Missouri State Auditor's website at www.auditor.mo.gov.

In addition, the first half of $2.8 billion of the American Rescue Plan's State Fiscal Recovery Fund and $225 million of the American Rescue Plan's Local Fiscal Recovery Fund was received in August 2021. Conversations continue related on how best to utilize the allocation of the funds.

Missouri's GDP was $277.4 billion in 2020 in 2012 inflation-adjusted dollars; this is a 3.6% decrease over 2019. Missouri's per capita personal income was $51,177 in 2020, an increase from 2019. The national per capita income is $59,729. While the State's per capita income is lower than the national average, so is the cost of living. In 2020, Missouri ranked 6th lowest in cost of living for states.

Personal Income Annual Growth Rate



Source: MERIC 2021 Missouri Economic Report

It is likely that the full financial impact of COVID-19 on the State, its economy, and its financial position will continue to change as circumstances and events evolve, but such impact has been, and may continue to be substantial. Some of the most immediate possible negative impacts that the State has identified include (i) increases in unemployment levels, with a corresponding decrease in income taxes; (ii) overall decreases in sales and other tax collections, namely from hotels, restaurants, retail stores and performance venues; and (iii) cancellations of major events and conferences. The economic impact on businesses, unemployment, and state activities caused by the duration, severity and degree of the impact of COVID-19 remains difficult to predict at this time.

In July 2021, Missouri's unemployment rate was 4.2%, while the nation's unemployment rate was 5.4%, a significant decrease from July 2020, reflecting continued recovery from the economic downturn caused by the COVID-19 pandemic during 2020. Prior to the COVID-19 pandemic, Missouri and the nation were experiencing record low unemployment numbers and a tight labor market. Missouri's unemployment rate rapidly declined, as more Missourians were able to return to work, but has not yet reached pre-COVID-19 levels.

Long-Term Financial Planning

During the 2014 legislative session, the legislature passed Senate Bill 509 and Senate Bill 496, relating to changes to the State's income tax structure. The legislation reduced the maximum tax rate on personal income and created an income tax deduction for business income as well as increased a personal exemption for individuals that have an adjusted gross income of less than $20,000. (The federal Tax Cuts and Jobs Act of 2017 eliminated the personal exemption.) The implementation of the tax cut is gradual with a 0.10% decline each calendar year and will go into effect following fiscal years where net general revenue collections grow at least $150 million. Estimates indicate that the bills will cost at least $620 million annually once fully in effect, which will occur in fiscal year 2025 at the earliest, due to a phased implementation. General revenue growth for fiscal year 2017, 2018, and 2021 triggered the first three income tax reductions in tax year 2018, 2019, and 2022. The general revenue growth for 2019 and 2020 did not trigger a tax reduction for tax years 2020 and 2021. Fiscal year 2026 will be the earliest the tax reductions will be fully implemented, due to the phased implementation.

The General Assembly passed several tax-related bills during the 2021 legislative session. The General Assembly passed House Bill 297 which expands the definition for 529 education savings plans to include student loan payments. The bill is estimated to reduce general revenue by $1.4 to $7.1 million annually. The General Assembly also passed House Bill 429 which created a tax deduction for foster parents. This bill is estimated to reduce general revenue by $1.3 to $1.6 million annually. The General Assembly passed House Bill 604 which expanded the long-term care insurance deduction to include insurance plans that do not qualify for the federal tax deduction. The bill may have an unknown negative effect on general revenue. The General Assembly also passed Senate Bill 153 which reduces the top rate of individual income tax over time, creates an earned income tax credit, and exempts federal COVID-19 stimulus payments from income tax. This bill is estimated to reduce general revenue in fiscal year 2022 by $11.7 million due to the exemption of federal stimulus payments. Once fully implemented, the income tax portion of this bill is estimated to reduce general revenue by $349.8 million annually. The combined impact to general revenue during fiscal year 2022 is estimated to be an approximately $13 to $22 million loss. Once fully implemented, the legislation could reduce general revenue by approximately $218 to $333 million annually.

Relevant Financial Policies

Article X, Sections 16-24 of the Constitution of Missouri (the "Tax Limitation Amendment"), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually, in accordance with the formula set forth in the amendment which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year the excess revenue will be refunded pro-rata, based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995-1999. The State has refunded to income taxpayers $979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2021, inclusive. The State is currently $6.09 billion below the limit and does not expect the limit to be exceeded in fiscal year 2022.

Major Initiatives

Highlights of the 2021 Regular Session include the passage of the following:

- **Sales Taxes**

  Following the U.S. Supreme Court decision in *South Dakota v Wayfair Inc.* Senate Bill 153 allows for the collection of the use tax from companies doing business in Missouri who do not currently have physical nexus with the State. The legislation brings Missouri in line with every other state that levies a sales tax. Once fully implemented, the sales tax provision is estimated to increase general revenue by $92.3 to $141.0 million annually.

- **Tax Credits**

  The General Assembly passed House Bill 349 and Senate Bill 86, which creates tax credits for donations to scholarship accounts. While House Bill 349 sets the annual limit for tax credits at $75 million per year once fully implemented, Senate Bill 86 lowered the annual cap to $50 million per year once fully implemented. The General Assembly passed House Bill 430 which expanded the adoption tax credit and removed the annual redemption cap on tax credits for donations to domestic violence shelters and maternity homes. It is estimated to reduce general revenue by $3.9 million annually. The General Assembly passed Senate Bill 2 which expands the MO Works tax credit program to include military projects and Senate Bill 153 which expands the MO Works tax credit to include retail businesses within certain areas. Both bills may have an unknown negative impact on general revenue. The General Assembly also passed Senate Bill 36 which created a tax credit for donations to the restorations and upkeep of the capitol complex and is estimated to reduce general revenue by up to $10 million annually.

- **Motor Fuel**

  The General Assembly passed Senate Bill 262, which increases the motor fuel tax rate by $0.025 each year for a total increase of $0.125 as well as increases alternative fuel decal fees. It also grants taxpayers a refund for the additional motor fuel taxes paid; taxpayers may choose to apply for such refund annually. This bill is estimated to increase motor fuel tax funds by $56.3 million in fiscal year 2022 and once fully implemented, is estimated to increase motor fuel tax collections by $90.4 to $332.6 million annually, depending on the number of refund claims received.

- **Employment Leave for Sexual Assault Survivors**

  House Bill 432 requires employers to allow employees to take unpaid leave from work to address issues resulting from domestic or sexual abuse of themselves, their family, or household. The bill also requires employers or public agencies to make reasonable safety accommodations for victims of domestic or sexual violence or their family members or household members.

- **Supporting Veterans**

  House Bill 476 adds military occupational specialties to the list of eligible qualifications for receiving an occupational license via reciprocity in Missouri.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the ACFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

Stacy Neal, CPA
Director

INDEPENDENT AUDITOR'S REPORT

Honorable Michael L. Parson, Governor
and
Members of the General Assembly

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the state's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain entities. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors. Those entities were:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan which represent 70 percent of the assets and 10 percent of the revenues of the governmental activities.

2. The State Lottery, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 24 percent of the assets and 35 percent of the revenues of the business-type activities.

3. The aggregate discretely presented component units.

4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation custodial funds which represent 93 percent of the assets and 98 percent of the additions of the fiduciary funds.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board, the Missouri Agricultural and Small Business Development Authority, and the State Environmental Improvement Energy Resources Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinions on the governmental activities and the General Fund opinion units and our unmodified opinions on all remaining opinion units.

Basis for Qualified Opinions on the Governmental Activities and the General Fund

We were not allowed access to tax returns and related source documents for income taxes. Access was denied based on the Department of Revenue's interpretation of the decision rendered by the Missouri Supreme Court in the case of *Director of Revenue v. State Auditor* 511 S.W.2d 779 (Mo. 1974). Approximately 26 percent of governmental activity revenues and 29 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded.

Qualified Opinions

In our opinion, based on our audit and the reports of other auditors, and except for the possible effects of the matter described in the "Basis for Qualified Opinions on the Governmental Activities and the General Fund" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the state of Missouri, as of June 30, 2021, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 17 to the financial statements, the 2020 financial statements have been restated to correct misstatements. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; the Budgetary Comparison Schedule-General Fund, Major Special Revenue Funds; the Schedule of Changes in Net Pension Liability and Related Ratios; the Schedule of Proportionate Share of the Net Pension Liability; the Schedule of State Contributions; the Schedule of Changes in Total OPEB Liability and Related Ratios, the Schedule of Changes in Net OPEB Liability and Related Ratios; and the Schedule of Proportionate Share of the Collective Net OPEB Liability, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, and the other information, which consists of the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

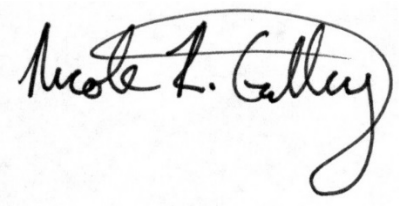
The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States

of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, and except for the possible effects on the supplementary information of the matter discussed in the "Basis for Qualified Opinions on the Governmental Activities and the General Fund" paragraph, the supplementary information, as listed in the table of contents, is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The information in the introductory and statistical sections has not been subjected to the audit procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, our report dated January 21, 2022, on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters will be issued under separate cover in the Report on Internal Control, Compliance, and Other Matters. The purpose of our report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of Missouri's internal control over financial reporting or on compliance. Our report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of Missouri's internal control over financial reporting and compliance.



Nicole R. Galloway, CPA
State Auditor

January 21, 2022

*The **Management's Discussion and Analysis** provides a narrative overview and analysis of the financial activities of the State.*

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's financial activities for the fiscal year ended June 30, 2021. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government-Wide:

- *Net Position.* Assets and deferred outflows of the State of Missouri exceeded liabilities and deferred inflows at the close of fiscal year 2021 by $32.4 billion. Of the $32.4 billion, "unrestricted net position" is reported as a negative $6.1 billion, offset by $6.4 billion in "restricted net position", and $32.1 billion net investment in capital assets.

- *Changes in Net Position.* The State's total net position increased by $3.4 billion in fiscal year 2021. Net position for governmental-type activities increased by $3.5 billion.

- *Excess of Revenues over (under) Expenses.* During fiscal year 2021, the State's total revenues of $38.6 billion were $3.4 billion greater than total expenses of $35.2 billion (excluding capital contributions, transfers, and extraordinary items). Of these expenses, $24.8 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled $13.8 billion.

Fund-Level:

- *Governmental Funds – Fund Balance.* At the close of fiscal year 2021, the State's governmental fund assets exceeded liabilities by $10.0 billion, an increase of $3.4 billion or 50.7% from the prior year. The increase was due to the net effect of several factors. Revenues increased $6.3 billion, primarily from an increase in federal grants of $4.1 billion and related expenditures in Human Services increased $1.4 billion due to an increase for Medicaid and Other Assistance Programs.

- *General Fund – Fund Balance.* At the end of the current fiscal year, the State's General Fund reported a balance of $4.7 billion.

Additional information regarding individual funds begins on Page 8.

Debt Issued and Outstanding:

- The primary government's total long-term obligations related to bonds payable decreased $315.2 million, or 12.6%, over the prior year. The outstanding bonds payable represents 14.3% of financial assets (cash, receivables, and investments) and 4.4% of total assets. On October 25, 2020, the Board of Public Buildings of the State of Missouri issued its Special Obligation Refunding Bonds, Series B 2020 in the amount of $172.9 million to refund $185.9 million of Board of Public Buildings Bond Series A 2012 and $19.6 million of Board of Public Buildings Bond Series A 2013. Additionally, bond payments of $282.6 million were made during the fiscal year. The State has financed purchases through direct borrowing with banks in the amount of $20.4 million. Additional detail is available in *Note 11*.

Revenue Limit:

- The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2021, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the State's assets, deferred outflows, liabilities, and deferred inflows, with the difference between them reported as *net position.* Increases or decreases in net position may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, insurance coverage, and inmate canteen. Also included are the operations of the State Lottery, Unemployment Compensation, and the Missouri Veterans' Homes funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, Missouri Wine and Grape Board, and the State Environmental Improvement Energy Resources Authority.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. A reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, and publishing maps and documents. Also included are the operations of the State Lottery, Unemployment Compensation, and the Missouri Veterans' Homes funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Missouri Veterans' Homes, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds and schedules for pension and other post-employment benefits. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules and statements for the Missouri Road Fund, non-major special revenue, debt service, capital projects, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position:

The State's total net position increased $3.4 billion during fiscal year 2021. Cash and cash equivalents and investments increased $2.5 billion. This was mainly due to $1.3 billion received in stimulus funds during fiscal year 2021, as well as recognition of $1.7 billion in revenues related to the state's spending of Coronavirus Relief Funds received in fiscal year 2020. The State also received a $482.4 million dollar settlement from Johnson and Johnson and other distributors of opioids. Accounts receivable decreased $714.3 million, while accounts payable for tax refunds also decreased mainly due to the delay in income tax filings following the State's extension of the deadline for filing income tax returns from April 15 to July 15 in fiscal year 2020. Capital assets increased $391.4 million primarily related to an increase in investment in the State's infrastructure. The State issued the Board of Public Buildings Series B 2020 Refunding Bond in the amount of $172.9 million to refund Series A 2012 and Series A 2013 of the Board of Public Building bonds. This refunding and bond payments of $311.7 million resulted in Bonds Payable and the related unamortized bond premium liability to decrease by a total of $323.4 million.

Net investment in capital assets, which includes capital assets, bonds payable, and capital lease/financed purchase obligations, is the largest component of the State's net position at $32.1 billion or 99.1%. These assets include construction in progress, software in progress, infrastructure in progress, land, easements, land improvements, buildings, equipment, software, and trademarks which are not easily converted to cash or readily available to pay state debts as they come due. Net investment in capital assets and restricted net position, which do not represent resources available to pay day-to-day operating expenses, increased by $2.1 billion or 5.7%. The increase was primarily due to the increase in capital assets of $391.4 million and a decrease in related outstanding bond, capital lease, and financed purchase obligation of $7.2 million.

Restricted net position of the primary government totaled $6.4 billion or 19.8% of total net position vs. 16.8% from the prior year. Net position is restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net position include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Position.

STATEMENT OF NET POSITION
(In Thousands of Dollars)

	Governmental Activities		Business-Type Activities		Total	
	2021	2020*	2021	2020*	2021	2020*
ASSETS:						
Current and Other Assets	$ 14,516,173	$ 12,575,374	$ 975,753	$ 1,039,053	$ 15,491,926	$ 13,614,427
Capital Assets, Net	34,059,361	33,665,651	115,518	117,822	34,174,879	33,783,473

Changes in Net Position:

The schedule below reflects how the State's net position changed during the year. The State collected program revenues of $24.8 billion and general revenues of $13.8 billion for total revenues of $38.6 billion during fiscal year 2021. Expenses for the State during fiscal year 2021 were $35.2 billion. Total net position, net of contributions and transfers, increased by $3.4 billion.

The following table displays the current and prior year government-wide condensed Statement of Activities.

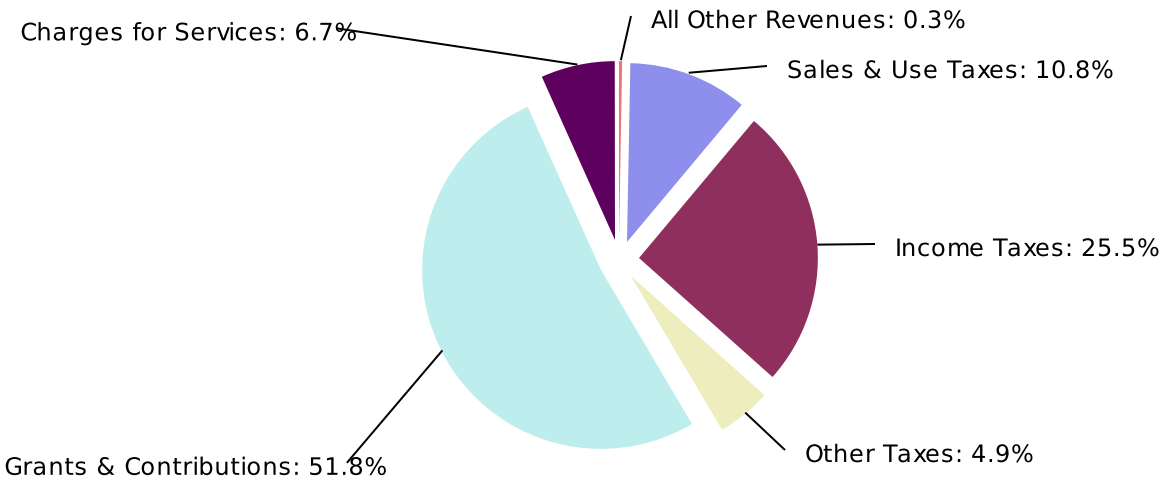
Governmental Activities

The net position of governmental activities increased $3.5 billion in fiscal year 2021. General and program revenues of governmental activities were $5.6 billion more in fiscal year 2021 than in fiscal year 2020, most notably due to an increase in grants and contributions.

As shown in the Revenues by Source chart below, approximately 41.2% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 51.8% of total revenue. Charges for services contributed 6.7% and various other revenues provided 0.3% of the remaining governmental activity revenue sources.

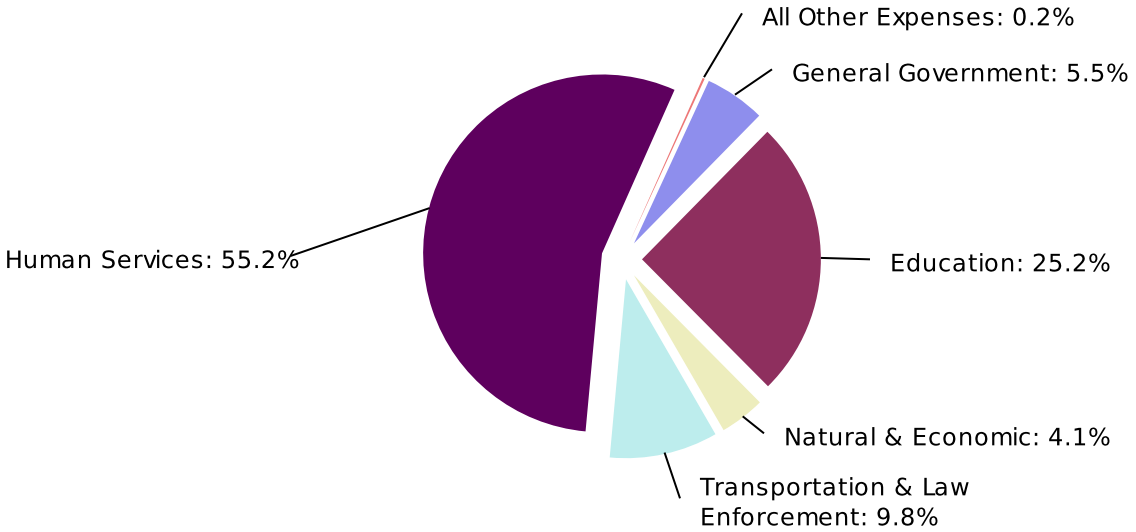
Revenues by Source



The State's governmental activities program expenses for fiscal year 2021 were $3.1 billion more than fiscal year 2020. The most notable increase is $1.2 billion in Human Services. This is mainly due to an increase for Medicaid and Other Assistance Programs.

As shown in the Expenses by Function chart below, expenses for Human Services comprised the largest portion of total governmental activities expenses at 55.2%, followed by Education at 25.2%.

Expenses by Function

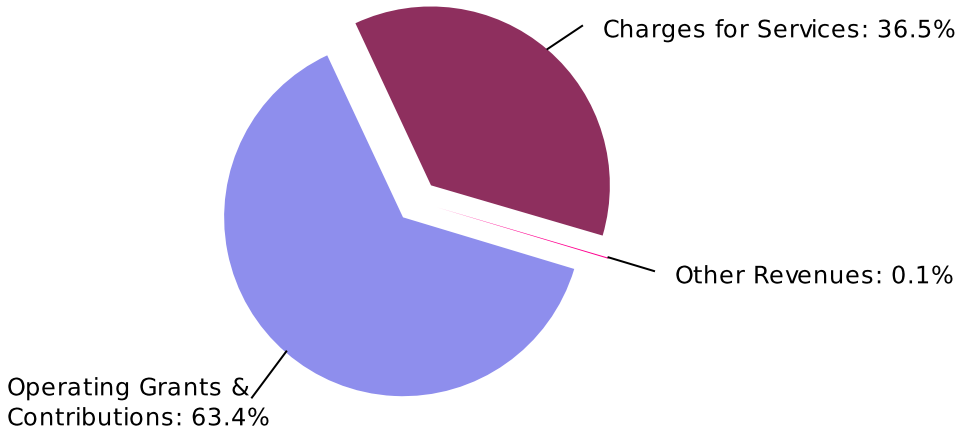


Business-Type Activities

Net position of the State's business-type activities decreased $102.5 million in fiscal year 2021, primarily caused by a decrease in cash in Unemployment Compensation. The decrease was primarily caused by an increase in unemployment benefit costs as a result of COVID-19.

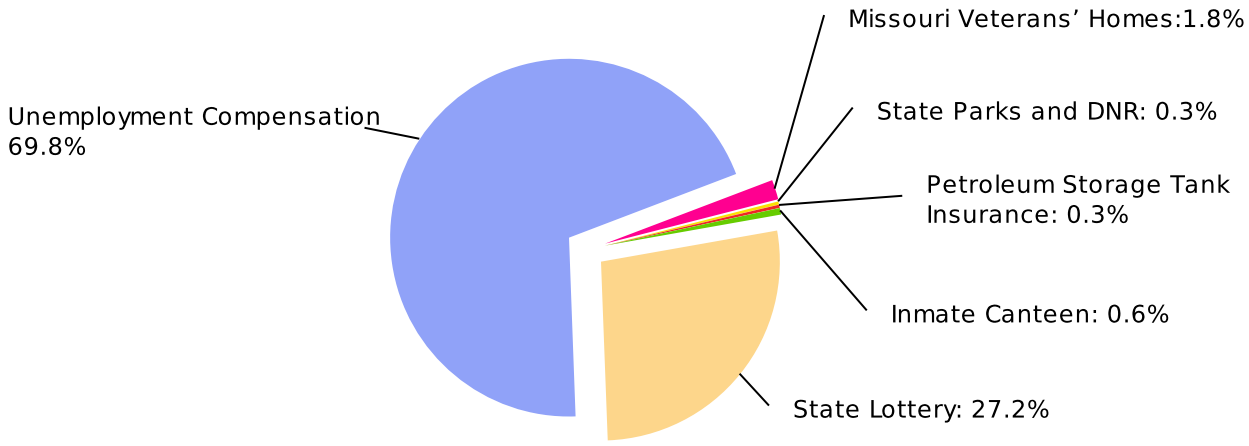
Revenues of business-type activities totaled $5.2 billion. As shown in the Revenues by Source chart below, 36.5% of the revenues came from charges for services. Operating grants and contributions provided 63.4% of the total revenues and all other revenues provided 0.1%.

Revenues by Source



Expenses of business-type activities totaled $5.3 billion. As shown in the Expenses by Fund chart below, Unemployment Compensation makes up the largest portion with 69.8% of total business-type expenses. State Lottery comes in second at 27.2%, followed by Missouri Veterans' Homes at 1.8%, Inmate Canteen at 0.6%, Petroleum Storage Tank Insurance at 0.3%, and State Parks and DNR at 0.3%.

Expenses by Fund



FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2021, the State's governmental funds reported combined ending fund balances of $10.0 billion. Approximately 61.4% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is nonspendable and restricted to indicate that it is not available for new spending because it has already been allocated for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Funds	Total
Nonspendable	$ 173,918	$ 124	$ 228	$ 41,855	$ 71,869	$ 287,994
Restricted	1,371,960	366,863	195,324	1,184,448	457,445	3,576,040
Committed	611,350	2,433	2,063,098	—	528,856	3,205,737
Assigned	144,642	32,979	108,731	—	267,406	553,758
Unassigned	2,396,068	—	—	—	—	2,396,068
Total	$ 4,697,938	$ 402,399	$ 2,367,381	$ 1,226,303	$ 1,325,576	$ 10,019,597

The General Fund is the chief operating fund of the State. At the end of fiscal year 2021, the State's General Fund reported a total fund balance of $4.7 billion, an increase of $2.2 billion from fiscal year 2020. In fiscal year 2020, the State extended the deadline for filing income tax returns from April 15 to July 15 causing a delay in income tax filings. As a result, fiscal year 2021 cash and investments increased while accounts receivable and deferred inflows of resources related to unavailable revenues decreased by a total of $533.3 million. Additionally, the unearned revenue decreased by $1.7 billion, the majority of which was related to the State's spending of the Coronavirus Relief Funds received in fiscal year 2020. As of June 30, 2021, $149.2 million of Coronavirus Relief Funds remain in unearned revenue, which represents the amount unspent at the end of the fiscal year.

The Public Education Fund provides general and special education services to the children of the State and other related functions, such as library services and student loans. Fund balance ended the year with a balance of $402.4 million, an increase of $147.4 million or 57.8% from the previous fiscal year. This is mainly due to an increase in investments of $68.2 million and an increase in due from other funds of $49.3 million. The due from other funds increased because there were more lottery sales in fiscal year 2021 than in 2020 and the money had not been deposited into the Public Education Fund by the end of the fiscal year. Additionally, The Secretary of State Securities Division recovered a $6.2 million settlement for Missouri investors involved in alternative investments of principally unsecured and unregistered companies at the cost of tens of thousands of dollars in undisclosed commissions and fees.

The Conservation and Environmental Protection Fund provides the preservation of the State's wildlife and environment. At the end of fiscal year 2021, the fund balance was $2.4 billion, an increase of $177.0 million from fiscal year 2020. Cash and cash equivalents and investments increased $81.1 million while loans receivable increased $121.4 million. This is primarily due to a refinancing of Clean Water and Drinking Water State Revolving Fund bonds. This transaction reduced the debt service and increased the loan receivable.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Total fund balance increased $276.1 million from fiscal year 2020. Revenues totaled $1.6 billion while expenditures totaled $1.9 billion. Total revenues increased by $235.9 million from fiscal year 2020, mainly due to increases in Contributions and Intergovernmental from federal grants revenue, attributable to receiving funding from the Highway Infrastructure Programs - Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) passed by Congress in December 2020.

Proprietary Funds:

The State has three major proprietary funds: State Lottery, Unemployment Compensation, and Missouri Veterans' Homes Fund. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own. The Missouri Veterans' Homes Fund accounts for fees to provide services for persons confined to one of the veterans' homes. The fund pays for the maintenance, use, or benefit of any of these institutions.

The State Lottery Fund's net position decreased by $2.6 million in fiscal year 2021, due mainly to fluctuation in market yields, which increase or reduce the unrealized gain on investments. Total operating revenues increased by 19.8%, while operating expenses increased by 18.8% in fiscal year 2021. Prize expense increased by $203.5 million, while ticket sales increased by $301.6 million. The sales increase was the result of an increase in Scratchers sales by $180.5 million, or 17.4%, an increase in Draw Game sales by $74.6 million, or 20.3%, and an increase in Pull-Tab sales by $43.7 million, or 39.9%, due to additional machine placements (434 dispensers at June 30, 2021 compared to 332 at June 30, 2020) and a full 52 weeks of sales during fiscal year 2021.

The Unemployment Compensation Fund's net position declined by $89.2 million during fiscal year 2021. This is mainly due to a decrease in cash of $62.0 million and a decrease in accounts receivable of $28.3 million. The decrease in accounts receivable is due to a declining amount of benefits paid during fiscal year 2021, and therefore a decline in amounts due to Missouri from other states at the end of the fiscal year. However, the decrease in cash is mainly due to more benefits continuing to be paid than the average amount paid prior to the pandemic.

The Missouri Veterans' Homes Fund's net position decreased by $12.8 million, or 9.9% in fiscal year 2021, primarily due to a 28.1% decrease in contributions and intergovernmental revenue from the previous fiscal year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature, and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted amounts, and increases to estimated appropriations, which occur during the fiscal year.

Budgeted charges to appropriations for fiscal year 2021 from the General Fund were $38.1 billion original budget and $41.3 billion final budget. Actual spending was $29.1 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year, but the expenditures may occur over several years.
- Capital improvement appropriations were restricted during the budget process.

Budgeted revenues/transfers in for fiscal year 2021 for the General Fund were $41.1 billion original budget and $41.5 billion final budget. Actual revenue/transfers in was $30.4 billion. Due to COVID-19 and the uncertainty of federal support, larger than normal appropriations were passed to grant exceptional flexibility and ensure government responsiveness.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 143 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2021, was $34.2 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure.

Capital Assets of the State include (in thousands):

	Governmental Activities	Business-Type Activities	Total
Construction in Progress	$ 269,798	$ 2,129	$ 271,927
Software in Progress	110,092	—	110,092
Infrastructure in Progress	1,940,445	—	1,940,445
Land	3,087,366	32,668	3,120,034
Permanent Easements	10,033	—	10,033
Land Improvements	243,855	51,722	295,577
Temporary Easements	3,033	50	3,083
Buildings and Improvements	3,741,768	59,678	3,801,446
Equipment	1,450,863	55,974	1,506,837
Software	303,644	771	304,415
Trademarks	17	—	17
Infrastructure	52,844,177	—	52,844,177
Subtotal	64,005,091	202,992	64,208,083
Less Accumulated Depreciation/ Amortization	(29,945,730)	(87,474)	(30,033,204)
Total Capital Assets, Net	$ 34,059,361	$ 115,518	$ 34,174,879

Additional information on capital assets can be found in *Note 5* of this report.

Debt Administration:

At the end of fiscal year 2021, the primary government had total general obligation and other bonded debt outstanding of $2.2 billion. Of this amount, $28.7 million comprises debt backed by the full faith and credit of the government. The State had an additional $20.4 million of financed purchases from direct borrowings obligation outstanding.

Principal amounts retired or refunded in fiscal year 2021 were $15.9 million for general obligation bonds, $472.2 million for other bonds, and $16.1 million for direct borrowings.

The State of Missouri is proud to have maintained a Triple-A credit rating since 1989 from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

Outstanding Bonds Payable Financed Purchase Obligation of the State include (in thousands):

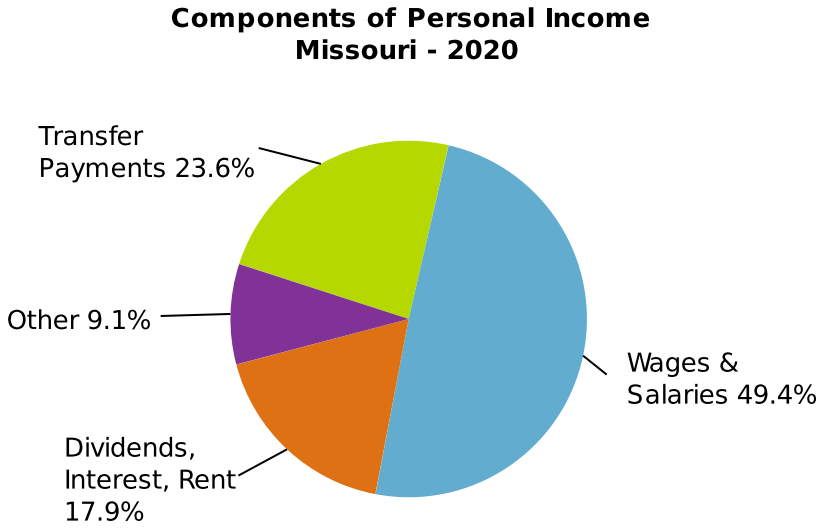
	Governmental Activities	Component Units	Total
General Obligation Bonds	$ 28,650	$ —	$ 28,650
Other Bonds	2,164,800	2,148,139	4,312,939
Direct Placements	—	152,387	152,387
Financed Purchases from Direct Borrowings	20,429	9,229	29,658
Total	$ 2,213,879	$ 2,309,755	$ 4,523,634

Additional information on long-term debt can be found in *Notes 10, 11, and 12* of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

As a major manufacturing, financial, and agricultural state, Missouri's economic health is tied closely to that of the nation. Missouri's personal income, which directly impacts individual income tax and sales tax, increased 5.4% in 2020. Missouri's employment stood at 2.8 million in June 2021, about 5.0% above June 2020. The State's seasonally adjusted unemployment rate registered at 4.2% in July 2021, compared to 6.8% one year earlier. The national rate was 5.4% in July 2021.

Since 2013, personal incomes have increased, on average, 3.2% annually for the State and 4.0% for the nation. The average income of Missouri citizen was $51,177 in 2020, which was lower than the national average of $59,729. Missouri's per capita personal income grew 5.2% compared to national growth in per capita income of 5.8% from 2019 to 2020. While the State's per capita income is lower than the national average, so is the cost of living. Missouri is among the most affordable states as it had the sixth lowest cost of living in the United States in the first quarter of 2021. The below graph depicts the components of personal income, with transfer payments (such as social security, Medicare, etc.) comprising 23.6% of the State's total personal income, due in part to the State's aging population and transfer payments reflect new government relief payments provided by the CARES Act of 2020.



Source: U.S. Bureau of Economic Analysis 2020

The State of Missouri's net general revenue collections in fiscal year 2021 were $11.2 billion, a 25.8% increase from fiscal year 2020 collections. This increase is primarily due to the shifting of the due date for state income taxes from April 15 to July 15 which resulted in a significant amount of fiscal year 2020 revenues being pushed into fiscal year 2021.

The State's economic outlook for Fiscal Year 2022 anticipates continued improvement in employment and wages, while consumption is expected to slow as federal stimulus wanes. Since Fiscal Year 2021 finished significantly above forecast, the Governor has begun Fiscal Year 2022 with no restrictions in place on general revenue spending. However, the Governor may restrict spending during the fiscal year if necessary.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

*The **Governmental Funds** focus on current financial resources.*

Governmental Fund Financial Statements

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education - Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection - Provides for the preservation of the State's wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund - Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements for non-major funds as part of Supplementary Information.

STATE OF MISSOURI
RECONCILIATION OF THE BALANCE SHEET OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION
June 30, 2021
(In Thousands of Dollars)

Total Fund Balances - Governmental Funds		$ 10,019,597
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental funds are not financial resources and are not reported in the funds. These assets consist of (Note 5):		
Construction in Progress	269,760	
Software in Progress	107,692	
Infrastructure in Progress	1,940,445	
Land	3,079,032	
Permanent Easements	10,033	
Land Improvements	240,263	
Temporary Easements	3,033	
Buildings and Improvements	3,246,773	
Equipment	1,307,644	
Software	257,521	
Trademarks	17	
Infrastructure	52,844,177	
Accumulated Depreciation/Amortization	(29,526,910)	
		33,779,480
Deferred inflows of resources related to the State's revenues that will be collected after year-end, but are not available soon enough to pay for the current period's expenditures are deferred in the funds.		1,536,075
Deferred outflows of resources related to pensions and OPEB (Other Postemployment Benefits) are applicable to future reporting periods and therefore, not reported in the funds.		1,614,227
Deferred outflows of resources related to asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.		792
Deferred inflows of resources related to pensions and OPEB are applicable to future reporting periods and therefore, not reported in the funds.		(409,804)
Deferred outflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.		17,106
Deferred inflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.		(2,383)
Some liabilities are not due and payable in the current period and therefore, not reported in the funds. Those liabilities consist of (Note 10):		
Due to Other Entities	(812)	
General Obligation and Other Bonds Payable	(2,193,450)	
Unamortized Bond Premium	(117,353)	
Accrued Interest on Bonds	(20,254)	
Obligation under Financed Purchases	(11,545)	
Obligation under Capital Lease	(16,182)	
Pollution Remediation	(48,134)	
Asset Retirement Obligations	(1,799)	
Compensated Absences	(186,238)	
Claims Liability	(22,079)	
Contingent Liabilities	(2,287,138)	
Net Other Postemployment Benefit Obligation	(3,167,645)	
Net Pension Liability	(7,148,683)	
		(15,221,312)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities are included in governmental activities in the Statement of Net Position.		428,285
Net Position of Governmental Activities		$ 31,762,063

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

STATE OF MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES IN GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2021
(In Thousands of Dollars)

Net Change in Fund Balances - Total Governmental Funds		$ 3,281,739
Amounts reported for governmental activities in the Statement of Activities are different because:		
Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement.		87,611
Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of $1,151,062 , exceeds depreciation/amortization of $732,245 in the current period.		418,817
In the Statement of Activities only the gain/loss on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sales increase financial resources. Thus the change in net position differs from the change in governmental fund balance by the net book value of the assets sold.		(12,751)
The net effect of the donation of capital assets increased net position.		55
Deferred inflows do not provide current financial resources and are not recognized as revenues until available in governmental funds.		(93,924)
Pension and OPEB (Other Postemployment Benefits) contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability and OPEB liability are measured a year before the report date. Pension expense and OPEB expense, which are the change in the net pension liability and the net change in OPEB liablity, adjusted for changes in deferred outflows and inflows of resources related to pensions and OPEB, is reported in the Statement of Activities.		
Pension Contributions		614,699
Pension Expense		(997,932)
OPEB Contributions		93,962
OPEB Expense		(168,121)
Deferred outflows of resources related to deferred charges on asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.		(29)
Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Position (Note 10):		
Bonds Issued	(172,850)	
Bond Premiums and Refunding Costs	(33,022)	
Bonds Retired	484,580	
Financed Purchases Issued	(9,272)	
Financed Purchase Payments	5,960	
Capital Lease Payments	1,574	
		276,970
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, not reported as expenditures in governmental funds (Note 10):		
Amortization of Bond Premium and Refunding Costs	31,126	
Decrease in Accrued Interest	3,349	
Decrease in Pollution Remediation	130	
Increase in Asset Retirement Obligations	(7)	
Increase in Due to Other Entities	(28)	
Increase in Compensated Absences	(942)	
Increase in Contingent Liabilities	(85,305)	
Decrease in Claims Liability	4,105	
		(47,572)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of internal service funds are reported with governmental activities.		63,059
Change in Net Position of Governmental Activities		$ 3,516,583

The notes to the financial statements are an integral part of this statement.

*The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.*

Proprietary Fund Financial Statements

Major Funds

State Lottery - Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation - Accounts for contributions and payments collected under the provisions of the "Unemployment Compensation Law" to pay benefits.

Missouri Veterans' Homes - Accounts for fees to provide services for persons confined to one of the veterans' homes.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

Note 1 - Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14, *The Financial Reporting Entity,* for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39, *Determining Whether Certain Entities are Component Units,* added a requirement to include all entities whose relationship with the State would make it misleading to exclude it. Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34,* improves financial reporting by amending GASB Statement No. 14, *The Financial Reporting Entity,* and Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments,* in blending component units: 1) if there is a financial benefit or burden relationship with the primary government; 2) management of the primary government has operational responsibility for the component unit's activities; and 3) if the total outstanding debt is expected to be repaid entirely or almost entirely with the resources of the primary government. GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14,* requires component units to be blended if they are incorporated as not-for-profit corporations and the primary government is the sole corporate member.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Governmental Funds:

Board of Fund Commissioners – The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

Board of Private Investigator and Private Fire Investigator Examiners – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators and private fire investigators in Missouri. The seven member board shall consist of three private investigators, two private fire investigators, and two public members, appointed by the Governor. The Board is appointed by the primary government. It is therefore considered a blended special revenue fund and shown in the financial statements as part of the primary government.

Note 1 - Significant Accounting Policies (cont.)

Coordinating Board for Early Childhood – The Board was created by state law within the Missouri Children's Services Commission. The Board's purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri's children from birth through age five. The 17 member Board is composed of representatives from the Governor's Office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. The majority of the board members are appointed by the primary government and, therefore, separate financial statements are not required for the Board.

Internal Service Funds:

Board of Public Buildings – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds and pay the costs of operations.

Missouri State Employee's Insurance Plan – The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Consolidated Health Care Plan (MCHCP) – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; three members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Commerce and Insurance; the Commissioner of Administration; two members of the system who are current employees; and one member of the system who is a retiree. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

Note 1 - Significant Accounting Policies (cont.)

MoDOT/MSHP Medical and Life Insurance Plan – The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

Pension (and other employee benefit) trust funds:

Missouri State Employees' Retirement System (MOSERS) – The System was created by state law and provides retirement, survivor, and disability benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. The MOSERS Board of Trustees also oversees the State's Deferred Compensation Plan which is administered by a third party. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) – The System provides retirement, survivor, and disability benefits to qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the Missouri State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by the Missouri State Highway Patrol employees, one retired member elected by retired MoDOT employees, and one retired member elected by retired Missouri State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and
Highway Patrol Employees' Retirement System
P.O. Box 1930
Jefferson City, Missouri 65102-1930

Note 1 - Significant Accounting Policies (cont.)

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored post-employment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net position and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan – The Missouri State Public Employees' Deferred Compensation Plan is administered by ICMA-RC and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes $25, $30, or $35 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. However, due to budget constraints, the State's contribution amount was suspended in March 2010. Copies of financial statements for both Plans may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
Jefferson City, Missouri 65102-0209

Component Units (Discretely Presented):

Discretely presented component units are legally separate entities for which the State is financially accountable. The financial data for these entities is reported separately from the financial data of the primary government.

Note 1 - Significant Accounting Policies (cont.)

Major

College and Universities — The Coordinating Board for Higher Education has certain responsibilities for these institutions and they receive State support. Following are the public college and universities included in the financial statements:

Harris-Stowe State University
3026 Laclede Avenue
St. Louis, Missouri 63103

Lincoln University
820 Chestnut Street
Jefferson City, Missouri 65102

Missouri Southern State University
3950 East Newman Road
Joplin, Missouri 64801-1595

Missouri State University
901 South National Avenue, Room 119
Springfield, Missouri 65897

Missouri Western State University
4525 Downs Drive
St. Joseph, Missouri 64507

Northwest Missouri State University
107 Administration Building
800 University Drive
Maryville, Missouri 64468-6001

Southeast Missouri State University
One University Plaza, Mail Stop 3200
Cape Girardeau, Missouri 63701

State Technical College of Missouri
One Technology Drive
Linn, Missouri 65051

Truman State University
Business Office
100 East Normal
Kirksville, Missouri 63501

University of Central Missouri
316 Administration Building
Warrensburg, Missouri 64093

University of Missouri System
118 University Hall
Columbia, Missouri 65211

Non-Major

Missouri Development Finance Board — The Board was created by state law as an independent, self-supporting, body corporate and politic to promote economic development of the State and was created within the Department of Economic Development. The Board is empowered to issue taxable, tax-exempt, and public purpose infrastructure industrial revenue bonds or notes; provide loans or loan guarantees to eligible businesses; provide loans and grants to political subdivisions to fund public infrastructure improvements; and issue tax credits against certain state income taxes in exchange for contributions made to the Board. The twelve member board is made up of the Lieutenant Governor and the Directors of the Department of Economic Development, the Department of Natural Resources, and the Department of Agriculture, who serve as ex-officio voting members, and eight members appointed by the Governor and confirmed by the Senate. Copies of the Board's financial statements may be requested from:

Missouri Development Finance Board
Governor Office Building
200 Madison Street, Suite 1000
Jefferson City, Missouri 65102

Note 1 - Significant Accounting Policies (cont.)

Missouri Agricultural and Small Business Development Authority — The Authority was created by state law and is authorized to issue bonds to finance agricultural and small business development loans for property acquisitions/renovations and pollution control facilities throughout the State. If for any reason, the Authority ceases to exist, all rights and properties of the Authority will pass to the State. Its governing body consists of seven members appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's financial statements may be requested from:

Missouri Agricultural and Small
Business Development Authority
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

Missouri Transportation Finance Corporation — The Corporation is a not-for-profit corporation organized under the Missouri Nonprofit Corporation Law. The Corporation is financed by federal highway and transit dollars, plus state and local matching funds. It is authorized to issue revenue bonds. The Corporation provides loans to assist public and private entities to fund highway and transportation projects throughout the State. Missouri Transportation Finance Corporation's board determines which applicants are extended loans. Copies of the Corporation's financial statements may be requested from:

Missouri Transportation Finance
Corporation
P.O. Box 270
105 West Capitol Avenue
Jefferson City, Missouri 65102

Missouri Wine and Grape Board — The Board was created by state law to further growth and development of the grape growing industry in Missouri and foster the expansion of the grape market for Missouri grapes. The eleven member board consists of seven members representing the grape and wine industry, food service industry, or media marketing industry. The four other members include the director of the Department of Agriculture and the presidents of the Missouri Grape Growers Association, the Missouri Vintners Association, and the Missouri Wine Marketing and Research Council. Copies of the Board's annual report may be requested from:

Missouri Wine and Grape Board
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

State Environmental Improvement and Energy Resources Authority — The Authority was created by state law and is authorized to finance, acquire, construct, and equip projects to reduce, prevent, and control pollution and develop the energy resources of the State. The Authority is governed by a five-member board appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's annual report may be requested from:

State Environmental Improvement and
Energy Resources Authority
425 Madison Street
Jefferson City, Missouri 65101

Note 1 - Significant Accounting Policies (cont.)

Related Organizations

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

Missouri Health and Educational Facilities Authority –-finances health and educational facilities.

Missouri Higher Education Loan Authority — provides a secondary market for loans made under the Federal Family Education Loan Program.

Missouri Housing Development Commission — finances the purchase, development or rehabilitation of affordable housing and funds housing assistance.

Missouri Technology Corporation — promotes the modernization of businesses through the development of science and technology applications.

Missouri Public Entity Risk Management Fund — provides liability protection to participating public entities, their officials, and employees.

Jackson County Sports Complex Authority — responsible for construction, operation, and financing of the Jackson County Sports Complex.

Kansas City Regional Sports Complex Authority — responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

St. Charles County Convention and Sports Facility Authority — responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

Missouri Cotton Growers' Organization — organized for boll weevil eradication.

Universal Service Board — organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

Interstate Commission for Adult Offender Supervision — responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

Board of Trustees of the Missouri Mesothelioma Risk Management Fund — provides coverage of liabilities for participating employers relating to mesothelioma awards.

P-20 Council — organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

Missouri Propane Safety Commission — responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri.

Missouri Family Trust Board of Trustees — provides trust services for persons with disabilities.

Note 1 - Significant Accounting Policies (cont.)

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

Note 1 - Significant Accounting Policies (cont.)

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, private-purpose trust, and custodial fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets, deferred outflows, liabilities, and deferred inflows associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

General Fund – accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Major revenues include contributions and taxes.

Public Education – provides general and special education needs of the State and other related areas such as library services and student loans. Major revenues include contributions and taxes.

Conservation and Environmental Protection – provides for the preservation of the State's wildlife and environment. Major revenues include contributions, taxes and licenses, fees, and permits.

Missouri Road Fund – accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Major revenues are from contributions.

State Lottery – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes. Major revenues are from sales of lottery tickets.

Unemployment Compensation – accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits. Major revenues include federal and employer contributions.

Note 1 - Significant Accounting Policies (cont.)

Missouri Veterans' Homes - accounts for fees to provide services for persons confined to one of the veterans' homes. Major revenues are from contributions and fees from services provided.

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

Proprietary Funds include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

Fiduciary Funds include pension (and other employee benefit) trust funds, private-purpose trust funds, and custodial funds. These funds account for assets held by the State in a trustee or custodial capacity for individuals, other governments, and other entities.

Discretely Presented Component Units:

Major

College and Universities account for moneys from student tuition and fees, federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and other revenue sources. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of 92 days or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. This definition excludes Fiduciary funds. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3)*.

Note 1 - Significant Accounting Policies (cont.)

E. Investments

These are long-term investments with an original maturity greater than 92 days, which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. Repurchase agreements held by the State Treasurer's Office are reported at amortized cost. The Missouri State Public Employees' Deferred Compensation Plan and the Missouri State Public Employees' Deferred Compensation Incentive Plan report their Stable Value Funds at contract value. The Missouri State Employees' Retirement System reports their cash equivalents at cost plus accrued interest. All other investments of the State are reported at fair value.

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and custodial funds.

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statement of Net Position. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15)*. These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Position. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Position. Interfund receivables/payables between the primary government and the component units or the fiduciary funds are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

G. Advances to/from Other Funds

Long-term interfund receivables are classified as "advances to other funds" or "advances to primary government/component units" on the Balance Sheet and Statement of Net Position. Long-term interfund payables are classified as "advances from other funds" or "advances from primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15)*. These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

Note 1 - Significant Accounting Policies (cont.)

I. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated acquisition value at the time received. Capital assets acquired through lease agreements and financed purchases are capitalized at the inception of the agreement (see *Notes 5, 6, and 11)*.

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – $15,000, buildings and improvements – $15,000, software and trademarks – $5,000, and equipment – $1,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 2 to 5 years, software – 3 to 5 years, trademarks – 10 years, and infrastructure – 12 to 50 years. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, equipment – 5 to 15 years, and software – 3 to 5 years.

J. Deferred Outflow of Resources and Deferred Inflow of Resources

In addition to assets, the Statement of Net Position/Balance Sheet may report a separate line item for deferred outflows of resources. Deferred outflows of resources consist of the decrease of net position by the State that is applicable to a future reporting period and will not be recognized as outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position/Balance Sheet may report a separate line item for deferred inflows of resources. Deferred inflows of resources consist of the increase of net position by the State that is applicable to a future reporting period and will not be recognized as inflow of resources (revenue) until then.

K. Unearned Revenues

Unearned revenues are amounts collected in advance of the year in which earned.

Note 1 - Significant Accounting Policies (cont.)

L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 10)*.

2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 11)*.

3. Outstanding principal for bonds issued by the Board of Public Buildings, bonds issued by the Health and Educational Facilities Authority, the Regional Convention and Sports Complex Authority, the Missouri Development Finance Board, and the State Road Bonds issued by the Missouri Highways and Transportation Commission. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 11)*.

4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.

   In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 10)*.

5. Obligations under leases and financed purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11)*.

6. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 22)*.

7. Asset Retirement Obligations are measured based on the best estimate of the current value of outlays expected to be incurred. These liabilities include all legally enforceable amounts associated with the future retirement of a tangible capital asset. Liabilities and expenditures are recognized for goods and services used for asset retirement activities upon receipt of those goods and services (see *Note 23*).

Note 1 - Significant Accounting Policies (cont.)

8. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds, but are recorded as expenditures when paid (see *Note 10)*.

   Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

   Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State. However, unused sick leave may be converted to additional credited service upon retirement (usable only for benefit computation, not eligibility).

9. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred, but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 21* and *24*).

10. The State provides postemployment health care (OPEB) and life insurance benefits to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT/ MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer defined benefit plan, while MHPML and CEIP are single-employer defined benefit plans. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. The University of Missouri's OPEB plan is a single-employer defined benefit plan for all qualified employees.

    For the purposes of measuring the total/net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position and additions to/deductions from have been recognized on the same basis as they are reported by the plans. Employer contributions are recognized as revenue and reported when due and payable. Benefits are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value (see *Note 8)*.

11. The State has two major retirement systems which cover substantially all State employees and a retirement plan for University of Missouri employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple employer defined benefit public employee retirement plan administered by MOSERS. MOSERS also administers the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employee retirement plan. The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees.

    For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value (see *Note 7)*.

Note 1 - Significant Accounting Policies (cont.)

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

M. Net Position and Fund Balance

The difference between fund assets, deferred outflows, liabilities, and deferred inflows is reported as "Net Position" on the government-wide, proprietary, fiduciary, and component unit fund statements and "Fund Balance" on the governmental fund financial statements.

Net Position is reported in three categories:

Net Investment in Capital Assets – An account used to segregate the portion of net position attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributed to acquisition, construction, or improvement of those assets.

Restricted Net Position – An account used to segregate the portion of net position that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2021, net position restricted by enabling legislation equaled $750,577,000 for governmental activities.

Unrestricted Net Position – An account used to segregate the portion of net position that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

Governmental Fund Balance Classifications

The State's fund balances are classified as:

Nonspendable – Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

Restricted – Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature. Committed amounts cannot be used for other purposes unless the General Assembly passes legislation to remove the restraints.

Assigned – Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed. The constraint for assigned fund balance is established by the Revised Statutes of the State of Missouri.

Unassigned – Amounts that do not meet the criteria of any of the classifications listed above.

Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

Note 1 - Significant Accounting Policies (cont.)

N. Interfund Transactions

During the fiscal year, the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. Interfund transactions consist of these three types:

1. Transactions that would be treated as revenues or expenditures/expenses, if they involved organizations external to the State, are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered.

2. Transactions that reimburse another fund for an expense reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.

3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 16)*. These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the governmental activities are eliminated at the Government-Wide Statement of Activities.

O. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

Property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2- Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2021:

- GASB Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments and how those activities should be reported. This statement changes the presentation of Fiduciary activities, located on the following statements: Statement of Fiduciary Net Position, Statement of Changes in Fiduciary Net Position, Combining Statement of Fiduciary Net Position Custodial Funds, and the Combining Statement of Change in Fiduciary Net Position Custodial Fund.

- GASB Statement No. 90, *Majority Equity Interests-an amendment of GASB Statements No. 14 and No. 61*, which defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. It also provides guidance for reporting a component unit if a government acquires a 100 percent equity interest in that component unit. This statement has no impact on the State's ACFR.

- GASB Statement No. 93, *Replacement of Interbank Offered Rates*, which establishes accounting and financial reporting requirements related to the replacement of the London Interbank Offered Rate (LIBOR) in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. This statement has no impact on the State's ACFR.

The State of Missouri has reclassified 22 funds for the fiscal year ended June 30, 2021. These funds were reclassified due to the implementation of GASB Statement No. 84, *Fiduciary Activities.*

Note 3 - Deposits and Investments

The State Treasurer's Office maintains a cash and short-term investment pool that is used by substantially all state funds of the primary government. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2021.

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer's Office to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% in excess of FDIC coverage with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

Primary Government

At June 30, 2021, the bank balance of the primary government's deposits was $1,450,658,000. Of the bank amount, $13,936,000 was exposed to custodial credit risk by being uninsured and collateralized with securities held by the pledging financial institutions, $605,611,000 was held by the U.S. Treasury, and the remainder was not exposed to custodial risk.

Note 3 - Deposits and Investments (cont.)

Fiduciary

At June 30, 2021, the bank balance of the deposits of the fiduciary funds was $90,150,000.

Component Units

Information on the component units' deposits is available within their individual financial statements.

B. Investments

Statutes authorize the State Treasurer's Office to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury, or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2021.

The State Treasurer's Office minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer's Office also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the State Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer's Office minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, Wells Fargo Bank, National Association, or at one of the State Treasurer's Office approved collateral custodians.

Primary Government

At June 30, 2021, the reported amount of the primary government's investments was $8,255,089,000. Of this amount, $196,069,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

Fiduciary

At June 30, 2021, the reported amount of the fiduciary funds investments was $19,542,386,000.

Component Units

Information on the component units investments is available within their individual financial statements.

Note 3 - Deposits and Investments (cont.)

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. Statutes also authorize investment of funds not held by the State Treasurer's Office. The externally-held internal service funds, the custodial and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, fixed income securities, mutual funds, and investments in limited partnerships. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity, or in certain instances, a weighted average maturity in years. The State Treasurer's Office minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 3.5 years, and holding at least 30% of the portfolio's total market value in securities with a maturity of 12 months or less.

	Maturity in Years					
	Less than 1	1-5	6-10	More than 10	No Maturity	Total Fair Value *

Total Investments	$ 7,024,960	$ 8,383,449	$ 611,967	$ 2,233,460	$ 9,543,639	$ 27,797,475

*The State Treasurer's Office reports their repurchase agreements and certificates of deposit in the amount of $2,159,000 at amortized costs. The Missouri State Public Employees Deferred Compensation Plan and the Missouri State Public Employees Deferred Compensation Incentive Plan reports their Stable Value Funds in the amounts of $547,000 and $347,000 respectively, at contract value. The Missouri State Employees' Retirement System reports their cash equivalents in the amount of $760,000, at cost plus accrued interest.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer's Office from investing more than 15% of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 10% of the total portfolio per issuer and no more than 15% of the total portfolio may be invested in repurchase agreements with a single counterparty. Addendum C to the investment policy temporarily increases this limit to 30% of the total portfolio through December 31, 2021. Addendum A to the investment policy limits the total amount of linked deposits a financial institution may receive to 20% of the statutory cap set forth in Section 30.753.1, RSMo. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2021, the State did not have any instances of noncompliance with these requirements and policies.

Note 3 - Deposits and Investments (cont.)

Fair Value Measurement

The State of Missouri categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurements and Application.* The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

- Level 1 – Unadjusted quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are unobservable.
- Level 3 – Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lower level input that is significant to the valuation. The State's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The State Treasurer's Office uses the market approach for the determination of the fair value of investments, except for repurchase agreements and certificates of deposit, which are measured at amortized costs.

Debt, equities, and investment derivatives classified in level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Debt securities and liabilities classified in level 2 have non-proprietary information that was readily available to market participants from multiple independent sources, which are known to be actively involved in the market. Pricing inputs may include market quotations, yields, maturities, call features, and ratings. A portion of the derivative securities classified in level 2 are securities whose values are derived daily from associated traded securities. Other investments listed as level 2 include debt securities where an independent pricing evaluator had direct observable information, including: trading volume, multiple sources of market data and benchmark spreads. FX forwards are included due to the valuation coming from observable forward rates on the underlying currencies. The equity index swap is included because valuation inputs include an observable interest rate and the underlying index.

Investments listed as level 3 include debt securities where an independent pricing evaluator did not have direct observable information for comparable securities. Significant inputs used in the valuation are not available aside from the evaluator providing the price. Direct investments in private equity, real estate, credit, and real assets are included because the valuation techniques utilize discounted cash flows or other non-observable market information.

The following is a description of valuation methodologies used for assets recorded at fair value.

Note 3 - Deposits and Investments (cont.)

[1] Long/short equity hedge funds – This value is 100% from MPERS. Consisting of one fund, this strategy invests in both long and short in Asia Pacific equity securities, with a goal of adding growth and minimizing market exposure. Due to contractual lock-up restrictions, the value of these investments is eligible for redemption in the next six months.

[2] Equity market neutral hedge fund – This value is 100% from MOSERS. This consists of one fund whereby the strategy invests in both long and short in U.S. and global equity securities, with the goal of having little to no net market exposure. This investment is valued at NAV, is redeemable quarterly and is not subject to lockup restrictions.

[3] Event driven hedge funds – This value is 92.7% from MOSERS (with a redemption period of 60 days) and 7.3% from MPERS (with a redemption period of 90 days). Consisting of one fund for MOSERS and one fund for MPERS, this strategy seeks to gain an advantage from pricing inefficiencies that may occur in the onset or aftermath of a corporate action or related event. This investment is valued at NAV, redeemable semi-annually, and is not subject to lockup restrictions for MOSERS. Due to contractual lock-up restrictions, the value of this investment is eligible for redemption in the next four months for MPERS.

[4] Fund-of-funds – This value is 100% from MOSERS. Consisting of three funds, these funds seek to provide diversification by holding a number of funds within a single fund structure. These investments are redeemable monthly, and are subject to liquidation of the underlying funds.

[5] Global asset allocation – This value is 100% from MPERS. Consisting of one fund, this strategy is highly diversified and uses fundamental research to develop systematic rules for trading positions. Due to contractual lock-up restrictions, the value of this fund is eligible for redemption in the next 35 days.

[6] Pending liquidated hedge funds – This value is 92.4% from MOSERS and 7.6% from MPERS. MOSERS has nine hedge funds that have been fully redeemed as of June 30, 2021, which are awaiting final distribution of the proceeds, which will be received upon sale of the underlying investments or upon completion of the audit of financial statements for MOSERS. MPERS has a small investment in two hedge funds that are in liquidation and have been closed, and MPERS is awaiting the sale of the final assets.

[7] Macro hedge funds – This value is 100% from MOSERS. Consisting of one fund, this strategy seeks to take advantage of macroeconomic dislocations between countries by trading a number of different markets and financial instruments. This investment is redeemable quarterly, and is not subject to lock-up restrictions.

[8] Merger arbitrage hedge fund – This value is 100% from MOSERS. Consisting of one fund, this strategy invests in the common stock of companies that are involved in publicly announced mergers and seeks to generate attractive returns while dampening volatility. This investment is valued at NAV, is redeemable monthly, and is not subject to lock-up restrictions.

[9] Multi-strategy hedge fund – This value is 96.6% from MOSERS and 3.4% from MPERS. Consisting of three funds for MOSERS and two funds for MPERS, these funds aim to pursue varying strategies in order to diversify risks and reduce volatility. These investments are redeemable monthly or quarterly, but are subject to lock-up restrictions for MOSERS. Due to contractual restrictions, the value of these investments is eligible for redemption in the next six months for MPERS.

[10] Quantitative hedge funds – This value is 100% from MOSERS. Consisting of two funds, this strategy attempts to achieve uncorrelated returns using advanced statistical methods to select securities across liquid public markets. These investments are redeemable monthly, and are not subject to lock-up restrictions.

Note 3 - Deposits and Investments (cont.)

[11]Structured credit – relative value – This value is 100% from MPERS. As of June 30, MPERS had one fund that is in liquidation in this strategy.

[12]Commingled equity funds – This value is 85.8% from MOSERS (with a redemption period of 1-10 days) and 14.2% from MPERS (with a redemption period of 0-30 days). These international equity funds (6 for MOSERS and 3 for MPERS) are considered to be commingled in nature. For MPERS, due to contractual lock-up restrictions, 65% of this capital is eligible for redemption in one month; the remaining 35% has daily liquidity.

[13]Commingled fixed income funds – This value is 100% from MOSERS. One fixed income fund is considered to be commingled in nature. This investment is valued at the NAV held at the end of the period based upon the fair value of the underlying investment.

[14]Commingled short-term investment funds – This value is 100% from MOSERS. Two short-term investment funds are considered to be commingled in nature. These investments are valued at the NAV held at the end of the period based upon the fair value of the underlying investments.

[15]MOSERS Investment Portfolio (MIP) fund – This value is 84.7% from the Deferred Compensation Plan and 15.3% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur monthly. The significant investment strategies are designed to achieve long-term total returns, comprised of capital appreciation and income. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments.

[16]Missouri target date funds – This value is 80.4% from Deferred Compensation Plan and 19.6% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur daily. The significant investment strategies of the funds are to seek the highest total return over time, consistent with the fund's asset mix. The asset allocations within these target date funds adjust automatically over time. Each fund invests more aggressively in its early years and becomes more conservative as it reaches its time horizon. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments.

[17]Private equity, real estate and timber funds – This value is 92.3% from MOSERS and 7.7% from MPERS. MOSERS' private equity portfolio consists of 38 funds with exposure to buyout funds, distressed funds, infrastructure, energy, secondary, royalty funds, and special situations. The real estate portfolio, comprised of seven funds, invests mainly in U.S. commercial real estate. The timber portfolio consists of one fund in liquidation which invests in global timberland. The fair values of the majority of these funds has been determined using net assets valued one quarter in arrears plus current quarter cash flows. These funds are not eligible for redemption. Distributions are received as underlying investments when the funds are liquidated, which, on average, can occur over the span of 5 to 10 years. MPERS invests in three core private real estate funds that are commingled in nature. Two are eligible for redemption on a quarterly basis and one on a daily basis.

The State Treasurer's Office requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The Treasurer does not have any additional policies regarding credit ratings of investments.

Note 3 - Deposits and Investments (cont.)

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

C. Securities Lending Program

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Fixed income, international equity and domestic equity securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default.

MOSERS had no securities lending activity in fiscal year 2021.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. MPERS custodial bank, Northern Trust, is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

MPERS may lend securities and receive cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. MPERS cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers are required to deliver collateral for each loan equal to: 1) 102% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities denominated in United States dollars or whose primary trading market is located in the United States, and 2) 105% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities not denominated in United States dollars or whose primary trading market was not located in the United States.

MPERS did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

MPERS and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2021, the cash collateral fund had a fair value of $117,449,000.

At June 30, 2021 and June 30, 2020, MPERS had earned $131,000 and $194,000, respectively, on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

Note 3 - Deposits and Investments (cont.)

D. Derivatives

Missouri State Employees' Retirement System:

While the Board has no formal policy specific to derivatives, Missouri State Employees' Retirement System (MOSERS), through its external investment managers, holds investments in futures contracts, swap contracts and forward foreign currency exchange. MOSERS enters into these certain derivative instruments as investments primarily to enhance the performance and reduce the volatility of its portfolio. It enters swaps and futures contracts to gain or hedge exposure to certain markets and to manage interest rate risk and enters into forward foreign currency exchange contracts primarily to hedge foreign currency exposure. For the year ended June 30, 2021, the change in fair value of the swap contracts resulted in a gain of $996 million of investment income. The change in fair value in the futures contracts resulted in a gain of $85 million of investment income. MOSERS does not anticipate additional significant market risk from the derivative arrangements. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligations as credit evaluations and credit limits are monitored by the investment managers.

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2021. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Futures Contracts:

Notional Amount	Exposure
$(125,315)	$(2,956)

Swap Contracts:

Notional Amount	Counterparty Exposure
$3,351,546	$63,588

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

MPERS has an investment policy which holds investments in future contracts, swap contracts, options contracts, and forward foreign currency exchange contracts. Derivative financial instruments involve credit risk and market risk. The notional value related to these derivative instruments are generally not recorded on the financial statements; however, the change in fair value of these instruments is incorporated in performance.

The following table (in thousands of dollars) summarizes the various contracts in MPERS portfolio as of June 30, 2021. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Type	Notional/Fair Value	Unrealized Gain (Loss)
Futures Contracts	$ 498,504	$ 73,267
Swap Contracts	159,661	16,495
Total	$ 658,165	$ 89,762

Through the use of derivatives, MPERS is exposed to risk that the counterparties involved in the contracts are unable to meet the term of their obligation. MPERS investment managers seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. MPERS anticipates the counterparties will be able to satisfy their obligations under the contracts. The associated counterparty's credit rating is an A+.

Note 3 - Deposits and Investments (cont.)

Component Units:

Information on the component units derivatives is available within their individual financial statements.

E. Assets Held in Escheat

The Unclaimed Property Division of the Missouri State Treasurer's Office holds unclaimed stocks, bonds, mutual fund positions, and other securities that have been turned over by their holders on behalf of the securities' owners. The State takes custody of these securities until the owner claims them or if unclaimed, liquidates them after 18 to 24 months. The State holds the securities in order to return them to their owners. The State does not report these securities as investments because they do not meet the Governmental Accounting Standards Board's definition of "investments". This is because the State does not hold the securities for income or profit, nor do the securities have a present service capacity for the State. A total of $29,554,000 of these unclaimed securities is shown as "Assets Held in Escheat" on the private-purpose trust funds combining statement of fiduciary net position in Unclaimed Property.

Note 4 - Governmental Fund Balance

Fund Balance Classifications by Purpose – In the basic financial statements, the fund balance classifications are presented in the aggregate. The following displays the fund balances by major purpose (in thousands of dollars):

	Nonspendable	Restricted	Committed	Assigned
General Fund				
Inventories	$ 110,483	$ —	$ —	$ —
Loans Receivable	63,435	—	—	—

A. Budget Reserve Fund

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the Governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the Governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each House. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2021, was $603,023,000.

Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2021, was as follows (in thousands of dollars):

	*Balance July 1, 2020	Increases	Decreases	Balance June 30, 2021
Governmental Activities:				
Capital Assets not being Depreciated/Amortized:				
Construction in Progress	$ 230,414	$ 137,138	$ (97,754)	$ 269,798
Software in Progress	96,038	23,747	(9,693)	110,092

*Beginning balances as of July 1, 2020 have been restated (see *Note 17)*.

Note 5 - Capital Assets (cont.)

Depreciation/amortization expense of governmental activities was charged to functions as follows (in thousands of dollars):

General Government	$ 42,730
Education	1,719
Natural and Economic Resources	21,906
Transportation and Law Enforcement	632,154
Human Services	58,230
Total	$ 756,739

Discretely Presented Component Units

The following table summarizes net capital assets reported by the discretely presented component units (in thousands of dollars):

	College and Universities	Non-Major Component Units	Total
Capital Assets not being Depreciated/Amortized:			
Construction in Progress	$ 366,428	$ 54	$ 366,482
Land	188,186	7,220	195,406
Other Non-Depreciable/Amortizable Assets	23,962	—	23,962
Total Capital Assets not being Depreciated/Amortized	578,576	7,274	585,850
Capital Assets being Depreciated/Amortized:			
Land Improvements	41,512	—	41,512
Buildings and Improvements	7,829,363	80,108	7,909,471
Equipment, Fixtures, and Books	1,700,208	1,454	1,701,662
Software	99,411	26	99,437
Infrastructure	765,541	—	765,541
Total Capital Assets being Depreciated/Amortized	10,436,035	81,588	10,517,623
Less Total Accumulated Depreciation/Amortization	(5,359,045)	(28,156)	(5,387,201)
Total Capital Assets being Depreciated/Amortized, Net	5,076,990	53,432	5,130,422
Discretely Presented Component Units – Capital Assets, Net	$ 5,655,566	$ 60,706	$ 5,716,272

Capital Asset Impairments

Multiple software in development projects were stopped in fiscal year 2021 due to cancellation, which resulted in an impairment loss of $114,000. This loss is reported as a program expense in the government-wide financial statements.

Note 6 - Leases

Capital

The State has entered into various agreements to lease land, buildings, and equipment. GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements,* requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease liability).

Capital leases for the internal service funds and college and universities are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Internal Service Funds	College and Universities
2022	$ 2,315	$ 318	$ 12,701
2023	1,903	318	12,804
2024	1,903	318	12,898
2025	1,249	121	12,814
2026	1,249	121	9,831
2027-2031	5,497	483	21,778
2032-2036	2,502	—	50
2037-2041	2,502	—	30
2042-2046	2,502	—	30
2047-2051	2,502	—	23
2052-2056	2,502	—	—
2057-2061	2,502	—	—
2062-2066	2,502	—	—
2067-2071	2,501	—	—
2072-2076	2,501	—	—
2077-2081	2,501	—	—
2082-2086	2,501	—	—
2087-2091	2,501	—	—
2092-2096	2,501	—	—
2097-2101	2,501	—	—
2102-2103	1,001	—	—
Total Minimum Lease Payments	50,138	1,679	82,959
Less Amount Representing Interest	(33,956)	(140)	(3,980)
Present Value of Net Minimum Lease Payments	$ 16,182	$ 1,539	$ 78,979

Note 6 - Leases (cont.)

The State has entered into a lease with the Missouri Development Finance Board. The State's obligation under this lease does not constitute a general obligation or other indebtedness of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued $28,995,000 of Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued $9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. In June 2013, the Board issued $21,820,000 of Leasehold Revenue Refunding Bonds Series A 2013 and $7,450,000 of Leasehold Revenue Refunding Bonds Series B 2013 for the purpose of refunding $20,805,000 of Leasehold Revenue Bonds Series 2005 and $7,100,000 of Leasehold Revenue Bonds Series 2006, respectively. The payments on these leases are subject to annual appropriation by the State legislature.

Following is a summary of the future minimum lease payments to pay interest and principal of the Leasehold Revenue Bonds (in thousands of dollars):

Fiscal Year Ending June 30	Internal Service Funds
2022	$ 2,413
2023	2,409
2024	2,407
2025	2,409
2026	2,408
2027-2031	12,030
Total Minimum Lease Payments	24,076
Less Amount Representing Interest	(3,306)
Present Value of Net Minimum Lease Payments	$ 20,770

Assets acquired through these capital lease agreements are recorded as capital assets at the lower of the present value of the minimum lease payments or the fair value at the time of acquisition. The following is the value of the property under capital lease by asset category as of June 30, 2021 (in thousands of dollars):

	Governmental Funds	Internal Service Funds	College and Universities
Land	$ —	$ —	$ 518
Buildings	29,868	39,131	34,025
Equipment	26	—	14,161
	$ 29,894	$ 39,131	$ 48,704

Note 6 - Leases (cont.)

Operating

The State has entered into various operating leases for land, buildings, and equipment. Most of these leases are classified as operating because the lease period is one year with multiple renewal options. The Department of Natural Resources (DNR) has a yearly obligation of $10,000 in fiscal year 2021 for leased property for the Katy Trail easement which is paid out of governmental funds. The obligation will continue in perpetuity. The contract conditions and amount for the easement can change with the sale of the property requiring the easement. If the property requiring the easement is sold, a new contract would be negotiated with the new property owners. Future minimum commitments due under operating leases as of June 30, 2021, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Enterprise Funds	Component Units
2022	$ 20,901	$ 455	$ 20,062
2023	2,331	455	17,966
2024	2,200	455	11,872
2025	2,115	299	6,341
2026	2,134	153	3,234
2027-2031	3,417	126	9,735
2032-2036	4	—	7,979
2037-2041	3	—	—
2042-2046	3	—	—
2047-2051	3	—	—
2052-2056	3	—	—
2057-2061	3	—	—
2062-2066	3	—	—
Total Minimum Commitments	$ 33,120	$ 1,943	$ 77,189

Expenditures for rent under operating leases for the years ended June 30, 2021 and June 30, 2020, were $29,343,000 and $28,093,000, respectively.

Note 6 - Leases (cont.)

Rental Revenue

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. The total asset value of the leased facilities and land is $116.4 million less accumulated depreciation of $39.2 million for component units. The Department of Natural Resources (DNR) has $99,000 in income from easements on DNR property. This income will be received in perpetuity. The contract conditions and amount for each individual easement can change with the sale of the property requiring the easement. If the property requiring the easement is sold, new contracts will be negotiated with the new property owners. Future minimum receivables, payable from lessor arrangements as of June 30, 2021, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Component Units
2022	$ 5,631
2023	5,008
2024	4,826
2025	4,578
2026	3,828
2027-2031	18,116
2032-2036	17,721
2037-2041	17,459
2042-2046	8,244
2047-2051	3,881
2052-2056	2,125
2057-2061	2,125
2062-2066	1,287
2067-2071	497
Total Minimum Receivables	$ 95,326

Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all State employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). MOSERS is comprised of the Missouri State Employees' Plan (MSEP), a cost-sharing multiple-employer, defined benefit public employee retirement plan and the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employees' retirement plan.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 104.010 and 104.312-104.1215, RSMo.

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 1, 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

Note 7 - Retirement Systems (cont.)

The Judicial Plan is a single-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 476.445 - 476.690, RSMo. The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. General employees are fully vested after 5 years of creditable service if covered by the MSEP, MSEP 2000, and MSEP 2011 plans. Elected officials are fully vested after 4 years of creditable service and Members of the General Assembly are fully vested after 6 years of creditable service. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The retirement eligibility requirements are as follows for general employees:

MSEP

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 55 with at least 10 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.6% multiplied by the final average pay multiplied by years of credited service.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 57 with at least 5 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

MSEP 2011

Age 67 with 5 years of service
Age 55 with age and service equaling 90 or more (Rule of 90)
Employees may retire early at age 62 with at least 5 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less than 12 years of service or age 60 with less than 15 years of service with a reduced benefit that is based upon years of service relative to 12 or 15 years.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

Judicial Plan 2011

Age 67 with 12 years of service
Age 62 with 20 years of service
Employees may retire early at age 67 with less than 12 years of service with reduced benefits or age 62 with less than 20 years of service with a reduced benefit based on years of service.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

Note 7 - Retirement Systems (cont.)

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, and members who have met their COLA cap receive COLAs annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their future benefit in a lump sum payment. To qualify, a member must have left state employment on or after October 1, 1984 and prior to September 1, 2002, have less than 10 years of service, not be within 5 years of retirement eligibility, meet age requirements, and have a benefit present value of less than $10,000.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer, defined benefit public employee retirement plan administered in accordance with Sections 104.010-104.1093, RSMo.

MPERS is considered a single-employer plan because its membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan-2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 1, 2011. The Year 2000 Plan-2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 5 years of creditable service if they were active on or after January 1, 2018.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:	**Uniformed patrol members:**
Age 65 and active with 4 or more years of service	Age 55 and active with 4 or more years of service
Age 65 with 5 or more years of service	Age 55 with 5 or more years of service
Age 60 with 15 or more years of service	Age 48 with sum of age and service equaling 80 or more (Rule of 80)
Age 48 with sum of age and service equaling 80 or more (Rule of 80)	Mandatory retirement at age 60

Note 7 - Retirement Systems (cont.)

All non-uniformed members may retire early, with reduced benefits, at age 55 with at least 10 years of service.

The base benefit in the Closed Plan is equal to 1.6% multiplied by the final average pay multiplied by years of creditable service for non-uniformed members. For members of the uniformed patrol, the base benefit is equal to 2.1333% multiplied by the final average pay multiplied by years of creditable service.

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the increase in the Consumer Price Index for all urban consumers for the United States (CPI-U). The minimum rate is 4% and the maximum rate is 5%, until the cumulative amount of COLAs equals 65% of the original benefit. Thereafter, the 4% minimum rate is eliminated and the annual COLA rate will be equal to 80% of the increase in the CPI-U (annual maximum of 5%). For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:	**Uniformed patrol members:**
Age 62 with 5 or more years of service	Age 48 with sum of age and service equaling 80 or more (Rule of 80)
Age 48 with sum of age and service equaling 80 or more (Rule of 80)	Mandatory retirement at age 60 with 5 or more years of service

All members may retire early with reduced benefits at age 57 with at least 5 years of service.

The base benefit in the Year 2000 Plan is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 80, and uniform patrol members retiring at the mandatory retirement age (currently 60), receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan-2011 Tier

MoDOT and non-uniformed patrol members:	**Uniformed patrol members:**
Age 67 with 5 or more years of service	Age 55 and active with 5 or more years of service
Age 55 and active with sum of age and service equaling 90 or more (Rule of 90)	Mandatory retirement at age 60 with no minimum service amount, active only.

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 5 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 5 or more years of service.

The base benefit in the 2011 Tier is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 90, and uniform patrol members retiring at the mandatory retirement age (currently 60) or at age 55 with 5 years of creditable service, receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

Note 7 - Retirement Systems (cont.)

Single-Employer Plans:

Employees Covered by Benefit Terms – Single-Employers Only

As of June 30, 2020 valuation, membership consisted of the following:

	Judicial Plan	MPERS
Retirees, beneficiaries, and the disabled currently receiving benefits	590	9,182
Terminated employees entitled to, but not yet receiving benefits	35	2,094
Active		
Vested	418	5,130
Nonvested	—	2,225
Total Membership	1,043	18,631

Contributions

Per Chapter 104.436, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4.00% of their annual pay. The State's required contribution rates for the MSEP and the Judicial Plan for the year ended June 30, 2020, were 21.77% and 63.80% of annual payroll, respectively. The contribution rates as a percentage of covered payroll for the MSEP and the Judicial Plan for the year ended June 30, 2020, were 21.77% and 63.80%, respectively. Contributions to the pension plan from the MSEP Plan and the Judicial Plan were $362,950,000 and $39,123,000 respectively, for the year ended June 30, 2020.

Per Chapter 104.070, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MPERS Board of Trustees. Beginning January 1, 2011, employee contributions of 4.00% of gross pay are required for those covered by the Year 2000 Plan-2011 Tier. Employer contributions are determined through annual actuarial valuations. Administrative expenses are financed through contributions from participating employers and investment earnings. The state's required contribution rate, as adopted by the MPERS Board of Trustees, for the year ended June 30, 2020, was to be at least 58.00%. The contribution rate as a percentage of covered payroll for the MPERS plan year ended June 30, 2020, was 58.00%. Contributions to the pension plan from the MPERS plan were $210,872,000.

For the portion of the MSEP Plan relating to the State's component units, the required contribution rate for the year ended June 30, 2020, was 21.77%. The contribution rates as a percentage of covered payroll for the year ended June 30, 2020, was 21.77%. Contributions to the pension plan were $70,661,000 for the year ended June 30, 2020.

Note 7 - Retirement Systems (cont.)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2021, a liability was reported for the State's proportionate share of the net pension liability for the MSEP and the MSEP-CU plans based on an actuarial valuation as of June 30, 2020. The State's proportionate share of the net pension liability was based on the State's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for plan year ended June 30, 2020.

The State reported the following proportionate share of the net pension liability and the pension expense for the fiscal year ended June 30, 2021 (in thousands of dollars):

	MSEP	MSEP-CU
Pension Expense	$ 804,572	$ 138,021
Proportionate share:		
2021	83.44 %	16.24 %
Net Pension Liability	$5,296,316	$1,031,118

Single-Employer Plans:

The State's net pension liability and related information for the Judicial and MPERS plans for the fiscal year ended June 30, 2021 (in thousands of dollars):

	Judicial Plan Increase (Decrease)			MPERS Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Pension (b)	Net Pension Liability (a) – (b)	Total Pension Liability (a)	Plan Fiduciary Net Pension (b)	Net Pension Liability (a) – (b)
Balances at June 30, 2020	$ 617,484	$ 158,334	$ 459,150	$4,037,370	$ 2,423,262	$ 1,614,108
Changes for the year:						
Service Cost	13,120	—	13,120	44,048	—	44,048
Interest	42,459	—	42,459	274,791	—	274,791
Differences Between expected and actual experience	(14,934)	—	(14,934)	3,495	—	3,495
Changes of Assumptions	6,341	—	6,341	—	—	—
Contributions – Employer	—	39,174	(39,174)	—	210,872	(210,872)
Contributions – Employee	—	1,314	(1,314)	—	6,547	(6,547)
Net Income Investment	—	8,163	(8,163)	—	(10,668)	10,668
Benefit payments, including refunds of employee contributions	(39,622)	(39,622)	—	(263,507)	(263,507)	—
Disability Premiums	—	—	—	(1,641)	(1,641)	—
Administrative Expense	—	(74)	74	—	(4,291)	4,291
Net Transfers to Other Retirement Systems	—	—	—	(2,458)	1,026	(3,484)
Net Changes	7,364	8,955	(1,591)	54,728	(61,662)	116,390
Balances at June 30, 2021	$ 624,848	$ 167,289	$ 457,559	$4,092,098	$ 2,361,600	$ 1,730,498

For the year ended June 30, 2021, the Judicial Plan and MPERS recognized pension expense of $49,440,000 and $202,099,000, respectively.

Note 7 - Retirement Systems (cont.)

At June 30, 2021, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources				Deferred Inflows of Resources			
	MSEP	Judicial	MPERS	MSEP-CU	MSEP	Judicial	MPERS	MSEP-CU
Difference between expected and actual experience	$ 2,398	$ 485	$ 2,765	$ 467	$55,011	$11,656	$14,740	$ 10,710
Changes of assumptions	139,987	10,164	44,736	27,253	—	—	—	—
Net difference between projected and actual earnings on pension plan investments	281,184	6,366	120,348	54,743	—	—	—	—
Changes in proportion and differences between plan contributions and proportionate share of contributions	17,909	—	—	6,074	231	—	—	23,072
Contributions subsequent to the measurement date	388,097	39,990	208,213	70,123	—	—	—	—
Total	$ 829,575	$57,005	$376,062	$158,660	$55,242	$11,656	$14,740	$ 33,782

Amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the measurement period of the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources			
	MSEP	Judicial	MPERS	MSEP-CU
2022	$ 201,375	$ 4,601	$ 39,020	$ 24,175
2023	91,887	942	40,471	12,754
2024	68,375	(459)	37,768	13,037
2025	24,599	275	35,850	4,789
Totals	$ 386,236	$ 5,359	$ 153,109	$ 54,755

Actuarial Assumptions

The total pension liability at June 30, 2021, is based upon the June 30, 2020, actuarial valuation for MOSERS and MPERS using the entry age normal actuarial cost method. Significant actuarial assumptions used in the June 30, 2020, actuarial valuations are the following:

	MSEP and MSEP-CU	Judicial	MPERS
Price Inflation	2.25 %	2.25 %	2.25 %
Salary Increases	2.75-8.25%	2.50-4.70%	3.00-12.45%
Investment Rate of Return	6.95 %	6.95 %	7.00 %

Note 7 - Retirement Systems (cont.)

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2015, for MOSERS. In addition, the investment return assumption was reduced from 7.10% to 6.95% for the June 30, 2020 valuation. Other assumption changes were decreases in the payroll and wage growth assumptions. MOSERS mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table, projected to 2026 with scale MP-2015 and scaled by 120% for the MSEP and 98% for the Judicial Plan. The pre-retirement mortality table used was the RP-2014 Employee Mortality Table, projected to 2026 with scale MP-2015 and scaled by 95% for males and 90% for females.

Amounts reported in the June 30, 2020, actuarial report are assumptions reflecting adjustments to expected rates of withdrawal, disability, normal and early retirement, mortality, and merit and seniority pay for MPERS. The actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2012, through June 30, 2017. Mortality rates, for post-retirement mortality, used in evaluating allowances to be paid to non-disabled pensioners were the RP-2014 Healthy Mortality Tables projected to 2022 using projection scale MP-2017. Pre-retirement mortality used were the RP-2014 Employee Mortality Table projected to 2022 using projection scale MP-2017 and multiplied by a factor of 65%. Disabled pension mortality was based on RP-2014 Disabled Retiree Annuitant Mortality Tables projected to 2022 using projection scale MP-2017.

The long-term (30 year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for the MSEP and Judicial Plan and arithmetic real rates of return for MPERS for each major asset class included in the target allocation are summarized in the table below:

Target Asset Allocation - New Portfolio

	MSEP and MSEP-CU		Judicial		MPERS	
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	30.0%	5.8%	30.0%	5.8%	40.0%	3.9%
Private Equity	15.0%	7.4%	15.0%	7.4%	10.0%	7.2%
Fixed Income					22.5%	0.3%
Real Assets					10.0%	5.3%
Real Estate					10.0%	2.4%
Hedge Funds	5.0%	2.9%	5.0%	2.9%		
Opportunistic Debt					7.5%	4.5%
Long Treasuries	25.0%	1.6%	25.0%	1.6%		
Core Bonds	10.0%	1.2%	10.0%	1.2%		
Commodities	5.0%	3.6%	5.0%	3.6%		
TIPS	25.0%	0.8%	25.0%	0.8%		
Private Real Assets	5.0%	5.2%	5.0%	5.2%		
Public Real Assets	5.0%	5.8%	5.0%	5.8%		
Alternative Beta	10.0%	3.4%	10.0%	3.4%		
Private Credit	5.0%	7.6%	5.0%	7.6%		
Cash and Cash Equivalents**	(40.0)%	0.0%	(40.0)%	0.0%		
	100.0%		100.0%		100.0%	

**Cash and cash equivalents policy allocation amounts are negative due to use of leverage.

Note 7 - Retirement Systems (cont.)

Target Asset Allocation - Old Portfolio

	MSEP and MSEP-CU		Judicial	
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	38.0%	5.8%	38.0%	5.8%
Nominal Bonds	44.0%	0.8%	44.0%	0.8%
Commodities	20.0%	5.3%	20.0%	5.3%
Inflation-linked Bonds	39.0%	(0.1)%	39.0%	(0.1)%
Alternative Beta	31.0%	4.1%	31.0%	4.1%
Cash and cash equivalents**	(72.0)%	(1.5)%	(72.0)%	(1.5)%
	100.0%		100.0%	

**Cash and cash equivalents policy allocation amounts are negative due to use of leverage.

Discount Rate

A single discount rate based on the expected rate of return on pension investments of 6.95%, 6.95%, and 7.00% was used to measure the total pension liability for MSEP, Judicial Plan, and MPERS, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate for MPERS. The projection of cash flows used to determine the discount rate assumed that contributions will be made using actuarial determined rates from employers for MOSERS. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	5.95%	6.95%	7.95%
MSEP Net Pension Liability	$6,631,745	$5,296,316	$4,173,115
	5.95%	6.95%	7.95%
Judicial Plan Net Pension Liability	$520,118	$457,559	$403,982
	6.00%	7.00%	8.00%
MPERS Net Pension Liability	$2,206,173	$1,730,498	$1,333,007
	5.95%	6.95%	7.95%
MSEP-CU Net Pension Liability	$1,291,107	$1,031,118	$812,447

Note 7 - Retirement Systems (cont.)

Payables to the Pension Plan

As of June 30, 2021, the State had payables of $17,136,000 to MOSERS for the outstanding amount of contributions to the pension plan, relating to a two week lag in payroll.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separate financial reports issued by MOSERS and MPERS:

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees. As authorized by Section 172.300, RSMo, the University's Board of Curators administers the Retirement Plan and establishes its terms.

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at a certain rate times the credited service years times the compensation base (average consumption for the five highest consecutive salary years). The rate is 2.2% if the employee was hired before October 1, 2012, or 1.0% if the employee was hired after September 30, 2012. Academic members who provide summer teaching and research service receive additional summer service credit. The Board of Curators may periodically approve increases to the benefits paid to existing pensioners. However, vested members who leave the University prior to eligibility for retirement are not eligible for these pension increases. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. Up to 30% of the retirement annuity can be taken in a lump sum payment. In addition, the standard annuity can be exchanged for an actuarially-equivalent annuity selected from an array of options with joint and survivor, period certain, and guaranteed annual increase features.

As of June 30, 2021, membership consisted of the following:

Vested members	15,883
Inactive vested members	5,417
Pensioners and beneficiaries	11,015
Total Membership	32,315

Note 7 - Retirement Systems (cont.)

In April 2019, the University's Board of Curators approved a new retirement plan for newly hired or rehired employees starting October 1, 2019. Employees starting on or after that date, will be enrolled in a defined contribution plan and the defined benefit plan of the University will be closed to new entrants. Rehires on or after October 1, 2019, will also be enrolled into the new defined contribution plan regardless of their vested status in the defined benefit plan. Vested defined benefit employees that are rehired on or after October 1, 2019, will no longer receive creditable service credit within the defined benefit plan.

Contributions

The University's contributions to the Retirement Plan are equal to the actuarially determined contribution requirement (ADC). The ADC for those employees hired before October 1, 2012, averaged 12% of covered payroll for the year ending June 30, 2021. The ADC for those employees hired after September 30, 2012, averaged 8.4% of covered payroll for the year ended June 30, 2021. Employees are required to contribute 1% of their salary up to $50,000 in a calendar year and 2% of their salary in excess of $50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1, to reflect the actuarially determined funding requirement from the most recent valuation, as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year. The University contributed $115,006,000 during the fiscal year ended June 30, 2021.

Employees hired after September 30, 2012, participate in a single employer, defined contribution plan. Each year the University contributes 2% of each employee's eligible salary to a 401(a) plan. Employees are able to contribute to a 457(b) and 403(b) plan. The University will match up to 3% of the employee's contribution to the 457(b) plan with the University's match funds going into the 401(a) plan. Employees in the defined contribution plans are immediately 100% vested in their contributions. Employees hired or rehired beginning October 1, 2019, will participate in a single- employer, defined contribution plan. Employees will be automatically enrolled in the plan to contribute 8% of eligible salary into a 457(b) plan. Each year the University will match up to 8% of each employer's eligible salary to a 401(a) plan. The University's matching contributions vest following three years of consecutive or nonconsecutive service. The defined contribution plan recognized $29,362,000 of pension expense net of $5,725,000 of forfeitures for the year ended June 30, 2021.

Net Pension Liability

The Retirement Plan's net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2020. Roll-forward procedures were used to measure the Retirement Plan's net pension liability as of June 30, 2021. For the year ended June 30, 2021, fiduciary net position as a percentage of the total pension liability amounted to 93.54%.

Changes in net pension liability (in thousands of dollars):

	Total Pension Liability (TPL) (a)	Fiduciary Net Pension (FNP) (b)	Net Pension Liability (NPL) (a) - (b)
Balances at June 30, 2020	$ 4,764,367	$ 3,654,744	$ 1,109,623
Changes for the year:			
Service Cost	65,786	—	65,786
Interest	336,697	—	336,697
Differences between expected and actual experience	(10,821)	—	(10,821)
Contributions – Employer	—	115,006	(115,006)
Contributions – Employee	—	14,981	(14,981)
Net Income Investment	—	1,056,355	(1,056,355)
Benefit payments, including refunds of employee contributions	(283,941)	(283,941)	—
Net Changes	107,721	902,401	(794,680)
Balances at June 30, 2021	$ 4,872,088	$ 4,557,145	$ 314,943

Note 7 - Retirement Systems (cont.)

Pension Expense

Annual pension expense consists of service cost and interest on the pension liability less employee contributions and projected earnings on pension plan investments. The difference between actual and expected earnings is recorded as a deferred outflow/inflow of resources and recognized in pension expense over a five year period.

For the year ended June 30, 2021, the Retirement Plan recognized pension expense of $52,716,000. At June 30, 2021, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 56,467	$ 13,800
Changes in assumptions	69,781	—
Net difference between projected and actual earnings on pension plan investments	—	478,724
Total	$ 126,248	$ 492,524

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of these items:

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources Recognition
2022	$ (49,627)
2023	(58,541)
2024	(100,113)
2025	(157,848)
2026	(147)
Totals	$ (366,276)

Actuarial Assumptions

The October 1, 2020, actuarial valuation utilized the entry age actuarial cost method. The discount rate used to measure the total pension liability was 7.20%. Actuarial assumptions included:

Inflation	2.20 %
Salary Increases	3.6 - 4.5%
Investment Rate of Return	7.20 %

For purposes of determining actuarially required contributions, the actuarial value of assets was determined using techniques that spread effects of short-term volatility in the market value of investments over a five-year period. The underfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis over 23 years from the October 1, 2020, valuation date. Mortality rates were based on the RP-2014 Combined Health Mortality Table projected using Scale MP-2017 and RP-2000 Combined Health Mortality Table projected to 2023 using Scale BB for the October 1, 2020, valuation date.

Note 7 - Retirement Systems (cont.)

The actuarial assumptions used in the October 1, 2020, valuation were based on the results of the most recent quinquennial study of the University's own experience covering 2012 to 2016.

The annual money-weighted rate of return is calculated as the internal rate of return on pension investments, net of pension plan investment expense. The money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan investments for the year ended June 30, 2021, was 29.8%. The following table provides long-term expected rates of real return:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Public equity	35.0 %	4.3 %
Private equity	12.0 %	7.5 %
Sovereign bonds	10.0 %	(1.2)%
Inflation linked bonds	10.0 %	(0.6)%
Private debt	6.0 %	3.3 %
Risk balanced	12.0 %	4.1 %
Commodities	5.0 %	1.5 %
Real estate	10.0 %	6.3 %
	100.0 %	

Discount Rate

The discount rate used to measure the total pension liability was 7.20%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that the University contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	6.20%	7.20%	8.20%
MU Net Pension Liability	$922,607	$314,943	$(189,280)

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2021 financial report, which is publicly available. Copies of this report may be requested from:

Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer, defined benefit other postemployment benefits plan, MOSERS is an insured, defined benefit insurance plan, and MHPML and CEIP are single-employer defined benefit public employees' other postemployment benefits plans.

Plan Descriptions

Missouri Consolidated Health Care Plan (MCHCP) operates a cost-sharing multiple-employer, defined benefit Other Postemployment Benefits Plan (OPEB), the State Retiree Welfare Benefit Trust (SRWBT). Employees may participate at retirement, if eligible to receive a monthly retirement benefit from either the Missouri Employees' Retirement System (MOSERS) or another retirement system whose members grandfathered for coverage under the MCHCP by law. The terms and conditions governing postemployment benefits, are vested with the MCHCP Board of Trustees within the authority granted under sections 103.003 - 103.178, RSMo. MCHCP provides medical, dental, and vision benefits, and the Strive Employee Life & Family program for the exclusive benefit of current and future retired employees of the state and their dependents who meet eligibility requirements, except those retired members covered by other OPEB plans of the state. Covered categories include active employees, participants and spouses in payment status, participants with a deferred benefit, and disabled participants.

The Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML) is a single-employer, defined benefit OPEB plan administered in accordance with Section 104.270, RSMo. MHPML is not a separate legal entity and is self insured. The plan does not maintain assets in a trust and pays expenses on a pay-as-you-go basis. The plan assets are neither legally protected from creditors nor are they dedicated to providing OPEB benefits. The State has no legal obligation to pay the benefits. MHPML provides healthcare insurance benefits to employees who retired from the Department who participated in the Medical and Life Insurance Plan when they were an active employee and had a minimum of five years creditable service. Coverage categories include retirees, certain disabled employees, spouses, certain dependents and survivors of deceased employees and retirees. At July 1, 2019, the number of participants covered by the plan included 6,185 retirees or beneficiaries currently receiving benefits, 92 retirees entitled to but not yet receiving benefits, and 7,526 active employees.

The Conservation Employees' Benefits Plan (CEIP) is a single-employer defined benefit OPEB plan administered by the Conservation Employees' Benefits Plan Board of Trustees in accordance with Article IV, Section 42 of the Missouri Constitution. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The benefit plan for the Department of Conservation is not irrevocable.

CEIP provides for the continuation of medical insurance benefits for retirees and their dependents. Coverage categories include active employees, retirees and surviving spouses, and spouses of current retirees. At June 30, 2019, 1,300 active employees, 849 retirees and surviving spouses, and 408 spouses of current employees were participating in the plan.

Note 8 - Other Postemployment Benefits (cont.)

Contributions

Contributions are established and may be amended by the MCHCP Board of Trustees with the authority granted under sections 103.003 - 103.178, RSMo. Contributions to MCHCP by the State are not legally or contractually required. For the fiscal year end June 30, 2020, employers contributed 4.40% for the period July 1, 2019 through December 31, 2019; 4.65% for the period January 15, 2020 through April 1, 2020; 4.02% for the period April 15, 2020 through June 1, 2020; and 3.41% for the period June 1, 2020 through June 30, 2020, of covered payroll. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Contributions to the OPEB plan for MCHCP and MCHCP-CU was $72,054,000 and $32,000, respectively for the year ended June 30, 2021.

The contribution requirements for MHPML are recommended by the Medical and Life Insurance Plan's Board of Trustees and are approved by the Missouri Highways and Transportation Commission. The Commission contributes a percentage of medical premiums for retirees. For those who retired on or prior to January 1, 2015, an amount ranging from 40.0% to 57.0% of the premium is contributed, dependent on the level of coverage. Medical premiums, for employees who retire on or after January 1, 2015, are based on total years of service, with the Commission contributing 2.0% per year of service, not to exceed 50.0% of the total premium, with the retiree responsible for the remaining balance of the premiums. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between employer and the plan members to that point. Contributions to the Plan for the year ended June 30, 2021, was $23,661,000.

The contribution requirements for CEIP are established by a trust agreement between the Conservation Commission and the Conservation Employees' Benefits Plan Board of Trustees, which grants the authority to establish and amend benefit terms and financing requirements to the Board of Trustees. The Commission contribution toward retiree medical premium is based on tenure or years of service with the State. At the time of retirement, employees who have 25+ years of service receive a 35% contribution, 20-24 years of service receive a 30% contribution, 15-19 years of service receive a 25% contribution, vested status up to 14 years of service receive a 20% contribution, and employees who retired prior to January 1, 2013, continue to receive a 35% contribution towards their premium. Benefit projections for financial reporting purposes are based on an established policy of the retiree's paying the premium amount less any direct subsidy paid by the Commission based on years of service and date of retirement. Contributions to the Plan for the year ended June 30, 2021, was $3,171,000.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2021, a liability was reported for the State's proportionate share of the collective net OPEB liability for the MCHCP and the MCHCP-CU plans based on an actuarial valuation as of July 1, 2020. The State's proportionate share of the collective net OPEB liability was calculated by dividing the State's contribution to the SRWBT by the total contributions from all applicable employers during the measurement period. From the previous valuation, the discount rate changed from 5.24% to 4.38%.

The State reported the following proportionate share of the collective net OPEB liability and the OPEB expense for the fiscal year ended June 30, 2021, was as follows (in thousands of dollars):

	MCHCP	MCHCP-CU
OPEB Expense	$ 120,672	$ 41
Proportionate share:	99.61 %	0.04 %
Net OPEB Liability	$1,774,156	$ 784

Note 8 - Other Postemployment Benefits (cont.)

Single-Employer Plans:

The State's total OPEB liability and related information for the MHPML and CEIP plans for the fiscal year ended June 30, 2021, were as follows (in thousands of dollars):

	MHPML	CEIP
	Total OPEB Liability	Total OPEB Liability
Balances at June 30, 2020	$ 1,064,325	$ 149,715
Changes for the year:		
Service Cost	29,743	4,029
Interest	37,990	3,363
Differences between expected and actual experience	(3,176)	—
Effect of economic/demographic gains or losses	—	—
Changes of assumptions or other inputs	250,439	1,514
Benefit payments	(23,661)	(3,171)
Net Changes	291,335	5,735
Balances at June 30, 2021	$ 1,355,660	$ 155,450

For the year ended June 30, 2021, the MHPML and CEIP recognized OPEB expense of $53,032,000 and $7,321,000, respectively.

At June 30, 2021, deferred outflows of resources and deferred inflows of resources related to OPEBs were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources				Deferred Inflows of Resources			
	MCHCP	MHPML	CEIP	MCHCP-CU	MCHCP	MHPML	CEIP	MCHCP-CU
Difference between expected and actual experience	$ 75,440	$ —	$ —	$ 33	$ (20,370)	$ (39,007)	$ (24,133)	$ (10)
Changes of assumptions	—	209,451	27,154	—	(129,225)	(128,328)	(2,704)	(58)
Net difference between projected and actual earnings on plan investments	5,075	—	—	2	—	—	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	735	—	—	51	(97)	—	—	(133)
Contributions subsequent to the measurement date	74,276	23,875	—	32	—	—	—	—
Total	$155,526	$233,326	$ 27,154	$ 118	$ (149,692)	$ (167,335)	$ (26,837)	$ (201)

Note 8 - Other Postemployment Benefits (cont.)

Amount reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the measurement period of the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands of dollars):

June 30	Net Deferred Outflows/Inflows of Resources			
	MCHCP	MHPML	CEIP	MCHCP-CU
2022	$ (9,554)	$ (14,701)	$ (71)	$ (17)
2023	(9,511)	(14,701)	(71)	(17)
2024	(10,202)	9,029	632	(17)
2025	(10,407)	20,222	(373)	(17)
2026	(11,187)	37,815	200	(18)
Thereafter	(17,581)	4,452	—	(29)
Totals	$ (68,442)	$ 42,116	$ 317	$ (115)

Actuarial Assumptions

The total OPEB liability at June 30, 2021, is based upon the the July 1, 2020, actuarial valuation date for MCHCP, the July 1, 2019, actuarial date for MHPML, and the June 30, 2019, actuarial valuation date for CEIP, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

	MCHCP and MCHCP-CU
Price Inflation	3.0%
Salary Increases	4.0%
Investment Rate of Return	4.38%
Healthcare Cost Trend Rate	Non-Medicare is 5.75% for fiscal year 2020; the rate decreases by 0.25% per year to an ultimate rate of 5.0% in fiscal year 2023 and later. Medicare is 10.00% in fiscal 2020, 22.00% in fiscal 2021, 10.00% in fiscal 2022 and 2023, 9.5% in fiscal 2024, 9.00% in fiscal 2025, 8.5% in fiscal 2026 then 8.00% in fiscal 2027 decreasing by 1.00% per year to an ultimate rate of 5.00% in fiscal year 2030 and after.

	MHPML
Price Inflation	2.0%
Salary Increases	2.5%
Investment Rate of Return	2.21%
Healthcare Cost Trend Rate	6.00% for 2019, decreasing to 4.5% for 2025 and later years.

	CEIP
Price Inflation	2.3%
Salary Increases	4.0%
Investment Rate of Return	2.16%
Healthcare Cost Trend Rate	Pre-65 rate of 6.6% for 2019, gradually decreasing to an ultimate rate of 3.7% for 2073 and beyond. Post-65 trend rate of 6.3% for 2019, gradually decreasing to an ultimate rate of 3.7% for 2073 and beyond.

Note 8 - Other Postemployment Benefits (cont.)

MCHCP's actuarial assumptions used in the July 1, 2020, valuation for SRWBT involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation to determine MCHCP's total OPEB liability is required to be performed at least every two years, but is performed annually. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations. The collective total OPEB liability for June 30, 2020, measurement date was determined by an actuarial valuation as of July 1, 2020. The cost method utilized for the valuation year June 30, 2020, was the entry age normal, level percentage of payroll. Mortality rates were based on RP-2016 for Employees/ Annuitants without collar adjustments using Scale MP-2016. The last experience study was conducted in 2020.

MHPML's actuarial assumptions used in the July 1, 2019, valuation were determined using a measurement date of July 1, 2020. The inflation rate was based on the actuary's long-term estimate of inflation as of July 1, 2019. The salary increases were based on projected salaries, which include COLA's. The discount rate was based on Bond Buyer General Obligation 20-Bond Municipal Bond Index. Mortality rates were based on Pub-2010 Public Retirement Plans Safety Employees Mortality Table weighted by Headcount project by MP-2020 and Pub-2010 Public Retirement Plans Safety Employees Mortality Table, weighted by Headcount projected by MP-2020 for July 1, 2020. The actuarial assumptions used in the July 1, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2018, through June 30, 2019. From the previous valuation, the discount rate changed from 3.51% 2.21%.

CEIP's actuarial assumptions used in the June 30, 2019, valuation were determined using a measurement date of June 30, 2021. The discount rate was based on the 20-year Bond General Obligation Index. Mortality rates were based on Pub-2010 Mortality for General Employees, Healthy Annuitants and Contingent Survivors, with generational projection per Scale MP-2019. The plan has not had a formal actuarial experience study performed. From the previous valuation, the discount rate changed from 2.21% to 2.16%.

For MCHCP, the long-term expected rate of return on OPEB plan investments was determined as a blend of the plan sponsor's best estimate on the expected return on plan assets and the 20-year high quality municipal bond rate as of the measurement date. The target asset allocation and best estimates of arithmetic real rate of returns for each major asset class are listed below.

	MCHCP and MCHCP-CU	
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap Stocks	17.0%	8.5%
Mid Cap Stocks	6.0%	8.8%
Small Cap Stocks	7.0%	8.8%
International Stocks	4.0%	8.9%
BarCap Aggregate Bonds	64.0%	2.4%
Cash Equivalants	2.0%	2.1%
	100.0%	

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

A single discount rate based on the expected rate of return on OPEB investments of 4.38%, 2.21%, and 2.16% was used to measure the total OPEB liability for MCHCP, MHPML, and CEIP, respectively. For MCHCP, the projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions will be made at required rates, actuarially determined. For years where the expected benefit payments can be covered by projected trust assets, expected returns are used. For years where payments are not expected to be covered by trust assets, the municipal Bond Buyer 20-Bond General Obligation Index rate is utilized.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for MCHCP and total OPEB liability for MHPML and CEIP, to changes in the single discount rate, the following presents the State's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
MCHCP Net OPEB Liability	3.38% $2,126,463	4.38% $1,774,156	5.38% $1,498,134
MHPML Total OPEB Liability	1.21% $1,590,984	2.21% $1,355,660	3.21% $1,092,519
CEIP Total OPEB Liability	1.16% $190,606	2.16% $155,450	3.16% $128,734
MCHCP-CU Net OPEB Liability	3.38% $939	4.38% $784	5.38% $662

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for MCHCP and the total OPEB liability for MHPML and CEIP, to changes in healthcare cost trend rates, the following presents the plan's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
MCHCP Net OPEB Liability	$1,493,094	$1,774,156	$2,133,156
MHPML Total OPEB Liability	$1,068,726	$1,355,660	$1,629,230
CEIP Total OPEB Liability	$128,828	$155,450	$191,103
MCHCP-CU Net OPEB Liability	$660	$784	$942

Note 8 - Other Postemployment Benefits (cont.)

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separate financial reports issued by MCHCP:

Missouri Consolidated Health Care Plan
P.O. Box 104355
Jefferson City, Missouri 65110-4355
www.mchcp.org

Missouri State Insured Defined Benefit Insurance Plan

The Missouri State Insured Defined Benefit Insurance Plan is administered through The Standard, which is a third party administrator with oversight by Missouri State Employees Retirement System (MOSERS). In the event that the Standard becomes insolvent, the Missouri Guarantee Association will work with the Standard to see what assets are available to handle their liabilities and the MO Guarantee Association would handle the open and unpaid claims up to the maximum outlined in Section 376.717, RSMo.

Retiree Life Insurance

Members who retire on or after October 1, 1985, or retirees of the Department of Labor and Industrial Relations (DOLIR) who retire on or after January 1, 1996, are eligible for $5,000 of state-sponsored basic life insurance coverage if they retire directly from active employment. This group plan is financed on a percentage of payroll and is purchased as a group policy through competitive bids. Premiums are contributed as provided by Section 104.515, RSMo. Retirees of the DOLIR who retire prior to January 1, 1996, are eligible for state-sponsored insured defined benefit coverage in the same amount of coverage they were receiving through the DOLIR. The coverage for this closed group is purchased as a group policy at a current cost of $2.07 per thousand dollars of coverage, per month as provided by Section 288.225, RSMo. The cost for fiscal year 2021 was $2,011,000.

Long-Term Disability Insurance (LTD)

MOSERS provides LTD coverage for eligible members and generally includes those active members of MOSERS' retirement plans who do not have other disability coverage and are not yet eligible to receive normal (unreduced) retirement benefits. There were 29,674 members covered under the program as of June 30, 2021. This insured defined-benefit coverage is billed on percentage of covered payroll (0.55% July 2020 through December 2020; .0445% January 2021 and later). Purchased as group policy through competitive bids, LTD is administered by The Standard Insurance Company. The cost for the year ended June 30, 2021, was $7,830,000. Premiums are contributed by the State and its component employers as provided for by Section 104.515, RSMo.

Note 8 - Other Postemployment Benefits (cont.)

University of Missouri System

Plan Description

In addition to the retirement benefits described in *Note 7,* the University of Missouri operates a single-employer, defined benefit Other Postemployment Benefits (OPEB) Plan. The assets of the OPEB Trust Fund are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with the plan. The OPEB plan provides postemployment medical, dental, and life insurance benefits to employees who retire from the University after attaining age 55 and before reaching age 60 with ten or more years of service, or after attaining age 60 with five or more years of service. As of January 1, 2018, employees must be 60 years old and have 20 years of service at the date of retirement to access the same percentage subsidy as retirees prior to January 1, 2018. Employees with age plus years of service less than 80, but with more than 5 years of service as of January 1, 2018, will receive a subsidy of $100 per year of service up to a maximum of $2,500 annually. Employees with less than 5 years of service as of January 1, 2018, will not receive an insurance subsidy or be eligible to participate in the University's plans.

As of June 30, 2021, 8,407 retirees were receiving benefits, and an estimated 8,021 active University employees may become eligible to receive benefits under the plan. Postemployment medical, dental and life insurance benefits are also provided to long-term disability claimants who were vested in the University's Retirement Plan at the date the disability began, provided the onset date of the disability was on or after September 1, 1990. As of June 30, 2021, 136 long-term disability claimants met those eligibility requirements. The terms and conditions governing the postemployment benefits to which employees are entitled are at the sole authority and discretion of the University's Board of Curators. The OPEB plan does not issue a separate financial report.

Contributions

Postemployment benefits are funded through both employer and employee contributions. Contribution requirements of employees and the University are established and may be amended by the University's Board of Curators. For employees retiring prior to September 1, 1990, the University contributes 2/3 of the medical benefits premium and 1/2 of the dental plan premium. For employees who retire on or after September 1, 1990, the University contributes towards premiums based on the employee's length of service and age at retirement.

The University makes available two group term life insurance options. Option A coverage is equal to the retiree's salary at the date of retirement, while Option B is equal to two times the amount. For each Option, graded decreases in coverage are made when the retiree attains specific age levels. The University pays the full cost of Option A and approximately 91% of Option B coverage. Coverage for group term life insurance ends on January 1 following the retiree's 70th birthday.

For the year ended June 30, 2021, participant contributions were $18,296,000, or approximately 49.7%, of the total premiums through their required contributions, which vary depending on the plan and coverage selection. In fiscal year 2021, the contribution rate as a percentage of covered payroll was 3.2% and the University contributed $18,551,000.

The University also makes available two long-term disability options to its employees. Option A coverage is equal to 60% of the employee's salary on the date the disability began, when integrated with benefits from all other sources. Option B coverage is equal to 66-2/3% of the employee's salary, integrated so that benefits from all sources will not exceed 85% of the employee's salary. Both options have a 149-day waiting period and provide benefits until age 65. The University pays the full cost of the Option A premium, while employees enrolled in Option B pay the additional cost over the Optional A premium.

Note 8 - Other Postemployment Benefits (cont.)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2021, the net OPEB liability for the University was based on an actuarial valuation as of June 30, 2021, and measured as of that date. For the year ended June 30, 2021, fiduciary net position as a percentage of the net OPEB liability amounted to 15.59%.

Changes in net OPEB liability (in thousands of dollars):

	Total OPEB Liability (TOL)	Fiduciary Net Position (FNP)	Net OPEB Liability (NOL)
Balances at June 30, 2020	$ 406,980	$ 39,366	$ 367,614
Changes for the year:			
Service Cost	5,115	—	5,115
Interest	8,905	—	8,905
Differences between expected and actual experience	(14,091)	—	(14,091)
Changes in assumptions	(135,163)	—	(135,163)
Contributions – Employer	—	18,551	(18,551)
Contributions – Employee	—	18,296	(18,296)
Net Investment Income	—	12	(12)
Benefit payments, including refunds of employee contributions	(18,438)	(36,734)	18,296
Administrative Expenses	—	—	—
Net Changes	(153,672)	125	(153,797)
Balances at June 30, 2021	$ 253,308	$ 39,491	$ 213,817

For the year ended June 30, 2021, the University recognized OPEB expense of ($34,166,000). In FY21, there was a change in the medical premium split between employer and employee share causing costs to shift to the employees. At June 30, 2021, deferred outflows of resources and deferred inflows of resources related to OPEBs were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 18,723	$ 14,308
Changes in assumptions	—	187,987
Net difference between projected and actual earnings on OPEB plan investments	—	1,307
Total	$ 18,723	$ 203,602

Note 8 - Other Postemployment Benefits (cont.)

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of those items (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources Recognition
2022	$ (48,003)
2023	(47,685)
2024	(44,358)
2025	(36,009)
2026	(8,734)
Totals	$ (184,789)

Actuarial Assumptions

The total OPEB liability at June 30, 2021, is based upon the June 30, 2021, actuarial valuation, using the entry age normal, as a level percentage of pay, actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

Price Inflation	2.2%
Salary Increases	Varies based on age: 0.1% to 6.0%(including inflation) for academic and administrative; 0.1% to 3.0% (including inflation) for clerical and service
Investment Rate of Return	2.16%
Pre-65 Medical and HSP Plans Trend Rate	7.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Pre-65 Rx trend rate	8.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Post-65 Medicare and Rx Trend Rate	(48.1%) for 2022, 3.0%, then 6.0% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached
Post-65 Medicare Buyup and Rx trend rate	(12.6%) for 2022, 3.0%, then 6.0% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Dental trend rates	0% for 2022, then 2.0% all years after

The University's actuarial assumptions used in the June 30, 2020, valuation involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. For healthy retiree mortality rates, the RP-2014 Healthy Employee/Annuitant Mortality Table projected generationally using Scale MP-2017 was used. For disabled retiree mortality rates, the RP-2014 Disabled Annuitant Mortality Table projected generationally using Scale MP-2017 was used.

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

The discount rate used to measure the total OPEB liability was 2.16% for the year ended June 30, 2021. The projection of cash flows used to determine the discount rate assumed that the University would not make additional contributions to the OPEB Trust and would continue to fund the plan on a pay-as-you-go basis. Based on those assumptions, the OPEB Plan's fiduciary net position was not projected to cover a full year of projected future benefit payments. Therefore, all future benefit payments are discounted at the current index rate for 20 year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for the University, to changes in the single discount rate, the following presents the University's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	1.16%	2.16%	3.16%
Net OPEB Liability	$250,292	$213,817	$183,880

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for the University, to changes in healthcare cost trend rates, the following presents the University's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
Net OPEB Liability	$197,515	$213,817	$233,478

Detailed information concerning the Plan is presented in the University's 2021 financial report, which is publicly available. Copies of this report may be requested from:

Note 9 - Deferred Compensation

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Copies of the Plan's financial statements may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
907 Wildwood Drive
Jefferson City, Missouri 65102-0209

Missouri State Public Employees' Deferred Compensation Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least $25 to the Missouri State Public Employees' Deferred Compensation Plan. As of March 2010, employer incentive (match) associated with the State of Missouri Deferred Compensation Plan was suspended. Participating employees are 100% vested.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employers as well as rollovers from other qualified plans. During fiscal year 2021, net rollovers and contributions to ICMA-RC were $1,323,000.

Copies of the Plan's financial statements may be requested from:

Note 10 - Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year ended June 30, 2021 (in thousands of dollars):

	*Balance June 30, 2020	Increases	Decreases	Balance June 30, 2021	Due Within One Year
Governmental Activities:					
Due to Other Entities	$ 784	$ 136	$ (108)	$ 812	$ 136
General Obligation Bonds Payable	44,530	—	(15,880)	28,650	16,560
Other Bonds Payable	2,460,650	172,850	(468,700)	2,164,800	303,520
Unamortized Bond Premium	129,062	27,770	(39,479)	117,353	—
Obligations under Financed Purchase	22,755	13,767	(16,093)	20,429	11,566
Obligations under Lease Purchase	42,074	—	(3,583)	38,491	3,706
Pollution Remediation	48,264	1,139	(1,269)	48,134	2,142
Asset Retirement Obligations	1,792	8	(1)	1,799	—
Compensated Absences	190,415	223,462	(222,786)	191,091	159,541
Claims Liability	151,008	657,493	(651,239)	157,262	101,870
Contingent Liabilities	27,830	21,113	(5,473)	43,470	27,766
2nd Injury Fund Contingent Liabilities	2,174,003	140,206	(70,541)	2,243,668	70,542
Net Other Postemployment Benefit Obligation	2,909,683	473,463	(164,876)	3,218,270	—
Net Pension Liability	6,936,979	1,349,980	(982,935)	7,304,024	—
Total Governmental-Type Activities	$ 15,139,829	$ 3,081,387	$ (2,642,963)	$ 15,578,253	$ 697,349
Business-Type Activities:					
Other Bonds Payable	$ 3,485	$ —	$ (3,485)	$ —	$ —
Obligations under Financed Purchases	3	—	(3)	—	—
Claims Liability	85,163	10,651	(8,601)	87,213	11,000
Grand Prize Winner Liability	127,199	104,784	(98,307)	133,676	102,048
Asset Retirement Obligations	2	—	—	2	—
Compensated Absences	5,266	5,631	(5,433)	5,464	5,428
Net Other Postemployment Benefit Obligation	56,537	2,439	(2,240)	56,736	—
Net Pension Liability	165,453	48,796	(35,529)	178,720	—
Total Business-Type Activities	$ 443,108	$ 172,301	$ (153,598)	$ 461,811	$ 118,476

*Beginning balances as of June 30, 2020, have been restated (see *Note 17*).

Note 11 - Debt

Bonds:

Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements. On the Government-Wide Statement of Net Position, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund or other funds to the debt service funds from which principal and interest payments are made. Three types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Water Pollution Control Bonds:				
Series A 2010-Refunding	7/27/10	$ 81,450	A 2001	$ 15,030
			A 2002	20,225
			B 2002-Refunding	12,990
			A 2005-Refunding	8,595
			A 2007	31,385
Fourth State Building Bonds:				
Series A 2010-Refunding	7/27/10	9,060	A 2002-Refunding	8,970
			A 2005-Refunding	1,470
Series A 2012-Refunding	9/27/12	100,395	A 2002-Refunding	110,535
Stormwater Control Bonds:				
Series A 2010-Refunding	7/27/10	15,150	A 2001	7,320
			A 2002	8,475
			A 2005-Refunding	905

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2021, $594,494,240 of the Water Pollution Control Bonds; $250,000,000 of the Fourth State Building Bonds; and $45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is $130,505,760 and for Stormwater Control Bonds is $155,000,000. There is no remaining authorization for the Fourth State Buildings Bonds.

Note 11 - Debt (cont.)

General obligation bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Water Pollution Control Bonds:						
Series A 2007	4.0 - 5.0%	6/1; 12/1	11/07	12/1/21	$ 50,000	$ 1,985
Series A 2010-Refunding	4.0 - 5.0%	12/1; 6/1	7/10	12/1/22	81,450	18,195
Fourth State Building Bonds:						
Series A 2010-Refunding	4.0 - 5.0%	12/1; 6/1	7/10	12/1/22	9,060	2,020
Series A 2012-Refunding	2.0 - 4.0%	10/1; 4/1	9/12	10/1/21	100,395	3,065
Stormwater Control Bonds:						
Series A 2010-Refunding	4.0 - 5.0%	12/1; 6/1	7/10	12/1/22	15,150	3,385
Total General Obligation Bonds					$ 256,055	28,650
Less: Amount in Sinking Fund for payment of Principal						(17,681)
						$ 10,969

As of June 30, 2021, general obligation debt service requirements for principal and interest in future years were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2022	$ 16,560	$ 964	$ 17,524
2023	12,090	302	12,392
Totals	$ 28,650	$ 1,266	$ 29,916

Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals $1,545,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Board of Public Buildings:				
Series A 2011-Refunding	09/27/11	$ 143,020	A 2001	$ 126,850
			A 2003	12,620
			A 2006	3,175
Series A 2012-Refunding	08/23/12	278,835	A 2003	285,340
Series A 2013-Refunding	10/11/13	29,370	A 2003	30,195
Series A 2014-Refunding	08/19/14	88,680	A 2006	87,225
Series A 2015-Refunding	04/01/15	20,250	A 2011-Refunding	21,380
Series A 2020-Refunding	03/26/20	38,920	A 2011-Refunding	40,350
Series B 2020-Refunding	08/25/20	172,850	A 2012-Refunding	185,850
			A 2013-Refunding	19,635

Note 11 - Debt (cont.)

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2021, the Board of Public Buildings Bonds had issued $1,192,915,000 of the bond authorization. The remaining authorization is $352,085,000.

The Board of Public Buildings Bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Board of Public Buildings:						
Series A 2011-Refunding	1.0 - 5.0%	4/1; 10/1	9/11	10/1/28	$ 143,020	$ 25,080
Series A 2014-Refunding	1.0 - 5.0%	4/1; 10/1	8/14	10/1/30	88,680	65,360
Series A 2015-Refunding	5.0%	4/1; 10/1	4/15	10/1/24	20,250	20,250
Series A 2015	3.0 - 5.0%	4/1; 10/1	4/15	10/1/39	36,805	31,130
Series B 2015	3.0 - 5.0%	4/1; 10/1	9/15	4/1/30	60,000	38,215
Series A 2016	3.0 - 4.0%	4/1; 10/1	5/16	4/1/36	100,000	69,295
Series A 2017	2.0 - 5.0%	4/1; 10/1	9/17	4/1/32	77,165	60,150
Series A 2018	3.0 - 5.0%	4/1; 10/1	5/18	4/1/38	47,740	40,130
Series A 2020-Refunding	3.0 - 3.25%	4/1; 10/1	3/20	10/1/25	38,920	29,855
Series B 2020-Refunding	4.0 - 5.0%	4/1; 10/1	8/20	10/1/28	172,850	172,850
Total Board of Public Buildings Bonds					$ 785,430	$ 552,315

As of June 30, 2021, the debt service requirements for principal and interest in future years for the Board of Public Buildings Bonds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2022	$ 51,645	$ 21,270	$ 72,915
2023	54,785	18,865	73,650
2024	57,045	16,277	73,322
2025	59,815	13,515	73,330
2026	61,555	10,783	72,338
2027-2031	218,775	23,277	242,052
2032-2036	36,325	5,060	41,385
2037-2040	12,370	799	13,169
Totals	$ 552,315	$ 109,846	$ 662,161

The Missouri Health and Educational Facilities Authority (MOHEFA) issued $35,000,000 of Educational Facilities Revenue Bonds (University of Missouri-Columbia Arena Project) Series 2001, dated November 1, 2001, to fund the design, acquisition, construction, furnishing, and equipping of a sports arena facility and related facilities on the University of Missouri-Columbia campus. MOHEFA issued $20,125,000 of Educational Facilities Refunding Revenue Bonds Series 2011, dated November 17, 2011. The Refunding Educational Facilities Revenue bonds refunded $22,770,000 of Educational Facilities Revenue Bonds Series 2001. These bonds are special, limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

Note 11 - Debt (cont.)

The Educational Facilities Revenue Bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Educational Facilities Revenue Bonds:						
Series 2011-Refunding	2.0 - 5.0%	4/1; 10/1	11/11	10/1/21	$ 20,125	$ 2,465

As of June 30, 2021, the debt service requirements for principal and interest in future years for the Educational Facilities Revenue Bonds (based on the financing agreement between the State and the Authority) were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2022	$ 2,465	$ 62	$ 2,527
Totals	$ 2,465	$ 62	$ 2,527

The Regional Convention and Sports Complex Authority issued $132,910,000 of Convention and Sports Facility Project Bonds Series A 1991, dated August 15, 1991, to finance the costs of acquiring land and constructing a multi-purpose convention and indoor sports facility in downtown St. Louis, Missouri. On December 15, 1993, the Authority issued $121,705,000 of Convention and Sports Facility Project Refunding Bonds Series A 1993 for the purpose of refunding the callable portions of the outstanding bonds issued in August 1991 and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was $101,410,000. On August 1, 2003, the Authority issued $116,030,000 of Convention and Sports Facility Project Refunding Bonds Series A 2003 for the purpose of refunding Convention and Sports Facility Project Bonds Series A 1991 and Series A 1993 refunding bonds and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was $2,845,000 for the Series A 1991 bonds and $113,170,000 for the Series A 1993 refunding bonds. On August 20, 2013, the Authority issued $65,195,000 of Convention and Sports Facility Project Refunding Bonds Series A 2013 for the purpose of refunding Convention and Sports Facility Project Refunding Bonds Series A 2003. The principal amount refunded was $64,385,000. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State.

The Convention and Sports Facility Project Bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Convention and Sports Facility Project Bonds:						
Series A 2013-Refunding	2.0 - 5.0%	2/15; 8/15	8/13	8/15/21	$ 65,195	$ 9,520

Note 11 - Debt (cont.)

As of June 30, 2021, the debt service requirements for the principal and interest in future years for the Convention and Sports Facility Project Bonds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2022	$ 9,520	$ 238	$ 9,758
Totals	$ 9,520	$ 238	$ 9,758

Under a financing agreement dated August 1, 1991, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount of $10,000,000 for principal and interest and $2,000,000 for maintenance each year. Future payments to the Authority related to the bond repayment as of June 30, 2021, were as follows (in thousands of dollars):

Fiscal Year Ended June 30	State Debt Service Payments
2022	$ 5,000
Total	$ 5,000

The Missouri Development Finance Board (MDFB) issued $92,660,000 of Series 2014 Bonds dated December 10, 2014 and $97,225,000 of Series 2016 Bonds dated December 15, 2016, to fund the replacement of the Fulton State Hospital. These bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

The MDFB – Fulton State Hospital Project Bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Fulton State Hospital Project Bonds:						
Series 2014	2.125 - 5.0%	4/1; 10/1	12/14	10/1/39	$ 92,660	$ 77,610
Series 2016	4.0 - 5.0%	4/1; 10/1	12/16	10/1/39	97,225	86,825
Total Fulton State Hospital Bonds					$ 189,885	$ 164,435

Note 11 - Debt (cont.)

As of June 30, 2021, the debt service requirements for principal and interest in future years for the Fulton State Hospital Project Bonds (based on the financing agreement between the State and the Board) were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2022	$ 5,910	$ 6,428	$ 12,338
2023	6,210	6,125	12,335
2024	6,475	5,855	12,330
2025	6,710	5,617	12,327
2026	6,965	5,355	12,320
2027-2031	39,295	22,240	61,535
2032-2036	47,510	13,967	61,477
2037-2040	45,360	3,779	49,139
Totals	$ 164,435	$ 69,366	$ 233,801

The Missouri Development Finance Board (MDFB) issued $33,800,000 of Series A 2016 Bonds dated March 11, 2016, to fund the State Historical Society project. These bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

The MDFB – State Historical Society Project Bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
State Historical Society Project Bonds:						
Series A 2016	2.0 - 5.0%	4/1; 10/1	3/16	10/1/35	$ 33,800	$ 27,350

As of June 30, 2021, the debt service requirement of the State for principal and interest in future years for the State Historical Society Project were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2022	$ 1,480	$ 831	$ 2,311
2023	1,530	779	2,309
2024	1,555	748	2,303
2025	1,605	692	2,297
2026	1,665	627	2,292
2027-2031	9,065	2,326	11,391
2032-2036	10,450	813	11,263
Totals	$ 27,350	$ 6,816	$ 34,166

Note 11 - Debt (cont.)

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29-34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2021, the Missouri Highways and Transportation Commission had issued $3,990,565,000. In addition, Senate Concurrent Resolution 14 authorized $301,000,000 in Missouri Highways and Transportation Commission bonds to renovate bridges and other important transportation infrastructure. In fiscal year 2020, the Third Lien State Road Bonds, Series B 2019 were issued in the amount of $178,370,000. These bonds are payable from the General Revenue Fund.

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Commission (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Senior Lien State Road Bonds:				
Series C 2010-Refunding	11/10/10	$ 130,390	A 2001	$ 11,135
			A 2002	18,405
			A 2003	111,760
Series A 2014-Refunding	6/3/14	589,015	A 2006	149,150
			B 2006	503,330
Series B 2014-Refunding	6/3/14	311,975	2007	325,290
Series A 2019-Refunding	5/13/19	102,705	A 2008	68,605
			A 2009	42,695

The State Road Bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Missouri Highways and Transportation Commission:						
State Road Bonds						
Series B 2009	4.802 - 5.252%	5/1; 11/1	9/09	5/1/33	$ 404,375	$ 404,375

Totals	$ 1,408,715	$ 321,612	$ 1,730,327

Component Units' Bonds and Direct Placements - The following bonds are included in the balance sheet of the college and universities and the non-major component units.

Major

College and Universities:

The college and universities of the State issue revenue bonds for various projects on each respective campus. Bonds are payable, both principal and interest, only out of net income and revenues arising from operations of facilities funded by the bonds. As of June 30, 2021, debt service requirements for principal and interest for the college and universities were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Bonds from Direct Placements		Other Bonds		Totals
	Principal	Interest	Principal	Interest	
2022	$ 13,273	$ 3,625	$ 24,792	$ 87,964	$ 129,654

Totals [1]	$ 152,387	$ 23,556	$ 2,135,119	$ 1,280,906	$ 3,591,968

[1] The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

Note 11 - Debt (cont.)

Non-Major

Missouri Development Finance Board:

In December 2000, the Board issued $6,500,000 in St. Louis Convention Center Hotel Series 2000B, taxable infrastructure facilities revenue bonds and $14,600,000 in St. Louis Convention Center Hotel Series 2000C, tax-exempt infrastructure facilities revenue bonds, respectively for the purpose of paying the costs of acquiring land and constructing a parking garage. These bonds were remarketing in June 2020 as $4,590,000 2020B and $4,730,000 2020C bonds, replacing 2000B and 2000C, respectively. Bonds are payable, both principal and interest, out of revenues derived from the operation of the parking garage.

In April 2010, the Board issued $9,000,000 in Seventh Street Garage Series 2010, tax exempt infrastructure facilities revenue bonds.

The Missouri Development Finance Board Revenue Bonds issued and outstanding as of June 30, 2021, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Missouri Development Finance Board:						
Revenue Bonds						
Series 2010	Variable	monthly	4/10	10/1/33	$ 9,000	$ 4,010
Series 2020B	Variable	monthly	6/20	12/1/49	4,590	4,430
Series 2020C	Variable	monthly	6/20	12/1/49	4,730	4,580
Total Missouri Development Finance Board Revenue Bonds					$ 18,320	$ 13,020

As of June 30, 2021, the debt service requirements for principal and interest in future years for the Missouri Development Finance Board Revenue Bonds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2022	$ 562	$ 253	$ 815
2023	574	240	814
2024	585	227	812
2025	597	217	814
2026	609	236	845
2027-2031	3,255	908	4,163
2032-2036	2,478	447	2,925
2037-2041	1,550	282	1,832
2042-2046	1,550	165	1,715
2047-2051	1,260	48	1,308
Totals [1]	$ 13,020	$ 3,023	$ 16,043

[1]The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

The annual debt service schedule assumes an interest rate of 1.506%, representing the interest rate at June 30, 2021, for the Series 2020B and Series 2020C bonds. The annual debt service also assumes an interest rate of 4.25%, representing the interest rate as of June 30, 2021, for the Seventh Street Garage Series 2010 bonds. As of June 28, 2012 through April 30, 2015, the Board entered into an interest deferral agreement whereby the bond interest rate for the Seventh Street Garage Series 2010 bonds is the lesser of the modified pay rate or 4.25% annually.

Note 11 - Debt (cont.)

Bond Transactions of the State of Missouri - The following schedule is a summary of bond activity for the fiscal year ended June 30, 2021 (in thousands of dollars):

	Governmental Funds*		Enterprise Funds*	Component Units

[1] Detailed information for college and universities are not shown.
*Restated

Financed Purchases from Direct Borrowings:

The State has entered into various agreements for financed purchases from direct borrowings for buildings, equipment, and software. Through contracts with Central Bank, the State has a $11.2 million obligation outstanding as of June 30, 2021, for governmental activities. These financed purchases are secured with collateral of capital assets in the amount of $23.4 million. In the event of default, the lease shall be terminated and the resulting property returned to the lessor. If the termination is the result of non-appropriation, the State shall deliver the property to the lessor within 10 business days after the termination of the lease schedule. If the property is not delivered within 10 business days, then the State shall also be responsible for the payment of damages in an amount equal to the amount of the lease payments that would have thereafter come due on the lease schedule had it not been terminated. The State had an unused line of credit in the amount of $9.9 million at the end of fiscal year 2021.

The State has entered into an agreement for financed purchases from direct borrowings for energy star equipment through a contract with Bank of America. These purchases are secured with capital assets as collateral with a value of $23.9 million. The State has a $2.9 million obligation outstanding as of June 30, 2021, for governmental activities. In the event of default, the lease shall be terminated and the resulting property returned to the lessor. If the termination is the result of non-appropriation, the State shall deliver the property to the lessor within 10 business days after the termination of the lease schedule. If the property is not delivered within 10 business days, then the State shall also be responsible for the payment of damages in an amount equal to the amount of the lease payments that would have thereafter come due on the lease schedule had it not been terminated. The State had no available line of credit at the end of fiscal year 2021.

Through a contract with IBM, the State has $6.3 million of financed purchases from direct borrowings outstanding as of June 30, 2021, for governmental activities. These financed purchases are secured with capital assets in the amount of $12.3 million. The State of Missouri can terminate the agreement with written notice prior to 90 days of each starting anniversary. Upon termination, the State will pay to IBM all amounts due and payable including cross-band allotment offerings, termination and/or financing prepayments and applicable taxes on or before the termination. The State of Missouri may elect to cancel the fixed term license program under the agreement by giving IBM 30 day's written notice and may receive a prorated credit for a prepaid term. The prorated credit may be used to purchase IBM programs prior to the end date or termination of the remaining agreement. The credits are not transferable, cannot be converted to cash, and upon expiration eligible credit will be forfeited. The State had no available line of credit at the end of fiscal year 2021.

Note 11 - Debt (cont.)

As of June 30, 2021, debt service requirements for principal and interest in future years for direct borrowings were as follows (in thousands of dollars):

	Financed Purchases from Direct Borrowings					
	Governmental Funds		Internal Service Funds		College and Universities	
Fiscal Year Ending	Principal	Interest	Principal	Interest	Principal	Interest
2022	$ 5,444	$ 114	$ 6,122	$ 99	$ 545	$ 281

2027-2031	—	—	—	—	3,245	1,659
2032-2036	—	—	—	—	2,943	630
Total	$ 11,545	$ 209	$ 8,884	$ 116	$ 9,229	$ 4,425

Note 12 - Defeased Debt

A. Current Year Debt Defeasance

On July 22, 2020, the Southeast Missouri State University Board of Regents issued the System Facilities Refunding Revenue Bonds, Series 2020, in the amount of $57,480,000, with interest rates ranging from 2.00% to 5.00%, to refund $65,420,000 of the Series 2013A System Facilities Revenue Bonds. As a result, this bond is considered defeased and the liabilities for the bonds have been removed from the financial statements. As a result of the refunding, the University reduced its total debt service payments by $5,026,000 to obtain an economic gain (difference between the present values of the old and new debt service payments) of $4,917,000.

On April 29, 2021, the Missouri State University issued the Auxiliary Enterprise System Revenue Bonds, Series 2021A, in the amount of $33,874,000, with interest rates ranging from 1.61% to 2.04%, to refund $34,920,000 of the Series 2015A Auxiliary Enterprise System Revenue Bonds. As a result of the refunding, the University reduced its total debt service payments by $2,198,000 to obtain an economic gain (difference between present values of the old and the new debt service payments) of $2,038,000.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by the advance refunding of bonds. Irrevocable escrow accounts, containing proceeds of the refunding bond issues in the form of cash and U.S. government securities, are used to pay principal, interest, or redemption prices of the defeased bonds as and when due.

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and universities Statement of Net Position.

College and Universities - As of June 30, 2021, bonds outstanding of $145,760,000 are defeased.

Note 13 - Payables and Receivables

A summary of accounts payable and accounts receivable at June 30, 2021, is shown below (in thousands of dollars):

	Governmental Activities	Business-Type Activities	Balance June 30, 2021
Accounts Payable:			
Taxpayers	$ 409,827	$ 342	$ 410,169
Other Governments	177,416	8	177,424

Accounts Receivable, net	$ 5,411,070	$ 170,354	$ 5,581,424

Note 14 - Deferred Inflows and Outflows

Deferred outflows of resources are defined as consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows increase net position, similar to assets and deferred inflows decrease net position, similar to liabilities.

Note 14 - Deferred Inflows and Outflows (cont.)

The components of deferred outflows of resources and deferred inflows of resources reported in the government-wide financial statements as of June 30, 2021, are as follows (in thousands):

	Primary Government			
	Governmental Activities	Business-Type Activities	Total	Component Units
Deferred Outflows of Resources				
Pension Differences Between Expected and Actual Experience	$ 5,548	$ 99	$ 5,647	$ 56,934

Totals	$ 40,225	$ 109,607

Note 15 - Interfund Assets and Liabilities (cont.)

	Advance From Component Units
	Non-Major Component Units
Advance To Component Units	
Conservation and Environmental Protection	$ 98

The loans from the component units were for animal waste treatment systems.

During the consolidation process for the Government-Wide Statement of Net Position, interfund payables and receivables were eliminated as follows: $2,000 on the face of the Proprietary Funds Statements of Net Assets and governmental activities in the amount of $8,760,000.

Note 16 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2021, were as follows (in thousands of dollars):

	Transfers In:				
	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Governmental Funds
Transfers Out:					
General Fund	$ —	$ 1,014,457	$ 1,094	$ 45,547	$ 253,676
Public Education	29,933	—	—	—	—
Conservation and Environmental Protection	721	—	—	—	1,084
Non-Major Governmental Funds	15,008	5,000	—	506,627	5,694
State Lottery	—	394,349	—	—	—

Internal Service Funds	1,754	—	—	—	49
Totals	$ 48,085	$ 1,413,806	$ 1,094	$ 552,174	$ 267,112

Continues Below

	Unemployment Compensation	Missouri Veterans' Homes	Non-Major Enterprise Funds	Internal Service Funds	Totals
Transfers Out:					
General Fund	$ 329,228	$ —	$ 1,751	$ 2,389	$ 1,648,142
Public Education	—	—	—	—	29,933
Conservation and Environmental Protection	—	—	—	—	1,805
Non-Major Governmental Funds	—	6,000		—	538,329
State Lottery	—	—	—	—	394,349
Unemployment Compensation	—	—	—	—	6,600
Non-Major Enterprise Funds	—	—	—	—	678
Internal Service Funds	—	—	43	12	1,858
Totals	$ 329,228	$ 6,000	$ 1,794	$ 2,401	$ 2,621,694

Note 16 - Interfund Transfers (cont.)

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

During fiscal year 2021, there were transfers of $1,722,000 from the General Fund, special revenue funds, and capital projects funds to the enterprise funds. These are transfers of capital assets and reported as capital contributions in the enterprise funds and excluded from the governmental funds; therefore these transfers are not included in the reconciliation. This is because governmental funds use the modified accrual basis of accounting and therefore do not report capital assets on their financial statements.

There was a significant increase in transfers from the General Fund to Unemployment Compensation, due to a transfer of COVID Relief Fund moneys to the Unemployment Compensation fund to stabilize unemployment insurance funding impacted by the pandemic.

Note 17 - Restatements

During fiscal year 2021, additional information became available which required fund equity amounts. The following table presents a summary of these restatements by fund (in thousands of dollars):

	June 30, 2020 Fund Balance/Net Position Previously Reported	Prior Period Adjustments	June 30, 2020 Fund Balance/Net Position Restated

Note 17 - Restatements (cont.)

Breakdown of restatements by type:

- General Fund, the restatement was due to an decrease of cash and cash equivalents of $183,000, a decrease of accounts receivable of $327,000, an increase in accounts payable of $147,936,000, and an increase in fund balance of $5,351,000 due to the implementation of GASB Statement No. 84, *Fiduciary Activities.*
- Public Education, fund balance increased by $1,040,000 due to the implementation of GASB Statement No. 84, *Fiduciary Activities.*
- Conservation and Environmental Protection, fund balances increased $1,241,000 due to the implementation of GASB Statement No. 84, *Fiduciary Activities.*
- Missouri Road Fund, the restatement is due to an increase in cash and cash equivalents of $26,816,000 and an increase of accounts receivable of $1,528,000.
- Non-major special revenue funds, accounts receivable increased by $3,303,000, inventories decreased by $6,000, and fund balances increased by $810,000 due to the implementation of GASB Statement No. 84, *Fiduciary Activities.*
- Unemployment Compensation, the restatement is due to an increase of accounts payable of $3,303,000.
- Missouri Veterans' Homes, the restatement was due to an increase of capital assets (net of accumulated depreciation/amortization) of $21,000 and an increase of bonds payable of $3,485,000.
- Non-major enterprise funds, the restatement was due to an increase of investments of $1,000, a decrease in accounts receivable of $2,000, and a decrease of capital assets (net of accumulated depreciation/amortization) of $5,262,000.
- Non-major internal service funds, the restatement was due to a decrease of accounts receivable of $165,000, a decrease of capital assets (net of accumulated depreciation/amortization) of $2,951,000, an increase of obligations under financed purchases of $961,000, and a decrease of obligations under lease purchases of $3,000.
- Pension (And Other Employee Benefit) Funds, the restatement was due to the implementation of GASB Statement No. 84, *Fiduciary Activities,* decreased net position by $573,000.
- Private-Purpose Trust Funds, the restatement was due to the implementation of GASB Statement No. 84, *Fiduciary Activities,* decreased net position by $992,000. The implementation of this standard reclassified the Johnson-Travis Memorial Trust Fund from a private-purpose trust fund to a governmental fund.
- Custodial Funds, the restatement was due to the implementation of GASB Statement No. 84, *Fiduciary Activities,* which increased net position by $1,122,588,000. Custodial Funds are a new fund type per GASB Statement 84 and therefore did not have a net position previously reported.
- Discretely presented component units - colleges and universities, net position increased by $492,000 due to the implementation of GASB Statement No. 84, *Fiduciary Activities.*

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net position for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, internal balance increased by $18,000, capital assets (net of accumulated depreciation/amortization) decreased by $8,359,000, obligations under financed purchase decreased by $965,000, obligations under lease purchase increased by $14,000, bonds payable decreased by $3,485,000, and advance from other governments decreased by $645,000. The restatement due to the implementation of GASB Statement No. 84, *Fiduciary Activities,* increased net position by $7,000.

On the Government-Wide Statement of Activities, net position for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by a decrease in internal balance of $18,000.

Note 18 - Fund Deficit

The following funds had a deficit balance:

Enterprise Funds – State Lottery, Missouri Veterans' Homes, and State Agency for Surplus Property, Internal Service Funds – Natural Resources Cost Allocation, Working Capital Revolving, Economic Development Administrative, and Professional Registration Fees, and Component Unit Funds – Missouri Wine and Grape – At June 30, 2021, these funds had a net position deficit of $11,494,000, $141,785,000, $173,000, $22,811,000, $2,676,000, $3,650,000, $11,331,000, and $570,000 respectively. These funds have deficit balances due to the fiscal year 2015 implementation of GASB 68 and the reporting of net pension liabilities and the fiscal year 2018 implementation of GASB 75 and the reporting of OPEB liabilities. It is expected that these liabilities will be funded over time.

Enterprise Fund – Petroleum Storage Tank Insurance – At June 30, 2021, this fund had a net position deficit of $48,416,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2025, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Under Section 319.132, RSMo, the Board of Trustees has authority to increase the transport load fee to a maximum of $60 per 8,000 gallons. In addition, under Section 319.133, RSMo, the Board can increase annual participation fees to a maximum of $500 per tank per year. These facts, along with the knowledge that PSTIF's claim reserves are set using very conservative assumptions, assure that adequate revenues will be available to meet its liabilities. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Note 19 - Tax Abatements

The State has entered into various agreements to provide tax abatement's through certain programs that provide economic benefit to the State.

Tax Abatement Program	Amount of Taxes Abated during Fiscal Year 2021 (in thousands)	
Housing		
Missouri Low Income Housing Tax Credit	$ 144,395	
Neighborhood Preservation Tax Credit	7,012	
Business Recruitment		
Missouri Quality Jobs	17,605

Business Use Incentives for Large-Scale Development	12,343	
Enhanced Enterprise Zone	1,151	
Business Facility Tax Credit	13,271	
Amateur Sports Ticket Sales Tax Credit	129	
Rebuilding Communities Tax Credit	4	
Development Tax Credit	413	
Data Center Sales Tax Exemption	—	*
Redevelopment		
Historic Preservation Tax Credit	118,212	
Brownfield Remediation	21,382	
TOTAL	$ 466,372	
Chapter 100 Personal Property Tax Exemption - maximum amount of state sales tax exemption over the terms of the leases for fiscal year 2021 projects	$ 6,604	

*Confidential

Housing

The Missouri Low Income Housing Tax Credit (MOLIHTC) is authorized by Sections 135.350-135.363, RSMo, and is a ten year tax credit which is available to qualified owners of affordable rental housing. To qualify upon application, a development must 1) rent at least 20% of its units to families earning 50% of the area median family income, 2) rent at least 40% of its units to families earning 60% of the area median family income, each adjusted for family size or 3) rents at least 40% of its units to families whose income does not exceed the income limitation designated for the respective unit, where the average of the income-designated units may not exceed 60% AMGI. The MOLIHTC generates equity investments that are purchased by the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. The investor of the MOLIHTC can redeem the credit by applying it dollar for dollar to the following types of tax liabilities: income tax, corporate franchise tax, insurance premium tax, other financial institutions tax, or express company tax. MOLIHTC properties must comply with tenant eligibility, property maintenance, and fair housing law throughout a 15-year period. The Missouri Housing Development Commission monitors the properties for compliance and reports non-compliance to the Internal Revenue Service and Missouri Department of Revenue. Property owners found to be out of compliance are subject to recapture through the provisions of Section 135.355, RSMo and IRS §42. Redemptions were made on MOLIHTC's authorized/issued in prior years. The MOLIHTC reduced state taxes by $144,395,000 during fiscal year 2021.

Note 19 - Tax Abatements (cont.)

The Neighborhood Preservation Tax Credit is authorized by Sections 135.475-135.487, RSMo, and provides incentives for homeowners in lower income areas who rehabilitate or construct owner-occupied homes in qualifying or eligible areas of the State. Upon application, the eligible property must be in a qualifying area with a median household income of less than 70% of the median household income for the metropolitan statistical area (MSA) or non-MSA; or be located in an eligible area with a median household income of 70-89% of the median household income for the applicable MSA or non-MSA. Recipients are eligible to receive a credit for 15% of eligible costs up to $25,000 per residence for new residences in eligible areas; 15% of eligible costs up to $40,000 per residence for new residences in qualifying areas; 25% of eligible costs with a minimum of $10,000 and not to exceed $25,000 per residence for substantial rehabilitation in eligible areas; 35% of eligible costs with a minimum of $5,000 or 50% of purchase price and not to exceed $70,000 per residence for substantial rehabilitation in qualifying areas; and 25% of eligible costs with a minimum of $5,000 and not to exceed $25,000 per residence for non-substantial rehabilitation in qualifying areas. The abatement's can be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. A taxpayer, other than the owner-occupant who receives a certificate of tax credit, shall have 30 days within the date of the sale to furnish satisfactory proof that the residence was sold at market to the Director of the Department of Economic Development (DED). If the Director determines that the residence was not in good faith intended for long-term owner occupancy, then the Director may revoke any tax credits issued and seek recovery of those credits pursuant to Section 620.017, RSMo. There are no other commitments made as part of the agreement. The Neighborhood Preservation Tax Credit reduced state taxes by $7,012,000 during fiscal year 2021.

Business Recruitment

Missouri Quality Jobs is authorized by Sections 620.1875-620.1890, RSMo and provides tax incentives to qualified companies for facilitating the creation of new jobs or the retention of existing jobs in the State. This program has been replaced by Missouri Works, except for current projects. To qualify, the company must create a minimum number of jobs within the project facility within 2 to 3 years after the approval of the Notice of Intent and must maintain those jobs for the duration of the benefit. The average wage of the new jobs must equal or exceed the average county wage and the company must offer health insurance and pay at least 50% of the premium. The company must also submit an annual report. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. Missouri Quality Jobs reduced state taxes by $17,605,000 during fiscal year 2021.

The Missouri Works - Business Incentives is authorized by Sections 620.2000-620.2020, RSMo and provides tax incentives for qualified companies to create or retain jobs in the State. There are several sub-programs under this program with different qualifications for each. To qualify for the credits, a company must create or retain a minimum number of new jobs at the project facility with average wages of 80%, 90%, 100%, 120%, or 140% of the county average wage, depending upon the sub-program. The company must offer health insurance and pay at least 50% of the premium. The company must meet the requirement for new private capital investments, ranging from $0 to $500 million. The company must meet the required number of jobs at the applicable % of the county average wage within 2 years of the Approval of the Notice of Intent and must maintain those minimums for the duration of the benefit. The company must also submit an annual report documenting the jobs created, total payroll, and health insurance requirements. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. Taxes may be recaptured due to misrepresentation, out-of-state relocation, or failure to file an annual report. The agreement requires 100% of the benefits received to be repaid within 60 days for misrepresentation or out-of state location or one year for failure to file an annual report. There are no other commitments made as part of the agreement. Missouri Works - Business Incentives reduced state taxes by $100,394,000 during fiscal year 2021.

Note 19 - Tax Abatements (cont.)

Missouri Works New Jobs Training and Job Retention Training are authorized by Sections 620.800-620.809, RSMo. New Jobs Training provides assistance to eligible companies to train workers in newly created jobs. This program has an annual appropriation. For funding consideration, the company must create new jobs in the state; the project must include eligible training costs, as well as other eligibility criteria such as types of occupations, wage rates, and turnover rates. Job Retention Training provides training assistance to eligible companies for job retention efforts. To qualify, a project must be for an existing Missouri company making a capital investment of at least 5 times the total project costs, retaining at least 100 eligible jobs at the facility for at least one year, be located in a border community, or be determined to represent substantial risk of relocation. Eligible companies for both programs include manufacturing, research and development, or those engaged in interstate commerce. The company must retain the eligible jobs in the project for at least 5 years and use the funding only toward eligible project costs. These programs are administered locally through community colleges. While the recipient's taxes are not actually reduced, a portion of normal withholding payments (paid to the Department of Revenue) are deferred to pay for eligible project costs. The amount that can be deferred is 2.5% of the payroll for the first 100 jobs in the project and 1.5% of the payroll for the remaining jobs in the project. The company may file withholding claims for the project until the budgeted project funds are disbursed; typically for a period of 3-5 years, with maximum limit of 8 years. There are no other commitments under these programs. Recapture provisions apply in accordance with Section 620.017, RSMo in which the recipient shall repay training funds under these programs if the jobs included in the project are moved out of Missouri or are eliminated within five years of the date the project is approved by DED. The Director of the Division of Workforce Development within DED shall have the authority and discretion to exempt the recipient in whole or in part of such repayment. Missouri Works New Jobs Training and Job Retention Training reduced state taxes by $7,154,000 and $6,795,000, respectively, during fiscal year 2021.

The Missouri Manufacturing Jobs Act is authorized by Section 620.1910, RSMo and provides incentives in the form of retaining withholding taxes to expand manufacturing facilities for an existing product or the creation of a new product. This program sunset in 2016 and no new applications are being accepted. To qualify, manufacturing companies must have a North American Industry Classification System (NAICS) of 33611, which is an establishment primarily engaged in (1) manufacturing complete automobile and light duty motor vehicles or (2) manufacturing automobile and light duty motor vehicle chassis. The company must manufacture goods at a facility in the state throughout the period benefits are received, and make a capital investment at a facility of at least $75,000 per retained job for the manufacture of a new product within 2 years of beginning to retain withholding taxes or commit to make a capital investment of at least $50,000 per retained job at the facility for the modification or expansion of the manufacture of an existing product within 2 years of beginning to retain withholding taxes. Qualified suppliers of an eligible manufacturer must attest to DED that they derive more than 10% of its total annual sales revenue from sales to a qualified manufacturing company, add 5 or more new jobs for a period of 3 years, pay wages for the new jobs equal to or exceeding the county average wage using the NAICS industry classification, but are not less than 60% of the statewide average wage, and the company must offer health insurance and pay at least 50% of the premium. If qualified, the company is allowed to retain 100% of the withholding tax that would otherwise have been paid in to the state for those jobs for 10 years for qualified manufacturers or 3 to 5 years for qualified suppliers. There are no provisions for recapture and no other commitments are made as part of the agreement. The Missouri Manufacturing Jobs Act reduced state taxes by $16,112,000 during fiscal year 2021.

Note 19 - Tax Abatements (cont.)

Business Use Incentives for Large-Scale Development (BUILD) is authorized by Sections 100.700-100.850, RSMo. The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance of Board of Certificates (bonds or notes), where the principal and interest will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri state income tax credits. The businesses may use these credits against taxes, which would otherwise be due, or to obtain a refund if the business has insufficient Missouri income tax liability to offset the credit. A business can apply these credits against income tax, bank tax, insurance premium tax, or other financial institutions tax. To qualify, an eligible industry in manufacturing, processing, assembly, research and development, agricultural processing or services in interstate commerce must invest a minimum of $15 million; or $10 million for an office industry in an economic development project; and create a minimum of 100 new jobs at the project facility within 3 years, or a minimum of 500 jobs if the project is an office industry, or a minimum of 200 new jobs if the project is an office industry located within a distressed community as defined in Section 135.530, RSMo. The tax credits become subject to recapture if the company does not expend the minimum investment on or before the first test date established in the program agreement, or create and maintain the minimum number of new jobs on or before the first test date. The first test date is the last day of the closest calendar quarter ending 3 years following bond closing. The tax credits are also subject to recapture if the company eliminates or announces its intention to eliminate all the new jobs at the project within 2 years of the first test date. If subject to recapture, the company shall, within 30 days following written demand from the Board, reimburse the Board in full for the face amount of the tax credits received from the date of execution of the program agreement to the date of such demand. There are no other commitments made as part of the agreement. The BUILD program reduced state taxes by $12,343,000 during fiscal year 2021.

The Enhanced Enterprise Zone is authorized by Sections 135.950-135.973, RSMo and provides tax credits to new or expanding businesses in enhanced enterprise zones. To qualify, a company must create or maintain at least 2 new jobs and make at least $100,000 in eligible investments. In addition, a Notice of Intent must be approved by DED, and the business must submit an annual report. Eligibility for the credit is determined by the zone based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Taxes are reduced by claiming a tax credit against the Missouri income tax liability owed to the state. The tax credits are calculated at 2% of new payroll and 0.5% of new investment. There are no provisions for recapture and no other commitments are made as part of the agreement. The Enhanced Enterprise Zone reduced state taxes by $1,151,000 during fiscal year 2021.

The Business Facility Tax Credit is authorized by Sections 135.100-135.150 and Section 135.258, RSMo and provides to facilitate the expansion of new or existing facilities in Missouri. To qualify, a Notice of Intent must be approved by DED; the facility must create at least 2 new jobs and make $100,000 in eligible investments or pursuant to House Bill 191 (2009), for “headquarters” that commence operations and “headquarters” of certain “employee-owned” businesses that commence or expand operations must create 25 new jobs and make $1,000,000 in new investment. The company must submit an annual report to DED. Taxes are reduced by claiming a tax credit against the Missouri tax liability owed to the state. The tax credits are calculated as $75 to $150 per new job and $75 to $150 for each $100,000 in new investment for up to 10 years. The tax credits for headquarters are calculated as the greater of $400 per new job plus 4% of new investment or $500 per new job plus $500 per each $100,000 in new investment for up to 10 years. The credit may be applied against income tax, insurance premium tax, or insurance company retaliatory tax. This program has sunset as of January 1, 2005 except headquarters that commence or expand operations on or before January 1, 2025 may be eligible for the program. There are no provisions for recapture and no other commitments are made as part of the agreement. The Business Facility Tax Credit reduced state taxes by $13,271,000 during fiscal year 2021.

Note 19 - Tax Abatements (cont.)

The Amateur Sports Ticket Sales Tax Credit is authorized by Section 67.3000, RSMo and provides an incentive to encourage the location of competitively bid amateur sporting events in Missouri. Upon application, applicants must submit predictions on the anticipated economic benefit to the state. Applicants will be evaluated based upon anticipated and verified economic performance. The program is available to one or more certified sponsors, endorsing counties, endorsing municipalities, or a local organizing committee, acting individually or collectively. The program provides tax credits equal to the lesser of: $5 per admission ticket sold to the event; or 100% of eligible costs incurred by the applicant. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit and may be taken against income tax, bank tax, insurance premium tax, and other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Amateur Sports Ticket Sales Tax Credit reduced state taxes by $129,000 during fiscal year 2021.

The Rebuilding Communities Tax Credit is authorized by Section 135.535, RSMo and provides a tax credit for eligible businesses locating, relocating, or expanding within a distressed community. This program has been replaced by Missouri Works, except for current projects. To qualify, a business must have fewer than 100 full-time employees, 75% of which must be located in the distressed community; be primarily engaged in manufacturing, biomedical, medical devices, scientific research, animal research, computer software design, computer software development or computer programming, which includes Internet, web hosting, and other information technology, wireless, wired or other telecommunications, or a professional firm. The business must submit an annual tax credit application documenting eligible expenditures on the project to DED. Once approved, the tax credit is calculated at 40% or 25% of the qualifying expenditures and may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Rebuilding Communities Tax Credit reduced state taxes by $4,000 during fiscal year 2021.

The Development Tax Credit is authorized by Sections 32.100-32.125, RSMo and provides incentives to facilitate a business project in order to create new jobs. This program has been replaced by Missouri Works, except for current projects. Tax credits are issued to approved taxpayers that make an eligible donation to a non-profit corporation. The non-profit leases assets to an approved company. The company must create a specified number of jobs within 2 years and be in a distressed or blighted area. In many instances, the taxpayer that makes the donation is also the company that is creating the economic impact. The donor that makes the contribution must submit a tax credit application to DED. Once approved, taxes are reduced by claiming a tax credit against Missouri tax liability owed to the state. The tax credit is calculated at 50% of the eligible donation and may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, other financial institutions tax, or express company tax. No other commitments are made as part of the agreement. DED may recapture tax credits up to the amount issued if the non-profit fails to complete the project or comply with the agreement. The non-profits only and not the donors are subject to the recapture. The Development Tax Credit reduced state taxes by $413,000 during fiscal year 2021.

Note 19 - Tax Abatements (cont.)

Chapter 100 Personal Property Tax Exemption is authorized by Section 144.054 (2), RSMo and provides a state and local sales tax exemption on tangible personal property leased by a company from the City or County. To qualify, cities and counties may apply to DED on behalf of eligible companies for which Chapter 100 bond proceeds are used to purchase tangible personal property, which is leased back to the company. DED may apply discretionary benefit exemption if the benefit contained in a formal DED proposal is accepted by the company. Since DED cannot enact the sales tax exemption on the lease without the underlying Municipality Chapter 100 in place, any inclusion in a formal DED proposal will be coordinated with the Municipality and their economic developer. The proposal must have been accepted by the company prior to any project announcements, no approval or issuance of the bonds may have taken place, and the tangible personal property may not have been purchased prior to the acceptance of the proposal. The project must also be competitive, have comprehensive local incentive participation, have above average wages with benefits, be located in an economically distressed or blighted area, have a positive state fiscal impact, and have an indication that the municipality has offered the local Chapter 100 exemptions. The company receives the exemption on sales tax as the facility, construction materials, and certain tangible personal property may be purchased as exempt by the City or County and then leased back to the company. The company will be responsible for the payment of sales tax on purchases exceeding the maximum accepted in the proposal, ineligible purchases, or the revenue stream generated by lease of ineligible personal property. There are no provisions for recapture and no other commitments are made as part of the agreement. The sales tax is applicable to the lease payments made over a period not to exceed 20 years by statute and restricted further by local ordinance. The sales tax exemptions are only applicable if tangible personal property purchases are made within established project time periods, as listed on the certificate. For fiscal year 2021, certificates were provided for the exemption of state sales tax related to lease payments of tangible personal property under a Chapter 100 structure for three projects. The fiscal year 2021 project certificates total a cumulative amount of state sales tax not to exceed $6,604,000 over the terms of the respective leases.

Data Center Sales Tax exemption is authorized by Section 144.810, RSMo and incentivizes the location and expansion of data centers in the state by providing an exemption of the sales and use taxes associated with a variety of activities necessary to build a new facility or expand an existing facility. To qualify, companies must create 5 new jobs and $5 million in investment for expanding facilities or create 10 new jobs and $25 million in investment for new facilities within certain time frames. A company is refunded their sales and use taxes for new purchases related to the data center project for the period prior to meeting the threshold for participation and then are exempt for a period of no more than 10 years for expanding facilities or 15 years for a new facility. Taxes may be subject to recapture if the full investment projected is not met or if the jobs created are not maintained, causing the cost/benefit to the State to be negative, or if the company does not meet the minimum thresholds. Taxes will be recaptured up to the amount that creates a positive cost/benefit to the state, or if the company does not meet the minimum thresholds, the full exemptions to date must be repaid. No other commitments are made as part of the agreement. The amount that state taxes were reduced is confidential under Section 32.057, RSMo.

Redevelopment

The Historic Preservation Tax Credit is authorized by Sections 253.545-253.561, RSMo and provides an incentive for the redevelopment of commercial and residential historic structures in the state. Upon application, the eligible property must be listed on the National Register of Historic Places, be certified by the Department of Natural Resources (DNR) as contributing to the historical significance of a certified historic district listed on the National Register, or located within a local historic district that has been certified by the U.S. Department of Interior. The costs and expenses associated with the rehabilitation must exceed 50% of the total basis of the property. All approved applicants must commence rehabilitation within 2 years of the date of issuance of the letter of approval from DED. The program provides state tax credits equal to 25% of eligible costs and expenses of the rehabilitation of approved historic structures, which the recipient is able to use to reduce their outstanding tax liability in an amount equal to the value of their tax credit. The credit may be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Historic Preservation Tax Credit reduced state taxes by $118,212,000 during fiscal year 2021.

Note 19 - Tax Abatements (cont.)

Brownfield Remediation is authorized by Sections 447.700-447.718, RSMo and provides incentives to businesses or developers to redevelop property contaminated with hazardous waste. To qualify, the property must be abandoned or underutilized for at least 3 years, and contaminated with hazardous substance, the applicant cannot be a responsible party, the project must be accepted into DNR Voluntary Cleanup Program, the project must be endorsed by city or county government, must create at least 10 new jobs or retain 25 jobs, the project must create a positive net state economic benefit, and must demonstrate need for the credits. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit. The tax credits may be issued for up to 100% of eligible costs and expenses for remediating the project property. The tax credit may also include up to 100% of the costs of demolition that are not directly part of the remediation activities. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by DNR. The tax credits may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. The tax credits may be subject to recapture in the event the owner sells the abandoned or underutilized property within a 5 year period after the receipt of remediation tax credits, grants, loans or loan guarantee. Subject to Sections 447.700-447.718, RSMo, the owner shall repay a portion of the tax credits and grant funds provided based on the percentage of the owner's investment for the project to DED's total financial assistance, upon achieving an annual internal rate of return of 25%. The internal rate of return calculation shall be documented by the owner's capital gains tax calculation. Owner investment is equity and debt for the eligible project. At the end of the project, a purchaser who has performed voluntary remediation action certifies to DNR that the goals of the purchaser's voluntary remediation plan have been attained. DNR verifies the remediation plan goals are achieved and issues a certificate that states that the site has been cleaned up to DNR standards pertaining to the property itself and therefore protects both current and future owners of the property. Brownfield Remediation reduced state taxes by $21,382,000 during fiscal year 2021.

Note 20 - Commitments

Contracts

The Department of Conservation had contracts outstanding of $794,000 for construction and $1,035,000 for land acquisition contracts at June 30, 2021. These contracts are funded through special revenue funds from specific sales tax, fees, and permits.

The Department of Natural Resources had contracts outstanding of $52,000 for construction and $5,000 for land acquisition contracts at June 30, 2021. These projects are funded through the General Fund, a special revenue fund, and an enterprise fund.

The Department of Transportation had long-term contracts of $999,699,000 outstanding at June 30, 2021. These contracts are paid from capital projects funds with approximately 73% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2021 of $50,526,000. Approximately 48.4% will be paid from the General Fund, 22.9% from special revenue funds, 24.8% will be paid from the capital projects funds, and 3.8% will be paid from an enterprise fund.

Note 20 - Commitments (cont.)

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to $11.2 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2021 was $364,000. Payment of principal and interest must be completed by March 2038.

As of June 30, 2021, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling $287,017,000. The payments are as follows:

2022	$	28,488,000
2023		29,439,000
2024		30,420,000
2025		31,434,000
2026		32,079,000
2027-2030		135,157,000

Truman State University had approximately $671,000 in outstanding commitments for various construction contracts at June 30, 2021.

Southeast Missouri State University had outstanding commitments of approximately $7,340,000 related to construction contracts at June 30, 2021.

Missouri State University had approximately $26,500,000 in outstanding commitments for various construction contracts at June 30, 2021.

University of Central Missouri had approximately $4,467,000 in outstanding commitments related to construction contracts at June 30, 2021.

Northwest Missouri State University had approximately $5,297,000 in outstanding commitments related to various construction contracts at June 30, 2021.

Note 21 - Risk Management and Insurance

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to state statute, through the State's Legal Expense Fund, which is a component of the General Fund in this report. This insurance covers all state employees.

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. Incurred but not reported (IBNR) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage. OA-Risk Management also procures property insurance for approximately 3% of all state buildings, with the remainder uninsured. The buildings are insured through purchased property insurance and through the Property Preservation Fund. Buildings insured through the Property Preservation Fund are backed with bonded debt through the Board of Public Buildings.

Note 21 - Risk Management and Insurance (cont.)

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated pending self insurance claims represent the expected losses to be realized on known claims pending and include minor non-incremental claims adjustment expenses. Estimated unreported claims represent expected losses or claims incurred but not reported. Amounts are reported based on actuarial calculations. Liabilities for incurred losses related to workers' compensation and general and vehicle liability claims are reported at their discounted value, assuming an investment yield of 2.0%.

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan for active employees is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is established from an actuarial report, which is based on data by MoDOT and claims administrators.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for participants and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a non-major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discount rates ranging between 1.00% and 3.50% based on expected future investment yield assumptions. The University of Missouri System is included with college and universities as a major component unit of the State.

Missouri State University is exposed to various risks of loss. These include loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental, and accidental benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to general liability, workers' compensation, natural disasters, and employee health benefits. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self-Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self-insures the workers' compensation benefits for all state employees, including University employees.

Southeast Missouri State University is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, business interruption, errors and omissions, employee injuries and illnesses; natural disasters and employee health and accident benefits. The University purchases commercial insurance and also receives coverage through the State of Missouri for these risks of loss. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

Note 21 - Risk Management and Insurance (cont.)

Changes in the balances of claims liability (in thousands of dollars) during the current and prior fiscal years are as follows:

	Type of Insurance Claims	Fiscal Year Claims Liability 6/30/2020	Current Year Claims and Estimated Changes	Claim Payments	Fiscal Year Claims Liability 6/30/2021
Governmental Activities					
OA Workers Compensation Fund	Workers Comp.	$ 23,241	$ 26,059	$ (29,740)	$ 19,560

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

Note 22 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Section 260.371.7, RSMo, states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2021, the State was participating in the cleanup of seventeen Superfund sites. Total pollution remediation obligation for these sites totaled approximately $48.1 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Missouri Department of Transportation (MoDOT) is in remediation activities related to buildings and grounds caused by contamination and a fuel leak. The current pollution remediation obligation for these sites total approximately $4.0 thousand. The potential for additional pollution remediation exists, however, any future remediation obligations are not yet estimable.

The Department of Public Safety, Office of the Adjutant General, has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The site is listed on the National Priorities List (NPL) and is governed by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). At this time, the Department of Public Safety's portion of the costs for the cleanup cannot be determined.

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	Type of Pollution Remediation	Fiscal Year Remediation Liability 6/30/2020	Current Year Assessments and Estimated Changes	Payments	Fiscal Year Remediation Liability 6/30/2021	Due Within One Year
DNR	Superfund Sites	$ 48,260	$ 1,139	$ (1,269)	$ 48,130	$ 2,142
MoDOT	Buildings and Grounds Remediation	4	—	—	4	—
Total Governmental Activities		$ 48,264	$ 1,139	$ (1,269)	$ 48,134	$ 2,142

Note 22 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2021, the DNR, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be $353.7 million. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

As of June 30, 2021, Missouri Department of Natural Resources (DNR) had eleven active Municipal Solid Waste Landfills (MSWLFs), no disposal transfer stations, and there was none in bankruptcy and no defaults. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with the DNR Solid Waste Management Law and Regulations. At June 30, 2021, it is expected that $1.4 million will be paid over the remaining monitoring periods. This is the amount of the assigned fund balance that has been designated on the General Fund balance sheet for forfeited assets. The percentage of landfill capacity used to date is 35 percent. The estimated remaining landfill life is 106.32 years.

The University of Missouri System has been working with the Voluntary Cleanup Program at DNR to characterize subsurface contamination on a University owned property. The University received the results of the two-year sampling process in fiscal year 2016. The University is awaiting a determination from DNR. The site is now on the National Regulatory Commission (NRC) license and must be decommissioned. Upon further review of the documents, the University determined that it does not believe that the documents support the decision to add the site to the NRC license due to an overestimated quantity of isotopes managed at the site. The University made a formal request to remove the site from the NRC license. NRC responded with a request for more information, including a dose assessment, which is estimated at a cost of $15.0 thousand. If the NRC finds the dose assessment to be unacceptable, then the University will be required to fully decommission the site, including a sampling plan. The cost of a sampling plan to characterize the chemical contamination is estimated at $1.0 million. The University has not commenced any actions requiring the recognition of a liability for this property.

Note 23 - Asset Retirement Obligations

The State has a legally enforceable obligation to perform future asset retirement obligations (ARO) related to its tangible capital assets.

The Missouri Department of Natural Resources (DNR) has a total ARO of $1,720,000 for gas chromatographs, radiation detectors, petroleum above ground storage tanks, and permitted sewage treatment plants. Gas chromatographs and radiation detectors are considered radioactive sources and will not be accepted by the State's Surplus Property Program, thus requiring a cost for disposition. These ARO's are measured at the current cost of returning the items to the vendor. Gas chromatographs have remaining useful lives of 2 to 8 years and radiation detectors have remaining useful lives of 0 to 7 years. The ARO for petroleum above ground storage tanks is measured using the best estimate for taking the tanks out of service, which consists of emptying the tanks, removing the secondary containment, and proper disposal. Remaining useful lives of the tanks are 0 to 14 years. Aboveground storage tanks are regulated under the Missouri Code of State Regulations 2 CSR 90-30.050.16. The ARO for permitted sewage treatment plants is measured using the best estimate for closure of the facilities, which includes submitting a closure plan to DNR addressing wastewater and sludge removal, dewatering activities, removal of treatment structures, and removal of solid waste or leaving in place as a clean fill. Remaining useful lives of the plants is 0 to 46 years. Permitted sewage treatment plants are regulated by the Missouri Code of State Regulations 10 CSR 20-6-011.12 and the Federal Clean Water Act. The ARO for these items would be funded by state appropriations.

Note 23 - Asset Retirement Obligations (cont.)

The Missouri Department of Transportation (MoDOT) has an ARO of $51,000 to properly dispose of all nuclear gauges used to measure physical properties of materials during its construction projects. The ARO is measured using the current cost of returning the items to the vendor and the assets have remaining estimated useful lives of 14 years. Disposal of the nuclear gauges is required by the Nuclear Regulatory Commission - NUREG 1556 Volume 1 Rev 2. The ARO will be funded by state appropriations.

The Department of Public Safety (DPS), Office of the Adjutant General, has an ARO of $30,000 to take two underground storage tanks out of service. The ARO is measured using the current cost for closure and the assets have estimated remaining useful lives of 23 years. Underground storage tanks are regulated under the Missouri Code of State Regulations 10 CSR 26. The ARO will be funded by state appropriations.

The University of Missouri (MU) has an ARO based on its ownership of two nuclear research reactors, which are regulated by the U.S Nuclear Regulatory Commission (NRC). The NRC requires the University to submit decommissioning funding plans every three years to retain the right to operate the reactors. The decommissioning funding plans update and adjust changes in costs to remediate and the extent of the estimated future contamination. The cost to decommission the reactors is based on a formula as set forth by the NRC as part of the licensing of the facilities. The ARO as of the end of fiscal year 2021 was $62,433,000. The remaining useful lives of the reactors was 21 years.

The balances of the asset retirement obligations (in the thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	ARO Liability at June 30, 2021
DNR	$ 1,718
MoDOT	51
DPS	30
Total Governmental Activities	$ 1,799
Business-Type Activities	
DNR	$ 2
Component Units	
MU	$ 62,433

Note 24 - Contingencies

Contingent Claims Liabilities

Contingent claims liabilities are reported when it is probable a loss has occurred and the amount can be reasonably estimated. These losses include estimates of claims which have been incurred but not reported, including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Position. Expenditures are recognized as payments are made.

Note 24 - Contingencies (cont.)

As of June 30, 2021, the amount of contingent liabilities was $43.5 million. Changes in reported liability since June 30, 2020, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2020-2021	$ 27,830	$ 21,113	$ (5,473)	$ 43,470
2019-2020	30,405	7,859	(10,434)	27,830
2018-2019	48,923	13,628	(32,146)	30,405

Section 287.220.8, RSMo, requires an actuarial study of the Second Injury Fund be made every year to determine solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2020 actuarial study. As at June 30, 2021, the amount of liabilities for Second Injury Fund was $2.2 billion. Changes in reported liability since June 30, 2020, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2020-2021	$ 2,174,003	$ 140,206	$ (70,541)	$ 2,243,668
2019-2020	2,071,889	178,673	(76,559)	2,174,003
2018-2019	1,953,168	213,020	(94,299)	2,071,889

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements by the grantor agency for expenditures disallowed under grant agreements. The State believes such dis-allowances, if any, would be immaterial in the next fiscal year.

Tort Claim Lawsuits:

The Attorney General, on behalf of other state agencies, is involved in litigation for tort claims including wrongful death, motor vehicle accidents, medical malpractice, assault and battery, and deliberate indifference, as well as employment discrimination claims not included in the 2021 liability amount. It is reasonably possible an adverse court decision may incur an estimated loss of $4.8 million.

Department of Social Services:

Little Sisters of the Poor v. Department of Social Services, No. 18AC-CC00262 (Cole County Circuit Court). This petition for review was filed on July 12, 2018, by 335 nursing facilities participating in the MO HealthNet program. They claim that the reduction of a per diem reimbursement rate by the department was invalid and contrary to the department's own regulation, The Cole County Circuit Court entered an order and judgment on May 22, 2019, concluding the department had violated its own regulation, the Medicaid Act requirements that apply to rate reductions, and the Equal Protection Clauses of the United States and Missouri Constitutions. If upheld, the resulting cost to the department and the State would be approximately $44 million. The State filed a notice of appeal on June 28, 2019 and the Missouri Court of Appeals reversed and remanded the case to allow plaintiff to amend it petition. The Department of Social Services filed its answer to plaintiffs' amended petition on April 26, 2021. Trial was set for October 1, 2021 in the Cole County Circuit Court. There was no final decision. The actual final liability, if any, is unliquidated and not reasonably ascertainable.

Note 24 - Contingencies (cont.)

Department of Health and Senior Services:

The Nurse Student Loan Program provides forgivable student loans to eligible Missouri undergraduate, graduate, post-graduate, and doctoral nursing students in exchange for service in underserved communities and facilities in the state. Current annual award levels, based on statute, are a one-time amount of $2,500 for LPN students and $5,000 for professional nursing students. Loans are repaid either through service in an underserved area, or via cash repayment at 9.5% simple interest. For repayment via service, participants provide one year of professional service for each school year a loan is received, up to a maximum of 5 years. The number of loans awarded per year varies based upon available funding, number of previous students anticipating continued funding, and number of eligible new applicants.

The Health Professional Student Loan Program is a competitive state program that awards forgivable loans to students pursuing health care training leading to Missouri licensure. Eligible disciplines are primary care physicians, primary care dentists, and dental hygienists. The amount of funding provided depends upon the student's chosen discipline and educational status. Repayment of loans can be completed either through obtaining employment to earn forgiveness or through cash repayment at 9.5% simple interest. Forgiveness is based upon the number of loans received and is earned at a rate of one year of professional service for each loan received, up to a maximum of 5 years. Qualifying employment is considered as full-time, direct patient care at a facility located in an area of need also referred to as a Health Professional Shortage Area.

The purpose of the Missouri Health Professional State Loan Repayment Program (SLRP) is to improve access to primary care by assisting rural and underserved communities with recruitment and retention of primary care providers. SLRP offers eligible healthcare providers an opportunity to receive up to $50,000 in financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services at an ambulatory public, nonprofit or private nonprofit primary care practice site located in a federally designated Health Professional Shortage Area (HPSA).

The Missouri Nurse Loan Repayment Program (NLRP) offers Registered Nurses (RNs) and Advanced Practice Registered Nurses (APRNs) an opportunity to receive financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services in an area of defined need in the State of Missouri.

For all types of loan programs, in the event of a default, i.e. the loanee does not complete the service agreement, the loan status changes to repayment. In the event the loanee does not repay according to the terms of their agreement, the Department of Health and Senior Services will work with the Attorney General's Office to try to collect the outstanding receivables. The current total amount of loans outstanding is $6.4 million; the total amount in repayment is $2.1 million. There is no correlation between who will or will not repay their debt once a default has occurred since it is subject to each individual case and the legal remedies pursued. Therefore the amount of loss cannot be reasonably estimated.

Department of Corrections Settlements:

Hootselle v. Department of Corrections, No. 12AC-CC00518 (Cole County Circuit Court). This lawsuit was filed on August 14, 2012 by several corrections officers alleging that the Missouri Department of Corrections failed to compensate them for pre- and post-shift activities, including passing through security checkpoints and retrieving equipment such as keys and radios. The officers' union was later added as a plaintiff and asserted claims for breach of its collective bargaining agreement. Following a jury trial on the plaintiffs' breach of contract claims in August 2018, the court entered judgment against the State and for the class of $113.7 million. The State filed a notice of appeal and the Missouri Court of Appeals affirmed the judgment. The case was transferred to the Supreme Court of Missouri and argued, but the decision has not yet been handed down. The ultimate resolution of the case on appeal cannot be predicted with any degree of certainty.

Note 24 - Contingencies (cont.)

Tobacco Master Settlement Agreement:

Under the 1998 Tobacco Master Settlement Agreement ("MSA"), Missouri receives annual settlement payments in perpetuity from Participating Manufacturers ("PMs") of tobacco products. Each year on or about April 15th, Missouri receives an annual payment typically between $120 and $140 million. Annual MSA payments are subject to a downward adjustment if the PMs lose more than 2% of their pre-MSA market share to Non-Participating Manufacturers ("NPMs"). Individual states may avoid their share of this "NPM Adjustment" by enacting and diligently enforcing model legislation, which imposes certain escrow obligations on NPMs.

The tobacco manufacturers contest Missouri's enforcement of the model legislation for 2004 and subsequent years, each of which is subject to binding arbitration. Arbitration regarding diligent enforcement for 2004 is ongoing. The state appointed arbitrator passed away in August 2019 and the state parties have selected another arbitrator who will begin reviewing the evidence and hear additional matters and argument in 2020. If the panel finds that Missouri was not diligent in 2004, the State will face a downward adjustment on the annual payment following the panel's determination. The ultimate resolution of the 2004 proceeding, the timing of the panel's decision, and the outcome of any subsequent arbitration proceedings between the tobacco manufacturers and Missouri cannot be predicted with any degree of certainty.

Contingent Gains

Contingencies that might result in gains are not reported on the statements since they are not realizable.

Natural Resource Settlements:

The Department of Natural Resources works jointly with the United States Fish and Wildlife Service and United States Forest Service to recover damages from parties responsible for causing injuries to natural resources. Funds from these settlements are typically held in the federal treasury in a joint account administered by the United States Department of Interior. Expenditures of these funds may only be by mutual agreement of the Missouri Trustee Council (the Department of Natural Resources, the United States Fish and Wildlife Service and, at times, United States Forest Service) and such funds may only be used to restore, replace, or acquire natural resources similar to those that were injured. As of June 30, 2021, the balance of Missouri-related joint settlement funds in the Department of Interior restoration fund is approximately $47.8 million.

Note 25 - Nonexchange Financial Guarantees

The following nonexchange financial guarantees are extended by the Missouri Agricultural and Small Business Development Authority (MASBDA) and the Missouri Department of Agriculture (MDA). The exchange financial guarantees are not recognized as a liability, which indicates that the State will most likely not be required to make a payment related to the nonexchange financial guarantees. As of June 30, 2021, the State extends the following financial guarantees:

Programs	Maximum Guarantee Period	Total Number of Loans Outstanding	Total Dollar Amount of Loans Outstanding (in thousands)	Total Dollar Amount Guaranteed by the State (in thousands)
Missouri Value-Added Loan Guarantee Program	10 Years	1	$ 124	$ 62
Single-Purpose Animal Facilities Loan Guarantee Program	10 Years	3	246	123
Crop and Livestock Loan Guarantee Program	2 Years	13	34	17

Note 25 - Nonexchange Financial Guarantees (cont.)

Missouri Value-Added Loan Guarantee Program

The Missouri Value-Added Loan Guarantee Program, authorized in Sections 348.400-348.415, RSMo, provides up to a 50% first-loss guarantee on loans, of $250,000 or less, made by lenders for the purpose of agricultural business development. The loan guarantee is for a duration of up to 10 years. The program is intended to create new economic activity by creating or retaining jobs. Loans guaranteed by the value-added loan guarantee program can be used to finance agricultural property, which includes land, buildings, structures, improvements, and equipment used for the purpose of processing, manufacturing, marketing, exporting, or adding value to an agricultural product. Loans may also be guaranteed to buy stock in a new generation processing entity that processes an agricultural product. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2021, there are four loan defaults under this program. The outstanding balance on judgments for amounts owed to the State totals $50,200.

Single-Purpose Animal Facilities Loan Guarantee Program

The Single-Purpose Animal Facilities Loan Guarantee Program, authorized in Sections 348.185-348.225, RSMo, is designed to provide banks and other lenders with a 50% first-loss guarantee on loans of up to $250,000 for up to 10 years. Independent livestock producers may use the loans to finance, refinance or restructure breeding or feeder livestock, earthworms, land, buildings, facilities, equipment, machinery and animal waste systems for producing poultry, swine, beef and dairy cattle, or other livestock. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2021.

Crop and Livestock Loan Guarantee Program

The Crop and Livestock Loan Guarantee Program, authorized in Section 261.027(3), RSMo, is a 50% guarantee on a loan made to a 4-H and Future Farmers of America (FFA) member who borrows money to purchase livestock, input, etc., for their Supervised Agriculture Education (SAE) project. Loans eligible for the program are limited to the purchase of livestock, feed, seed, fertilizer, and other miscellaneous out-of-pocket expenses directly related to the project. In the event of a default, the MDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2021, there are four loan defaults under this program. The outstanding balance on judgments for amounts owed to the State totals $1,500.

Note 26 - Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

Note 26 - Joint Ventures (cont.)

The Authority is considered a joint venture of the State, County, and City because it constitutes a contractual agreement for public benefit in which the State, County, and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued $258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of $132,910,000 by the State (Series A), $65,685,000 by the County (Series B), and $60,075,000 by the City (Series C). In December 1993, the Authority issued $181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund $101,410,000 and $50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of $121,705,000 by the State (Series A) and $60,180,000 by the County (Series B). In February 1997, the Authority issued $61,285,000 in Series C refunding bonds to advance refund $47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued $116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 to refund $2,845,000 and $113,170,000 of Series A 1991 and Series A 1993 refunding bonds, respectively, and for additional construction costs. In May 2007, the Authority issued $49,585,000 in Series C 2007 refunding bonds to refund $61,285,000 of original principal of the Series C 1997 refunding bonds. In August 2013, the Authority issued $65,195,000 in Series A 2013 refunding bonds to refund $65,385,000 of Series A 2003 bonds and issued $32,560,000 in Series B 2013 refunding bonds to refund $32,180,000 of Series B 2003 bonds.

Pursuant to a financing agreement entered into in August 1991, and terminating in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement are sufficient to pay the principal and interest on the bonds. See *Note 11* for the specific debt service requirements that make up the State's ongoing financial responsibility for this joint venture.

Summary financial information for the Authority as of and for the fiscal year ended December 31, 2020, is presented below (in thousands of dollars):

Total Assets	$	150,974
Total Deferred Outflows of Resources		65
Total Assets and Deferred Outflows of Resources	$	151,039
Total Liabilities	$	24,391
Total Net Position		126,648
Total Liabilities and Net Position	$	151,039
Total Revenues	$	24,833
Total Expenses		13,266
Net Increase in Net Position	$	11,567

Copies of the Authority's financial statements may be requested from:

St. Louis Regional Convention
and Sports Complex Authority
901 North Broadway
St. Louis, Missouri 63101

Note 27 - Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation/depreciation of the endowments is $11,773,000. Of this amount, $1,932,000 is reported as restricted non-expendable, $9,834,000 is reported as restricted expendable, and $7,000 is reported as unrestricted net position. The University of Missouri reported a net appreciation/depreciation of restricted non-expendable net position in the amount of $434,396,000 which consisted of both realized and unrealized gains and losses on investment. For detailed information on the college and universities, please see the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.134, RSMo. These policies are entity specific and vary with each institution.

Note 28 - Conduit Debt

As of June 30, 2021, the Missouri Development Finance Board issued $1,637,968,000 in Private Activity Bonds and $2,628,549,000 in Public Purpose and Refunding Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2021, were approximately $302,715,000 and $837,779,000, respectively. The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

As of June 30, 2021, the State Environmental Improvement and Energy Resources Authority (EIERA), a component unit of the State of Missouri, had an outstanding balance of approximately $728,830,000 in Tax Exempt Revenue Bonds. Of this outstanding amount, $381,503,000 is for Water Pollution Control and Drinking Water Revenue Bonds issued on behalf of the Department of Natural Resources. The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of EIERA.

Note 29 - Subsequent Events

Bonds

In November 2021, the Board of Public Buildings of the State of Missouri issued $60,885,000 of Taxable Special Obligation Bonds, Series A 2021. The bonds bear interest from 0.30% to 2.70%, due in semi-annual installments beginning April 1, 2022. The bonds were issued to provide funds to finance the renovation, improvement and equipping of various park buildings and structures for the Missouri Department of Natural Resources and pay the costs of issuing the bonds.

On December 15, 2021, the Missouri Highways and Transportation Commission (MHTC) issued $88,955,000 of Third Lien State Road Bonds, Series A 2021. The bonds bear interest of 5.00%, due in semi-annual installments beginning May 1, 2022. The bonds were issued for the purpose of paying the costs of construction and reconstruction of the State Highway System and paying the costs related to the issuance of the Series A 2021 bonds.

Note 29 - Subsequent Events (cont.)

Medicaid Expansion

A citizen initiative to expand Medicaid in the State (the "Missouri Medicaid Initiative") was certified for the ballot, appeared on the August 4, 2020 primary ballot and was passed by the voters. The Missouri Medicaid Initiative amended the State Constitution to, among other things, expand Medicaid eligibility in Missouri to adults who are between the ages of 19 and 65 and whose income is at or below 133% of the federal poverty line, as set forth in the Affordable Care Act. In January 2021, the costs of Medicaid expansion for the first year of implementation were estimated to total $1.9 billion for all funds, including $129.4 million for general revenue. Litigation over the lack of funding was filed and ultimately the state Supreme Court determined the appropriation bill did not limit the State's ability to enact Medicaid expansion and remanded the case to the circuit court to enter a judgement for the plaintiffs.

On August 10, 2021, the state circuit court ordered the state to begin enrolling Medicaid expansion-eligible individuals into the state's Medicaid program and on August 11, 2021, the Governor announced the state would begin accepting applications for the new Medicaid eligibility category immediately. As of the date of this report, the General Assembly has not appropriated funds for the voter-approved Medicaid expansion.

American Rescue Plan Act of 2021

On March 11, 2021, *The American Rescue Plan Act of 2021 (ARPA)* was signed into law to provide additional funding for economic recovery as the COVID-19 Pandemic continues, the State received $1.57 billion to be used for State and Local Fiscal recovery.

Missouri State University

On July 6, 2021, the University issued $17,710,000 Series B bonds through a private placement with Capital One. The bonds bear interest payable semiannually at 2.69% and are secured by certain revenue generated from educational facilities. Principal maturity begins October 1, 2022, and continues until October 1, 2039. Proceeds from the issuance of these bonds were used to advance refund the Series 2014A bonds with maturities commencing October 1, 2022 and continues until October 1, 2039.

Missouri Southern State University

On September 29, 2021, the University issued $20,775,000 of Series 2021 Auxiliary Enterprise System Bonds for the purpose of refunding the outstanding Series 2014A and 2014B Bonds. The Series 2021 Bonds mature in four tranches in 2026, 2031, 2034, and 2044, yielding between 2.41% and 3.48%. The issuance resulted in a premium of $1,113,000 and economic savings over the life of the bonds of approximately $1,300,000.

Required Supplementary Information (RSI) *includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, Schedule of Changes in Net Pension Liability and Related Ratios, Schedule of Proportionate Share of the Net Pension Liability, Schedule of State Contributions, Schedule of Changes in Total OPEB Liability and Related Ratios, Schedule of Changes in Net OPEB Liability and Related Ratios, Schedule of Proportionate Share of the Collective Net OPEB Liability, and the Notes to RSI on Budgetary Reporting.*

Budgetary Presentation:

A Budgetary Comparison Schedule is presented as Required Supplementary Information for the State's General Fund and Major Special Revenue Funds. Revenues and expenditures are reported on a budgetary basis where actual revenues are recognized when cash is received, and actual expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2021, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budget. This report can be viewed at http://oa.mo.gov/accounting/reports/annual-reports/appropriation-activity-reports. The original budget expenditures and transfers are for what was originally appropriated for each fund. The final budget expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any reappropriations to the next fiscal year.

Once a year, the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the final budget column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with State statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between budgeted and actual expenditures and transfers out on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2021, is shown below (in thousands):

	Final Budget Transfer		Actual Transfer	
	In	Out	In	Out
GENERAL FUND	$ 6,284,895	$ (6,284,895)	$ 3,153,896	$ (3,153,896)
SPECIAL REVENUE FUNDS				
Public Education	402,277	(402,277)	375,324	(375,324)
TOTAL	$ 6,687,172	$ (6,687,172)	$ 3,529,220	$ (3,529,220)

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures cannot exceed estimated revenues and other sources of funding, including beginning fund balances. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

*After post-valuation adjustments.

Note: This schedule is ultimately required to show information for ten years. However, until a full ten-year trend is compiled, only the years that information is available will be reported.

Notes to the Schedule:

Changes of benefit terms. Senate Bill 62 (SB 62), which contained changes to the benefit structure for Missouri State Employees' MSEP 2011 Plan and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System Year 2000 Plan-2011 Tier, was passed by the 2017 legislature. The provisions of the bill decreased vesting from ten to five years of service, but also included provisions that essentially offset the cost of the vesting change. As a result, SB 62 had no impact on the employer contribution rate and created a decrease to the UAAL for the MSEP 2011 Plan of $1.6 million.

Changes of assumptions.

For MOSERS: The board reduced the investment return assumption used in the June 30, 2020 valuation to 6.95%.
For MPERS: No changes in assumptions.
For MU: No changes in assumptions.

*The **Combining and Individual** Fund Statements*

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the "major fund" classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison statement is provided for all non-major governmental funds.

*The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.*

Non-Major Special Revenue Funds:

Professional Registration - Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance - Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair - Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance - Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement - Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation - Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other - Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

*The **Permanent Funds** account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.*

Permanent Funds:

Arrow Rock State Historic Site Endowment - Accounts for moneys transferred from the State Parks Earnings Fund, as well as other moneys or property received by grant, gift, donation, or bequest specified for the enhancement of the Arrow Rock State Historic Site.

Confederate Memorial Park - Accounts for the income from investments acquired by gifts, donations, and bequests to be used for the maintenance of the Confederate Memorial Park.

State Public School - Accounts for all moneys, bonds, lands, and other properties belonging to or donated to the State for public school use in establishing and maintaining free public schools.

Smith Memorial Endowment Trust - Accounts for moneys bequeathed for the use and benefit of the Crippled Children's Service.

*The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.*

Non-Major Enterprise Funds:

State Fair Fees - Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks - Accounts for park concessions and contributions which are used to acquire and operate state parks.

Natural Resources Revolving Services - Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

Historic Preservation Revolving - Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Petroleum Storage Tank Insurance - Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

State Agency for Surplus Property - Accounts for the surplus property operation.

Department of Revenue Information - Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

Inmate Canteen - Accounts for sales of the canteen or commissary which is used to improve offender recreational, religious, or education services.

*The **Internal Service Funds** account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.*

Internal Service Funds:

Natural Resources Cost Allocation - Accounts for the administrative costs of the Department of Natural Resources.

Mental Health Interagency Payments - Accounts for moneys received through interagency agreements for services provided by other agencies.

State Facility Maintenance and Operation - Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

Office of Administration Revolving - Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

Working Capital Revolving - Accounts for the operation of correctional industry programs and correctional farm programs.

General Government Revolving - Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

Social Services Administrative Trust - Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

Economic Development Administrative - Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

Professional Registration Fees - Accounts for moneys received from the professional boards for administrative services.

Conservation Employees' Insurance Plan - Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

Transportation Self-Insurance Plan - Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

Missouri State Employees' Insurance Plan - Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

Missouri Consolidated Health Care Plan - Accounts for medical care benefits provided on a self-insured basis for active state employees.

MoDOT and MSHP Medical and Life Insurance Plan - Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

*The **Fiduciary Funds** account for assets held by the State in a trustee or custodial capacity.*

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan - Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan - Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System - Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust - Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Public Employees' Deferred Compensation Incentive (IRC 401a) Plan - Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan - Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust - Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Unclaimed Property - Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

Custodial Funds:

Program - Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution - Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

*The **Component Units** account for all transactions relating to legally separate entities which, for reporting purposes, are a part of the State.*

Non-Major Component Units:

Missouri Development Finance Board - Accounts for moneys from bond proceeds, gifts, and grants to make loans for industrial development.

Missouri Agricultural and Small Business Development Authority - Accounts for moneys from bond proceeds, gifts, and grants to make loans for property acquisitions/renovations and pollution control facilities.

Missouri Transportation Finance Corporation - Accounts for moneys from federal, state or local sources, and from bond proceeds to be used for projects approved by the Missouri Highways and Transportation Commission.

Missouri Wine and Grape Board - Accounts for moneys derived from the privilege of selling wine to be used for marketing development in developing programs for growing, selling, and marketing of grape products grown in Missouri.

State Environmental Improvement Energy Resources Authority - Accounts for moneys derived from the issuance of revenue bonds and notes to finance, acquire, construct and equip projects for the purpose of reducing, preventing or controlling pollution and to provide for the development of energy resources of the State of Missouri.

*The **Statistical Section** presentations include Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information, and Operating Information trends. The statistical data presented is intended to provide report users with a broader understanding of the environment in which the State operates.*

STATE OF MISSOURI
STATISTICAL SECTION
June 30, 2021

Index and Overview

This part of the State's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

Financial Trends
These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Net Position by Component 224
Changes in Net Position 225
Fund Balances - Governmental Funds 227
Changes in Fund Balances - Governmental Funds 228

Revenue Capacity
These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base - Taxable Sales by Industry 230
Revenue Base - Personal Income by Industry 231
Personal Income Tax Revenue 232
Personal Income Tax Rates 233
Revenue Payers by Industry 234
Personal Income Tax Filers/Liability 235

Debt Capacity
These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt 236
Pledged Revenue Coverage 238

Demographic and Economic Information
These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators 239
Economic Indicators 240
Principal Employers 241

Operating Information
These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

State Employees by Function 242
Operating Indicators by Function 243
Capital Asset Statistics by Function 245

Sources: Unless otherwise noted, the information in these schedules is derived from the State of Missouri Annual Comprehensive Financial Report for the years shown.

N/A = not available

[1] Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

[2] Operating Expenses do not include depreciation/amortization.

[3] Coverage equals net available revenue divided by debt service.

CITIZENS SUMMARY

Findings in the audit of the City of Town and Country

Capital Improvements Projects Controls and Procedures	The city poorly planned the Town Square development project and did not ensure project details were finalized before entering into the contract, resulting in significant change orders, and did not competitively bid significant changes to the project. The Planning and Public Works department did not ensure the city's contractor obtained the required county permits for construction of the Mason Trail project prior to starting the project.
Procurement Procedures and Contracts	The city code specifically excludes the selection of vendors providing professional services from the bidding policies and procedures. In addition, the city has not periodically conducted a competitive selection process for various professional services and did not monitor long-term contracts.
Accounting Controls and Procedures	The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over new vendors are performed. The Planning and Public Works department does not always issue receipt slips for money collected, restrictively endorse checks immediately upon receipt, and deposit money daily. The Finance Director does not account for the numerical sequence of receipt numbers assigned by the accounting software or reconcile the credit card payments received to the deposits on the bank statement.
Code of Ethics and Meeting Minutes	The city does not have procedures in place to ensure complaints of code of ethics violations are handled in accordance with the city code. The Board does not review and approve minutes of closed meetings prepared by the City Attorney to ensure accuracy of the minutes.
Electronic Communication Policies	The city has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Good**.*

All reports are available on our website: auditor.mo.gov

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Town and Country, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Town and Country. We have audited certain operations of the city in fulfillment of our duties. The city engaged Schowalter & Jabouri, P.C., Certified Public Accountants & Advisors, to audit the city's financial statements for the year ended December 31, 2020. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2020. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

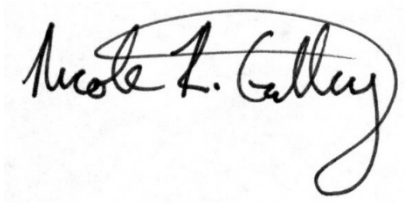
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with a legal provision, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Town and Country.



Nicole R. Galloway, CPA
State Auditor

1. Capital Improvements Projects Controls and Procedures

Controls and procedures over the planning of capital improvements projects need improvement. During the year ended December 31, 2020, the city spent approximately $1 million from the Capital Improvements Fund.

1.1 Change orders

The city poorly planned the Town Square development project and did not ensure project details were finalized before entering into the contract, resulting in significant change orders, and did not competitively bid significant changes to the project.

The original contract for the Town Square project totaled $5,210,401. City officials indicated they expected changes including additional input from elected officials and citizens. The Board approved 12 change orders totaling $1,337,031 without bidding the changes. These change orders represent approximately 26 percent of the original contract amount. Change orders totaling approximately $1 million were for significant items not originally included or planned for in the initial bid. Examples of these items and associated costs include modifications to landscaping and trail connections ($369,324); modifications to pavilion and structures ($627,399); and supply and installation of security cameras ($50,290).

While change orders often occur on development contracts, they are normally used to make adjustments for minor problems that are unknown when construction projects are originally bid. Keeping change orders to a minimum helps ensure the maximum amount of construction costs are subjected to competitive bidding and reduces the amount of administrative time and effort in processing change orders. Change orders are typically not used to make significant changes to existing contracts. If the scope of a project changes substantially, consideration needs to be given to bidding those parts of the project.

1.2 Permits

The Planning and Public Works department did not ensure the city's contractor obtained the required county permits for construction of the Mason Trail project prior to starting the project. The City Administrator indicated most streets in the city do not require county permits, so the contractor overlooked obtaining the permits. The city eventually ended the project and repaired the area impacted by the initial work. The unnecessary costs to the city for all the work totaled $140,313.

Without adequate project oversight, including obtaining required permits, the city cannot ensure efficient and effective use of city resources.

Recommendations

The Board of Aldermen:

1.1 Ensure project details are finalized before entering into a contract for construction projects to minimize change orders. In addition, the Board should monitor change orders, and give consideration to bidding when substantial project changes are needed.

1.2 Obtain all required permits prior to starting construction.

Auditee's Response

1.1 The city agrees and accepts the recommendation of the State Auditor's Office to ensure project details are finalized before entering into a contract, and this is consistent with an independent study the city commissioned. The city will continue to monitor change orders and bid them where practical, especially for substantial project changes.

The city has already begun implementing additional pre-planning and project oversight as a result of the recommendations from the independent study. The Board in office at the time of the Town Square project approached the project's planning with the understanding that enhancements were expected as the project proceeded and that those enhancements would incur additional costs. These enhancements were submitted as change orders with their detailed costs and were approved by the Board (most unanimously). Project updates and budget reports were also routinely provided to the Board during work sessions. It would have been impractical to solicit bids from multiple contractors to complete portions of the Town Square project. However, even though bids were not sought from other contractors, the city directed the contractor to obtain competitive and alternative pricing for components of the change orders as appropriate, which reduced the cost of the change orders.

1.2 The city agrees with the State Auditor's Office to obtain necessary permits prior to starting construction.

The city has already begun implementing additional oversight on projects consistent with the recommendations of an independent study. Restoration work performed by city contractors approved by the Board on the Mason Trail under permits issued by St. Louis County resulted in improved conditions including new concrete sidewalks with improved slope, accessible ramps, drainage, and landscaping. Unfortunately the costs of these improvements were higher than necessary due to the combined actions of elected officials and city staff, some of which was driven by resident feedback.

2. Procurement Procedures and Contracts

The city code specifically excludes the selection of vendors providing professional services from the bidding policies and procedures. In addition, the city has not periodically conducted a competitive selection process for various professional services and did not monitor long-term contracts. City officials indicated they had not considered updating the procurement policy for these items. Our review of a judgmental sample of 63 expenditures incurred during the year ended December 31, 2020, noted the following concerns:

Professional services

The city did not solicit proposals for professional services, including statutorily required proposals for engineering services. City employees indicated they did not solicit proposals on all professional services because the city code specifically excluded professional services from the purchasing regulations. Four of the expenditures reviewed were for professional services. The city did not solicit proposals for these services, which included purchases for information technology services ($87,287), engineering services ($3,050 and $2,383), and transcription services ($1,187).

Long-term contracts

The city did not monitor or evaluate the length of the contract for 5 of the 14 expenditures with contracts more than a year old. Instead, city employees entered into long-term contracts with multiple and/or indefinite renewal periods. City employees indicated city code did not require professional service contracts to be reevaluated periodically. The expenditures included legal services ($134,353) using a contract from 2007, engineering services ($3,050) using a contract from 2017, web hosting services ($5,442) using a contract from 2014, and data processing services ($500) using a contract from 2015.

Conclusion

Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the city to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration. For engineering services, Sections 8.289 and 8.291, RSMo, provide the requirements for obtaining, evaluating, and negotiating for such services. In addition, given the amount spent during long-term contracts, consideration needs to be given to requiring the professional service selection process to be repeated more frequently.

Recommendation

The Board of Aldermen should update the city code on competitive bidding to include professional services, including compliance with the statutory negotiated contracts process for engineering services. In addition, the Board should solicit competitive bids or proposals for contracts on a periodic basis.

Auditee's Response

Professional Services

City staff in conjunction with the Board will review and appropriately update city code, policies, and procedures relative to professional services, procurement procedures, bidding, and contracts.

The city has and will continue to bid professional service contracts when appropriate as well as use other techniques to drive our costs to their lowest levels while maintaining appropriate service levels. For example, city staff conducted an informal analysis of information technology (IT) service providers prior to presenting to the Board for approval a cooperative contract agreement with the City of Chesterfield for IT shared services. Separately, the city's current IT provider was selected and approved by the Board following an extensive request for proposal and selection process. Both processes complied with Chapter 140 of the city code and were approved by the Board.

Proposals for engineering services are solicited for large projects in accordance with state law. For smaller projects (such as the $3,050 and $2,383 projects cited) the city maintains a database of qualified engineers or utilizes an "on-call" engineering agreement and, depending on the qualifications required, negotiates a scope and fee for services. The city has reduced the frequency of court reporter attendance and/or transcription, unless statutorily required (or required under the city's code), as a cost saving measure.

Long-term contracts

The city agrees with the State Auditor's Office that soliciting bids or proposals, although not always required by the city code, is a best practice when appropriate and consistent with the city purchasing policy threshold. We also agree that we will regularly review arrangements that are not competitively bid, although not required by city code.

City staff evaluates long-term contracts as part of the annual budget review process and we will begin documenting these evaluations. The largest contract cited (which was for legal services) was reevaluated by staff as recently as April 2021. During this reevaluation we surveyed and documented the legal scope of services and rates for 8 neighboring cities. Following this review, the existing agreement and rates established in 2007 were determined to be in the best interests of the city based on cost, level of service, and institutional knowledge of the firm.

3. Accounting Controls and Procedures

Accounting controls and procedures need improvement. The city collected approximately $14.2 million from taxes, licenses and permits, and other receipts during the year ended December 31, 2020.

3.1 Segregation of duties

The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over new vendors are performed.

The Assistant Financial Director is responsible to enter new vendors into the accounting system and has the ability to create disbursements. The Finance Director reviews the new vendor records, but does not document this review.

The Finance Director indicated vendor forms for new vendors approved by departments were required starting May 2020. During our review of new vendors created in August and September 2020, vendor forms could not be provided for 2 new vendors. The Finance Director indicated use of the new vendor forms has sometimes been overlooked because this process is new.

Proper segregation of duties, including approval of new vendor forms, is necessary to ensure vendors are appropriate and accounted for properly. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting records for new vendors are essential.

3.2 Receipting, depositing, and reconciling

The Board needs to improve receipting, depositing, and reconciling procedures. We reviewed these procedures for the various divisions of the city and identified the following concerns.

Planning and public works

The Administrative Assistant for the Planning and Public Works department does not always issue receipt slips for money collected, restrictively endorse checks immediately upon receipt, and deposit money daily.

Our review of receipts collected and deposited noted deposits are typically made twice a month. For the month of July 2020, we determined money collected from June 30, 2020, through July 17, 2020, totaling approximately $69,400, were not deposited until July 20, 2020. In addition, a cash count performed on June 15, 2021, consisting of cash receipts totaling $445 and checks and money orders totaling $60,096, identified receipt slips were not issued for 2 checks received, checks on hand had not been restrictively endorsed, and cash and checks on hand were not deposited until June 28, 2021.

The city's cash receipts and collections policy requires payments received to be deposited daily. The Administrative Assistant indicated she tries to ensure receipt slips are issued for all money collected but must have overlooked the

2 payments without receipt slips. She indicated she deposits the money when time permits and endorses the checks when preparing the deposit.

Finance department

The Finance Director does not account for the numerical sequence of receipt numbers assigned by the accounting software or reconcile the credit card payments received to the deposits on the bank statement. As a result, there is no assurance all money collected is properly receipted, recorded, and deposited.

Conclusion

Failure to implement adequate receipting, depositing, and reconciling procedures increases the risk that loss, theft, or misuse of money could occur and go undetected.

Recommendations

The Board of Aldermen:

3.1 Segregate the accounting duties to the extent possible or implement documented supervisory reviews.

3.2 Issue prenumbered receipt slips for all money received, ensure all checks are restrictively endorsed upon receipt, and deposit all payments received daily. In addition, account for the numerical sequence of receipt numbers and ensure credit card payments are reconciled to the credit card transactions and deposits.

Auditee's Response

3.1 The city agrees and accepts the State Auditor's Office recommendation to create a process to ensure all "new vendor forms" are approved by multiple parties before payments are issued.

As identified by the Auditor's report, the "new vendor forms" were initiated in May 2020 as an enhanced internal control. The Finance department has completed and implemented a process to ensure all new vendors are now approved by the appropriate department director, the City Administrator, and the Finance Director prior to payment. In addition, W9 forms are also required of vendors prior to payment to ensure appropriate documentation is in place for the issuance of 1099 forms at year-end. The Finance Director reviews the new vendor records and also reviews the Vendor Audit Report as a part of end of month reconciliation processes to ensure that all new vendor forms are accounted for.

3.2 The city agrees with the State Auditor's Office regarding receipting, timely deposits, and credit card transactions and will improve these processes.

Staff currently issues prenumbered receipt slips through our accounting software. We will add an additional control by reviewing

end of month reports on a line by line basis to verify the numerical sequence of receipt numbers. Through this process we will locate any errors, make corrections to those errors, identify voids and burns, and locate any missing receipt numbers.

Responding to the Auditor's report, receipts in the Planning and Public Works department are now being deposited on a timely basis. Checks are also restrictively endorsed once received. Receipts will continue to be issued for each transaction.

Finance staff will soon implement a procedure to ensure that all credit card payments are reconciled to the credit card transactions and deposits on a monthly basis.

4. Code of Ethics and Meeting Minutes

The city's procedures for complying with the city code and state laws need improvement.

4.1 Code of ethics

The city does not have procedures in place to ensure complaints of code of ethics violations are handled in accordance with the city code.

The City Administrator did not know any investigations were performed by the City Attorney for alleged violations of code during the 2 years ended December 31, 2020. However, the City Attorney provided 2 investigation requests performed during this period. The City Attorney indicated one request was investigated and the other request did not require an investigation. The Board was not aware of the results of either requested investigation.

City code section 120.210 allows any person who believes that a violation of any portion of the code of ethics has occurred to file a complaint with the City Attorney or the Board. In addition, the city code requires the City Attorney to investigate any apparent violation of the code of ethics and advise the Board of his findings and any advisory opinion prepared by the City Attorney shall be made public.

4.2 Closed meeting minutes

The Board does not review and approve minutes of closed meetings prepared by the City Attorney to ensure accuracy of the minutes. During our review of closed minutes held during the year ended December 31, 2020, we noted the City Attorney prepared and signed the minutes; however, they were not reviewed or approved by the Board at the subsequent closed meeting. City officials indicated since closed meetings were not routine, the prior minutes were not read and approved during the meetings.

Section 610.020.7, RSMo, requires minutes of closed meetings be maintained as a record of business conducted and to provide an official record of actions and decisions. Having the meeting minutes signed by the preparer and

subsequently approved by the Board provides an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings.

Recommendations

The Board of Aldermen:

4.1 Establish procedures to ensure compliance with the city code's requirements for complaints of code of ethics violations.

4.2 Ensure meeting minutes are reviewed and approved for all closed meetings.

Auditee's Response

4.1 The city agrees the city code should be reviewed as it relates to complaints regarding ethics violations to include Board approval prior to an individual being able to engage staff or the City Attorney in a significant use of city resources and expenses. Such review should further consider the option for the Board to refer a complaint to an independent third party for investigation. We agree that all valid complaints should be provided proper visibility to ensure their appropriate handling and disposition.

There were no investigative reports issued to the Board because there were no findings to report.

4.2 The city agrees and accepts the State Auditor's Office recommendation for the Board to review and approve minutes of closed meetings.

Although not required by law, closed meeting minutes are now distributed to the full Board for review, comment, and approval prior to being signed and permanently retained by the city.

Auditor's Comment

4.1 The city code allows for 2 methods for complaints to be filed. A complaint can be filed with the City Attorney or with the Board. These 2 methods provide some checks and balances regarding filed complaints. Our recommendation did not indicate Board approval is needed before an investigation is started, but to follow the requirements of the city code already in place.

5. Electronic Communication Policies

The city has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms. City employees indicated their belief that such an additional policy; beyond Chapter 130 of the city's code, was not statutorily required.

City officials do not always use city email accounts when conducting city business. Some city business communications were transmitted by personal email accounts or by text messages from personal cell phones. As a result, electronic communications may not be retained in accordance with state law.

Section 109.210(5), RSMo, defines a public record as "document, book, paper, photograph, map, sound recording or other material, regardless of physical form or characteristics, made or received pursuant to law or in connection with the transaction of official business." Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

To ensure compliance with state law, the Board should develop written policies to address the use of personal email, social media and message accounts, and management and retention of electronic communications.

Recommendation

The Board of Aldermen develop written records management and retention policies to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division Electronic Communications Guidelines.

Auditee's Response

City staff will review existing policies and available guidance from the appropriate state agencies to be sure city policies are consistent with state laws, and make recommendations to the Board for revisions where needed.

The city has continually taken steps to fully comply with all record management, retention, and disclosure of communications in compliance with the Missouri Secretary of State. This is partially evidenced by the large amount of information that was available to the State Auditor's Office on the city's website or readily accessible by city staff.

As for retention schedules, the city adheres to the record retention schedules promulgated by the State Records Board, pursuant to Section 109.255, RSMo, which grants the authority to determine what local records "shall be retained, copied, preserved, or disposed of." The retention schedules are therefore self-effecting.

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed August 31, 2021.

Importantly, there is no indication from the State Auditor's Office that documents have not been retained in a manner consistent with Missouri Sunshine Law or our record retention schedules. Again, available guidance will be reviewed, in conjunction with state law and advice of legal counsel, to enhance or create appropriate policies.

City of Town and Country
Organization and Statistical Information

The City of Town and Country is located in St. Louis County. The city was incorporated in 1950 and is currently a fourth-class city. The city employed 45 full-time employees and 3 part-time employees on December 31, 2020.

City operations include police and fire protection; snow removal; traffic control; planning and zoning; building inspections; code enforcement; licensing and permits; the construction and maintenance of streets, bridges, and other infrastructure; park operations; and recreational and cultural activities.

Mayor and Board of Aldermen

The city government consists of a mayor and 8-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 4-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2020, are identified below. The Mayor is paid $500 per month and Board of Aldermen members $420 per month. The compensation of these officials is established by ordinance.

Jonathan F. Dalton, Mayor (1)
Pamela Holman, Alderwoman - Ward 1
Barbara Ann Hughes, Alderwoman - Ward 1
Tiffany Frautschi, Alderwoman - Ward 2 (2)
Fritz Wiesehan, Alderman - Ward 2
T. Ryan Mortland, Alderman - Ward 3
Jeff Wittmaier, Alderman - Ward 3
Jonathan Benigas, Alderman - Ward 4 (3)
Susan Allen, Alderwoman - Ward 4

(1) Replaced by Charles H. Rehm, Jr., who was elected in April 2021.
(2) Replaced by Holly Even, who was elected in April 2021.
(3) Replaced by Jeff Parrotte, who was elected in April 2021.

Other Principal Officials

The City Administrator is appointed by the Mayor with the approval of the Board of Aldermen. The City Attorney is a contracted position. The City Administrator appoints various individuals to serve as department heads. The city's principal officials at December 31, 2020, are identified below.

Robert Shelton, City Administrator
Pamela Reitz, Finance Director (1)
Ashley McNamara, City Clerk
James Cavins, Police Chief
Vacant, Director of Public Works (2)
Anne Nixon, Director of Parks and Recreation
Steven Garrett, City Attorney

(1) Pamela Reitz resigned in June 2021 and Joan Jadali was appointed in May 2021.
(2) Michael Zeltmann was appointed in July 2021.

Financial Activity

A summary of the city's financial activity for the year ended December 31, 2020, obtained from the city's audited financial statements follows:

CITY OF TOWN AND COUNTRY, MISSOURI

STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS
FOR THE YEAR ENDED DECEMBER 31, 2020

	General	Road	Capital Improvements	Parks And Stormwater	Other Governmental Funds	Total Governmental Funds

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

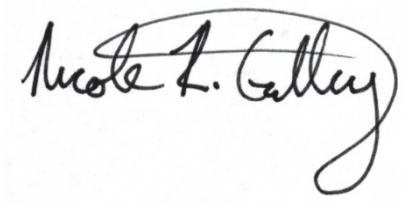
We have performed an analysis of the state's tax credit programs in fulfillment of our duties under Chapter 29, RSMo, and Section 620.1300, RSMo. The scope of our analysis included, but was not necessarily limited to, the tax credit activity occurring during the 5 years ended June 30, 2021. The objectives of our analysis were to:

1. Report the costs of each tax credit program, including the amounts authorized, issued, and redeemed.

2. Review the direct and indirect benefits associated with each tax credit program.

3. Analyze the statutory safeguards and limitations applicable to tax credit programs.

The information used to complete the analysis was provided by the Missouri Department of Economic Development, the Missouri Department of Revenue, and other state agencies that administer tax credit programs. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.



Nicole R. Galloway, CPA
State Auditor

Tax Credit Programs
Introduction

Background

Tax credits are created by the General Assembly, codified in state statutes, and generally are a dollar-for-dollar reduction in the amount of state taxes otherwise due from taxpayers.[1]

Tax credits are typically developed to provide a financial incentive to induce businesses or individuals to take actions that spur economic development or improve the quality of life for Missourians, or both.[2] During fiscal years 2017 through 2021, tax credits were authorized, issued, or redeemed through 58 different tax credit programs. Also, 3 additional tax credit programs (the Advanced Industrial Manufacturing Zones Act, Missouri Property and Casualty Insurance Guaranty Association, and Health, Hunger and Hygiene) had no new or outstanding authorizations, issuances, or redemptions during the 5-year period, but could have credits issued in the future. These programs have been grouped into 11 different categories based on their purpose.[3]

Table 1: Tax credit programs, by category

Tax Credit Category	Number of Tax Credits
Business Recruitment	17

[1] This review includes other economic development incentives that allow for the redirection or retention of withholding taxes. While these incentives are not tax credits, they are reported to the General Assembly on tax credit analysis forms each year and are referred to as tax credit programs in this report. These incentive programs include the Manufacturing Jobs Program and the Missouri One Start Community College Job Retention and New Jobs Training Program. The Missouri Quality Jobs and Missouri Works incentive programs also have a withholding tax component in addition to traditional tax credits.

[2] *Missouri Tax Credits Report*, Joint Committee on Tax Policy, Nov. 15, 2006, <https://ia801302.us.archive.org/1/items/2006MOJCPTTaxCreditRpt/2006MOJCPTTaxCreditRpt.pdf>, accessed February 2, 2022.

[3] These are the categories as reported by the administering agencies on tax credit analysis forms submitted to the General Assembly. The administering agency reported the category for the Rolling Stock Tax Credit as N/A.

Administration

Ten state agencies administer the 61 tax credit programs, as shown in Table 2.

Table 2: Administering agencies

Agency	Number of Programs
Economic Development	27
Revenue	10
Social Services	7
Agriculture	5
Commerce and Insurance	4
Missouri Development Finance Board	2
Missouri Housing Development Commission	2
Natural Resources	2
Health and Senior Services	1
State Tax Commission	1

Source: Tax credit analysis forms

Administering agencies are generally responsible for the authorization and issuance of the credits. Authorization occurs when the agency determines a proposed project or activity is eligible for tax credits and assigns an amount of credits, pending performance of the eligible project or activity. Issuance occurs when the agency provides an authorized credit to a recipient who has met program requirements. After issuance, the recipient redeems the credit by applying it to an outstanding tax liability. Some tax credits, such as the Senior Citizen Property Tax Credit, are neither authorized nor issued, but redeemed directly on the qualifying individual's tax return. The Department of Revenue (DOR) has responsibilities for tracking redemption amounts for most tax credit programs. See Appendix A for a list of redemptions by tax credit.

Administering agencies are also required to submit annual estimates of future tax credit redemptions to the state budget director for submission to the chairman of the Senate Appropriations Committee and the chairman of the House Budget Committee. Most tax credits are not subject to annual appropriations by the General Assembly because they are not state expenditures;[4] however, Section 33.282, RSMo, requires these committees to review and approve the annual estimates provided by the agencies for each program for new credits to be issued or certified.[5] Since 2017, the House

[4] The Alternative Fuel Infrastructure, Wood Energy, and the Rolling Stock Tax Credits are subject to appropriations.

[5] Section 33.282.3, RSMo, provides, "No new tax credits, except the senior citizens property tax credit as referenced in Chapter 135, shall be issued or certified for any tax year beginning after July first of the following year unless the estimate of such credits have been reviewed and approved by a majority of the senate appropriations committee and the house budget committee."

Budget Committee has increasingly begun limiting the issuance of new credits under certain programs. For fiscal year 2022, the House Budget Committee prohibited the issuance of Wine and Grape Production and Qualified Beef Tax Credits, and restricted the amount of credits that may be issued under the Low Income Housing, Historic Preservation, and New and Expanded Business Facility programs.[6]

The administering agencies submit the estimates on a tax credit analysis form, also commonly referred to as a "Form 14." These forms contain other information about the credits, including current and former annual authorizations, issuances, and redemptions; and amounts outstanding and obligated at the end of the previous fiscal year. Outstanding tax credits are credits issued by the administrating agency but not redeemed or expired. Obligated tax credits are credits that have been authorized to a particular project or company by the administrating agency, but have not been issued. See Appendix B for a list of credits outstanding and obligated as of June 30, 2020, by program.

The tax credit analysis forms also include information on benefit/cost analyses for most tax credit programs. The benefit/cost analyses compare the costs of the credits (amounts authorized) during the previous fiscal year to the expected increase in state revenues resulting from direct and indirect economic program activity. Program activity can take the form of construction, increases in payrolls, or other spending. Administering agencies reported benefit/cost analyses on the tax credit analysis forms for 38 of the 61 tax credit programs reviewed. See Appendix C for the benefit/cost ratios reported for these programs.

The Department of Economic Development (DED) uses a commercial software program designed to estimate the economic benefits based on specified assumptions input by DED personnel, such as number of jobs or amounts invested. Other agencies use different methods to estimate the economic benefits. The DED conducts benefit/cost analyses for each program based on the estimated activity the program will produce. The benefit/cost of each program is calculated separately for the current year, and also for multiple years, where the number of years relates to the expected duration of the credit (from authorization to redemption). The benefit/cost of each program is expressed as a ratio of benefits to costs, with a ratio of 1 or greater meaning expected benefits exceed costs. Conversely, a benefit/cost ratio of less than 1 means program costs exceed expected benefits. For example, a program with a benefit/cost ratio of .50 returns $0.50 in state revenue for every $1 of cost.

[6] Fiscal Year 2022 Tax Credit Motion, approved 25 to 1 at a hearing on June 29, 2021, of the House Budget Committee.

The tax credit analysis forms submitted by the administering agencies during the 2021 legislative session are presented by category and redemption amount in Appendixes F through P.

Our review focused on tax credit trends, including credits authorized, issued, redeemed, and outstanding using data from the tax credit analysis forms provided by the Office of Administration (OA) Division of Budget and Planning and quarterly tax credit redemption data provided by the DOR. The scope of this review included, but is not necessarily limited to, tax credit activity occurring during the 5 years ended June 30, 2021. Some information may only be presented through fiscal year 2020, if fiscal year 2021 data was not available at the time of our review.

The tax credit analysis forms do not include information on direct and indirect local benefits associated with each program. There are also no analyses detailing the likelihood of activity occurring without the incentive. A 2013 Policy Brief by the University of Missouri Institute of Public Policy noted that data limitations and the complexity of the analysis prevent the development of an assessment instrument to determine whether activity would occur but for the tax credit.[7] Because this information is not reported by the administering agencies, it is not included in this report.

[7] Dabson, Brian, et al. Policy Brief. Report No. 03-2013, *Assessing the Impact of Missouri's Tax Credits*, issued in January 2013.

Tax Credit Trends

Total redemptions of tax credits have continued to increase, and redemptions in 2021 exceeded $600 million for only the second time in state history.[8] At the same time, the ratio of tax credit redemptions compared to net general revenue collections is at one of the lowest levels since fiscal year 2000.

Annual tax credit redemptions as a percentage of total annual General Revenue Fund (GRF) tax revenues averaged 6.07 percent from fiscal year 2017 to 2021, with a low of 5.5 percent in fiscal year 2021, to a high of 6.63 percent in fiscal year 2020.[9] State general revenue funds are available for general state purposes and are primarily appropriated for education, human services, public safety, and state prisons operations. By reducing state general revenues, tax credits reduce the amounts available for appropriations for general state purposes.

Table 3: Total tax credit redemptions as a percentage of net GRF collections

Fiscal Year	Total Redemptions	Percent Change	Dollar Change	Net GRF Collections	Percent Change	Dollar Change	Redemption Percentage of Net GRF
2009	$584,526,152			$7,450,783,912			7.85
2010	521,458,689	(10.79)	$(63,067,463)	6,774,323,530	(9.08)	$(676,460,382)	7.70
2011	545,145,614	4.54	23,686,925	7,109,583,480	4.95	335,259,950	7.67
2012	629,311,551	15.44	84,165,937	7,340,589,349	3.25	231,005,869	8.57
2013	512,911,236	(18.50)	(116,400,315)	8,082,688,476	10.11	742,099,127	6.35
2014	549,760,534	7.18	36,849,298	8,003,289,742	(0.98)	(79,398,734)	6.87
2015	513,311,854	(6.63)	(36,448,681)	8,709,167,292	8.82	705,877,550	5.89

Source: Department of Revenue (DOR) quarterly tax credit reports and Office of Administration (OA) Budget and Planning Final Revenue Report by Fiscal Year

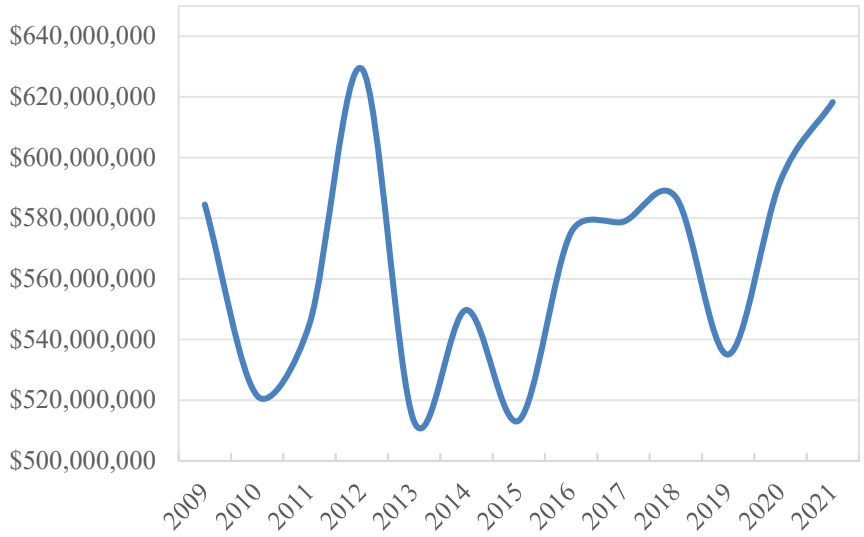
Tax credit redemptions have totaled approximately $10.5 billion since 2001, and $5.7 billion over the past decade. Total redemptions increased by an

[8] Although the Rolling Stock Tax Credit reduces property tax liability, counties are reimbursed out of the state's General Revenue Fund for the loss in property tax revenue. The DOR quarterly tax credit reports do not include Rolling Stock Tax Credit issuances or redemptions. As a result, the program's redemptions, which were $291,000 in 2017 and $194,000 in 2020, are not included in the tax credit redemption totals.

[9] Delays in state income tax payment deadlines caused net GRF collections to decrease in 2020, and a corresponding increase in 2021.

average of 3.14 percent annually from fiscal year 2001 to 2021. The amount of redemptions peaked in 2012 followed by a nearly 20 percent decrease the following year. Total redemptions first exceeded $500 million in fiscal year 2009 and have remained above $500 million each year since then. Average redemptions for fiscal years 2017 through 2021 were approximately $582 million per year, an increase of 4.7 percent from the previous 5-year period. Figure 1.1 shows total tax credit redemptions, by fiscal year, from 2009 to 2021.

Figure 1.1: Tax credit redemptions, by fiscal year

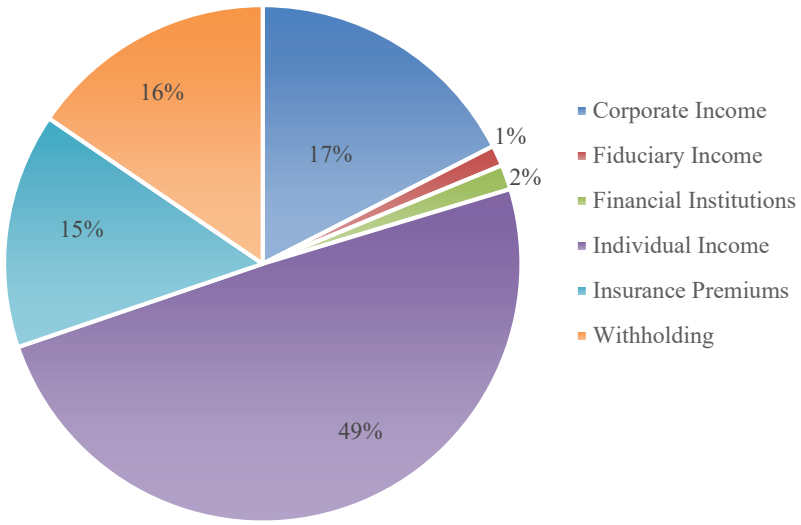


Source: DOR quarterly tax credit reports

Tax credit redemptions reduce taxes imposed on individual income, corporate income, corporation franchise assets,[10] insurance company premiums, financial institutions income, fiduciary income, and withholdings for individual income tax. Most tax credits allow redemption for multiple tax types, and many credits are transferable or sellable, resulting in credits being redeemed by entities other than the entity originally issued the credit. Other credits may not be sold or transferred and apply to only one tax type. For example, the Senior Citizen Property Tax Credit can only be applied to individual income tax returns. Figure 1.2 shows redemptions, by tax type, for the 5 years ended June 30, 2021. See detailed data for tax credit redemptions by tax type at Appendix D.

[10] Under Section 147.010, RSMo, the corporate franchise tax was reduced to zero effective for tax years beginning on or after January 1, 2016.

Figure 1.2: Redemptions, by tax type, fiscal years 2017 to 2021



Source: DOR redemption data

Redemptions against withholding taxes continued to increase during the 5-year period of review, mainly as a result of the growth of the Missouri Works program. The overall percentage of redemptions against corporate income tax have increased slightly during this period while corporate franchise tax redemptions ended. The overall percentage of redemptions against individual income and insurance premium taxes also decreased during this period.

For the 4 fiscal years 2017 through 2020, tax credit redemptions as a percentage of the related tax revenues ranged from an average of 3.9 percent for individual income tax (not including fiduciary tax collections) to about 26.6 percent for financial institutions taxes. Table 4 shows cumulative redemptions against the 6 tax types, total collections for those tax types, and the redemptions as a percentage of collections.

Table 4: Cumulative redemptions as a percentage of collections, by tax type, fiscal years 2017 to 2020

Tax type	Redemptions	Collections	Redemptions as a percentage
Individual income	$ 1,147,763,923	$ 29,355,093,484	3.9
Insurance company premium	294,136,358	1,213,257,111	24.2
Corporate income	418,703,699	1,881,349,668	22.3
Financial institutions	42,683,720	160,529,470	26.6
Fiduciary	27,618,371	326,728,565	8.5
Franchise	358,073	5,158,865	6.9

Source: DOR quarterly tax credit reports; DOR Financial and Statistical Report June 30, 2020; and State Auditor's Office (SAO) Report No. 2021-035, *Review of Article X, Sections 16 Through 24, Constitution of Missouri Year Ended June 30, 2020*.

Until 2020, banks paid a financial institutions tax at a rate of 7 percent of net income. Beginning in 2020, the rate changed to 4.48 percent. Insurance companies pay the domestic premium tax at a rate of 2 percent of new premiums collected.

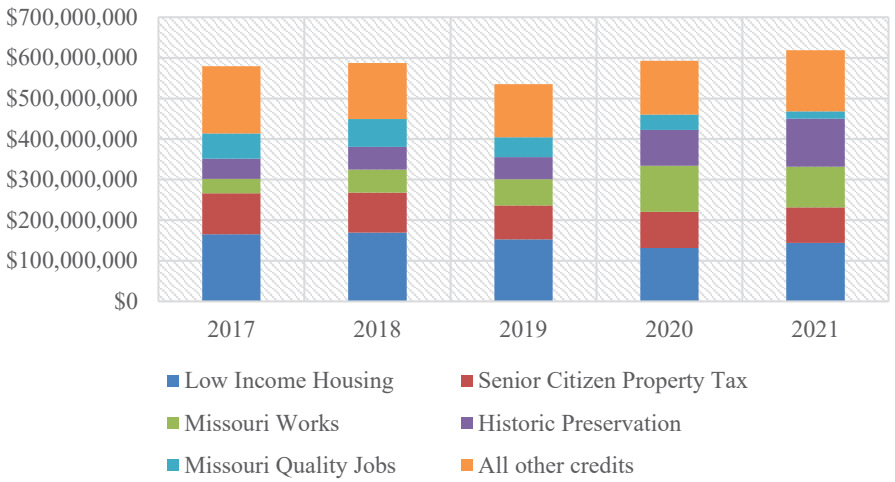
Redemptions during the period of this report were primarily concentrated to 5 tax credit programs:[11]

- Low Income Housing
- Senior Citizen Property
- Missouri Works
- Historic Preservation
- Missouri Quality Jobs

These tax credit programs comprise approximately 75 percent of total redemptions for the period. Figure 1.3 details redemptions for these programs, as a percentage of total redemptions, by program and by year, for fiscal years 2017 to 2021.

[11] In the previous tax credit report (SAO Report No. 2017-051, *Tax Credit Programs*, issued in June 2017), the New Market and Infrastructure Development Tax Credits were included in a list of the 7 programs with the most redemptions; however, these 2 programs each only accounted for 1 percent of total redemptions from 2017 to 2021.

Figure 1.3: Redemptions for five high-cost tax credits compared to total redemptions, fiscal years 2017 to 2021



Source: DOR redemption data

Unredeemed tax credits

Some tax credits have extended carry forward provisions, which allow tax credits that have been authorized or issued in prior years to be redeemed over a long period of time. As of June 30, 2020, the amount of tax credits authorized but unredeemed was approximately $2.8 billion according to data from the tax credit analysis forms. This amount is comprised of outstanding tax credits of approximately $1.2 billion, and obligated tax credits of approximately $1.6 billion.

Carry forward and carry back

Of the 61 credits reviewed, 39 have carry forward provisions ranging from 1 year to 20 years and 4 have unlimited carry forward provisions. See Appendix B for a listing of tax credit programs and their carry forward provisions. In addition, 3 tax credit programs (Low Income Housing, Historic Preservation, and Neighborhood Preservation) allow credits to be carried back to the 3 previous tax years before the credit was issued.

As of June 30, 2020, 2 programs (Low Income Housing and Historic Preservation) accounted for approximately 71 percent of outstanding credits. Table 5 shows tax credits outstanding by program as of that date.

Table 5: Outstanding tax credits, by program, at June 30, 2020

Program		Amount Outstanding	Percentage of the Total Outstanding	Amount Obligated	Percentage of the Total Obligated
Low Income Housing	$	723,265,771	60	44,678,461	3

Total	$	1,209,581,835		1,621,995,141	

Source: Tax credit analysis forms

Obligated tax credits

The state had approximately $1.6 billion in obligated tax credits as of June 30, 2020. Table 5 presents the balances by tax credit. Credits are often issued in the years after authorization as recipients complete actions required under a program for credit issuance. For example, Low Income Housing Tax Credits are authorized based on project applications, but the credits are issued over several years after completion of construction.

Department of Economic Development (DED) data of obligated tax credits shows that 7 programs are responsible for approximately 91 percent of the obligated balance. Those programs are Missouri Works, Historic Preservation, Business Use Incentives for Large Scale Development (BUILD), Neighborhood Preservation, Missouri Quality Jobs, Low Income Housing, and Manufacturing Jobs. See Appendix B for obligated tax credit balances for all programs.

Expiration dates

Twelve of the 61 tax credit programs included in this review expired[12] before 2017, but continued to have redemptions. Eight additional programs have since expired. The expired programs included all the agricultural and environmental programs, and half of the business recruitment programs. The business recruitment category used to make up the majority of the tax credits, but now the majority of tax credits are domestic and social. See Appendix E for expiration dates and caps on individual tax credit programs.

State law does not include an expiration date for 28 tax credits, including 3 of the 5 tax credit programs with the most redemptions (Historic Preservation, Low Income Housing, Senior Citizen Property Tax) during the review period.

[12] Eleven expired because of a date in statute, and the other program had a statutory limit on the total number credits that could be authorized that was met more than a decade ago.

The 28 programs with no expiration date had approximately $2 billion in redemptions from 2017 to 2021.

Limits on credits

Eleven of the tax credit programs that are currently active have no limits on annual, cumulative, or individual redemptions.[13] These credits had approximately $52.9 million in redemptions in fiscal year 2021.[14] Appendix E lists the tax credit programs and any statutory limits for each program.[15] The number of tax credit programs, and redemptions for programs with no limits, have substantially decreased since our 2017 tax credit review, in which we determined 20 programs had no limits, representing $165 million in redemptions in 2016.

New tax credits

During the 2021 session, the General Assembly established three new tax credit programs - Missouri Working Family, Missouri Empowerment Scholarship Accounts Program, and Capitol Complex.[16] The General Assembly also expanded the Adoption, Domestic Violence, and Maternity Home Tax Credits.[17]

Entitlement programs

The majority of the state's tax credit programs have been established as entitlement programs. For these programs, administering agencies grant credits to recipients meeting eligibility criteria if any limits have not been reached.

This process is different than how credits are awarded in discretionary programs in which the administering agency authorizes tax credits for projects based on a competitive project selection process.

[13] The following tax credits do not have annual, cumulative, or individual limits during fiscal year 2022: Advanced Industrial Manufacturing Zones Act; Brownfield Remediation; Bank Tax Credit for S Corporation Shareholders; Developmental Disability Care; Examination Fees; Life and Health Guarantee Association; Missouri Property and Casualty Guarantee Association; Public Safety Officer Surviving Spouse; Residential Treatment Agency; Self-Employed Health Insurance; and Health, Hunger, and Hygiene.

[14] The Advanced Industrial Manufacturing Zones Act; Property and Casualty Guarantee Association; and Health, Hunger, and Hygiene Tax Credits had no redemptions in 2021.

[15] The House Budget Committee has limited the New and Expanded Business Facility Tax Credit to no more than $12 million and prohibited the issuance of the Wine and Grape Production Tax Credit for fiscal year 2022, but these programs have no statutory limitations.

[16] Senate Bills (SBs) 153 and 97 established the Missouri Working Family Tax Credit Act (Section 143.177, RSMo), House Bill (HB) 349 established the Missouri Empowerment Scholarship Accounts Program Tax Credit (Sections 135.712 to 135.719, RSMo), and SB 36 created the Capitol Complex Tax Credit (Section 620.3210, RSMo).

[17] Previously, the tax credit for adoptive parents only applied when the child had special needs. HB 429 and HB 430 expanded the program to allow a credit for all adoptive parents and increased the annual limit on the credit (Sections 135.225 to 135.339, RSMo). HB 430 also removed the annual limits on the Domestic Violence Shelter Tax Credit (Section 135.550, RSMo) and the Maternity Home Tax Credit (Section 135.600, RSMo) for fiscal years beginning July 1, 2022.

The state has 42 entitlement tax credit programs. Missouri Works is both an entitlement and discretionary program. Not including Missouri Works, the entitlement programs had approximately $1.44 billion in redemptions during fiscal years 2017 to 2021. For entitlement programs with annual or cumulative limits, the credits are generally authorized on a first-come basis. Discretionary and entitlement tax credits and any funding limits are identified on Appendix E.

Benefit/cost analysis

The benefit/cost ratios are reported by the administering agencies to the General Assembly. Tax credit analysis forms for 18 of the 58 tax credit programs reviewed indicate a benefit/cost ratio projection of less than 1.00; meaning the program returns less to the state than it costs.[18] Redemptions for these 18 programs totaled $226 million (38 percent of total redemptions) for fiscal year 2020.

The benefit/cost ratio projections for the 5 high-cost programs ranged from 0.02 (Senior Citizen Property Tax Credit) to 1.95 (Missouri Works - Business Incentives) as listed in Table 6. For all reported benefit/cost ratios, by program, see Appendix C.

Table 6: Benefit/cost ratio projections for the 5 high-cost programs

Tax Credit Program	2020 Benefit/Cost
Missouri Works	1.95
Historic Preservation	0.17
Senior Citizen Property Tax	0.02
Low Income Housing	N/A
Missouri Quality Jobs	N/A

Source: Tax credit analysis forms

Twenty-two tax credit programs did not have benefit/cost information reported on the tax credit analysis forms submitted in 2021. These programs represented 36 percent of the total redemptions for fiscal year 2020, and included the Low Income Housing Tax Credit. It appears that no benefit/cost information was provided for these programs because only one of them had new tax credits authorized in 2020.[19] Also, two of the programs had no tax

[18] The 2021 tax credit analysis form for the Shared Care Tax Credit shows an indirect fiscal benefit of $47,811 and a direct cost of $25,958 but the ratio is reported as 0.00 instead of 1.84. Because it is unclear whether the credit has a benefit of more than 1.00, redemptions for the program are not included in this total.

[19] The tax credit analysis form for the Examination Fee and Other Fee Credit states that no economic analysis is conducted of the program because the purpose of the credit is not economic or social development, but "to equalize the burden on insurance companies, which, unlike other businesses when calculating income tax liability, cannot deduct certain fees and taxes as operating expenses when calculating their premium tax liability."

credit analysis forms submitted during the 5-year period of review because the programs expired more than a decade ago, but still had redemptions during the period of review.[20]

[20] A tax credit for research expenses under Section 620.1039, RSMo, expired in 2005, but redemptions in 2017 totaled $220,718. No tax credit analysis form was provided for the program that year. The Transportation Development Tax Credit under Section 135.545, RSMo, expired in 2007, but redemptions in 2017 totaled $3,175. The 2017 tax credit analysis form did not include a benefit/cost analysis.

Tax Credit Redemptions

The following table lists total annual tax credit redemptions for each tax credit program for state fiscal years 2017 through 2021. Tax credits are redeemed when used by taxpayers to offset annual tax liabilities or receive money back if the credit is refundable.

Program	Year Ended June 30, 2017	2018	2019	2020	2021
Low Income Housing	$ 165,661,698	169,138,876	153,023,838	131,706,191	144,394,812

Wine and Grape Production[8]		None	None

[1] The program cap can vary because it is set as a percentage of the amount allocated to Missouri under the federal low income housing tax credit program. Section 135.352, RSMo, provides for 100 percent of the federal allocation; however, the House Budget Committee has lowered the percentage to 72.5 percent of the federal allocation for fiscal years 2021 and 2022.

[2] Some program benefits are discretionary and others are entitlement benefits. Some program benefits expire in 2025 and others in 2030.

[3] The House Budget Committee limited all the New and Expanded Business Facility tax credits under Sections 135.100 to 135.155, RSMo, for fiscal years 2020, 2021, and 2022 to $12 million.

[4] House Bill 430 (2021) removed the $2 million annual limit for fiscal years beginning July 1, 2022.

[5] House Bill 430 (2021) removed the $3.5 million annual limit for fiscal years beginning July 1, 2022.

[6] The House Budget Committee has prohibited use of this credit for each fiscal year from 2019 to 2022.

[7] Although there is no statutory cap, the General Assembly has the authority to appropriate the amount of this tax credit each year.

[8] There is no limit in statute; however, the House Budget Committee has prohibited use of this credit for each fiscal year from 2018 to 2022.

TAX CREDIT ANALYSIS

Program Name: Agricultural Product Utilization Contributor Tax Credit Program

Department: Agriculture | **Contact Name & No.:** Jill S. Wood, 573-751-5624 | **Date: 12/31/2020**

Program Category: Agricultural | **Type: Tax Credit____ Other (specify)____**

Statutory Authority: 348.430 RSMo | **Applicable Taxes:** Income (143 RSMo), Franchise (147 RSMo), and Financial Institution (148 RSMo)

Date of Origin: July 2, 1999 1999 H.B. 888

Program Description and Eligibility Requirements:

A contributor who contributes funds to the Missouri Agricultural and Small Business Development Authority may receive a tax credit in an amount up to one hundred percent of such contribution. A contributor can be an individual, partnership, corporation, trust, limited liability company, entity or person that contributes cash funds to the authority. The funds derived from contributions shall be used for financial assistance or technical assistance in the form of value-added grants to rural agricultural business concepts. The authority may also provide or facilitate loans, equity investments, or guaranteed loans for rural agricultural business

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

A contributor who contributes funds to the Missouri Agricultural and Small Business Development Authority may receive a tax credit in an amount up to one hundred percent of such contribution. The awarding of the credit is based on the least amount of credits necessary to provide incentive for the contributions.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $ 6,000,000 None ___X____

Explanation of cap: The aggregate of tax credits issued per fiscal year pursuant to sections 348.430 and 348.432 shall not exceed six million dollars. If on May 1st of each year the Missouri Agricultural and Small Business Development Authority determines that all $6,000,000 will not be utilized as New Generation Cooperative Incentive Tax Credits then the unused credits may be sold as Agricultural Product Utilization Contributor Tax Credits. Credits not issued as New Generation Cooperative Incentive Tax Credits or sold as Agricultural Product Utilization Contributor Tax Credits lapse June 30th of each year.

Explanation of Expiration of Authority: The provision of sections 348.430 RSMo shall expire on December 31, 2021 pursuant to 348.436 RSMo.

Specific Provisions: (if applicable)

Carry forward: 4 years | Carry Back: n/a | Refundable: No | Sellable/Assignable: Yes | Additional Federal Deductions Available: No

TAX CREDIT ANALYSIS

Program Name: Agricultural Product Utilization Contributor Tax Credit Program

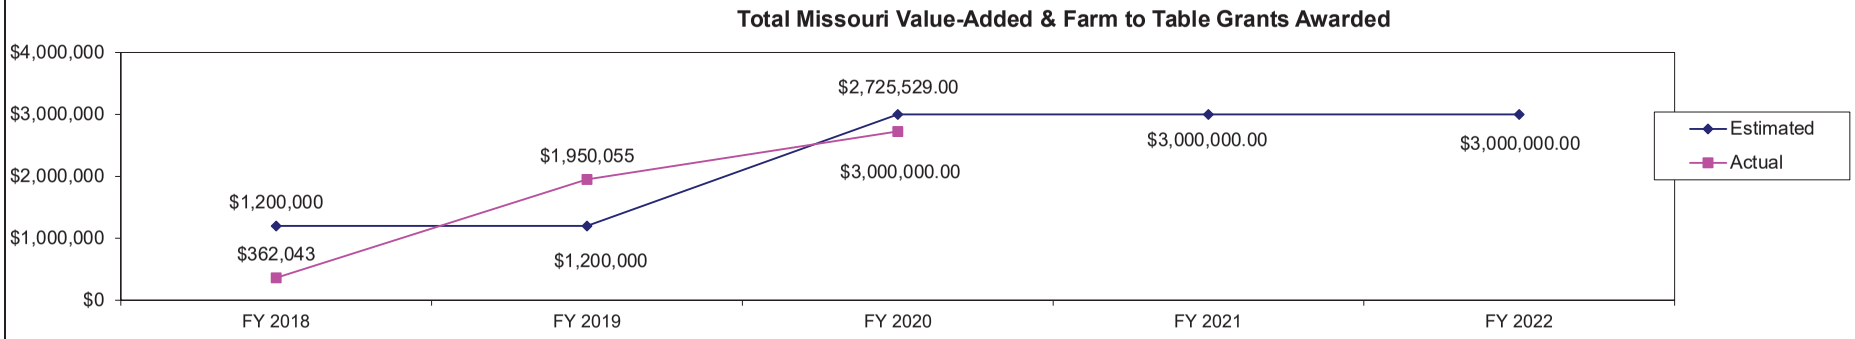
BENEFIT: COST ANALYSIS (includes only state revenue impacts)

	FY 2020 ACTIVITY	Other Fiscal Period (FY00-FY19)
BENEFITS		
Direct Fiscal Benefits	$1,375,689	$21,533,814
Indirect Fiscal Benefits	$1,288,411	$36,325,043
Total	$2,664,100	$57,858,857
COSTS		
Direct Fiscal Costs	$2,722,000	$24,941,705
Indirect Fiscal Costs		
Total	$2,722,000	$24,941,705
BENEFIT: COST	**0.98**	**2.32**

Derivation of Benefits: Benefits are based on grant dollars actually paid. Payments are broken into NAICS Codes. Total value-added (direct and indirect fiscal benefits) to the state of Missouri are estimated by IMPLAN. Value-Added Grants are awarded for pre-business start-up costs such as feasibility studies, marketing studies, business planning, etc. and 'Farm to Table' Value-Added Grants.

Other Benefits:

PERFORMANCE MEASURE(S)



Comments on Performance Measure: If a funded study demonstrates the potential for a project, then the cost of the study becomes one small part of the actual cost of the project. If the project is successful, it generates a good benefit cost ratio. If the study finds that the project is not feasible, the benefits of the project are the savings of investments that would have been lost. In which case the benefit cost ratio is very high. However, this analysis includes only actual grant dollars and does not take into account whether or not a project is feasible. If a project becomes operational and receives New Generation Cooperative Incentive Tax Credits then those benefits are accounted for in the New Generation Cooperative Incentive Tax Credit Program's tax credit analysis.

TAX CREDIT ANALYSIS, FY 2022 BUDGET SUBMISSION

Program Name: New Generation Cooperative Incentive Tax Credit Program

Department: Agriculture	**Contact Name & No.:** Jill S. Wood, 573-751-5624	**Date: 12/31/2020**
Program Category: Agricultural	**Type: Tax Credit____ Other (specify)____**	
Statutory Authority: 348.432 RSMo	**Applicable Taxes:** Income (143 RSMo), Franchise (147 RSMo), and Financial Institution (148 RSMo)	
Date of Origin: July 2, 1999 1999 H.B. 888		

Program Description and Eligibility Requirements:

To induce private investment into "Eligible new generation processing entities" which will; result in the processing of Missouri agricultural commodities and agricultural products into value-added goods, provide substantial benefit to Missouri's agricultural producers, and result in the creation of jobs for Missourians. Eligible "Producer members" investing in an "Eligible new generation processing entity", which is either a "Development facility" or a "Renewable fuel production facility" may receive the tax credit.

"Eligible new generation processing entity" is a partnership, corporation, cooperative, or limited liability company organized or incorporated pursuant to Missouri laws and consisting of not less than twelve members, approved by the authority, for the purpose of owning or operating within Missouri a "Development facility" or a "Renewable fuel production facility" in which producer members; (a) hold a majority of the governance or voting rights of the entity and any governing committee; (b) control the hiring and firing of management; and (c) deliver agricultural commodities or products to the entity for processing, unless processing is required by multiple entities.

"Producer member" is a person, partnership, corporation, trust, or limited liability company whose main purpose is agricultural production that invests cash funds in an eligible new generation processing entity.

"Development facility", a facility producing either a good derived from an agricultural commodity or using a process to produce a good derived from an agricultural product.

"Renewable fuel production facility", a facility producing an energy source which is derived from a renewable, domestically grown, organic compound capable of powering machinery, including an engine or power plant, and any by-product

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The lesser of 50% of the eligible producer members' cash investment in an eligible new generation processing entity or $15,000. However, the members investing in a "Large Capital Project" (capital costs greater than one million dollars) may not receive tax credits totaling more than $1.5 million and members investing in an "Employee Qualified Capital Project" (capital costs greater than fifteen million dollars which employ at least sixty employees) may not receive tax credits totaling more than $3.0 million.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_6,000,000__ None ___X____

Explanation of cap: The aggregate of tax credits issued per fiscal year pursuant to sections 348.430 and 348.432 shall not exceed six million dollars. If on May 1st of each year the Missouri Agricultural and Small Business Development Authority determines that all $6,000,000 will not be utilized as New Generation Cooperative Incentive Tax Credits then the unused credits may be sold as Agricultural Product Utilization Contributor Tax Credits. Credits not issued as New Generation Cooperative Incentive Tax Credits or sold as Agricultural Product Utilization Contributor Tax Credits lapse June 30 of each year.

Explanation of Expiration of Authority: The provisions of sections 348.432 shall expire December 31, 2021 pursuant to 348.436 RSMo.

Specific Provisions: (if applicable)

Carry forward 4 years | Carry Back n/a | Refundable No | Sellable/Assignable Yes | Additional Federal Deductions Available No

Comments on Specific Provisions:

Comments on performance measure:

Program Name: New Generation Cooperative Incentive Tax Credit Program

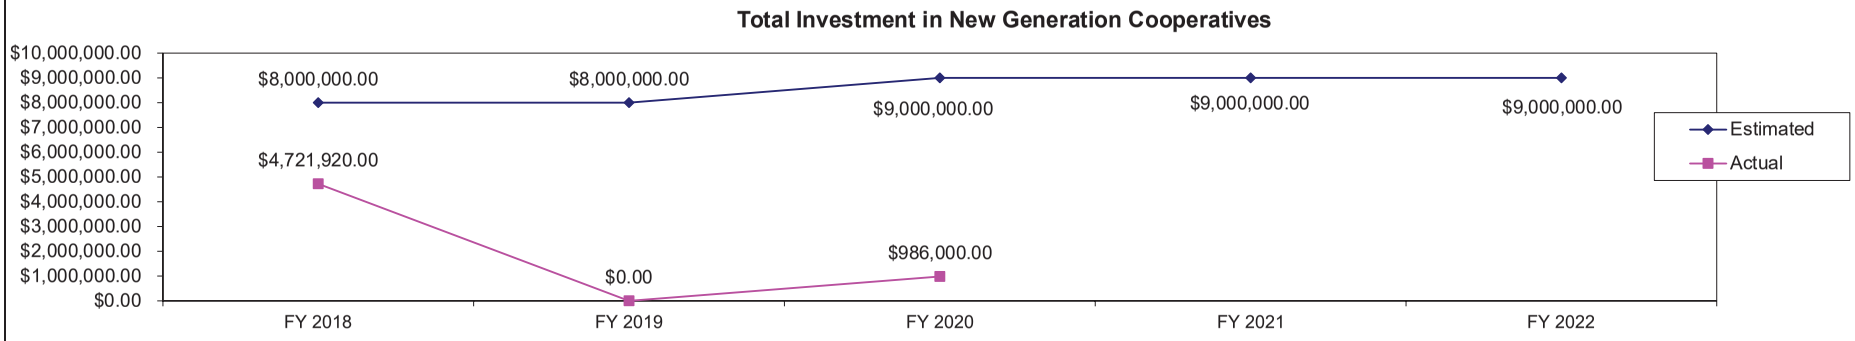
BENEFIT: COST ANALYSIS (includes only state revenue impacts)

	FY 2020 ACTIVITY	Other Fiscal Period (FY00-FY19)
BENEFITS		
Direct Fiscal Benefits	$432,000	$69,158,357
Indirect Fiscal Benefits	$540,000	$104,290,893
Total	$972,000	$173,449,250
COSTS		
Direct Fiscal Costs	$482,555	$52,124,272
Indirect Fiscal Costs		
Total	$482,555	$52,124,272
BENEFIT: COST	**2.01**	**3.33**

Derivation of Benefits: The University of Missouri - Columbia was commissioned to study the costs and benefits of this program in 2008. The ratios determined in their study were applied to the FY18 tax credits issued to determine the direct and indirect benefits.
The direct fiscal costs are the tax credits issued * 1.2 (UMC study results)
The indirect fiscal costs are the tax credits issued * 1.5 (UMC study results)

Other Benefits:

PERFORMANCE MEASURE(S)



Comments on Performance Measure:

TAX CREDIT ANALYSIS

Program Name: Meat Processing Facility Investment Tax Credit

Department: Agriculture	**Contact Name & No.:** Jill S. Wood, 573-751-5624	**Date: 12/31/2020**
Program Category: Agricultural	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: 135.686 RSMo	**Applicable Taxes:** Income (143 RSMo Excluding 143.191 to 143.265 RSMo), Franchise (147 RSMo)	

Date of Origin: August 28, 2016 L. 2016 S.B. 665

Program Description and Eligibility Requirements:
To stimulate investment in the meat processing industry in Missouri and to enable the livestock industry to capture more value in the form of further processed meat products. To be eligible, the owner and operator has to complete a meat processing facility modernization and or expansion activity(ies) on or after January 1, 2017 through December 2021; a resident of Missouri; the facility must be in Missouri; certified through E-Verify program and good standing with USDA and or Missouri Department of Agriculture's inspection(s).

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The tax credit is 25% of the total qualifying meat processing facility modernization and or expansion expenses paid in the tax year.
There is a $75,000 maximum tax credit per meat processing facility per tax year allowed

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $ 2,000,000 None ___X____

Explanation of cap: The tax credits will be issued on an as-received basis until the calendar year limit of $2 million is reached. The annual limit of $2 million is accumulation of Qualified Beef Tax Credit and Meat Processing Facility Investment Tax Credit programs. Any tax credits not issued in any calendar year shall expire and shall not be issued in any subsequent years. Maximum fiscal year amount is set in 135.686.4 RSMo.

Explanation of Expiration of Authority: Not subject to Missouri Sunset Act per RSMo 135.686.10; however, per 135.686.3 For all taxable years beginning on or after January 1, 2017, but ending on or before December 31, 2021, a taxpayer shall be allowed a tax credit for meat processing modernization or expansion related to the taxpayer's meat processing facility.

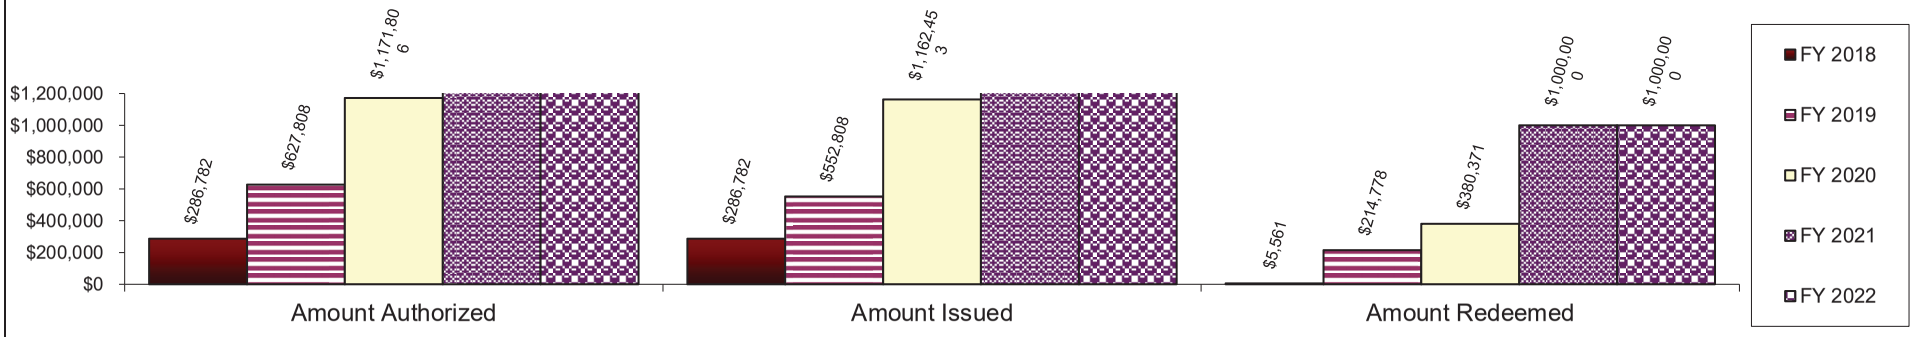
HISTORICAL AND PROJECTED INFORMATION



Comments on Historical and Projected Information: Applications for Meat Processing Facility Tax Credits were not accepted until January 1, 2018. The Rule for Meat Processing Facility Investment Tax Credit program did not go into effect until December 30, 2017.

TAX CREDIT ANALYSIS

Program Name: Meat Processing Facility Investment Tax Credit

BENEFIT: COST ANALYSIS (includes only state revenue impacts)

	FY 2020 ACTIVITY	Other Fiscal Period (FY17-FY19)
BENEFITS		
Direct Fiscal Benefits	$616,561	$960,324
Indirect Fiscal Benefits	$2,219,778	$2,160,239
Total	$2,836,339	$3,120,563
COSTS		
Direct Fiscal Costs	$411,475	$251,104
Indirect Fiscal Costs		
Total	$411,475	$251,104
BENEFIT: COST	**6.89**	**12.43**

Derivation of Benefits IMPLAN economic modeling software was used to quantify direct and indirect fiscal benefits to Missouri state taxes. These benefits were derived from construction impacts (based on investment dollars) and operational impacts (based on new direct jobs added at the plants) as a result of modernization and or expansion of the facilities.

FY 2018 was the first year this program was active.

TAX CREDIT ANALYSIS

Program Name: Qualified Beef Tax Credit

Department: Agriculture	**Contact Name & No.:** Jill S. Wood 573-751-5624	**Date: 12/31/2020**
Program Category: Agricultural	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: 135.679	**Applicable Taxes:** Income (143 RSMo Excluding 143.191 to 143.265 RSMo), Franchise (147 RSMo)	
Date of Origin: August 28, 2007 L. 2007 1st Ex. Sess H.B. 1		

Program Description and Eligibility Requirements:
Provide Missouri cattle farmers with an economic incentive to background and or finish Missouri born and raised qualified beef cattle in this state.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

There are two separate tax credit incentives as of August 28, 2016 and the two tax credit amounts are as follows:
·Any cattle weighing 599 lbs or less qualify for the ten cents ($.10) per pound. The calculation is the qualifying sale weight minus the baseline weight multiplied by $.10 per pound provided the sale weight is one hundred (100) pounds or greater than the baseline weight.
·Any cattle weighing 600 lbs or more qualify for the twenty-five cents ($.25) per pound. The calculation is the qualifying sale weight minus the baseline weight multiplied by $.25 per pound provided the sale weight is one hundred (100) pounds or greater than the baseline weight.
·$15,000 maximum credit per tax payer per calendar year allowed.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $__2,000,000 None _____

Explanation of cap:
The tax credits will be issued on an as-received basis until the calendar year limit of $2 million is reached. The annual limit of $2 million is accumulation of Qualified Beef Tax Credit and Meat Processing Facility Investment Tax Credit

Explanation of Expiration of Authority: Not subject to Missouri Sunset Act per RSMo 135.679.8; however, per 135.679.3 For all taxable years beginning on or after January 1, 2009, but ending on or before December 31, 2021, a taxpayer shall be allowed a tax credit for the first qualifying sale and for a subsequent qualifying sale of all qualifying beef animals. The eligibility dates are subject to change due to action by the House Budget Committee on May 18, 2018, stating that no credits are approved for Qualified Beef, pursuant to Section 135.679, RSMo, for any tax year beginning on or after July 1, 2018 and on or before June 30, 2019. This was extended out to June 30, 2021.

TAX CREDIT ANALYSIS

Program Name: Family Farm Breeding Livestock Loan Program

Department: Agriculture | **Contact Name & No.:** Jill S. Wood (573) 751-5624 | **Date:** 12/31/2020

Program Category: Agricultural | **Type:** Tax Credit__X__ Other (specify)____

Statutory Authority: 348.500, 348.505 RSMo Effective August 2006 | **Applicable Taxes:** Income (143 RSMo), Franchise (147 RSMo), and Financial Institution (148 RSMo)

Date of Origin: August 28, 2006 2006 S.B. 1017

Program Description and Eligibility Requirements:

This program provides Missouri Tax Credits to lenders in lieu of the first year interest being paid on breeding livestock loans made to "small farmers" who are Missouri residents and who have less than $250,000 in gross agricultural product sales per year. Maximum eligible loan cannot exceed 90% of the cost of purchasing breeding livestock. Each small farmer shall be eligible for only one family farm livestock loan per immediate household family & only one type of livestock. The maximum amount of loan for each type of livestock is: Beef or Dairy cattle $75,000; Sheep or Goats $30,000; Swine $35,000.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

A lender can request a one time tax credit for the first years interest waived on a loan to a "Small Missouri Farmer" that makes a loan for the purchase of breeding livestock. Each request shall include a true copy of the loan documents.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $ 300,000 None ___X____

Explanation of cap:

Fiscal year limits are set in 348.505.1 RSMo as are individual loan limits. Beef and dairy = $75,000, swine = $35,000, sheep and goats = $30,000

Explanation of Expiration of Authority: Not addressed in statutory authority.

TAX CREDIT ANALYSIS

Program Name: Missouri Works - Business Incentives

Department: Economic Development | **Contact Name & No.:** Brenda Horstman (573) 751-3713 | **Date:** January 2021

Program Category: Business Recruitment | **Type: Tax Credit** X **Other (specify)** X (Also Retention of Withholding Taxes of new jobs)

Statutory Authority: Sections 620.2000-620.2020, RSMo | **Applicable Taxes:** Income Tax; Bank Tax; Insurance Premium Tax; Other financial institutions tax

Date of Origin: 2013

Program Description and Eligibility Requirements:

To qualify, a company must create or retain a minimum number of new jobs at the project facility with average wages of 80%, 90%, 120% or 140% of the county average wage and must offer and pay at least 50% of the health insurance premiums. For-profit and non-profit businesses except for gambling, store front consumer-based retail trade establishments, food and drinking places, public utilities, educational services, religious organizations, public administration, ethanol distillation or production, biodiesel production, healthcare and social services, companies that are delinquent in payment of any nonprotested taxes or other payments, and businesses that have filed or have publicly announced their intention to file for bankruptcy, unless certain requirements are met.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** Yes

Zone Works (2 new jobs, 80% of county average wage, $100,000 investment, located in Enhanced Enterprise Zone) and Rural Works (2 new jobs, 90% of county average wage, $100,000 investment located in a rural county) provide benefits of retention of 100% of the withholdings of the new jobs for 5-6 years. Statewide Works (10 new jobs, 90% of county average wage) provides benefits of retention of withholdings or a combination of retention of withholdings and tax credits for up 9% of payroll on the new jobs . Mega Works 120 and 140 (100 new jobs, 120% and 140% of county average wage respectively) provide benefits of a combination retention of withholdings and tax credits totaling from 6 to 7% respectively to up to 9% of payroll of the new jobs. Retention Works provides benefits of the retention of withholding tax for up to 100% of the withholdings of the new jobs for up to 10 years. Retention Works-Auto Manufacturing ($500M in investment) provides a benefit of tax credits. Qualified Military Projects (10 new jobs, 90% of county average wage, investment as agreed to in proposal) provides tax credits in amount of withholding taxes. Deal Closing Fund (10 new jobs, 100% of county average wage) provides for tax credit within 1 year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $106 million (FY14), $111 million (FY15), $116 million FY16 forward on tax credits None _____

Explanation of cap:

These caps include the authorized amounts for the 4 programs (Quality Jobs, Enhanced Enterprise Zone, Rebuilding Communities, and Development Tax Credit) that Missouri Works is replacing. There is no limit on the retained withholdings for new job creation projects. There is a cap of $6 million for retention projects.

Explanation of Expiration of Authority: Missouri Works sunsets August 28, 2030.

Total	$25,637,298	$148,475,805
BENEFIT: COST	**1.95**	**2.23**

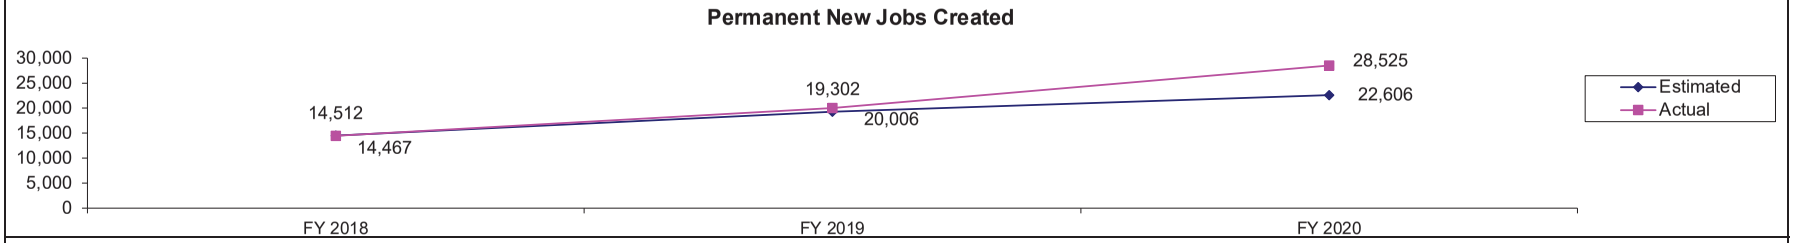
Derivation of Benefits:
Investment: (a) $1,888,992,558 in Non-Residential Investment spending over years 2020-2021.
Employment: (a) 7,063 new jobs scaled up over four years in various manufacturing and services sectors at average wage rates in 2020-2029.
Other Assumptions: (a) N/A
Incentives/Credits: (a) $153,823,786 in Missouri Works tax credits over years 2020-2025.
The multi-year fiscal Benefit-Cost Ratio is 2.22 when other program incentives (Job Retention Training, Customized) are included.
The multi-year fiscal Benefit-Cost Ratio is 3.85 when 4,934 retained jobs are included, assuming all would exit the state but for the incentive.
Impacts occur Statewide. All Values in Constant Dollars. Assumptions provided by DED. Estimated using REMI.

Other Benefits:

In FY 2020, every dollar of auth. program tax credits returns
$34.02 in new personal income totaling $872.17 million
$55.35 in new value-added/GSP totaling $1,419.10 million
$102.33 in new economic output totaling $2,623.43 million

Over 10 YEARS, every dollar of auth. program tax credits returns
$84.38 in new personal income totaling $12,528.06 million
$130.63 in new value-added/GSP totaling $19,394.78 million
$246.25 in new economic output totaling $36,562.15 million

PERFORMANCE MEASURE(S)



Comments on Performance Measure: FY2014 was the first year of the program.
The estimated number of jobs is the total projected for all projects for which DED issued benefits during FY18, FY19, and FY20. The actual number is the actual number of jobs reported by those projects issued benefits during FY18, FY19 and FY20. Companies have 2 years after authorization to create the statutory threshold number of jobs and ramp up over time. Many of the jobs estimated will be reported as actual in later years. The actual jobs numbers are totals for the projects to date. They are not net new for the year. These numbers do not include retained projects in the Retention category of the program.

TAX CREDIT ANALYSIS

Program Name: Missouri Quality Jobs

Department: Economic Development | **Contact Name & No.:** Brenda Horstman (573) 751-3713 | **Date:** January 2021

Program Category: Business Recruitment | **Type: Tax Credit** X **Other (specify)** X (Also Retention of Withholding Taxes of new jobs)

Statutory Authority: Sections 620.1875-620.1890, RSMo | **Applicable Taxes:** Income Tax; Bank Tax; Insurance Premium Tax; Other financial institutions tax

Date of Origin: 2005

Program Description and Eligibility Requirements:

For-profit and non-profit businesses except for gambling, retail trade, food and drinking places, public utilities, educational services, religious organizations, public administration, companies that are delinquent in non-protested taxes or other payments, or any company that has filed for or has publicly announced its intention to file for bankruptcy are eligible provided the average wage of the new jobs equals or exceeds the county average wage and the company offers health insurance and pays at least 50% of the premium. To qualify, the company must create a minimum number of new jobs at the project facility within 2 years.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The benefits of the program are the retention of 100% of the state withholding tax of the new jobs for 3 or 5 years for small/expanding businesses (20+ new jobs in rural areas and 40+ new jobs in non-rural areas); or a combination of the retention of 100% of the state withholding tax of the new jobs and state tax credits for 5 years for technology businesses (10+ new jobs) and high impact businesses (100+ new jobs), based on a percentage (from 3 to 7%, depending on the average wage of the new jobs and the amount of local incentives) of the payroll of the new jobs.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $80 million None _____

Explanation of cap: The cap increased from $40 million to $60 million in tax credits beginning Aug. 2008. The cap increased to $80 million beginning June 4, 2009 . Up to $3 million of the cap may be used for job retention projects approved by the Quality Jobs Advisory Task Force, with no tax credits issued after August 30, 2013. Up to $500,000 of the cap may be used for small business job retention and flood relief projects, with no tax credits approved after August 30, 2010. The tax credit maximums applying to technology and high impact business projects were removed for newly approved projects as of June 4, 2009. There is no limit on the retention of withholding taxes.

Explanation of Expiration of Authority: No tax credits shall be issued for job retention projects approved after August 30, 2013. No tax credits shall be issued for small business job retention and flood relief projects approved after August 30, 2010. No new projects may be proposed after August 27, 2013.

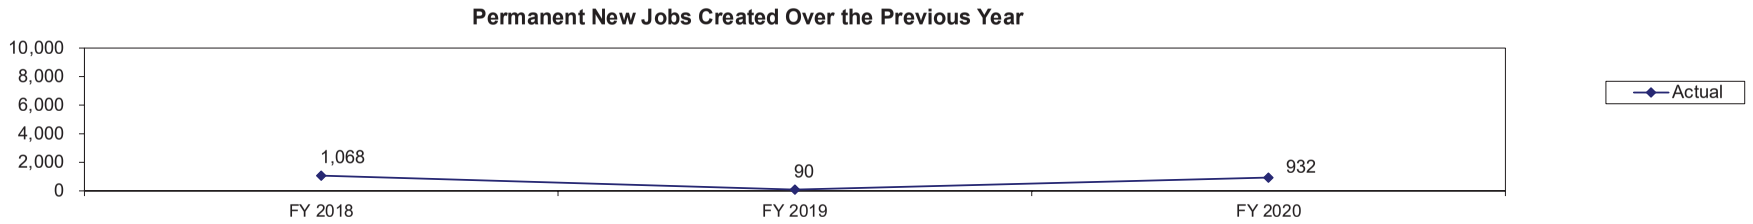
PERFORMANCE MEASURE(S)



Comments on Performance Measure: For projects reporting in the fiscal year, This is the number of new jobs over the previous year reported. As the program winds down, the lower the net new job numbers go, as companies reach their targets. The companies still receive benefits for new jobs over their base employment.

TAX CREDIT ANALYSIS

Program Name: Manufacturing Jobs Acts

Department: Economic Development	**Contact Name & No.:** Brenda Horstman (573) 751-3713	**Date:** January 2021
Program Category: Business Retention	**Type: Tax Credit___ Other (specify)_ X_** (Retention of Withholding Taxes)	
Statutory Authority: Section 620.1910, RSMo	**Applicable Taxes:** Withholding Tax	
Date of Origin: 2010		

Program Description and Eligibility Requirements:

A business with NAICS code of 33611 may retain withholding taxes in the amount of 100% for retained full time employees for the creation of a new product line for 10 years or retain 50% of the withholding taxes for the modification or expansion to an existing product for 7 years. A qualified supplier of an eligible manufacturer may retain 100% of withholding taxes for new jobs (creation of 5 new jobs threshold to qualify) for a period of 3 years or, if wages are in excess of 120% of county average, for 5 years.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The eligible manufacturer commits to make a capital investment of at least $75,000 per retained job, or in the case of a modified / expansion of an existing product, commits to make a capital investment of at least $50,000 within no more than two years of the date the company begins to retain withholdings. For the eligible supplier, the company must derive more than 10% of the total annual sales from the qualified manufacturer and add five or more new jobs.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $15 million per year for manufacturing companies None _____

Explanation of Cap: Maximum amount of withholding tax that can be retained by any one qualified manufacturing company shall not exceed $10 million per calendar year and the aggregate amount for all qualified manufacturing companies shall not exceed $15 million per calendar year. There are no annual limits for qualified suppliers.

Explanation of Expiration of Authority: This program sunset October 12, 2016.

TAX CREDIT ANALYSIS

Program Name: Business Use Incentives for Large-Scale Development (BUILD)

Department: Economic Development | **Contact Name & No.:** Ryan Vermette (573) 526-0772 | **Date:** January 2021

Program Category: Business Recruitment | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: Sections 100.700-100.850, RSMo | **Applicable Taxes:** Income Tax, Bank Tax, Insurance Premium Tax, Other Financial Institution Tax

Date of Origin: 1996

Program Description and Eligibility Requirements:

The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance by the Board of certificates (bonds or notes) the principal and interest on which will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri State income tax credits. The businesses may use these credits against taxes, which would otherwise be due, or to obtain a refund if the business has no Missouri income tax liability. All businesses that manufacture, process (including agricultural processing) or assemble products are eligible. Businesses that conduct research and development or provide services in interstate commerce are also eligible. Certain office industries are also eligible. A manufacturing business must invest a minimum of $15 million and 100 new jobs. An office business must invest a minimum of $10 million and 500 jobs. There are other factors.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

The award is computed based on principal, interest and board fees annually and limited to be no more that 5% of gross wages of each eligible employee whose job was created as a result of the project.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $25,000,000 None _____

Explanation of cap:

Aggregate amount of debt reduction assessments of all companies with bonds outstanding and still active shall not exceed $25 million annually. Beginning with FY 2018 Actual, the Amount Authorized is reported as the total authorized credits available to be issued to all companies during the fiscal year.

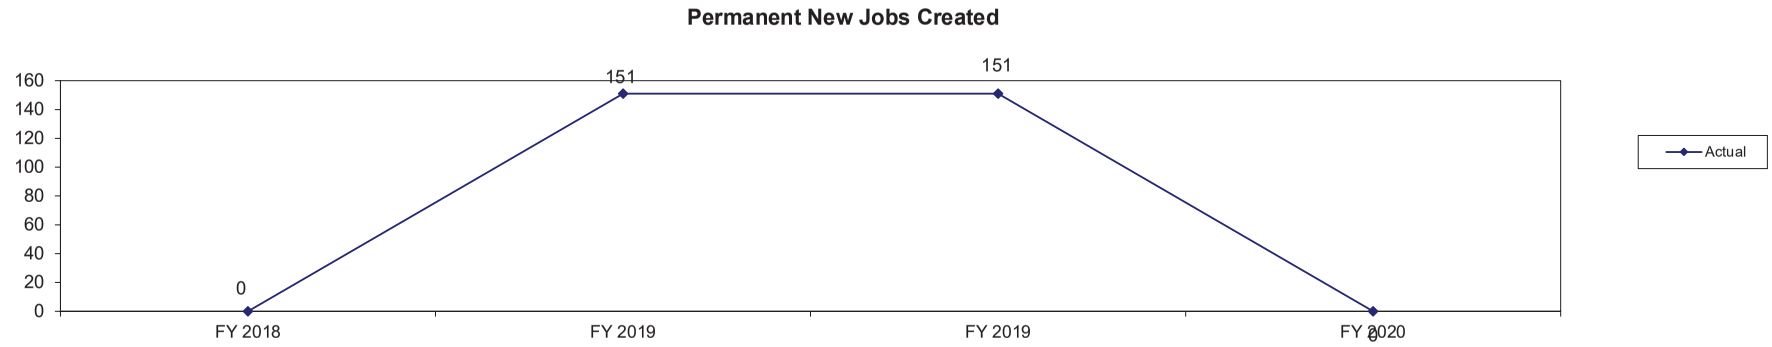
No new authorizations for FY2020

Other Benefits:
Over 20 YEARS, every dollar of auth. program tax credits returns

PERFORMANCE MEASURE(S)



Comments on Performance Measure: Benefits are based on the number of new jobs above the base. For the purposes of reporting, the number that is indicated here is net new year to year, so that there is no double counting of new jobs. For the projects for which credits were issued, the jobs were not net new for this fiscal year but did have new jobs over the base. The job numbers that were created in FY2020 will be reflected in FY2021 due to the timing of authorization and issuance of credits.

Comments on Performance Measure: Benefits are based on the amount of investment above the base. For purposes of reporting, the amount that is indicated here is net new year to year, so that there is no double counting of new investment. The investment that was created in FY2020 will be reflected in FY2021 due to the timing of authorization and issuance of credits.

TAX CREDIT ANALYSIS

Program Name: Enhanced Enterprise Zone (EEZ)

Department: Economic Development | **Contact Name & No.:** Brenda Horstman (573) 751-3713 | **Date:** January 2021

Program Category: Business Recruitment | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: Sections 135.950-135.973, RSMo | **Applicable Taxes:** Income Tax

Date of Origin: 2004

Program Description and Eligibility Requirements:

Tax credits to new or expanding businesses in enhanced enterprise zones. At least two new jobs must be created or maintained and at least $100,000 of new investment within the zone. Business eligibility determined by the zone based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Businesses also qualify for local abatement.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

Tax credits shall be the lesser of a formula amount based on number of jobs created, number of employees who are residents of the zone, number of employees paid wages above the county average wage and amount of new capital investment OR an amount authorized by DED that is limited to the projected state economic benefit. The credits may be provided each year for up to ten tax years after the project commences operations.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $24 million None _____

Explanation of Cap: Annual calendar year cap increased from $4 million to $7 million beginning January 1, 2007. Effective December 2007, the annual calendar year cap increased again from $7 million to $14 million. Effective August 28, 2008, the annual calendar year cap increased to $24 million.

Explanation of Expiration of Authority: No new projects may be proposed after August 27, 2013.

TAX CREDIT ANALYSIS

Program Name: Missouri Examination Fee and Other Fee Credit

Department: Commerce and Insurance | **Contact Name & No.:** Grady Martin 573-751-7223 | **Date:** 1/29/2021

Program Category: Business Recruitment | **Type: Tax Credit**__X__ **Other (specify)**____

Statutory Authority: Chapter 148.400 RSMo | **Applicable Taxes:** Missouri Insurance Premium Tax

Date of Origin: 1945; newest update effective 8/28/2001

Program Description and Eligibility Requirements:

The Missouri Examination Fee and Other Fee Credit allows the total cost of an examination paid by an insurance company to be taken as a tax credit against premium tax due, as well as any income taxes, franchise taxes, personal property taxes, valuation fees and/or registration fees paid. Premium tax is split between General Revenue and County Foreign or County Stock funds.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Credit is applied against same year premium tax due. If credit exceeds premium tax due, only excess examination fee credit can be carried forward--up to five years. Carry forward credit is taken against General Revenue portion of premium tax only.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None ___X____

Explanation of cap: N/A

Explanation of Expiration of Authority: N/A

Specific Provisions: (if applicable)

Carry forward: 5 years | Carry Back: n/a | Refundable: No | Sellable/Assignable: No | Additional Federal Deductions Available: No

Comments on Specific Provisions: Carry forward is taken against General Revenue only. Carry forward began in tax year 2003 per SB 193 (2001) and only applies to the examination fee credit (148.400 RSMo.)

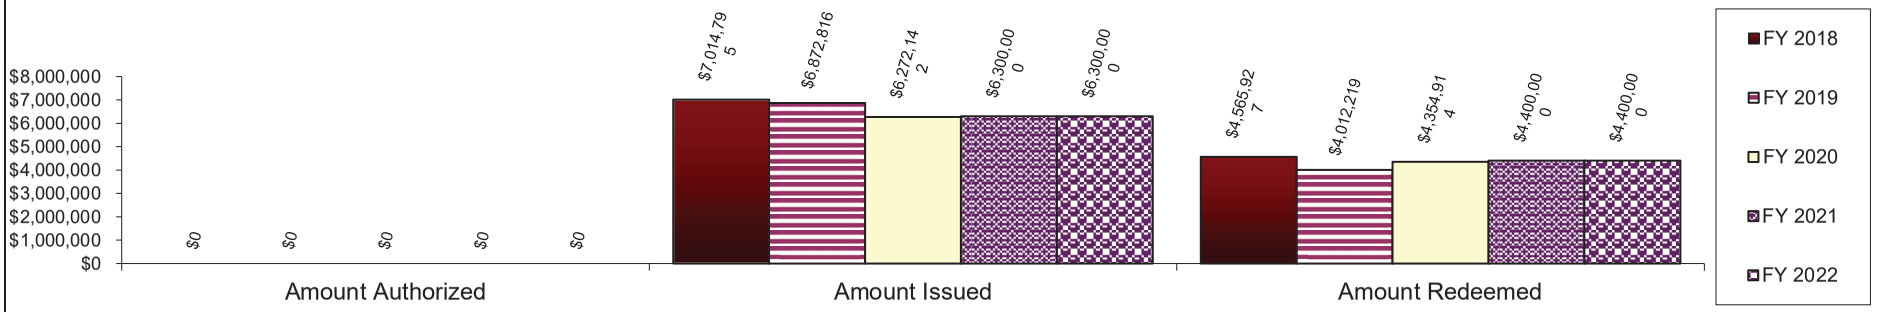
Amount Redeemed	$4,565,927	$4,012,219	$4,354,914	*$0*	$4,400,000	$4,400,000

FY 2020 EST. Amount Outstanding $8,836,468 | FY 2020 EST. Amount Authorized but Unissued n/a

HISTORICAL AND PROJECTED INFORMATION



Comments on Historical and Projected Information:
Typically only the companies domiciled in Missouri take this credit as it often results in an increase in retaliatory tax of that amount for foreign (non-Missouri based) insurers. Due to this only about 55% of examination costs are taken each year in tax credits. Consequently, the department believes most carry-over each year will eventually expire.

TAX CREDIT ANALYSIS

Program Name: Missouri Examination Fee and Other Fee Credit

BENEFITS	*see Derivation of Benefits section	
Direct Fiscal Benefits		
Indirect Fiscal Benefits		
Total		
COSTS		
Direct Fiscal Costs		
Indirect Fiscal Costs		
Total		
BENEFIT: COST		

Derivation of Benefits: The state has not conducted an economic analysis of Insurance Tax Credits, but in the state's 2010 (updated in 2012) Missouri Tax Credit Review Commission Report, this tax credit was considered a feature of Missouri's overall tax structure, rather than a true "tax credit" as that term is used to describe the state's various programs designed to provide an economic incentive or achieve a social outcome. In the report the credit's purpose was described as an attempt to equalize the burden on insurance companies, which, unlike other businesses when calculating income tax liability, cannot deduct certain fees and taxes as operating expenses when calculating their premium tax liability. The report stated that elimination or reduction of this credit would increase taxes on insurance companies above the taxes imposed on otherwise similarly situated industries.

Other Benefits:
Under Chapter 148.400, RSMo., insurance companies are permitted a tax credit for the costs of insurance examinations conducted by the department. Examination costs are business expenses that are similar to corporate expenses deducted when calculating income tax. Due to their tax structure, insurers account for operating expenses through a premium tax credit rather than an income tax deduction.

Department: Economic Development | **Contact Name & No.:** Mark Pauley (573) 522-8006 | **Date:** January 2021

Program Category: Business Recruitment | **Type: Tax Credit** X **Other (specify)**

Statutory Authority: Section 67.3000, RSMo | **Applicable Taxes:** Income Tax; Bank Tax; Insurance Premium Tax; Other financial institutions tax

Date of Origin: 2013

Program Description and Eligibility Requirements:

This program provides a tax credit that is designed to encourage the location of competitively bid amateur sporting events in Missouri. The program is available to: "certified sponsors" active in the National Association of Sports Commissions, "endorsing counties", "endorsing municipalities", and "local organizing committees".

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

Eligible applicants can be awarded up to the lesser of $5 per event ticket, or 100% of eligible costs. Eligible costs include: 1) costs necessary for conducting the sporting event, 2) costs relating to the preparations necessary for the conduct of the sporting event, and 3) the applicant's pledged obligations to the site selection organization as evidenced by the support contract.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $3 million None _____

Explanation of cap:
No more than $3 million dollars in tax credits can be issued in a given fiscal year.

Explanation of Expiration of Authority: The Amateur Sporting Tax Credit sunsets August 28, 2025.

TAX CREDIT ANALYSIS

Program Name: Film Tax Credit Program

Department: Economic Development	**Contact Name & No.:** Brenda Horstman (573) 751-3713	**Date:** January 2021
Program Category: Business Recruitment	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: 135.750, RSMo	**Applicable Taxes:** Income tax, Bank tax, Insurance Premium tax, Other financial institutions tax	

Date of Origin: 1997

Program Description and Eligibility Requirements:
Provides a tax credit for in-state expenditures for film production projects. Prior to CY 2008, the film had to have an expected in-state expenditure budget in excess of $300,000 to be eligible. After January 1, 2008, films under 30 minutes in length must have an in-state budget in excess of $50,000; films over 30 minutes in length must have an in-state budget in excess of $100,000.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

For years prior to 2008, the tax credit is equal to 50% of the investment in production or production related activities, but may not exceed $1,000,000 per taxpayer, or $1,500,000 for all taxpayers. Starting in 2008, the tax credit is up to 35% of qualified expenditures, but may not exceed $4.5 million annually for all projects.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $4.5 million_____ None

Explanation of cap:
The annual cap is allocated each calendar year to film projects based on pre-applications submitted to DED. Effective January 1, 2008 the annual cap increased from $1,500,000 to $4,500,000.

Explanation of Expiration of Authority: This program sunset in 2013.

Department: Economic Development | **Contact Name & No.:** Brenda Horstman (573) 751-3713 | **Date:** January 2021

Program Category: Business Recruitment | **Type: Tax Credit__X__ Other (specify)____**

Statutory Authority: 32.100 to 32.125, RSMo | **Applicable Taxes:** Income tax, Corporate franchise tax, Bank tax, Insurance premium tax, Other financial institutions tax, Express company tax

Date of Origin: 1989

Program Description and Eligibility Requirements:
Donations must be made to a non-profit corporation; specified number of jobs must be created within 2 years and maintained for 5 years; application must have the local agency's endorsement; project must be located in a distressed or blighted area; and, the benefiting business must be a for-profit business.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

The tax credit is equal to 50% of a contribution made to a non-profit corporation. The non-profit uses the contributed funds to purchase assets that would be leased to an approved business.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $6 million_____ None

Explanation of cap: Credits may not exceed $4 million for any one fiscal year, except that for fiscal years 2005, 2006 and 2007 credits shall not exceed $6 million per fiscal year. SB 1155 (2004). Effective August 28, 2008, the cap is $6 million.

Explanation of Expiration of Authority: No new projects may be proposed after August 27, 2013.

Specific Provisions: (if applicable)
Carry forward 5 years | Carry Back n/a | Refundable No | Sellable/Assignable Yes | Additional Federal Deductions Available No

TAX CREDIT ANALYSIS

Program Name: Rebuilding Communities

Department: Economic Development	**Contact Name & No.:** Brenda Horstman (573) 751-3713	**Date:** January 2021
Program Category: Business Recruitment	**Type: Tax Credit** X **Other (specify)** ____	
Statutory Authority: 135.535, RSMo	**Applicable Taxes:** Income tax, Corporate franchise tax, Bank tax, Insurance premium tax, Other financial institutions tax	

Date of Origin: 1997

Program Description and Eligibility Requirements:
Provides a tax credit for eligible businesses locating, relocating or expanding within a distressed community. A business must have fewer than 100 full-time employees, 75% of which must be located in the distressed community, and be primarily engaged in manufacturing, biomedical, medical devices, scientific research, animal research, computer software design or development, computer programming, including Internet, web hosting, and other information technology, wireless or wired or other telecommunications or a professional firm.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The tax credit is equal to either 40% or 25% of eligible equipment purchases, depending on whether the business is new or existing, or 40% of state income taxes due. A 1.5% employee tax credit is also available to businesses who receive one of the 40% credits and is based on an employee's gross salary. The 40% income tax credit is limited to $125,000 per year for three years. The 40% and 25% equipment credits are limited to $75,000 per year for four years.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $ 8 million None

Explanation of cap: Total credits issued under this program may not exceed $8 million per year. The 25% equipment credits are further limited to $750,000 per year.
(Note that 620.1881, RSMo - the Missouri Quality Jobs Act - reduced the cap from $10 million to $8 million).

Explanation of Expiration of Authority:

Specific Provisions: (if applicable)
Carry forward: 5 years | Carry Back: 3 years | Refundable: No | Sellable/Assignable: Yes | Additional Federal Deductions Available: No

Comments on Specific Provisions: The 1.5% employee credits are sellable/assignable only.

TAX CREDIT ANALYSIS

Program Name: Amateur Sporting Contribution Tax Credit - Contribution

Department: Economic Development | **Contact Name & No.:** Mark Pauley (573) 522-8006 | **Date:** January 2021

Program Category: Business Recruitment | **Type: Tax Credit** X **Other (specify)**

Statutory Authority: Section 67.3005, RSMo | **Applicable Taxes:** Income Tax; Bank Tax; Insurance Premium Tax; Other financial institutions tax

Date of Origin: 2013

Program Description and Eligibility Requirements:

This program provides a tax credit to taxpayers making eligible donations to "certified sponsors" and "local organizing committees". Certified sponsors and local organizing committees must provide the State with payment equal to 50% of the eligible donation. Once the Department has processed the payment, the Department will then issue tax credits equal to the amount of the payment to the State.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Taxpayers can receive tax credits equal to 50% of an eligible donation to an eligible applicant.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $10 million None_____

Explanation of cap:
No more than $10 million dollars in tax credits can be issued in a given fiscal year.

Explanation of Expiration of Authority: The Amateur Sporting Tax Credit sunsets August 28, 2025.

Specific Provisions: (if applicable)

TAX CREDIT ANALYSIS

Program Name: Innovation Campus Tax Credit Program

Department: Economic Development | **Contact Name & No.:** Brenda Horstman (573) 751-3713 | **Date:** January 2021

Program Category: Community Development | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: Section 620.2600, RSMo | **Applicable Taxes:**

Date of Origin: 2014

Program Description and Eligibility Requirements:

Provide assistance to educational partnerships to advance learning in the areas of science, technology, engineering, and mathematics, while reducing the time and cost required for Missouri students to obtain a college degree in those fields of study. A 50% tax credit will be issued to an eligible taxpayer who makes a qualified contribution to an eligible Innovation Campus Program.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

A tax credit equal to 50% of the value of contributions will be issued to eligible donors and may be used to offset a contributor's income tax liability. The credit is claimed when the donor files their Missouri tax return. The approved Innovation Campus partnership receives 50% of the eligible contribution and forwards 50% of the contribution to the state general revenue fund.

Statutory Authority: Section 135.010-Section135.035, RSMo	**Applicable Taxes: Section 135.010**	
Date of Origin: 10/1/1973		

Program Description and Eligibility Requirements:
Sections 135.010-135.135.035, RSMo, allow certain senior citizens who have lived in Missouri the entire year and are 65 years of age or older, or is a veteran of any branch of the Armed Forces who became 100 percent disabled as a result of such service, or is 100 percent disabled, or has reached the age of 60 on or before the last day of the calendar year and is receiving surviving spouse Social Security benefits during the calendar year and meet the income levels to file a claim for a refund of a portion of their property taxes or rent paid on property subject to property tax. The maximum total household income upper limit for renters or whose home is not owned the entire year is $27,500 for single individuals or married couples filing a separate return and $29,500 for married couples filing a combined return if they own their home the entire year. The maximum income is $30,000 for singe individuals or married couples filing separately and $34,000 for married couples filing a combined return. The minimum base for tax year is 2008 is $14,300.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Sections 135.010-135.035, RSMo, allow certain senior citizens who have lived in Missouri the entire year and are 65 years of age or older, or is a veteran of any branch of the Armed Forces who became 100 percent disabled as a result of such service; or is 100 percent disabled, or has reached the age of 60 on or before the last day of the calendar year and is receiving surviving spouse Social Security benefits during the calendar year and meet the income levels to file a claim for a refund of a portion of their property taxes or rent paid on property subject to property tax. If the income on a return is equal to or less than the maximum upper limit for the calendar year for which the return is filed, the property tax credit shall be determined from a table of credits based upon the amount by which the total property tax described in Section 135.025, RSMo, exceeds the percent of income. The property tax shall be in increments of $25 and the income in increments of $300. The credit shall be the amount rounded to the nearest whole dollar computed on the basis of the property tax and income at the midpoints of each increment.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None ___X____

Explanation of cap: Section 135.030 RSMo, sets the cap at $750 per claim for rent paid and $1,100 for property taxes paid.

TAX CREDIT ANALYSIS

Program Name: Missouri Life and Health Insurance Guaranty Association Credit

Department: Commerce and Insurance | **Contact Name & No.:** Grady Martin 573-751-7223 | **Date:** 1/29/2021

Program Category: Domestic and Social | **Type: Tax Credit**__X__ **Other (specify)**____

Statutory Authority: Chapter 376.745 RSMo | **Applicable Taxes:** Missouri Insurance Premium Tax

Date of Origin: 8/28/1988

Program Description and Eligibility Requirements:
The Missouri Life and Health Insurance Guaranty Association is created in state statute and all insurers issuing life and health insurance in the state are members. The association pays Missouri policyholders for claims against insolvent L&H companies. The association then assesses all members in the state to pay claims of the insolvent insurer. Members are allowed to take these assessments as an offset against premium tax collected by the state.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Credits are taken over a five-year period with 20% being taken each year beginning the year after the assessment. No carry forward. Credits are taken against General Revenue, County Foreign and County Stock Funds.

Derivation of Benefits:

Other Benefits:
The business of insurance is primarily regulated by the states. Consequently, no federal mechanism exists to guaranty the payment of claims under insurance policies in the event an insurance company becomes insolvent. Instead, the states have taken on this role. Every state in the U.S. has enacted laws creating a life and health insurance guaranty association. In the event that a licensed insurance company becomes insolvent and cannot pay its claims, the various state guaranty associations step in and provide coverage for policy or claim up to prescribed limits. In Missouri, life and health policies are guaranteed between $100,000 and $500,000 depending on the type of coverage.

To get the money to pay claims for an insolvent company, the various guaranty associations are authorized by law to levy assessments against all of the other life and health insurance companies in the state. The insurance companies in Missouri are then allowed a tax credit against their premium tax liability for the amount of the assessment.

2020 Assessment Information

There are no current or future assessments at this time.

2019 Assessment Information

The Board of Directors of the Missouri Life & Health Insurance Guaranty Association determined at the May 30, 2019 Annual Meeting that a Class B assessment of $27,000,000 will be needed for the life account for Lincoln Memorial Life Insurance Company for 2019.

2018 Assessment Information

The Board of Directors of the Missouri Life & Health Insurance Guaranty Association determined at the May 24, 2018 Annual Meeting that a Class B assessment of $20,000,000 will be needed for the life account for Lincoln Memorial Life Insurance Company for 2018.

2017 Assessment Information:

The Board of Directors of the Missouri Life & Health Insurance Guaranty Association determined at the August 17, 2017 Special Meeting that a Class B assessment of $17,500,000 will be needed for the life account for Lincoln Memorial Life Insurance Company for 2017. The Board of Directors of the Missouri Life & Health Insurance Guaranty Association determined at the May 18, 2017 Annual Meeting that a Class B assessment of $18,468,913 will be needed for the health account for 2017.

Addtitional details on assessments: http://mo-iga.org/

Historical Background:

In 2008, Lincoln Memorial, along with affiliates Memorial Serivce Life Insurance Company and National Prearranged Services ("NPS") was placed in liquidation by the state of Texas. NPS was a Missouri domestic corporation and was formerly one of the largest sellers of preneed funeral contracts in the state of Missouri and nationally. Generally, under a preneed contract, the funeral director or preneed seller agrees to provide funeral services at a fixed or guaranteed price when the contract beneficiary passes away. Ideally, this may result in some savings to the purchaser who may be able to "lock-in" current prices even though the death may not occur for some significant time. Once the services are provided, the funeral director/provider is then reimbursed by the preneed seller for the funeral expenses. Historically, this reimbursement has included all or a portion of the interest that may have been earned on the contract. Under Missouri law, NPS was required to place 80% of all funds paid by consumers into a trust account with a financial institution. Frequently, these funds are used to purchase insurance coverage to guaranty payment of the funeral costs. According to information gathered by state regulators, NPS' trust funds were depleted because of improper policy loans, insurance investments and potentially the misappropriation of funds by company representatives/shareholders. To the extent insurance coverage on a particular NPS contract was in place, the various state insurance guaranty funds have agreed to cover the contract's obligations and the potential financial hardship to NPS contract holders will be minimized.

TAX CREDIT ANALYSIS

Program Name: Self Employed Health Insurance Tax Credit

Department: Revenue	**Contact Name & No.: Josh Shewmaker (526-2723)**	**Date: January, 2020**
Program Category: Financial and Institution	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: Section 143.119, RSMo	**Applicable Taxes: Chapter 143, excluding Sections 143.191 to 143.265. RSMo**	
Date of Origin: January 1, 2007		

Program Description and Eligibility Requirements:

A self-employed taxpayer, as such term is used in the federal Internal Revenue Code (IRC) who is ineligible for the federal income tax health insurance deduction under Section 162 of the federal IRC shall be entitled to a credit against the tax otherwise due under this chapter, excluding withholding tax imposed by Sections 143.191 to 143.265, in an amount equal to the portion of such taxpayer's federal tax liability incurred due to such taxpayer's inclusion of such payments in federal adjusted gross income.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

A self-employed taxpayer may claim a credit in an amount equal to the portion of the taxpayer's federal tax liability due to the taxpayers inclusion of the federal income tax health insurance payment in their federal adjusted gross income.

TAX CREDIT ANALYSIS

Program Name: Maternity Home		
Department: Social Services	Contact Name & No.: Patrick Luebbering (573) 751-7533	Date: January, 2021
Program Category: Domestic and Social	Type: Tax Credit__X__ Other (specify)____	
Statutory Authority: 135.600 RSMo	Applicable Taxes: Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance	

Date of Origin: Aug. 28, 1997

Program Description and Eligibility Requirements:
The Maternity Homes tax credit program provides a tax credit against a taxpayer's state tax liability equal to fifty percent of contributions to Maternity Homes. Those eligible for the tax credit include a person, firm, partner in a firm, etc., doing business in Missouri or a charitable firm who contributes to a maternity home. The amount of tax credit issued may be equivalent to up to fifty percent of the contribution to the agency. Credits shall not be less than fifty dollars and cannot exceed fifty thousand dollars to an individual taxpayer in a fiscal year.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No
A taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability, in an amount equal to fifty percent (50%) of the amount such taxpayer contributed to a maternity home. The taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution to the centers is at least one hundred dollars ($100) in value. The amount of the tax credit claimed must not be in excess of the taxpayer's state tax liability for the tax year that the credit is claimed and shall not exceed fifty thousand ($50,000) dollars per tax year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $3,500,000 None ___X____

Explanation of Cap: Annually, $3,500,000 is allocated to those qualifying maternity homes that have submitted an application and supporting documentation to the Department of Social Services. Allotments may be revised during the year at the Department's discretion in an effort to fully utilize the maximum tax credit possible. In FY 2020, the cap increased to $3,500,000 from $2,500,000.

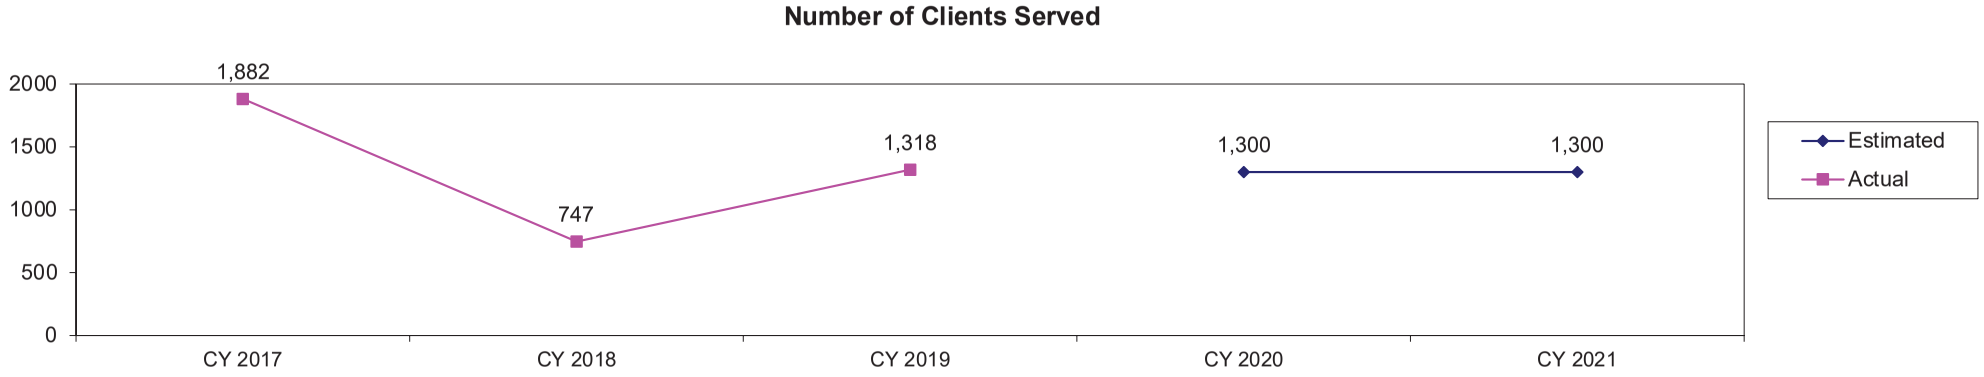
Derivation of Benefits: Indirect fiscal benefits are the total amount of donations received by qualifying agencies that contributed toward the cost of assisting their clients who may have, otherwise, accessed state assistance. (Credits issued reflect 50% of total donations received).

Direct costs are the amount of credits that redeemed in FY 20($2,263,523) plus the cost for salary and fringe to administer the tax credit ($11,845).

Other Benefits:

PERFORMANCE MEASURE(S)



omments on Performance Measure: Calculated for calendar year (January - December). Calendar year 2020 actual will be available June, 2021. One provider changed the way clients served is counted CY 2018, focusing on only women in the facility for maternity care, which reduced the total number of clients served.

TAX CREDIT ANALYSIS

Program Name: Pregnancy Resource Center

Department: Social Services	Contact Name & No.: Patrick Luebbering (573) 751-7533	Date: January, 2021
Program Category: Domestic and Social	Type: Tax Credit__X__ Other (specify)____	
Statutory Authority: 135.630 RSMo	Applicable Taxes: Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance	

Date of Origin: Aug. 28, 2006

Program Description and Eligibility Requirements:
A qualified pregnancy resource center may apply for tax credits on behalf of taxpayers who make contributions to the agency. The amount of tax credit issued may be equivalent to up to fifty percent of the contribution to the agency. Credits shall not be less than fifty dollars ($50) and can not exceed fifty thousand dollars ($50,000) to an individual taxpayer in a fiscal year.

Pregnancy resource centers must submit an application to the Department to be certified to received donations eligible for the Pregnancy Resource Center Tax Credit. An agency must be a non-residential facility located in this state which is exempt from income taxation under the United States Internal Revenue Code and is established for the purpose of providing assistance to women with unplanned or crisis pregnancies, or similar services to encourage and assist women in carrying their pregnancies to term. These facilities do not perform childbirths nor do they perform, induce or refer for abortion. All services are provided in accordance with Missouri statute at no cost to clients.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The Pregnancy Resource Center Tax Credit program became effective January 1, 2007. A taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability, in an amount equal to fifty percent (50%) of the amount such taxpayer contributed to a pregnancy resource center. The taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution to the centers is at least one hundred dollars ($100) in value. The amount of the tax credit claimed must not be in excess of the taxpayer's state tax liability for the taxable year that the credit is claimed and shall not exceed fifty thousand ($50,000) dollars per taxable year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $3,500,000 None ___X____

Explanation of cap: In FY 2020, the annual allocation increased from $2.5 million to $3.5 million for those qualifying pregnancy resource centers that have submitted an application and supporting documentation to the Department of Social Services. Allotments may be revised during the year at the Department's discretion in an effort to fully utilize the maximum tax credit possible.

Explanation of Expiration of Authority: In the 2019 legislative session, the sunset was removed from the Pregnancy Resource Center tax credit (HB 126).

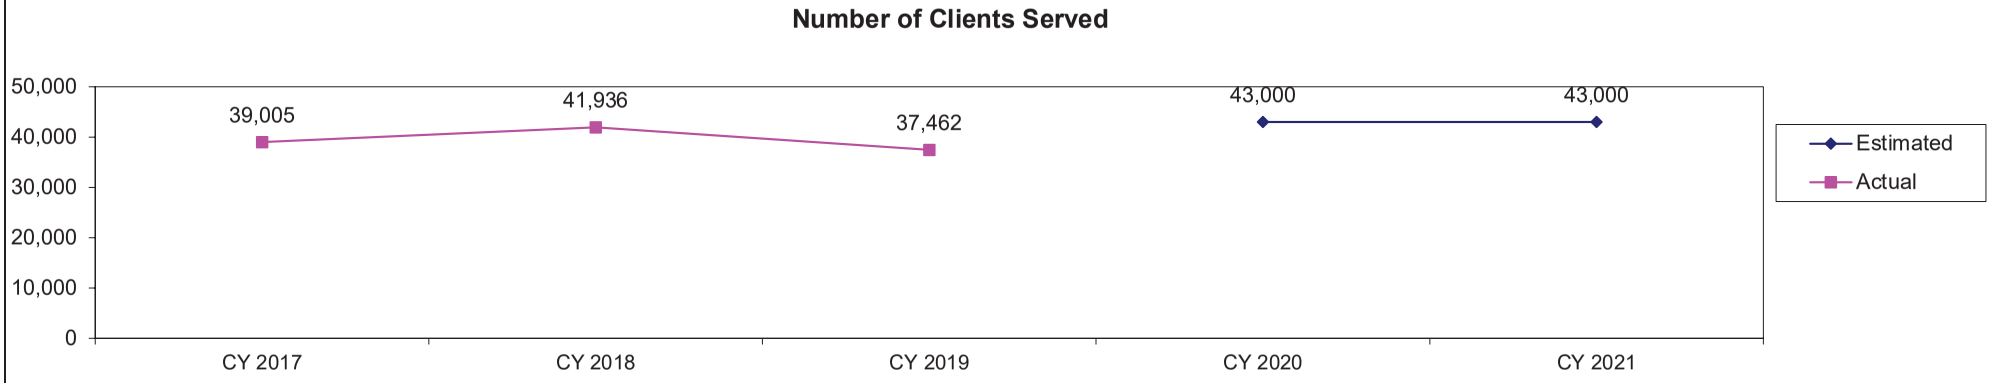
(Credits issued reflect 50% of total donations received).

Direct costs are the amount of credits that were redeemed in FY 20 ($2,381,621) plus the cost for salary and fringe to administer the tax credit ($18,952).

Other Benefits:

PERFORMANCE MEASURE(S)



Comments on Performance Measure: Clients served are reported on a calendar year. CY 2020 will be available June, 2021.

TAX CREDIT ANALYSIS

Program Name: Shelter for Victims of Domestic Violence

Department: Social Services	Contact Name & No.: Patrick Luebbering (573) 751-7533	Date: January, 2021
Program Category: Domestic and Social	Type: Tax Credit__X__ Other (specify)____	
Statutory Authority: 135.550 RSMo	Applicable Taxes: Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance	
Date of Origin: August 28,1997		

Program Description and Eligibility Requirements:
Allows a tax credit for taxpayers to apply to their state liability taxes in an amount not to exceed fifty percent of a contribution made to a qualifying domestic violence shelter. Contributions can include cash, stocks, bonds or other marketable securities, or real property, with a value of one hundred dollars ($100) or more.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No
Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible contribution to a qualified domestic violence shelter. Contributions must have a value of at least $100 ($50 tax credit) and can not exceed $100,000 ($50,000 tax credit) per taxpayer during any fiscal year. Eligible tax credits can not exceed the taxpayers state income tax liability for the year the credit is claimed.

Annually, shelters must submit an application to be classified as a qualifying agency to receive donations eligible for the Domestic Violence Shelter Tax Credit. At least quarterly a review is conducted to determine the cumulative amount of approved tax credits. If a domestic violence shelter fails to use all, or some percentage of its apportioned tax credits during a predetermined period of time, the unused tax credits may be reapportioned to those domestic violence shelters that have used all, or most of their apportionment. Reapportionment may occur more than once during a fiscal year, to the maximum extent possible, to ensure that taxpayers can claim all the tax credits possible up to the cumulative amount of tax credits available for the fiscal year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $2,000,000 None ___X____

Explanation of cap: Annually the $2 million is allocated to those qualifying domestic violence shelters that have submitted an application and supporting documentation to the Department of Social Services. Allotments may be revised during the year at the Department's discretion in an effort to fully utilize the maximum tax credit possible.

Explanation of Expiration of Authority: There was no sunset established for this program when it was created in 1997.

TAX CREDIT ANALYSIS

Program Name: Food Pantry Credit

Department: Revenue	**Contact Name & No.: Josh Shewmaker (526-2723)**	**Date: January, 2020**
Program Category: Domestic and Social	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: Section 135.647, RSMo	**Applicable Taxes: Chapter 143, excluding Sections 143.191-143.265, RSMo**	
Date of Origin: August 28, 2007		

Program Description and Eligibility Requirements:

For all tax years beginning March 29, 2013, any taxpayer who donates cash or food, unless such food is donated after the food's expiration date, to any local food pantry, local homeless shelter, or local soup kitchen shall be allowed a credit against the tax otherwise due under Chapter 143, excluding withholding tax imposed by Sections 143.191 to 143.265, in an amount equal to fifty percent of the value of the donations made not to exceed $2,500 per taxpayer per year. The amounts that have been subtracted from the taxpayer's federal adjusted gross income within the federal itemized deduction shall be added back onto such taxpayer's Missouri return to determine the taxpayer's Missouri adjusted gross income.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Any taxpayer who donates cash or food to any local food pantry, local homeless shelter, or local soup kitchen shall be allowed a credit against the tax due under Chapter 143, RSMo, excluding withholding tax, in an amount equal to 50 percent of the value of the donations madefoshall be valued at fair market value or wholesale if the taxpayer making the donation is a retail grocery store, food broker, wholesaler, or restaurant and shall be verified on an affidavit completed by the food pantry, local homeless shelter, or Local soup kitchen receiving the donation. The amount of credit claimed shall not exceed the amount of the taxpayer's state tax liability for the year the credit is claimed and shall not exceed $2,500 per taxpayer. The Director of Revenue shall establish procedures where the credit is apportioned among all taxpayers claiming the credit by April 15th

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $1,750,000 None ___X____

Explanation of cap: The cumulative amount of tax credits allocated to all taxpayers in any one fiscal year shall not exceed $1,750,000. The Director of Revenue shall establish procedures where the credit is apportioned among all taxpayers claiming the credit by April 15th if the cap is reached.

Explanation of Expiration of Authority: Pursuant to Section 23.253, RSMo, of the Missouri Sunset Act, the food pantry tax credit shall sunset December 31, 2026 with a termination date of September 1, 2027.

TAX CREDIT ANALYSIS

Program Name: Residential Treatment Agency

Department: Social Services	Contact Name & No.: Patrick Luebbering (573) 751-7533	Date:January, 2021
Program Category: Domestic and Social	Type: Tax Credit__X__ Other (specify)____	
Statutory Authority: 135.1150 RSMo	Applicable Taxes: Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance	

Date of Origin: Aug 28, 2006

Program Description and Eligibility Requirements:
A qualified residential treatment agency may apply for tax credits on behalf of taxpayers who make eligible donations to the agency. The amount of total credits available to any qualified residential treatment agency can not exceed the total funds received from the Department of Social Services (DSS) in the preceding twelve months. Those who donate to qualifying providers are eligible to receive a tax credit up to fifty percent of their donation. Qualified residential treatment agencies that accept these donations are required to remit payment equivalent to the amount of the tax credit to the Department of Social Services.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Residential Treatment is a contributory program. Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible donation to a qualified residential treatment agency. The residential treatment agency accepting the qualified donation must remit payment to the DSS equivalent to fifty percent of the donation received (the amount of the tax credit to be issued). Since January 1, 2007, any taxpayer is allowed to claim a credit against their state tax liability equivalent to fifty percent (50%) of the eligible donation the taxpayer made to a qualified residential treatment agency. The amount of the tax credit claimed may not exceed the amount of the taxpayer's state tax liability in the tax year that the credit is being claimed. Any tax credit that cannot be claimed in the taxable year during which the contribution is made will not be refunded, but is allowed to be carried forward and used against the taxpayer's state tax liability for four (4) subsequent years. The tax credit issued to taxpayer(s) may be applied to state liability taxes in the amount not to exceed fifty percent of an eligible donation made to a qualifying residential treatment agency. Qualifying residential treatment agencies must have a current contract with the Children's Division. Total credits issued can not exceed the total payments made by DSS to the Residential Treatment Agency during the twelve months preceding the month the application was received by DSS.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None ___X____

Explanation of cap: Qualifying residential treatment agencies must submit payment equivalent to the amount of tax credit issued. As a result, no cap is applied to this tax credit.

Explanation of Expiration of Authority: Senate Bill 463 (2015) removed the sunset.

Program Name: Special Needs Adoption

Department: Revenue	**Contact Name & No.: Josh Shewmaker (526-2723)**	**Date: January, 2020**
Program Category: Domestic and Social	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: Sections 135.325-135.339, RSMo	**Applicable Taxes: Chapter 143**	
Date of Origin: January 1, 2000		

Program Description and Eligibility Requirements:

Any person residing in Missouri who proceeds in good faith with the adoption of a special needs child on or after January 1, 2000, shall be eligible to receive a tax credit up to $10,000 for nonrecurring adoption expenses for each child. Beginning March 20, 2013, the tax credits shall only be allocated for the adoption of special needs children who are residents or wards of this state at the time the adoption is initiated.

Any business entity providing funds to an employee to enable that employee to proceed in good faith with the adoption of a special needs child shall be eligible to receive a tax credit up to $10,000 for nonrecurring adoption expenses for each child, except that only one $10,000 credit is available for each special needs child adopted.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Individuals and businesses may claim a tax credit for the total nonrecurring adoption expenses in each fiscal year that expenses are incurred. A claim for 50 percent of the credit is allowed when the child is placed in the home. A claim for the remaining 50 percent is allowed when the adoption is final. The total of the credits shall not exceed $10,000 per child. Applications to claim the adoption credit for special needs children who are residents or wards of Missouri at the time the adoption is initiated must be filed between July 1 and April 15 of each fiscal year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $2,000,000 None ___X____

Explanation of cap: The cumulative of tax credits that may be claimed by taxpayers shall not be more than $2 million but may be increased by appropriation.

Explanation of Expiration of Authority: Sections 135.325-135.339, RSMo, do not enact the provisions of the Missouri Sunset Act.

Department: Social Services	Contact Name & No.: Patrick Luebbering (573) 751-7533	Date: January, 2021
Program Category: Domestic and Social	Type: Tax Credit__X__ Other (specify)____	
Statutory Authority: 135.1180 RSMo	Applicable Taxes: Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance	

Date of Origin: Aug. 28, 2012

Program Description and Eligibility Requirements:
A qualified developmental disability care provider may apply for tax credits on behalf of taxpayers who make eligible donations to the provider. Those who donate to qualifying providers are eligible to receive a tax credit up to fifty percent of their donation. Qualified developmental disability care providers that accept these donations are required to remit payment equivalent to the amount of the tax credit to the Department of Social Services. The program was authorized in HB 1172 (2012) and went into effect August 28, 2012.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No
Developmental Disability Care Provider is a contributory program. Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible donation to a qualified developmental disability care provider. The developmental disability care provider accepting the qualified donation must remit payment to the DSS equivalent to fifty percent of the donation received (the amount of the tax credit to be issued). The amount of the tax credit claimed may not exceed the amount of the taxpayer's state tax liability in the tax year that the credit is being claimed. Any tax credit that cannot be claimed in the taxable year during which the contribution is made will not be refunded but allowed to be carried forward and used against the taxpayer's state tax liability for four (4) subsequent years. The tax credit issued to taxpayer(s) may be applied to state liability taxes in the amount not to exceed fifty percent of an eligible donation made to a qualifying developmental disability care provider. Qualifying developmental disability care providers must have a current contract with the Children's Division or the Department of Mental Health, or be accredited by the Council on Accreditation, the Joint Commission on Accreditation of Healthcare Organizations, or the Commission on Accreditation of Rehabilitation Facilities.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None ___X____
Explanation of cap: Qualifying developmental disability care providers must submit payment equivalent to the amount of tax credit issued. As a result, no cap is applied to this tax credit.

Total	$78,205	$0
COSTS		
Direct Fiscal Costs	N/A	
Indirect Fiscal Costs	$53,453	
Total	$53,453	$0
BENEFIT: COST	**1.46**	**#DIV/0!**

Derivation of Benefits: Direct benefits are contributions to the Developmental Disability Care Providers under this program that are used solely to provide direct care services to people with developmental disabilities who are residents of this state. (Credits issued reflect 50% of total donations received)

Direct costs are the amount redeemed in FY 19 ($52,505) plus the cost for salary and fringe to administer the tax credit ($948).

Other Benefits: Allows agencies to generate donations to be used toward the care of people with developmental disabilities without causing a burden on the state. Even though the state has a reduction in revenue when these tax credits are redeemed, the payment of half of the donation amount received by the provider offsets this cost.

PERFORMANCE MEASURE(S)

TAX CREDIT ANALYSIS

Program Name: Diaper Bank

Department: Social Services	Contact Name & No.: Patrick Luebbering (573) 751-7533	Date: January, 2021
Program Category: Domestic and Social	Type: Tax Credit__X__ Other (specify)____	
Statutory Authority: 135.621 RSMo	Applicable Taxes: Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance	

Date of Origin: Aug. 28, 2018

Program Description and Eligibility Requirements:
Allows a tax credit for taxpayers to apply to their state liability taxes in an amount not to exceed fifty percent of a contribution made to a qualifying diaper bank. Contributions can include cash, stocks, bonds or other marketable securities, or real property, with a value of one hundred dollars ($100) or more.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible contribution to a qualified diaper bank. Contributions must have a value of at least $100 ($50 tax credit) and can not exceed $100,000 ($50,000 tax credit) per taxpayer during any fiscal year. Eligible tax credits can not exceed the taxpayers state income tax liability for the year the credit is claimed.

Annually, diaper banks must submit an application to be classified as a qualifying agency to receive donations eligible for the Diaper Bank Tax Credit. At least quarterly a review is conducted to determine the cumulative amount of approved tax credits. If a diaper bank fails to use all, or some percentage of its apportioned tax credits during a predetermined period of time, the unused tax credits may be reapportioned to those diaper banks that have used all, or most of their apportionment. Reapportionment may occur more than once during a fiscal year, to the maximum extent possible, to ensure that taxpayers can claim all the tax credits possible up to the cumulative amount of tax credits available for the fiscal year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual 500,000 None ___X____

Explanation of cap: Annually the $500,000 is allocated to those qualifying diaper banks that have submitted an application and supporting documentation to the Department of Social Services. Allotments may be revised during the year at the Department's discretion in an effort to fully utilize the maximum tax credit possible.

Explanation of Expiration of Authority: This program is set to sunset December 31, 2024.

TAX CREDIT ANALYSIS

TAX CREDIT ANALYSIS, FY 2022 BUDGET SUBMISSION

Program Name: Shared Tax Credit

Department: Health and Senior Services | **Contact Name & No.:** Tim Jackson (573) 472-6696 | **Date:** January 2021

Program Category: Domestic and Social | **Type: Tax Credit** __X__ **Other (specify)**____

Statutory Authority: Sections 192.2005, 192.2010, and 192.2015 | **Applicable Taxes:** Individual Income

Date of Origin: January 1, 2000

Program Description and Eligibility Requirements:

Shared Care is a program in which eligible families who provide care to an elderly family member in their home may request a tax credit. Caregivers who meet requirements within the program are eligible for a Shared Care tax credit in an amount not to exceed $500 to defray the cost of caring for an elderly person. In order to be eligible for a Shared Care tax credit, a registered caregiver shall:
(1) Care for an elderly person age 60 or older who is physically or mentally incapable of living alone, who requires assistance to avoid placement in a long-term care facility, is not able or allowed to operate a motor vehicle, and does not receive funding or services through Medicaid or Social Service Block Grant funding;
(2) Live in the same residence as the elderly person to give protective oversight for an aggregate of more than six months per tax year;
(3) Not receive monetary compensation for providing care; and
(4) File necessary Shared Care tax credit forms with the caregiver's Missouri individual income tax return.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Each qualifying caregiver is limited to no more than $500 of the tax credit amount of their tax liability.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None ___X____

Explanation of cap:
Each qualifying caregiver is limited to no more than $500 of the tax credit amount of their tax liability.

Explanation of Expiration of Authority: While there is no program cap, the eligibility requirements for the program self-limit the amount of the tax credits provided. Each qualifying caregiver is limited to no more than $500 of tax credit, or no more than their tax liability, whichever is lower.

Specific Provisions: (if applicable)

Carry forward: n/a | Carry Back: n/a | Refundable: No | Sellable/Assignable: No | Additional Federal Deductions Available: No

Comments on Specific Provisions: Certificates issued equal the number of Shared Care registered caregivers (potential tax credit claimants). The amount authorized is equal to the caregivers multiplied by the maximum per person credit amount of $500. The amount redeemed is the total tax credit claimed.

BENEFITS		
Direct Fiscal Benefits	Not Applicable	Not Applicable
Indirect Fiscal Benefits	$47,811	Not Applicable
Total	$47,811	Not Applicable
COSTS		
Direct Fiscal Costs	$25,958	Not Applicable
Indirect Fiscal Costs	Not Applicable	Not Applicable
Total	$25,958	Not Applicable
BENEFIT: COST	**0.00**	

Derivation of Benefits: Individuals claiming this tax credit are providing care for elderly persons who are not receiving state funded services. Without this private caregiver support, these elderly persons may need services such as personal care, homemaker, and respite care funded in part through Medicaid, Social Service Block Grant, or General Revenue. The indirect fiscal benefits are calculated based on the estimated number of elderly persons claiming the credit who are potentially Medicaid eligible, multiplied by the average cost of care for elderly persons receiving care through DHSS (54 total claimants x 21.49 [percent of persons over age 60 in Missouri] X $4,120 [FY 2020 GR average cost of care] = $47,811).

Direct Costs Footnote: Direct costs include the dollar value of tax credits redeemed ($21,506) as well as the General Revenue cost for personnel ($4,452) who respond to inquiries and register/confirm individuals within the program.($21,506+$4,452 = $25,958).

TAX CREDIT ANALYSIS

Program Name: Disabled Access for Homeowners (Residential Dwelling)

Department: Revenue	**Contact Name & No.: Josh Shewmaker (526-2723)**	**Date: January, 2020**
Program Category: Domestic and Social	**Type: Tax Credit_X___ Other (specify)____**	
Statutory Authority: Section 135.562, RSMo	**Applicable Taxes: Chapter 143, excluding Sections 143.191-143.265 RSMo**	
Date of Origin: January 1, 2008		

Program Description and Eligibility Requirements:
Taxpayers with a federal adjusted gross income of thirty thousand dollars or less who incur costs for qualifying renovations made to their principle dwelling to assist in the accessibility for an individual with a disability who permanently resides with such taxpayer shall receive a tax credit against such taxpayer's Missouri income tax liability in an amount equal to the lesser of one hundred percent of the costs or two thousand five hundred dollars per taxpayer, per year. Taxpayers with a federal adjusted gross income greater than thirty thousand dollars but less than sixty thousand dollars who incur costs for qualifying renovations made to their principle dwelling to assist in the accessibility for an individual with a disability who permanently resides with such taxpayer shall receive a tax credit against such taxpayer's Missouri income tax liability in the amount equal to the lesser of fifty percent of such costs or two thousand five hundred dollars per taxpayer, per year. No taxpayer shall be eligible to receive a credit in any year immediately following a tax year in which such taxpayer received this credit.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

A taxpayer with a federal adjusted income of $30,000 or less shall receive a tax credit against the taxpayer's Missouri income tax liability in an amount equal to the lesser of 100 percent of such costs or $2,500 per taxpayer, per year. A taxpayer with a federal adjusted gross income greater than $30,000 but less than $60,000 shall receive a tax credit against the taxpayer's Missouri income tax liability in an amount equal to the lesser of 50 percent of such costs or $2,500 per taxpayer, per year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $100,000 None _____

Explanation of cap: In no event shall the aggregate amount of all tax credits allowed pursuant to Section 135.562, RSMo, exceed $100,000 in any given fiscal year. The tax credits issued pursuant to this section shall be on a first-come, first-served basis.

Explanation of Expiration of Authority: The sunset and termination dates have been prolonged during the 2019 Regular Session. The provisions of Section 135.562, RSMo shall expire on December 31, 2025 with a termination date of September 1, 2026.

TAX CREDIT ANALYSIS

Program Name: Missouri Health Insurance Pool Assessment Credit

Department: Commerce and Insurance | **Contact Name & No.:** Grady Martin 573-751-7223 | **Date:** 1/29/2021

Program Category: Domestic and Social | **Type: Tax Credit**__X__ **Other (specify)**____

Statutory Authority: Chapter 376.975 RSMo | **Applicable Taxes:** Premium Tax (GR portion) and Sales and Use Tax (HMOs)

Date of Origin: 1/1/1991

Program Description and Eligibility Requirements:
The Missouri Health Insurance Pool served Missouri residents who could not purchase insurance in the regular market. Individuals in the pool paid a premium and the difference between premiums paid and actual costs was assessed to all insurers issuing health insurance in the state. The insurers are allowed a tax credit against their tax liability. Credit may be carried forward until exhausted and is taken against the General Revenue portion of premium tax.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Credit is applied against premium tax due (sales and use tax for HMOs). If credit exceeds tax due, excess is carried forward until exhausted. Credit is taken against General Revenue portion of premium tax only.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None ___X____

TAX CREDIT ANALYSIS

Program Name: Health, Hunger and Hygiene		
Department: Social Services	Contact Name & No.: Patrick Luebbering (573) 751-7533	Date: January, 2021
Program Category: Domestic and Social	Type: Tax Credit__X__ Other (specify)____	
Statutory Authority: 135.1125 RSMo	Applicable Taxes: Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance	

Date of Origin: Aug. 28, 2018

Program Description and Eligibility Requirements:
A qualified health, hunger, and hygiene organization may apply for tax credits on behalf of taxpayers who make eligible donations to the organization. Those who donate to qualifying providers are eligible to receive a tax credit up to fifty percent of their donation. Qualified health, hunger, and hygiene organizations that accept these donations are required to remit payment equivalent to the amount of the tax credit to the Department of Social Services (DSS).

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No
Health, Hunger, and Hygiene is a contributory program. Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible donation to a qualified health, hunger and hygiene organization. The health, hunger, hygiene organization accepting the qualified donation must remit payment to the DSS equivalent to fifty percent of the donation received (the amount of the tax credit to be issued). Since January 1, 2019, any taxpayer is allowed to claim a credit against their state tax liability equivalent to fifty percent (50%) of the eligible donation the taxpayer made to a qualified health, hunger, and hygiene organization. The amount of the tax credit claimed may not exceed the amount of the taxpayer's state tax liability in the tax year that the credit is being claimed. Any tax credit that cannot be claimed in the taxable year during which the contribution is made will not be refunded, but is allowed to be carried forward and used against the taxpayer's state tax liability for four (4) subsequent years. The tax credit issued to taxpayer(s) may be applied to state liability taxes in the amount not to exceed fifty percent of an eligible donation made to a qualifying health, hunger, and hygiene organization.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None ___X____
Explanation of cap: Qualifying health, hunger, and hygiene organizations must submit payment equivalent to the amount of tax credit issued. As a result, no cap is applied to this tax credit.
Explanation of Expiration of Authority: The program is set to sunset August 28, 2024.

Specific Provisions: (if applicable)

Program Category: Domestic and Social		**Type: Tax Credit**__X__ **Other (specify)**____	
Statutory Authority: Chapter 375.774 RSMo		**Applicable Taxes:** Missouri Insurance Premium Tax	

Date of Origin: 1989; newest update effective 8/28/2004

Program Description and Eligibility Requirements:
The Missouri Property and Casualty Insurance Guaranty Association is created in state statute and all insurers issuing property and casualty insurance in the state are members. The association pays Missouri policyholders for claims against insolvent P&C companies. The association then assesses all members in the state to pay claims of the insolvent insurer. Members are allowed to take these assessments as an offset against premium tax collected by the state.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Credits are taken over a three-year period with 33 1/3% being taken each year beginning the year after the assessment. No carry forward. Credits are taken against General Revenue, County Foreign and County Stock Funds.

BENEFIT: COST		

Derivation of Benefits: No assessments CY2007 through CY2020.

Other Benefits:
The business of insurance is primarily regulated by the states. Consequently, no federal mechanism exists to guaranty the payment of claims under insurance policies in the event an insurance company becomes insolvent. Instead, the states have taken on this role. Every state in the U.S. has enacted laws creating a property and casualty insurance guaranty association. In the event that a licensed insurance company becomes insolvent and cannot pay its claims, the various state guaranty associations step in and provide coverage for policy or claim up to prescribed limits. In Missouri, property and casualty policies are guaranteed up to $300,000 for most types of coverage.

To get the money to pay claims for an insolvent company, the various guaranty associations are authorized by law to levy assessments against all of the other property and casualty insurance companies in the state. The insurance companies in Missouri are then allowed a tax credit against their premium tax liability for the amount of the assessment.

TAX CREDIT ANALYSIS

Program Name: Wood Energy

Department: Natural Resources | **Contact Name & No.:** Andy Popp (573) 751-6981 | **Date:** January 2021

Program Category: Environmental | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: 135.300-135.311 | **Applicable Taxes:** Tax credit on taxes otherwise due under Chapter 143 RSMo, except Sections 143.191 to 143.261 (withholding of tax).

Date of Origin: 1985

Program Description and Eligibility Requirements:
A Missouri wood energy producer (any person, firm or corporation that engages in the business of producing processed wood products from Missouri forest industry residue to be used as an energy source) is eligible for a tax credit on taxes otherwise due. Reenacted in 1996 by the 88th General Assembly, the credit applied to all tax periods beginning on or after January 1, 1997 and before June 30, 2013. SB 729 (2014 legislative session) extended this credit through June 30, 2020 with an annual cap of $6 million, subject to appropriations. The credit can only be used against the income tax otherwise due and is not available for use against withholding tax liabilities.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

Credit of $5/ton for wood products from processed wood residue.
Credit of $5/ton for wood used in charcoal production. Wood usage is inferred at 4 tons of wood residue used per ton of wood char produced.

Program Cap: Cumulative $0 (remainder of cumulative cap) $0 Annual $6,000,000 None ____

Explanation of cap: Effective August 28, 2014, there is an annual cap of $6 million, subject to appropriations. $740,000 is appropriated for the redemption of tax credits issued on or after July 1, 2020 in the FY 2021 Department of Natural Resources Budget (Section 6.300).

Explanation of Expiration of Authority: SB 729 (2014 legislative session) states that no new wood energy tax credits shall be authorized after June 30, 2020 (RSMo 135.300-135-311). Statute allows the credit to be claimed (carried forward) up to four additional taxable years. FY 2021 authorized/issued projections reflect applications received prior to the June 30, 2020 sunset.

TAX CREDIT ANALYSIS

Program Name: Alternative Fuel Infrastructure

Department: Natural Resources | **Contact Name & No.:** Andy Popp (573) 751-6981 | **Date:** January 2021

Program Category: Environmental | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: 135.710 | **Applicable Taxes:** Tax credit on taxes otherwise due under Chapter 143 RSMo, except Sections 143.191 to 143.265 (withholding of tax).

Date of Origin: 2008

Program Description and Eligibility Requirements:

SB 931 (2008 legislative session) Section 135.710 RSMo, created a tax credit, for the costs of construction of qualified alternative fuel vehicle refueling properties. SB 729 (2014 legislative session) extended this tax credit starting January 1, 2015 through December 31, 2017, and expanded it to include electric vehicle (EV) charging stations (including private citizen charging stations) and capped the sum total of credits in any year to one million dollars, subject to appropriations. The credit is for the costs directly associated with the purchase and installation of equipment used for storage and dispensing of alternative fuels or any recharging equipment on any qualified property. Any eligible applicant who installs and operates a qualified alternative fuel vehicle refueling property shall be allowed a credit against the tax otherwise due under Chapter 143, RSMo, excluding withholding tax imposed by Section 143.191 to 143.265 RSMo, or due under Chapter 147 RSMo or Chapter 148 RSMo.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

The tax credit shall not exceed the lesser of twenty thousand dollars or twenty percent of the costs directly associated with the purchase and installation of any alternative fuel storage and dispensing equipment on any qualified alternative fuel vehicle property. For a private citizen, the credit shall not exceed $1,500. The total amount of credits that may be claimed may not exceed $1 million in any calendar year, subject to

Program Cap: Cumulative $ 0 (remainder of cumulative cap) $ 0 Annual $ 0 None ___

Explanation of cap: Starting January 1, 2015 the annual cap is $1 million dollars, subject to appropriation. Beginning in FY 2019, no appropriation was made for the redemption of alternative fuel infrastructure tax credits.

Explanation of Expiration of Authority: RSMo 135.710 - The tax credit was authorized for tax years beginning January 1, 2015 and sunset December 31, 2017.

Specific Provisions: (if applicable)

TAX CREDIT ANALYSIS

Program Name: Bank Tax Credit for S Corporation Shareholders

Department: Revenue	**Contact Name & No.: Josh Shewmaker (526-2723)**	**Date: January, 2020**
Program Category: Financial Institution	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: Section 143.471, RSMo	**Applicable Taxes: Section 148 Financial Institutions**	
Date of Origin: January 1, 1999		

Program Description and Eligibility Requirements:

The credit authorized in Section 143.471, RSMo, is given only to shareholders that qualify as S corporation shareholders, if the stock at all times during the taxable period qualifies as S corporation stock as defined in 26 U.S. C. Section 1361, and such stock is held by the stockholder during the taxable period. A pro rata share of the tax credit for the tax payable pursuant to Chapter 148, RSMo, shall be allowed against each corporation shareholder's state income tax, if the bank otherwise complies with Section 148.112, RSMo.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The credit allowed by Section 143.471, RSMo, shall be equal to the bank tax calculated pursuant to Chapter 148, RSMo, based on bank income in 1999 and after, on a bank that makes an election pursuant to 26 U.S.C. Section 1362, and such credit shall be allocated to the qualifying shareholder according to the stock ownership, determined by multiplying a fraction where the numerator is the shareholder's stock and the denominator is the total stock issued by such bank or bank holding company.

TAX CREDIT ANALYSIS

Program Name: Bank Franchise Tax

Department: Revenue	**Contact Name & No.:** Josh Shewmaker (526-2723)	**Date:** January, 2020
Program Category: Financial and Insurance	**Type:** Tax Credit__X__ Other (specify)____	
Statutory Authority: Section 148.064, RSMo	**Applicable Taxes:** Chapter 148 Financial Institutions	
Date of Origin: January 1, 2001		

Program Description and Eligibility Requirements:
A banking institution shall be entitled to an annual tax credit equal to 1/60th of 1 percent of its outstanding shares and surplus employed in this state if the outstanding shares and surplus exceed $1 million, as determined in Section 147.010, RSMo. For all tax years beginning on or after January 1, 2020, no tax credit shall be authorized under this subsection.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

This tax credit is taken as a dollar-for-dollar credit against the bank tax provided for in Section 148.030.2(2), RSMo, if such tax was already reduced to zero by other credits, than against the corporation income tax provided for in Chapter 143, RSMo. Section 148.030.2(2), RSMo, indicates how the tax credit shall be taken: "The amount determined under this subdivisions shall be 7 percent of the taxpayer's net income for the income period, from which product shall be subtracted the sum of the amount determined under subdivision 1 of this subsection and the credits allowable under subsection 3 of this section. However, the amount determined under this subdivision shall not be less than zero."

TAX CREDIT ANALYSIS

Program Name: Missouri Low Income Housing Tax Credit Program

Department: Missouri Housing Development Commission	**Contact Name & No.:** Megan Word (816) 759-6658	**Date:** January 2021
Program Category: Housing	**Type: Tax Credit** X **Other (specify)**____	
Statutory Authority: Sections 135.350-135.363, RSMo	**Applicable Taxes:** Income Tax, Corporate Franchise Tax, Insurance Company Annual Tax on Gross Premium Receipts, Other Financial Institutions Tax, Express Company Annual Tax on Gross Premium Receipts	
Date of Origin: 1990		

Program Description and Eligibility Requirements:

The Missouri Low Income Housing Tax Credit (MOLIHTC) is a ten-year state tax credit available to qualified owners of affordable rental housing. The MOLIHTC generates equity investments from the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. A qualified development is one that (i) rents at least 20% of its units to families earning 50% of the area median family income, (ii) rents at least 40% of its units to families earning 60% of area median family income, each adjusted for family size, or (iii) rents at least 40% of its units to families whose income does not exceed the income limitation designated for the respective unit, where the average of the income-designated units may not exceed 60% AMGI. The development must (a) meet a demonstrated need for affordable rental housing in the community, (b) be economically feasible, (c) leverage tax credits with other financing, and (d) provide affordable rental housing for qualified low-income Missourians for an extended period of time.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

The amount of the MOLIHTC allocated to a given housing development is directly related to the percentage of low-income housing units made available to qualified low-income families and the acquisition, construction or rehabilitation expenditures necessary to create the development, less land and non-depreciable costs. There are two types of MOLIHTCs: 9% and 4%. Developments compete annually for the 9% MOLIHTC. Developments receiving an allocation of tax-exempt bond-financing from the Department of Economic Development may apply to receive the 4% MOLIHTC. The maximum amount of MOLIHTC that can be issued for any development is 100% of the federal LIHTC issued for the development.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual 100% of Federal LIHTC for 9% and $6 million for 4% None _____

Explanation of cap:

The 9% MOLIHTC issued through the competitive application cycle is capped at 100% of the federal LIHTC or approx. $2.76 per capita for 2019. The federal LIHTC allocation is temporarily increased pursuant to the Consolidated Appropriations Act 2018. The increase is in place for FYs 2018, 2019, 2020 and 2021. No more than six million dollars in tax credits shall be authorized each fiscal year for projects financed through tax-

Explanation of Expiration of Authority: The MOLIHTC program does not have a statutory sunset provision.

Specific Provisions: (if applicable)

Carry forward 5 years Carry Back 3 years Refundable No Sellable/Assignable No Additional Federal Deductions Available Yes

Comments on Specific Provisions:

FY 2020 EST. Amount Outstanding	$723,265,771	FY 2020 EST. Amount Authorized but Unissued	$44,678,461

Notes: 1) No MOLIHTCs were Authorized in FYs 2018, 2019 or 2020. 2)The Actual Amount Issued represents the total 10 year stream of MOLIHTC issued in each FY. Each year 1/10th of the total MOLIHTC issued for a low income housing development is eligible to be redeemed. The Department of Revenue is responsible for all redemption data. The EST. Amount Outstanding represents the cumulative amount of MOLIHTC issued, minus the cumulative amount of MOLIHTC redeemed, less expired/withdrawn/ suspended credits; EST Amount Outstanding reflects only those tax credits eligible to be redeemed. 5) The EST. Amount Authorized but Unissued represents developments that have received approval but have not completed construction or have not completed MHDC's process to receive their credits by an issuance of the Eligibility Statement. In order to determine the total maximum liability for MOLIHTC you may add the EST. Amount Outstanding and the EST. Amount Authorized but Unissued. *FY 22 Authorized projections assume 2020 QAP caps on 9% and 4% credits.*

TAX CREDIT ANALYSIS

Program Name: Missouri Low Income Housing Tax Credit Program

HISTORICAL AND PROJECTED INFORMATION

Comments on Historical and Projected Information: 1) Historically, the amount of authorized and issued MOLIHTC has fluctuated based on the number and size of developments receiving an allocation of tax-exempt bond financing from DED and, therefore, receiving 4% MOLIHTCs. Authorized projections assume a 9% MOLIHTC up to 70% of the federal LIHTC allocation and a cap of $3M Authorized anually for the 4% MOLIHTC. Issued projections include current MOLIHTCs that have been Authorized but have not yet completed construction; the majority of credits are issued in years 2 and 3 after Authorization. Redemption projections are based on a 3-year average and cannot precisely account for carry forward and carry back provisions nor the individual credit holder's decision on when to claim a particular credit.

Derivation of Benefits:

Other Benefits:
The MOLIHTC program delivers rental housing that is affordable to low-income families, veterans, special needs tenants, and seniors. It reduces blight and improves communities through new construction and rehabilitation of affordable rental housing in Missouri. The reduced rents brought about by the MOLIHTC program increases households' disposable income and allows low-income families, veterans, special needs tenants, and seniors to meet more of their other basic necessities such as food, clothing, education and health care. The subsidy provided by the MOLIHTC program makes it economically feasible to develop new or rehabilitated affordable rental housing in many very low-income rural communities in Missouri. Finally, the equity raised from the MOLIHTC helps preserve affordable rental housing that is in danger of being lost from existing stock.

MHDC did not Authorize any MOLIHTC in FY 2020.

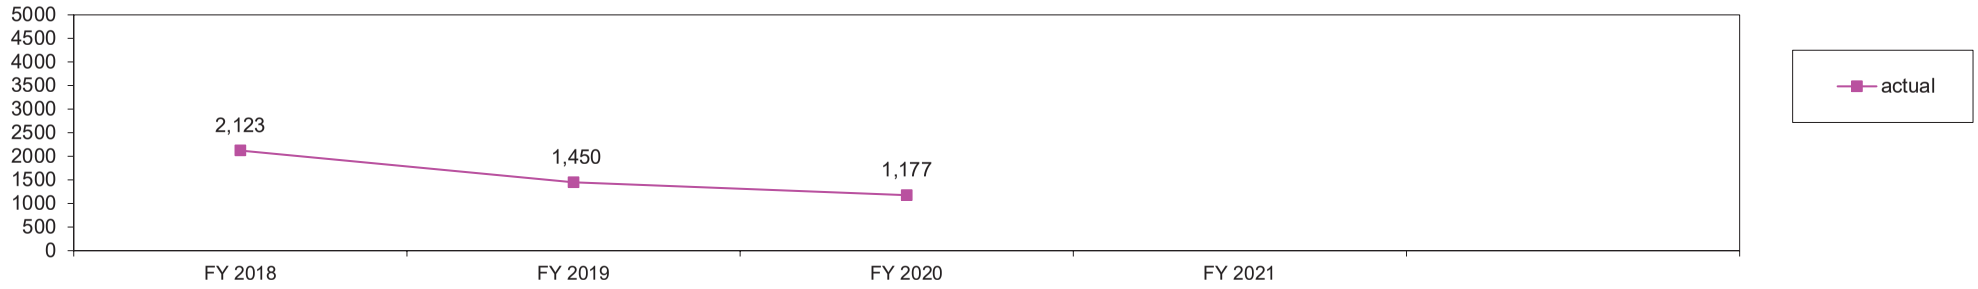
TAX CREDIT ANALYSIS

Program Name: Missouri Low Income Housing Tax Credit Program

PERFORMANCE MEASURE(S)

Permanent New Jobs Created



Comments on Performance Measure:
This performance measure reflects the total number of LIHTC housing units placed in service, or credits issued each year. Total number of units placed in service, or credits issued, each year varies - dependant on the applications received for consideration, the actual number of projects approved, and the type of projects approved (preservation or new construction). Authorized developments typically take 24 months to complete construction and submit cost certification documentation to MHDC; after which they are issued LIHTCs. No LIHTCs are issued by MHDC or eligible to be redeemed by a development owner until a development is completed to MHDC requirements and ready for leasing.

TAX CREDIT ANALYSIS

Program Name: Affordable Housing Assistance Tax Credit Program

Department: Missouri Housing Development Commission | **Contact Name & No.:** Megan Word (816) 759-6658 | **Date:** January 2021

Program Category: Housing | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: Sections 32.105-32.125, RSMo | **Applicable Taxes:** Income Tax, Bank Tax, Financial Institutions Tax, Corporate Franchise Tax, Tax on Gross Receipts of Express Companies, Insurance Premium Tax

Date of Origin: 1990

Program Description and Eligibility Requirements:

The Affordable Housing Assistance Tax Credit Program (AHAP) is an incentive for businesses and qualified individuals in Missouri to participate in the production of affordable housing for low-income families. The credit can be used by a business or qualified individual as a reduction in their state tax obligation. To receive the AHAP credit, a business or qualified individual must donate cash, professional services, or real or personal property to a non-profit organization whose primary purpose is to provide affordable housing for low-income families.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

The amount of Affordable Housing Assistance Program Tax Credit allocated is equal to 55% of the amount of contribution. Non-profit organizations make application to the Missouri Housing Development Commission (MHDC) for a reservation of AHAP credit. The non-profit organization then solicits contributions from businesses or qualified individuals to assist in the production of a specific affordable housing development. After MHDC receives the necessary documentation of a qualified contribution to the non-profit organization that meets all the criteria set out in the statute and program regulations, a tax credit is issued to the donor in the amount of 55% of the value of the contribution. Applications for production credits are accepted continuously, and applications for the operating credit set-aside are accepted twice a year.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $11,000,000 None _____

Explanation of cap:

The cap on the Affordable Housing Assistance Program is set by statute at $11 million annually of which $10 million is for production credits and $1 million is for operating credits. Once MHDC has made reservations totaling $11 million in AHAP credit in a fiscal year, the application cycle is closed.

Explanation of Expiration of Authority: The AHAP program does not have a statutory sunset provision.

TAX CREDIT ANALYSIS

Program Name: Affordable Housing Assistance Tax Credit Program

BENEFIT: COST ANALYSIS (includes only state revenue impacts)

	FY 2020 ACTIVITY	Other Fiscal Period (indicated time period)
BENEFITS		
Direct Fiscal Benefits	$150,952	$287,719
Indirect Fiscal Benefits	$40,682	$77,540
Total	$191,634	$365,259
COSTS		
Direct Fiscal Costs	$1,645,711	$10,484,436
Indirect Fiscal Costs		0
Total	$1,645,711	$10,484,436
BENEFIT: COST	**0.12**	**0.03**

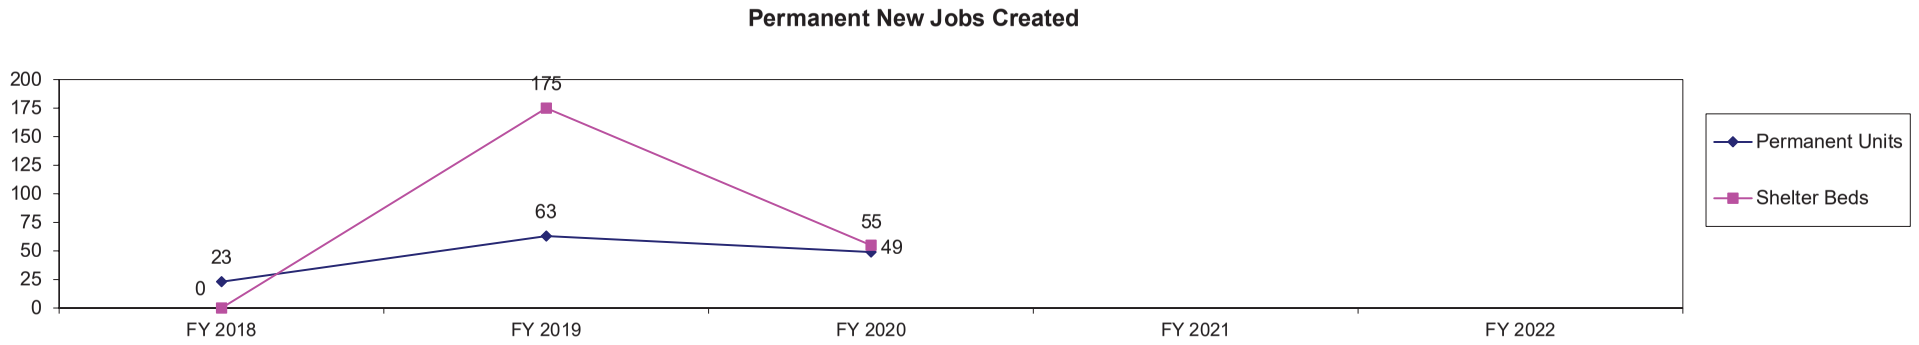
Derivation of Benefits:
Investment: (a) $8,633,590 in Residential Investment spending over years 2020-2021. (b) $1,000,000 in Professional Services operations spending over years 2020-2021.
Employment: (a) N/A
Other Assumptions: (a) N/A
Incentives/Credits: (a) $4,676,726 in tax credits over years 2020-2030 with 97.7 percent total redemption of credits anticipated. Impacts occur Statewide. All Values in Constant Dollars. Assumptions provided by DED. Estimated using REMI.

The Affordable Housing Assistance Program (AHAP) increases the availability of rental housing and for sale housing that is affordable to low-income families. Other benefits include the removal of blight in communities and increased local tax revenues such as property taxes. The AHAP credit increases the capacity of non-profit housing organizations to build or renovate affordable housing for low-income families. The AHAP credit increases the amount of disposable income for low-income families by providing housing that is affordable to them. This improves the overall quality of their lives by providing additional income for other basic necessities such as food, clothing, healthcare and education. Lastly, the operating AHAP credit helps organizations attract donations to support operating funds, without which the agencies may not be able to administer their affordable housing programs.

In FY-2020, every dollar of auth. program tax credits returns :
$1.84 in new personal income totaling $3.02 million
$2.89 in new value-added/GSP totaling $4.76 million
$5.04 in new economic output totaling $8.29 million

Over 12 YEARS, every dollar of auth. program tax credits returns:
$0.47 in new personal income totaling $4.90 million
$0.58 in new value-added/GSP totaling $6.07 million
$1.00 in new economic output totaling $10.48 million

PERFORMANCE MEASURE(S)



Comments on Performance Measure:
The number of housing units produced is based on what is reported to MHDC by the non-profit sponsor of the development. Projects awarded AHAP credits may be awarded additional credits in succeeding years; however, these projects receiving AHAP credits are not counted as "new units". In this circumstance, MHDC places a new LURA on the units, extending the affordability period. **In FY2020, MHDC extended the affordability for 126 units and 215 beds**.

TAX CREDIT ANALYSIS

Program Name: Neighborhood Preservation Tax Credit (NPA)

Department: Economic Development | **Contact Name & No.:** Mark Pauley (573) 522-8006 | **Date:** January 2021

Program Category: Housing | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: Sections 135.475-135.487, RSMo | **Applicable Taxes:** Income Tax; Corporate Franchise Tax; Bank Tax; Insurance Premium Tax; Other financial institutions tax

Date of Origin: 1999

Program Description and Eligibility Requirements:

Provide an incentive for homeowners in certain lower income areas to rehabilitate their home, or incentive for "in-fill" new construction of owner-occupied housing. Geographic eligibility restrictions; age of home restrictions; must be residence intended for owner-occupancy.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Tax Credit of 25% - 35% of eligible renovation costs, or 15% of new construction. This is a calendar year program.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $16 million None _____

Explanation of cap:
$8M for eligible areas; $8M for qualifying areas (as defined by law). Credits are awarded on a first-come first-served basis by utilizing a lottery system.

Explanation of Expiration of Authority:

Specific Provisions: (if applicable)

Carry forward: 5 years | Carry Back: 3 years | Refundable: No | Sellable/Assignable: Yes | Additional Federal Deductions Available: No

Comments on Specific Provisions:

TAX CREDIT ANALYSIS

Program Name: MDFB Infrastructure Development Fund Contribution Tax Credit

Department: Economic Development | **Contact Name & No.:** Ryan Vermette (573) 526-0772 | **Date:** January 2021

Program Category: Redevelopment | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: Section 100.286, RSMo | **Applicable Taxes:** Income Tax, excluding Withholding Tax; Corporate Franchise Tax; Bank Tax; Insurance Premium Tax; Other Financial Institutions Tax

Date of Origin: 1985

Program Description and Eligibility Requirements:
Through this program, the Missouri Development Finance Board is authorized to grant tax credits equal to fifty percent of contributions. Contributions are used to pay the cost of infrastructure construction.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

Tax Credit is 50% of contribution received from taxpayer for specific approved project.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $(See Below) None _____

Explanation of cap:
The Board can authorize a maximum of $10 million in tax credits during any **calendar year**. The statutory limit can be increased an additional $15 million with the consent of the Directors of Department of Economic Development, Department of Revenue, and the Commissioner of Administration. Maximum authorization not to exceed $25 million. During the last three **calendar years** the authorized tax credits were 2018-$10 million, 2019-$10 million, and 2020-$5,752,500.

Explanation of Expiration of Authority: N/A

TAX CREDIT ANALYSIS

Program Name: New Markets Tax Credit (NMTC)

Department: Economic Development | **Contact Name & No.:** Mark Pauley (573) 522-8006 | **Date:** January 2021

Program Category: Redevelopment | **Type: Tax Credit** X **Other (specify)** ____

Statutory Authority: Section 135.680, RSMo | **Applicable Taxes:** Income Tax; Bank Tax; Insurance Premium Tax; Other financial institutions tax; Express Companies Tax

Date of Origin: 2007

Program Description and Eligibility Requirements:

Taxpayers making a qualified equity investment into a qualified community development entity (CDE) earn a vested right to tax credits. The tax credit amount is equal to the applicable percentage of the adjusted purchase price paid to the CDE. The credit percentages are zero percent for the first two years, seven percent for the third year and eight percent for the next four years. The CDE will invest the contributions into qualified active low-income community businesses. Effective August 28, 2008, a legislative change allows DED to issue letter rulings regarding the program.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Awarded on a first come, first serve basis. This is a fiscal year credit.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $25 million None _____

Explanation of cap:
DED shall limit the monetary amount of qualified equity investments to a level necessary to limit tax credit utilization to no more than $15M of tax credits in any fiscal year. Effective 6/4/2009 the cap increased to $25M.

Explanation of Expiration of Authority: Following FY2010, no equity investments shall be made unless program shall be reauthorized. This program automatically sunsets 6 years after the effective date of 9/4/2007 unless reauthorized.

Program Name: Distressed Areas Land Assemblage

Department: Economic Development | **Contact Name & No.:** Mark Pauley (573) 522-8006 | **Date:** January 2021

Program Category: Redevelopment | **Type: Tax Credit** X **Other (specify)**____

Statutory Authority: Section 99.1205, RSMo | **Applicable Taxes:** Income Tax; Bank Tax; Insurance Premium Tax; Other financial institutions tax

Date of Origin: 2007

Program Description and Eligibility Requirements:
Applicant that has incurred, within an eligible project area, acquisition costs for the acquisition of fifty acres of at least seventy-five acres and whom has been appointed by the local municipality as the redeveloper of the redevelopment area is entitled to a tax credit of fifty percent of the acquisition costs and one hundred percent of the interest costs incurred for a period of five years after the acquisition of an eligible parcel.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Tax credit amount equal to fifty percent of the acquisition costs which includes environmental assessments, closing costs, real estate brokerage fees, reasonable demolition costs of vacant structures, and reasonable maintenance costs. The tax credit amount is equal to one hundred percent for interest costs for a period of five years which include interest, loan fees, and closing costs. This is a calendar year credit.

Program Cap: Cumulative $95 million (remainder of cumulative cap) $_____ Annual $20 million None _____

Explanation of cap:
Tax credits that will exceed the $20M in any year shall either be issued to one applicant, if there is only one applicant, or issued on a pro rata basis to all applicants entitled to receive tax credits in that year. Any amount of tax credits of which an applicant is entitled but does not receive shall be carried forward for the benefit of the applicant to subsequent years.

Explanation of Expiration of Authority: No tax credits shall be authorized after 8/28/2013.

Specific Provisions: (if applicable)
Carry forward: 6 years | Carry Back: n/a | Refundable: No | Sellable/Assignable: Yes | Additional Federal Deductions Available: No

TAX CREDIT ANALYSIS

Program Name: Disabled Access Tax Credit for Small Business		
Department: Revenue	**Contact Name & No.: Josh Shewmaker (526-2723)**	**Date: January, 2020**
Program Category: Redevelopment	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: Section 135.490, RSMo	**Applicable Taxes: Chapter 143, excluding 143.191 to 143.265, RSMo**	
Date of Origin: January 1, 2000		

Program Description and Eligibility Requirements:
An eligible small business, defined in Section 44 of the Internal Revenue Code (IRC), shall be allowed a credit not to exceed $5,000 against the tax otherwise due pursuant to Chapter 143, RSMo, excluding Sections 143.191 to 143.265, RSMo, in an amount equal to 50 percent of all eligible access expenditures exceeding the monetary cap provided by Section 44 of the IRC. The term "eligible access expenditures" mean amounts paid or incurred by the taxpayer in order to comply with the applicable access requirement as provided by the American with Disabilities Act of 1990 and as further defined in Section 44 of the IRC and federal rulings interpreting Section 44 of the IRC.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

The taxpayer shall claim the tax credit allowed by this section at the time such taxpayer files a return. Any amount of tax credit that exceeds the tax due shall be carried over to any subsequent years but shall not be refunded and shall not be transferable.

Program Cap: Cumulative $5,000 per taxpayer_ (remainder of cumulative cap) $_____ Annual $_____ None ___X____

Explanation of cap:

Explanation of Expiration of Authority: Section 135.490, RSMo, does not enact provisions of the Missouri Sunset Act. The provisions of this section became effective January 1, 2000 and shall apply to all taxable years beginning after December 31, 1999.

Specific Provisions: (if applicable)

Program Name: Advanced Industrial Manufacturing Zones Act (AIM Zone)

Department: Economic Development	**Contact Name & No.:** Mark Pauley (573) 522-8006	**Date:** January 2021
Program Category: Redevelopment	**Type: Tax Credit____ Other (specify)__X__** (Retention of withholding tax of new jobs)	
Statutory Authority: Section 68.075 RSMo	**Applicable Taxes:** State tax withholdings	
Date of Origin: 2016		

Program Description and Eligibility Requirements:
Establishes the Port Authority AIM Zone Fund consisting of 50% of the state withholding tax from new jobs within the zone after development or redevelopment has begun. The money in the fund must be used for expenses to continue expanding, developing, and redeveloping zones identified by the port authority board of commissioners.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

To be eligible for the retention of tax withholdings there must be an increase in the number of full-time employees located at the project facility that exceeds the project facility base employment less any decrease in the number of full-time employees at related facilities below the related facility base employment.

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $_____ None __X__

Explanation of cap:
N/A

Explanation of Expiration of Authority: No AIM Zone may be established after August 28, 2023. Any AIM zone created prior to that date shall continue to exist and be coterminous with the retirement of all debts incurred under subsection 4 of this section. No debts may be incurred or reauthorized using AIM zone revenue after August 28, 2023.

Department: Economic Development	**Contact Name & No.:** Ryan Vermette (573) 526-0772	**Date:** January 2021
Program Category: Redevelopment	**Type: Tax Credit** X **Other (specify)**____	
Statutory Authority: Sections 100.297, RSMo	**Applicable Taxes:** Income Tax, excluding Withholding Tax; Corporate Franchise Tax; Bank Tax; Insurance Premium Tax; Other Financial Institution Tax	

Date of Origin: 1989

Program Description and Eligibility Requirements:
The Tax Credit Bond Enhancement Program provides a tax credit enhancement on behalf of Public Entities for certain bonds. This program uses the Board's bond tax credits as collateral. Credits are **only redeemed** in the event of a default. Currently $13,572,000 of the total is collateral for MDFB garage debt.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

They are provided as additional security for the bonds. Tax credits are computed based on inability to meet debt service on bonds after all other resources are utilized and all compliance requirements are met on an annual basis. The credit is issued for the shortfall in an annual debt service payment.

Program Cap: Cumulative $50 million (remainder of cumulative cap) $48,812,870 Annual $_____ None

Explanation of cap:

Comments on Performance Measure:

TAX CREDIT ANALYSIS

Program Name: Missouri One Start Community College Job Retention Training Program

Department: Economic Development | **Contact Name & No.:** Kristie Davis (573) 522-4019 | **Date:** January 2021

Program Category: Training & Educational | **Type: Tax Credit ___ Other (specify) X** (Appropriation based on employer withholding)

Statutory Authority: Sections 620.800-620.809, RSMo | **Applicable Taxes:** N/A; This is an appropriation of funds, not a credit.

Date of Origin: 2004

Program Description and Eligibility Requirements:

Provides training assistance for job retention efforts. Eligible companies making a large capital investment and/or at risk of leaving the state may be eligible. This program is suited for large retention and training projects. The company must also be making substantial capital investment, located in a border county, or be determined to r epresent a substantial risk of relocation. This program is administered locally through the community colleges.

Explanation of How Award is Computed: **Entitlement** No **Discretionary** Yes

A formula using the number of jobs to be retained and the average annual salary of workers in retained jobs calculates the amount that can be generated by diverting a portion of the employer withholding tax (approximately 2%). Discretionary measures such as review of types of industry, occupations, and wage rates are considered before approving a project.

Program Cap: Cumulative $45 million (remainder of cumulative cap) $23,482,631 Annual $2,192,165 None _____

Explanation of cap:

There is a statewide cap of $45 million on the amount of outstanding debt there can be at any given time. There is a statewide annual cap of $11 million on the amount of outstanding debt there can be at any given time in the fiscal year. These figures change monthly as debt is retired on existing projects and new projects are issued.

Explanation of Expiration of Authority: Program sunsets July 1, 2030.

TAX CREDIT ANALYSIS

Program Name: Rolling Stock Tax Credit

Department: State Tax Commission	**Contact Name & No.: Stacey Jacobs 573-751-1716**	**Date: October 2020**
Program Category: N/A	**Type: Tax Credit__X__ Other (specify)____**	
Statutory Authority: Section 137.018.4	**Applicable Taxes:** May be used to offset the current year's advalorem tax liability on rolling stock of centrally assessed private car company.	

Date of Origin: 2008/Beginning January 1, 2009

Program Description and Eligibility Requirements:

For tax year beginning January 1, 2009, a freight line company shall, subject to appropriation, be allowed a credit against the tax levied for the applicable year. The tax credit amount shall be equal to the amount of eligible expenses incurred during the calendar year immediately preceding the tax year for which the credit under this section is claimed. The amount of the tax credit issued shall not exceed the freight line company's liability for the tax levied under this section for the tax year for which the credit is claimed.

Explanation of How Award is Computed: **Entitlement** Yes **Discretionary** No

Private car ad valorem tax is assessed to the freight line companies by the following formula:
The State Tax Commission determines the assessed value for freight line companies. The Tax Commission determines an average tax rate based on the actual taxes collected from the previous tax year paid by the operating railroads in Missouri. The tax rate is applied by the Tax Commission's calculated assessed value. This produces the "tax levied." This is returned to the Department of Revenue for central collection by October 1st and is due and payable by December 31st. For all taxable years beginning on or after January 1, 2009, a freight line company shall, subject to appropriation, be allowed a credit against the tax levied. The tax credit amount is equal to the amount of eligible expenses (eligible expenses are those incurred in this state to manufacture, maintain, or improve a freight line company's rolling stock) and are incurred during the calendar year immediately preceding the tax year for which the credit is claimed. The amount of the tax credit issued shall not exceed the freight line company's liability for the tax levied for which the credit is claimed. If the appropriation is not totally funded, each company would receive a pro-rata share (based on their claim to total claims).

Program Cap: Cumulative $_____ (remainder of cumulative cap) $_____ Annual $____X_____ None _____

Explanation of cap:
The amount of the tax credit issued shall not exceed the freight line company's liability for the tax levied under Section 137.018 for the tax year for which the credit is claimed. This tax credit is subject to appropriations. The tax credit was not appropriated in FY-18 and FY-19. The appropriation for FY-20 was $194,000.

Explanation of Expiration of Authority:
The provisions of the program expired on August 28, 2020 and the section shall terminate on September 1, 2021.

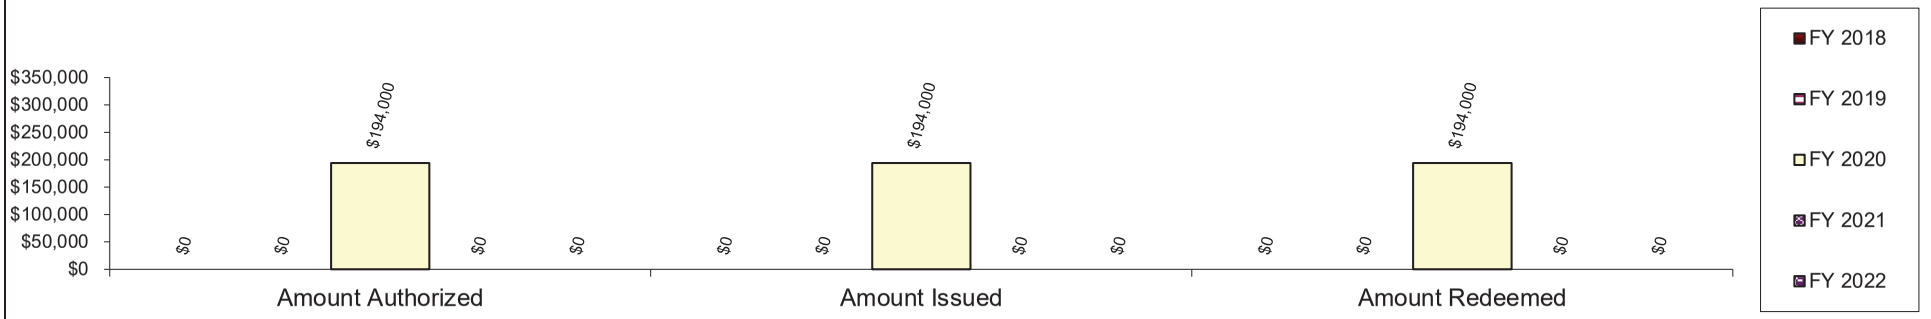
HISTORICAL AND PROJECTED INFORMATION



Comments on Historical and Projected Information:
The Private Car Ad Valorem tax credit was appropriated by the General Assembly through the budget process for FY-2010 in the amount of $4,000,000 and again in FY-2015 in the amount of 2,000,000; however, the Governor line item vetoed the appropriation both times. In FY-2016, the General Assembly appropriated $300,000 and in FY-2017, the General Assembly appropriated $600,000 and the Governor restricted $300,000 leaving $300,000. In FY-2018 and FY-2019 the General Assembly and Governor did not appropriate the tax credit. In FY-2020 the General Assembly and Governor appropriated $194,000. Total taxes due for calendar year 2020 are $4,398,020.
Historical data reflects the following for private car taxes due:
